PART I

ITEM 1. BUSINESS

Overview

Arbor Realty Trust, Inc. is a specialized real estate finance company that invests in a diversified portfolio of structured finance assets in the multi-family and commercial real estate markets. We invest primarily in real estate-related bridge and mezzanine loans, including junior participating interests in first mortgages, preferred and direct equity, and in limited cases, discounted mortgage notes and other real estate-related assets, which we refer to collectively as structured finance investments. We also invest in mortgage-related securities and real estate property. Our principal business objective is to maximize the difference between the yield on our investments and the cost of financing these investments to generate cash available for distribution, facilitate capital appreciation and maximize total return to our stockholders.

We are organized to qualify as a real estate investment trust ("REIT") for federal income tax purposes. A REIT is generally not subject to federal income tax on that portion of its REIT taxable income ("Taxable Income") that is distributed to its stockholders, provided that at least 90% of Taxable Income is distributed and provided that certain other requirements are met. Certain of our assets that produce non-qualifying income are held in taxable REIT subsidiaries. Unlike other subsidiaries of a REIT, the income of a taxable REIT subsidiary is subject to federal and state income taxes.

We commenced operations in July 2003 and conduct substantially all of our operations and investing activities through our operating partnership, Arbor Realty Limited Partnership, and its wholly-owned subsidiaries. We serve as the general partner of our operating partnership, and own a 100% partnership interest in our operating partnership as of December 31, 2009.

We are externally managed and advised by Arbor Commercial Mortgage, LLC ("ACM"), a national commercial real estate finance company that specializes in debt and equity financing for multi-family and commercial real estate, pursuant to the terms of a management agreement described below. ACM provides us with all of the services vital to our operations other than asset management and securitization, and our executive officers and other staff are all employed by our manager, ACM, pursuant to the management agreement. The management agreement requires ACM to manage our business affairs in conformity with the policies and investment guidelines that are approved and monitored by our board of directors.

We believe ACM's experience and reputation positions it to originate attractive investment opportunities for us. Our management agreement with ACM was developed to capitalize on synergies with ACM's origination infrastructure, existing business relationships and management expertise. ACM has granted us a right of first refusal to pursue all structured finance investment opportunities in the multi-family or commercial real estate markets that are identified by ACM or its affiliates. ACM continues to originate and service multi-family and commercial mortgage loans under Fannie Mae, Federal Housing Administration and conduit commercial lending programs. We believe that the customer relationships established from these lines of business may generate additional real estate investment opportunities for our business.

Current Market Conditions

In 2009, the global economic and financial deterioration that began in 2007 continued, resulting in ongoing disruptions in the credit and capital markets, significant devaluations of assets, lack of liquidity throughout the worldwide financial system and a global economic recession. Global deleveraging by most financial institutions has severely limited the availability of capital for most businesses, including those involved in the commercial real estate sector. As a result, we, and most institutions in our industry, have significantly reduced new investment activity until the capital markets become more stable and market liquidity increases. Under normal market conditions, we rely on these credit and equity markets to generate capital for financing the growth of our business. However, in this current environment, we are focused on managing our portfolio to preserve capital, generate and recycle liquidity from existing assets and actively manage our financing facilities.

Global stock and credit markets have experienced prolonged price volatility, dislocations and liquidity disruptions, which have caused market prices of many stocks to fluctuate substantially and the spreads on prospective debt financings to widen considerably. Commercial real estate classes in general have been adversely affected by this prolonged economic downturn and liquidity crisis. If this continues, the commercial real estate sector will likely experience additional losses, challenges in complying with the terms of financing agreements, decreased net interest spreads, and additional difficulties in raising capital and obtaining investment financing on attractive terms.

These market conditions have also resulted in the unavailability of certain types of financing, and, in certain cases, making terms for certain financings less attractive. If these conditions persist, lending institutions may be forced to exit markets such as repurchase lending, become insolvent, further tighten their lending standards or increase the amount of equity capital required to obtain financing. In addition, these factors may make it more difficult for borrowers to repay our loans as they may experience difficulties in selling assets, increased costs of financing or obtaining financing at all. It may also make it more difficult for companies like us to raise capital through the issuance of common or preferred stock.

This environment has had a significant impact on our business, our borrowers and real estate values throughout all asset classes and geographic locations. Declining real estate values will likely continue to minimize our level of new mortgage loan originations, since borrowers often use increases in the value of their existing properties to support the purchase or investment in additional properties. Borrowers may also be less able to pay principal and interest on our loans if the real estate economy weakens. Declining real estate values also significantly increase the likelihood that we will continue to incur losses on our loans in the event of default because the value of our collateral may be insufficient to cover our investment in the loan. Any sustained period of increased payment delinquencies, foreclosures or losses could adversely affect both our net interest income from loans in our portfolio as well as our ability to originate, sell and securitize loans, which would significantly harm our revenues, results of operations, financial condition, business prospects and our ability to make distributions to the stockholders. We have made, and continue to make modifications and extensions to loans when it is economically feasible to do so. In some cases, modification is a more viable alternative to foreclosure proceedings when a borrower can not comply with loan terms. In doing so, lower borrower interest rates, combined with non-performing loans will result in reduced net interest margins.

In summary, commercial real estate financing companies have been severely impacted by the current economic environment and have had very little access to the capital markets or the debt markets in order to meet their existing obligations or to refinance maturing debt, and it is difficult to predict when conditions will improve. We have responded to these troubled times by decreasing investment activity for capital preservation, aggressively managing our assets through restructuring and extending our debt facilities and repurchasing and retiring our previously issued debt at discounts when economically feasible. In order to accomplish these goals, we have worked closely with our borrowers in restructuring our loans, receiving payoffs and paydowns and monetizing our investments as appropriate. We will continue to remain focused on executing these strategies when appropriate and where available as this significant economic downturn persists.

Our Corporate History

On July 1, 2003, ACM contributed a portfolio of structured finance investments to our operating partnership. Concurrently with this contribution, we and our operating partnership entered into a management agreement with ACM pursuant to which ACM manages our investments for a base management fee and incentive compensation, and the nine person asset management group of ACM became our employees.

In exchange for ACM's contribution of structured finance investments, our operating partnership issued approximately 3.1 million units of limited partnership interest, or operating partnership units, and approximately 0.6 million warrants to purchase additional operating partnership units at an initial exercise price of \$15.00 per operating partnership unit to ACM. Concurrently, we, our operating partnership and ACM entered into a pairing agreement. Pursuant to the pairing agreement, each operating partnership unit issued to ACM and issuable to ACM upon exercise of its warrants for additional operating partnership units in connection with the contribution of initial assets was paired with one share of the Company's special voting preferred stock. In October 2004, ACM exercised

[Table of Contents](#)

these warrants and held approximately 3.8 million operating partnership units, constituting an approximately 16% limited partnership interest in our operating partnership. ACM had the ability to redeem each of these operating partnership units for cash or, at our election, one share of our common stock. We granted ACM certain demand and other registration rights with respect to the shares of common stock that may be issued upon redemption of these operating partnership units. Each of these operating partnership units were also paired with one share of our special voting preferred stock entitling ACM to one vote on all matters submitted to a vote of our stockholders. Upon redemption of these operating partnership units, an equivalent number of shares of our special voting preferred stock would be redeemed and cancelled.

Concurrently with ACM's contribution of investments to our operating partnership, we sold approximately 1.6 million of our units, each consisting of five shares of our common stock and one warrant to purchase an additional share of common stock at an initial exercise price of \$15.00 per share, for \$75.00 per unit in a private placement and agreed to register the shares of common stock underlying these units and warrants for resale under the Securities Act of 1933, as amended (the "1933 Act"). In July 2004, we registered approximately 9.6 million shares of common stock underlying these units and warrants. At December 31, 2005, approximately 1.6 million warrants were exercised, of which 0.5 million were exercised "cashless", for a total of 1.3 million common shares issued pursuant to their exercise.

In April 2004, we closed our initial public offering in which we issued and sold 6.3 million shares of common stock and a selling stockholder sold 22,500 shares of common stock, each at \$20.00 per share. Concurrently with the initial public offering, we sold 0.5 million shares of common stock at the initial public offering price directly to an entity wholly-owned by one of our directors. The underwriters of our initial public offering exercised their overallotment option and, in May 2004, we issued and sold an additional 0.5 million shares of our common stock pursuant to such exercise.

In March 2007, we filed a shelf registration statement on Form S-3 with the Securities and Exchange Commission ("SEC") under the 1933 Act with respect to an aggregate of \$500.0 million of debt securities, common stock, preferred stock, depositary shares and warrants, that may be sold by us from time to time pursuant to Rule 415 of the 1933 Act. On April 19, 2007, the SEC declared this shelf registration statement effective.

In June 2007, we sold 2,700,000 shares of our common stock registered on the shelf registration statement in a public offering at a price of \$27.65 per share, for net proceeds of approximately \$73.6 million after deducting the underwriting discount and the other estimated offering expenses. We used the proceeds to pay down debt and finance our loan and investment portfolio. The underwriters did not exercise their over allotment option for additional shares.

Since January 2005, we completed three non-recourse collateralized debt obligation ("CDO") transactions, whereby \$1.44 billion of real estate-related and other assets were contributed to three newly-formed consolidated subsidiaries, which issued \$1.21 billion of investment grade-rated floating-rate notes in three separate private placements. These proceeds were used to repay outstanding debt and resulted in a decreased cost of funds relating to the CDO assets.

Since March 2005, we issued a total of \$290.0 million of junior subordinated notes in private placements. The junior subordinated notes are unsecured, have a maturity of 24 to 27 years, pay interest quarterly at a fixed rate or floating rate of interest based on three-month LIBOR and, absent the occurrence of special events, are not redeemable during the first five years. In February 2010, we retired \$114.1 million of our junior subordinated notes in exchange for the re-issuance of certain of our own CDO bonds, as well as other assets.

In June 2008, our external manager exercised its right to redeem its approximate 3.8 million operating partnership units in our operating partnership for shares of our common stock on a one-for-one basis. In addition, the special voting preferred shares paired with each operating partnership unit, pursuant to the pairing agreement, were redeemed simultaneously and cancelled. ACM currently holds approximately 21.2% of the voting power of our outstanding common stock.

Our Investment Strategy

Our principal business objectives are to invest in bridge and mezzanine loans, including junior participating interests in first mortgages, preferred and direct equity and other real estate-related assets in the multifamily and commercial real estate markets and actively manage our investment portfolio in order to generate cash available for distribution, facilitate capital appreciation and maximize total return to our stockholders. We believe the financing of multi-family and commercial real estate offers opportunities that demand customized financing solutions. We believe we can achieve these objectives through the following business and growth strategies:

Provide Customized Financing. We provide financing customized to the needs of our borrowers. We target borrowers who have demonstrated a history of enhancing the value of the properties they operate, but whose options may be limited by conventional bank financing and who may benefit from the sophisticated structured finance products we offer.

Execute Transactions Rapidly. We act quickly and decisively on proposals, provide commitments and close transactions within a few weeks and sometimes days, if required. We believe that rapid execution attracts opportunities from both borrowers and other lenders that would not otherwise be available. We believe our ability to structure flexible terms and close loans in a timely manner gives us a competitive advantage over our competition.

Manage Credit Quality. A critical component of our strategy in the real estate finance sector is our ability to manage the real estate risk that is underwritten by our manager and us. We actively manage the credit quality of our portfolio by using the expertise of our asset management group, which has a proven track record of structuring and repositioning structured finance investments to improve credit quality and yield.

Use Arbor Commercial Mortgage's Relationships with Existing Borrowers. We capitalize on ACM's reputation in the commercial real estate finance industry. ACM has relationships with a large borrower base nationwide. Since ACM's originators offer senior mortgage loans as well as our structured finance products, we are able to benefit from its existing customer base and use its senior lending business as a potential refinance vehicle for our structured finance assets.

Offer Broader Products and Expand Customer Base. We have the ability to offer a larger number of financing alternatives than ACM has been able to offer to its customers in the past. Our potential borrowers are able to choose from products offering longer maturities and larger principal amounts than ACM could previously offer.

Leverage the Experience of Executive Officers, Arbor Commercial Mortgage and Our Employees. Our executive officers and employees, and those of ACM, have extensive experience originating and managing structured commercial real estate investments. Our senior management team has on average over 20 years of experience in the financial services industry.

Our Targeted Investments

We pursue lending and investment opportunities with property owners and developers who need interim financing until permanent financing can be obtained. We primarily target transactions where we believe we have competitive advantages, particularly our lower cost structure and in-house underwriting capabilities. Our structured finance investments generally have maturities of two to five years, depending on type, have extension options when appropriate, and generally require a balloon payment of principal at maturity. Borrowers in the market for these types of loans include, but are not limited to, owners or developers seeking either to acquire or refurbish real estate or to pay down debt and reposition a property for permanent financing.

Our investment program emphasizes the following general categories of real estate-related activities:

Bridge Financing. We offer bridge financing products to borrowers who are typically seeking short-term capital to be used in an acquisition of property. The borrower has usually identified an undervalued asset that has been under managed and/or is located in a recovering market. From the borrower's perspective, shorter term bridge financing is advantageous because it allows for time to improve the property value through repositioning the property without encumbering it with restrictive long term debt.

The bridge loans we make typically range in size from \$1 million to \$75 million and are predominantly secured by first mortgage liens on the property. The term of these loans typically is up to five years. Historically, interest rates have typically ranged from 1.10% to 9.00% over 30-day LIBOR, with fixed rates ranging from 1.70% to 13.00%. At December 31, 2009, interest rates typically ranged from 1.70% to 8.00% over 30-day LIBOR, with fixed rates ranging from 1.70% to 12.20%. Additional yield enhancements may include origination fees, deferred interest, yield look-backs, and participating interests, which are equity interests in the borrower that share in a percentage of the underlying cash flows of the property. Borrowers generally use the proceeds of a conventional mortgage to repay a bridge loan.

Junior Participation Financing. We offer junior participation financing in the form of junior participating interest in the senior debt. Junior participation financings have the same obligations, collateral and borrower as the senior debt. The junior participation interest is subordinated to the senior debt by virtue of a contractual agreement between the senior debt lender and the junior participating interest lender.

Our junior participation loans typically range in size from \$1 million to \$60 million and have terms of up to ten years. Historically, interest rates have typically ranged from 2.30% to 9.75% over 30-day LIBOR, with fixed rates ranging from 4.70% to 12.80%. At December 31, 2009, interest rates typically ranged from 2.30% to 7.20% over 30-day LIBOR, with fixed rates ranging from 4.70% to 12.80%. As in the case with our bridge loans, the yield on these investments may be enhanced by prepaid and deferred interest payments, yield look-backs and participating interests.

Mezzanine Financing. We offer mezzanine financing in the form of loans that are subordinate to a conventional first mortgage loan and senior to the borrower's equity in a transaction. Mezzanine financing may take the form of loans secured by pledges of ownership interests in entities that directly or indirectly control the real property or subordinated loans secured by second mortgage liens on the property. We may also require additional security such as personal guarantees, letters of credit and/or additional collateral unrelated to the property.

Our mezzanine loans typically range in size from \$1 million to \$50 million and have terms of up to ten years. Historically, interest rates have typically ranged from 2.00% to 12.00% over 30-day LIBOR, with fixed rates ranging from 5.00% to 16.00%. At December 31, 2009, interest rates typically ranged from 2.00% to 10.00% over 30-day LIBOR, with fixed rates ranging from 6.00% to 16.00%. As in the case with our bridge loans, the yield on these investments may be enhanced by prepaid and deferred interest payments, yield look-backs and participating interests.

We hold a majority of our mezzanine loans through subsidiaries of our operating partnership that are pass-through entities for tax purposes or taxable subsidiary corporations.

Preferred Equity Investments. We provide financing by making preferred equity investments in entities that directly or indirectly own real property. In cases where the terms of a first mortgage prohibit additional liens on the ownership entity, investments structured as preferred equity in the entity owning the property serve as viable financing substitutes. With preferred equity investments, we typically become a special limited partner or member in the ownership entity.

Our preferred equity investments typically range in size from \$0.3 million to \$100.0 million, have terms up to ten years and interest rates that have typically ranged from 3.75% to 6.00% over 30-day LIBOR, with fixed rates ranging from 5.00% to 15.00%. At December 31, 2009, our preferred equity investments ranged in size from \$0.3 million to \$96.0 million and interest rates typically ranged from 4.50% to 6.00% over 30-day LIBOR, with fixed rates ranging from 6.22% to 11.40%.

Real Property Acquisitions. We have, and may in the future, acquire real estate by foreclosure or deed in lieu of foreclosure related to our loans. Our management team may identify such assets and initiate an asset-specific plan to maximize the value of the collateral, which can include appointing a third party property manager, completing the construction or renovation of the property, continuing the sale of condominium units, leasing or increasing the occupancy of the property, or selling the entire asset or a partial interest to a third party. Additionally, we may identify real estate investment opportunities such as domestic real estate for repositioning and/or renovation and then disposition at an anticipated significant return. In these situations, we

may act solely on our own behalf or in partnership with other investors. Typically, these transactions are analyzed with the expectation that we will have the ability to sell the property within a one to three year time period, achieving a significant return on invested capital. In connection with these transactions, speed of execution is often the most critical component to success. We may seek to finance a portion of the acquisition price through short-term financing. Repayment of the short-term financing will either come from the sale of the property or conventional permanent debt.

Note Acquisitions. We may acquire real estate notes from lenders in situations where the borrower wishes to restructure and reposition its short-term debt and the lender wishes, for a variety of reasons (such as risk mitigation, portfolio diversification or other strategic reasons), to divest certain assets from its portfolio. These notes may be acquired at a discount. In such cases, we intend to use our management resources to resolve any disputes concerning the note or the property securing it and to identify and resolve any existing operational or any other problems at the property. We will then either restructure the debt obligation for immediate resale or sale at a later date, or reposition it for permanent financing. In some instances, we may take title to the property underlying the real estate note.

Equity Securities. We have and may, in the future, invest in equity securities such as the common stock of a commercial real estate specialty finance company. Investments in these securities have the risk of stock market fluctuations which may result in the loss of our principal investment.

Commercial Real Estate Collateralized Debt Obligation Bonds. We have and may, in the future, invest in securities such as investment grade commercial real estate collateralized debt obligation bonds. These certificates are purchased at a discount to their face value which is accreted into interest income on an effective yield adjusted for actual prepayment activity over the average life of the related security as a yield adjustment. These securities have underlying credit ratings assigned by the three leading nationally recognized rating agencies (Moody's Investor Service, Standard & Poor's and Fitch Ratings) and are generally not insured or otherwise guaranteed.

Commercial Mortgage-Backed Securities. We have and may, in the future, invest in investment grade commercial mortgage-backed securities. These securities are purchased at a discount to their face value which is accreted into interest income on an effective yield adjusted for actual prepayment activity over the average life of the related security as a yield adjustment. These securities have underlying credit ratings assigned by the three leading nationally recognized rating agencies (Moody's Investor Service, Standard & Poor's and Fitch Ratings) and are generally not insured or otherwise guaranteed.

Our Structured Finance Investments

We own a diversified portfolio of structured finance investments consisting primarily of real estate-related bridge, junior participation interests in first mortgages, and mezzanine loans as well as preferred equity investments and mortgage-related debt securities.

At December 31, 2009, we had 126 loans and investments in our portfolio, totaling \$2.0 billion. These loans and investments were for 69 multi-family properties, 27 office properties, 11 hotel properties, 11 land properties, six commercial properties, one condominium property, and two retail properties. We have an allowance for loan losses of \$326.3 million at December 31, 2009 related to 31 loans in our portfolio with an aggregate carrying value, before reserves, of \$693.7 million. The loan loss reserves were the result of our regular quarterly risk rating review process which is based on several factors including current market conditions, values and the operating status of these properties. We continue to actively manage all loans and investments in the portfolio through our strict underwriting and active asset management with the goal of maintaining the credit quality of our portfolio and limiting potential losses. We also have at December 31, 2009, seven commercial real estate collateralized debt obligation bond investments and three commercial mortgage-backed security investments with carrying values of \$48.2 million and \$12.7 million, respectively.

The overall yield on our loan and investments portfolio in 2009 was 5.08% on average assets of \$2.3 billion. This yield was computed by dividing the interest income earned during the year by the average assets during the

[Table of Contents](#)

year. Our cost of funds in 2009 was 4.27% on average borrowings of \$1.9 billion. This cost of funds was computed by dividing the interest expense incurred during the year by the average borrowings during the year.

Our average net investment (average assets less average borrowings) in 2009 was \$418.6 million, resulting in average leverage (average borrowings divided by average assets) of 81.8%. Including average junior subordinated notes of \$283.8 million as equity, our average leverage was 69.4%. The net interest income earned in 2009 yielded an 8.7% return on our average net investment during the year. This yield was computed by dividing net interest (interest income less interest expense) earned in 2009 by average equity (computed as average assets minus average borrowings) invested during the year.

Our business plan contemplates that our leverage ratio, including our junior subordinated notes as equity, will be around 70% to 80% of our assets in the aggregate. However, including our junior subordinated notes as equity, our leverage is generally not to exceed 80% of the value of our assets in the aggregate when considering additional financing sources unless approval to exceed the 80% limit is obtained from our board of directors. See “Operating Policies and Strategies” below for further details. At December 31, 2009, our overall leverage ratio including the junior subordinated notes as equity was 83%, which was the result of a decrease in the carrying value of our assets due to loan loss reserves.

(1) “Weighted Average Pay Rate” is a weighted average, based on the unpaid principal balances of each loan in the Company’s portfolio, of the interest rate that is required to be paid monthly as stated in the individual loan agreements. Certain loans and investments that require an additional rate of interest “Accrual Rate” to be paid at the maturity are not included in the weighted average pay rate as shown in the table.

Our Investments in Available-for-Sale Securities

Equity Securities. During 2007, we purchased 2,939,465 shares of common stock of Realty Finance Corporation, formerly CBRE Realty Finance, Inc., a commercial real estate specialty finance company, for \$16.7 million which had a fair value of \$0.1 million, at December 31, 2009. We also had a margin loan agreement with a financial institution related to the purchases of this security which was not to exceed \$7.0 million, bore interest at pricing over LIBOR, and was due upon demand from the lender. In July 2008, the margin loan was repaid in full.

Commercial Real Estate Collateralized Debt Obligation Bonds. At December 31, 2009, two investment grade commercial real estate (“CRE”) collateralized debt obligation bonds, with a combined fair value of \$0.4 million, were reclassified from held-to-maturity to available-for-sale as we intend to sell these bonds within one year as part of a debt restructuring. See “Our Investments in Held-to-Maturity Securities” below.

Our Investments in Held-to-Maturity Securities

Commercial Real Estate Collateralized Debt Obligation Bonds. In 2008, we purchased \$82.7 million of investment grade CRE collateralized debt obligation bonds for \$58.1 million, representing a \$24.6 million discount to their face value. To the extent that we believe the discount is collectable, it is accreted into interest income on an effective yield adjusted for actual prepayment activity over the average life of the related security as a yield adjustment. These securities bear interest at a weighted average spread of 34 basis points over LIBOR, have a weighted average stated maturity of 34.2 years but have an estimated average remaining life of 3.7 years due to the maturities of the underlying assets. At December 31, 2009, two investment grade CRE collateralized debt obligation bonds with a combined fair value of \$0.4 million were reclassified from held-to-maturity to available-for-sale, as they were exchanged in the retirement of a portion of our own junior subordinated notes in February 2010.

Commercial Mortgage-Backed Securities. In 2009, we purchased \$17.0 million of investment grade commercial mortgage-backed securities (“CMBS”) for \$12.4 million, representing a \$4.6 million discount to their face value. To the extent that we believe the discount is collectable, it is accreted into interest income on an effective yield adjusted for actual prepayment activity over the average life of the related security as a yield adjustment. These securities bear interest at a weighted average coupon rate of 5.80%, have a weighted average stated maturity of 29.6 years but have an estimated average remaining life of 6.0 years due to the maturities of the underlying assets. We did not have any CMBS investments at December 31, 2008.

We intend to hold these remaining bonds to maturity. For the year ended December 31, 2009, the total average yield on the above securities based on their face values was 4.62%, including the accretion of discount.

Regulatory Aspects of Our Investment Strategy

Real Estate Exemption from Investment Company Act. We believe that we conduct, and we intend to conduct, our business at all times in a manner that avoids registration as an investment company under the Investment Company Act of 1940, as amended, or the Investment Company Act. Entities that are primarily engaged in the business of purchasing or otherwise acquiring “mortgages and other liens on and interests in real estate,” are exempt from registration under the Investment Company Act if they maintain at least 55% of their assets directly in qualifying real estate assets and meet certain other requirements. Assets that qualify for purposes of this 55% test include, among other things, direct investments in real estate and mortgage loans. Our bridge loans, which are secured by first mortgage liens on the underlying properties, and our loans that are secured by second mortgage liens on the underlying properties generally qualify for purposes of this 55% test. These two types of loans constituted more than 55% of our assets as of December 31, 2009.

Our investment guidelines provide that no more than 15% of our assets may consist of any type of mortgage-related securities and that the percentage of our investments in mortgage-related securities as compared to our structured finance investments be monitored on a regular basis.

Management Agreement

On July 1, 2003, we and our operating partnership entered into a management agreement with ACM. On January 19, 2005, we, our operating partnership, Arbor Realty SR, Inc., one of our subsidiaries and ACM entered into an amended and restated management agreement with substantially the same terms as the original management agreement in order to add Arbor Realty SR, Inc. as a beneficiary of ACM’s services. Pursuant to the terms of the management agreement, our manager has agreed to service and manage our investments and to provide us with multi-family and commercial real estate-related structured finance investment opportunities, finance and other services necessary to operate our business. Our manager is required to provide a dedicated management team to provide these services to us, the members of which will devote such of their time to our management as our independent directors reasonably deem necessary and appropriate, commensurate with our level of activity from time to time. We rely to a significant extent on the facilities and resources of our manager to conduct our operations. For performing services under the management agreement, as amended in August 2009, ACM receives a base management fee, incentive compensation and “success-based” compensation as described in “Management’s Discussion and Analysis of Financial Condition and Results of Operations” under Item 7 of this report.

Operations

Our Manager’s Investment Services. Under the management agreement, ACM is responsible for sourcing originations, providing underwriting services and processing approvals for all loans and other investments in our portfolio. ACM also provides certain administrative loan servicing functions with respect to our loans and investments. We are able to capitalize on ACM’s well established operations and services in each area described below.

Origination. Our manager sources the origination of most of our investments. ACM has a network of over eight sales offices located in Bloomfield Hills, Michigan; Boston, Massachusetts; Plano, Texas; Dallas, Texas; Chicago, Illinois; New York, New York; and Uniondale, New York. These offices are staffed by approximately 20 loan originators who solicit property owners, developers and mortgage loan brokers. In some instances, the originators accept loan applications meeting our underwriting criteria from a select group of mortgage loan brokers. While a large portion of ACM’s marketing effort occurs at the branch level, ACM also markets its products in national industry publications and targeted direct mailings. ACM markets structured finance products and our product offerings using the same methods. Once potential borrowers have been identified, ACM determines which financing products best meet the borrower’s needs. Loan originators in every branch office are able to offer borrowers the full array of ACM’s and our structured finance products. After identifying a suitable product, ACM works with the borrower to prepare a loan application. Upon completion by the borrower, the application is forwarded to ACM’s underwriters for due diligence.

Underwriting. ACM’s loan originators work in conjunction with its underwriters who perform due diligence on all proposed transactions prior to loan approval and commitment. The underwriters analyze each loan

application in accordance with the guidelines set forth below in order to determine the loan's conformity with respect to such guidelines. In general, ACM's underwriting guidelines require it to evaluate the following: the historic and current property revenues and expenses; the potential for near-term revenue growth and opportunity for expense reduction and increased operating efficiencies; the property's location, its attributes and competitive position within its market; the proposed ownership structure, financial strength and real estate experience of the borrower and property management; third party appraisal, environmental and engineering studies; market assessment, including property inspection, review of tenant lease files, surveys of property comparables and an analysis of area economic and demographic trends; review of an acceptable mortgagee's title policy and an "as built" survey; construction quality of the property to determine future maintenance and capital expenditure requirements; and the requirements for any reserves, including those for immediate repairs or rehabilitation, replacement reserves, tenant improvement and leasing commission costs, real estate taxes and property casualty and liability insurance. Key factors considered in credit decisions include, but are not limited to, debt service coverage, loan to value ratios and property, financial and operating performance. Consideration is also given to other factors, such as additional forms of security and identifying likely strategies to affect repayment. ACM continuously refines its underwriting criteria based upon actual loan portfolio experience and as market conditions and investor requirements evolve.

Investment Approval Process. ACM applies its established investment approval process to all loans and other investments proposed for our portfolio before submitting each proposal to us for final approval. A written report is generated for every loan or other investment that is submitted to ACM's credit committee for approval. The report includes a description of the prospective borrower and any guarantors, the collateral and the proposed use of investment proceeds, as well as borrower and property consolidated financial statements and analysis. In addition, the report includes an analysis of borrower liquidity, net worth, cash investment, income, credit history and operating experience. If the transaction is approved by a majority of ACM's credit committee, it is presented for approval to our credit committee, which consists of our chief executive officer, chief credit officer, and executive vice president of structured finance. All transactions require the approval of a majority of the members of our credit committee. Following the approval of any such transaction, ACM's underwriting and servicing departments, together with our asset management group, assure that all loan approval terms have been satisfied and conform with lending requirements established for that particular transaction. If our credit committee rejects the loan and our independent directors allow ACM or one of its affiliates to pursue it, ACM will have the opportunity to execute the transaction.

Servicing. ACM services our loans and investments through its internal servicing operations. Our manager currently services an expanding portfolio, consisting of approximately 1,152 loans with outstanding balances of \$7.3 billion through its loan administration department in Buffalo, New York. ACM's loan servicing operations are designed to provide prompt customer service and accurate and timely information for account follow up, financial reporting and management review. Following the funding of an approved loan, all pertinent loan data is entered into ACM's data processing system, which provides monthly billing statements, tracks payment performance and processes contractual interest rate adjustments on variable rate loans. Our manager utilizes the operations of its loan administration department to service our portfolio with the same efficiency, accuracy and promptness. ACM also works closely with our asset management group to ensure the appropriate level of customer service and monitoring of these loans.

Our Asset Management Operations. Our asset management group is comprised of 23 employees. Prior to our formation, the asset management group successfully managed numerous transactions, including complex restructurings, refinancings and asset dispositions for ACM.

Effective asset and portfolio management is essential to maximize the performance and value of a real estate investment. The asset management group customizes an asset management plan with the loan originators and underwriters to track each investment from origination through disposition. This group monitors each investment's operating history, local economic trends and rental and occupancy rates and evaluates the underlying property's competitiveness within its market. This group assesses ongoing and potential operational and financial performance of each investment in order to evaluate and ultimately improve its operations and financial viability. The asset management group performs frequent onsite inspections, conducts meetings with borrowers and evaluates and participates in the budgeting process, financial and operational review and renovation plans of each of the underlying properties. As an asset and portfolio manager, the asset management group focuses on increasing the

productivity of onsite property managers and leasing brokers. This group communicates the status of each transaction against its established asset management plan to senior management, in order to enhance and preserve capital, as well as to avoid litigation and potential exposure.

Timely and accurate identification of an investment's operational and financial issues and each borrower's objectives is essential to implementing an executable loan workout and restructuring process, if required. Since existing property management may not have the requisite expertise to manage the workout process effectively, the asset management group determines current operating and financial status of an asset or portfolio and performs liquidity analysis of properties and ownership entities and then, if appropriate, identifies and evaluates alternatives in order to maximize the value of an investment.

Our asset management group continues to provide its services to ACM on a limited basis pursuant to an asset management services agreement between ACM and us. The asset management services agreement will be effective throughout the term of our management agreement and during the origination period described in the management agreement. In the event the services provided by our asset management group, pursuant to this agreement, exceed more than 15% per quarter, the level anticipated by our board of directors, we will negotiate in good faith with our manager an adjustment to our manager's base management fee under the management agreement, to reduce the scope of the services, the quantity of serviced assets or the time required to be devoted to the services by our asset management group.

Operating Policies and Strategies

Investment Guidelines. Our board of directors has adopted general guidelines for our investments and borrowings to the effect that: (1) no investment will be made that would cause us to fail to qualify as a REIT; (2) no investment will be made that would cause us to be regulated as an investment company under the Investment Company Act; (3) no more than 25% of our equity (including junior subordinated notes as equity), determined as of the date of such investment, will be invested in any single asset; (4) no single mezzanine loan or preferred equity investment will exceed \$75 million; (5) our leverage (including junior subordinated notes as equity) will generally not exceed 80% of the value of our assets, in the aggregate; (6) we will not co-invest with our manager or any of its affiliates unless such co-investment is otherwise in accordance with these guidelines and its terms are at least as favorable to us as to our manager or the affiliate making such co-investment; (7) no more than 15% of our gross assets may consist of mortgage-related securities. Any exceptions to the above general guidelines require the approval of our board of directors.

Financing Policies. We finance the acquisition of our structured finance investments primarily by borrowing against or "leveraging" our existing portfolio and using the proceeds to acquire additional mortgage assets. We expect to incur debt such that we will maintain an equity to assets ratio no less than 20% (including junior subordinated notes as equity), although the actual ratio may be lower from time to time depending on market conditions and other factors deemed relevant by our manager. Our charter and bylaws do not limit the amount of indebtedness we can incur, and the board of directors has discretion to deviate from or change our indebtedness policy at any time. However, we intend to maintain an adequate capital base to protect against various business environments in which our financing and hedging costs might exceed the interest income from our investments.

Our investments are financed primarily by collateralized debt obligations, our junior subordinate notes, and through our floating rate term and working capital credit agreements, loan repurchase agreements and other financing facilities with institutional lenders. Although we expect that these will be the principal means of leveraging our investments, we may issue preferred stock or secured or unsecured notes of any maturity if it appears advantageous to do so.

Credit Risk Management Policy. We are exposed to various levels of credit and special hazard risk depending on the nature of our underlying assets and the nature and level of credit enhancements supporting our assets. We originate or purchase mortgage loans that meet our minimum debt service coverage standards. ACM, as our manager, our chief credit officer, and our asset management group, reviews and monitors credit risk and other risks of loss associated with each investment. In addition, ACM seeks to diversify our portfolio of assets to avoid undue geographic, issuer, industry and certain other types of concentrations. Our board of directors monitors the overall portfolio risk and reviews levels of provision for loss.

Interest Rate Risk Management Policy. To the extent consistent with our election to qualify as a REIT, we follow an interest rate risk management policy intended to mitigate the negative effects of major interest rate changes. We minimize our interest rate risk from borrowings by attempting to structure the key terms of our borrowings to generally correspond to the interest rate term of our assets.

We may enter into hedging transactions to protect our investment portfolio from interest rate fluctuations and other changes in market conditions. These transactions may include interest rate swaps, the purchase or sale of interest rate collars, caps or floors, options, mortgage derivatives and other hedging instruments. These instruments may be used to hedge as much of the interest rate risk as ACM determines is in the best interest of our stockholders, given the cost of such hedges and the need to maintain our status as a REIT. In general, income from hedging transactions does not constitute qualifying income for purposes of the REIT gross income requirements. To the extent, however, that a hedging contract reduces interest rate risk on indebtedness incurred to acquire or carry real estate assets, any income that is derived from the hedging contract, while comprising non-qualifying income for purposes of the REIT 75% gross income test, would not give rise to non-qualifying income for purposes of the 95% gross income test. ACM may elect to have us bear a level of interest rate risk that could otherwise be hedged when it believes, based on all relevant facts, that bearing such risk is advisable.

To date, we have entered into various interest rate swaps in connection with the issuance of floating rate secured notes, the issuance of variable rate junior subordinate notes, and to hedge the interest risk on forecasted outstanding LIBOR based debt. The notional amount of each interest rate swap agreement and the related terms have been designed to protect our investment portfolio from interest rate risk and to match the payment and receipts of interest on the underlying debt instruments, where applicable.

Disposition Policies. ACM evaluates our asset portfolio on a regular basis to determine if it continues to satisfy our investment criteria. Subject to certain restrictions applicable to REITs, ACM may cause us to sell our investments opportunistically and use the proceeds of any such sale for debt reduction, additional acquisitions, or working capital purposes.

Equity Capital Policies. Subject to applicable law, our board of directors has the authority, without further stockholder approval, to issue additional authorized common stock and preferred stock or otherwise raise capital, including through the issuance of senior securities, in any manner and on the terms and for the consideration it deems appropriate, including in exchange for property. We may in the future issue common stock in connection with acquisitions. We also may issue units of partnership interest in our operating partnership in connection with acquisitions of property. We may, under certain circumstances, repurchase our common stock in private transactions with our stockholders, if those purchases are approved by our board of directors.

Conflicts of Interest Policies. We, our executive officers, and ACM face conflicts of interests because of our relationships with each other. ACM currently has an approximate 21% voting interest in our common stock. Mr. Kaufman, our chairman and chief executive officer, is the chief executive officer of ACM and beneficially owns approximately 92% of the outstanding membership interests of ACM. Mr. Martello, one of our directors, is the chief operating officer of Arbor Management, LLC (the managing member of ACM) and a trustee of two trusts which own minority membership interests in ACM. Mr. Bishar, one of our directors, is general council to ACM. Mr. Elenio, our chief financial officer and treasurer, is the chief financial officer of ACM. Mr. Horn, our secretary and one of our directors, is the secretary of ACM. Each of Messrs. Kaufman, Martello, Elenio and Horn, as well as Mr. Weber, our executive vice president of structured finance and Mr. Kilgore, our executive vice president of structured securitization are members of ACM's executive committee. Each of Messrs. Kaufman, Martello, Bishar, Elenio, Horn, Weber, Kilgore, own minority membership interests in ACM.

We have implemented several policies, through board action and through the terms of our charter and our agreements with ACM, to help address these conflicts of interest, including the following:

- Our charter requires that a majority of our board of directors be independent directors and that only our independent directors make any determination on our behalf with respect to the relationships or transactions that present a conflict of interest for our directors or officers.
- Our board of directors have adopted a policy that decisions concerning our management agreement with ACM, including termination, renewal and enforcement thereof or our participation in any transactions with

ACM or its affiliates outside of the management agreement, including our ability to purchase securities and mortgages or other assets from ACM, or our ability to sell securities and assets to ACM, must be reviewed and approved by a majority of our independent directors.

- Our management agreement provides that our determinations to terminate the management agreement for cause or because the management fees are unfair to us or because of a change in control of our manager, will be made by a majority vote of our independent directors.
- Our independent directors will periodically review the general investment standards established by ACM under the management agreement.
- Our management agreement with ACM provides that ACM may not assign duties under the management agreement, except to certain affiliates of ACM, without the approval of a majority of our independent directors.
- Our management agreement provides that decisions to approve or reject investment opportunities rejected by our credit committee that ACM or Mr. Kaufman wish to pursue will be made by a majority of our independent directors.

Our board of directors has approved the operating policies and the strategies set forth above. Our board of directors has the power to modify or waive these policies and strategies, or amend our agreements with ACM, without the consent of our stockholders to the extent that the board of directors (including a majority of our independent directors) determines that such modification or waiver is in the best interest of our stockholders. Among other factors, developments in the market that either affect the policies and strategies mentioned herein or that change our assessment of the market may cause our board of directors to revise its policies and strategies. However, if such modification or waiver involves the relationship of, or any transaction between, us and our manager or any affiliate of our manager, the approval of a majority of our independent directors is also required. We may not, however, amend our charter to change the requirement that a majority of our board consist of independent directors or the requirement that our independent directors approve related party transactions without the approval of two thirds of the votes entitled to be cast by our stockholders.

Compliance with Federal, State and Local Environmental Laws

Properties that we may acquire directly or indirectly through partnerships, and the properties underlying our structured finance investments and mortgage-related securities, are subject to various federal, state and local environmental laws, ordinances and regulations. Under these laws, ordinances and regulations, a current or previous owner of real estate (including, in certain circumstances, a secured lender that succeeds to ownership or control of a property) may become liable for the costs of removal or remediation of certain hazardous or toxic substances or petroleum product releases at, on, under or in its property. These laws typically impose cleanup responsibility and liability without regard to whether the owner or control party knew of or was responsible for the release or presence of the hazardous or toxic substances. The costs of investigation, remediation or removal of these substances may be substantial and could exceed the value of the property. An owner or control party of a site may be subject to common law claims by third parties based on damages and costs resulting from environmental contamination emanating from a site. Certain environmental laws also impose liability in connection with the handling of or exposure to materials containing asbestos. These laws allow third parties to seek recovery from owners of real properties for personal injuries associated with materials containing asbestos. Our operating costs and the values of these assets may be adversely affected by the obligation to pay for the cost of complying with existing environmental laws, ordinances and regulations, as well as the cost of complying with future legislation, and our income and ability to make distributions to our stockholders could be affected adversely by the existence of an environmental liability with respect to properties we may acquire. We will endeavor to ensure that these properties are in compliance in all material respects with all federal, state and local laws, ordinances and regulations regarding hazardous or toxic substances or petroleum products.

Competition

Our net income depends, in large part, on our manager's ability to originate structured finance investments with spreads over our borrowing costs. In originating these investments, our manager competes with other mortgage REITs, specialty finance companies, savings and loan associations, banks, mortgage bankers, insurance companies, mutual funds, institutional investors, investment banking firms, other lenders, governmental bodies and other entities, some of which may have greater financial resources and lower costs of capital available to them. In addition, there are numerous mortgage REITs with asset acquisition objectives similar to ours, and others may be organized in the future. The effect of the existence of additional REITs may be to increase competition for the available supply of structured finance assets suitable for purchase by us. Competitive variables include market presence and visibility, size of loans offered and underwriting standards. To the extent that a competitor is willing to risk larger amounts of capital in a particular transaction or to employ more liberal underwriting standards when evaluating potential loans, our origination volume and profit margins for our investment portfolio could be impacted. Our competitors may also be willing to accept lower returns on their investments and may succeed in buying the assets that we have targeted for acquisition. Although management believes that we are well positioned to continue to compete effectively in each facet of our business, there can be no assurance that we will do so or that we will not encounter further increased competition in the future that could limit our ability to compete effectively.

Employees

We have 29 employees, including Messrs. Weber, Kilgore and Horn, Mr. Felletter, our Senior Vice President of Asset Management, Mr. Guziewicz, our Chief Credit Officer, and a 23 person asset management group. Mr. Kaufman, our Chief Executive Officer and Mr. Elenio, our Chief Financial Officer are full time employees of ACM and are not directly compensated by us (other than pursuant to our equity incentive plans).

Corporate Governance and Internet Address

We have adopted corporate governance guidelines and a code of business conduct and ethics, which delineate our standards for our directors, officers and employees, and the employees of our manager who provide services to us. We emphasize the importance of professional business conduct and ethics through our corporate governance initiatives.

Our internet address is www.arborrealtytrust.com. ITEM 1A. RISK FACTORS

Our business is subject to various risks, including the risks listed below. If any of these risks actually occur, our business, financial condition and results of operations could be materially adversely affected and the value of our common stock could decline.

Risks Related to Our Business

Prolonged disruptions in the financial markets could affect our ability to obtain financing on reasonable terms and have other adverse effects on us and the market price of our common stock.

Global stock and credit markets have experienced prolonged price volatility, dislocations and liquidity disruptions, which have caused market prices of many stocks to fluctuate substantially and the spreads on prospective debt financings to widen considerably. Commercial real estate classes in general have been adversely affected by this prolonged economic downturn and liquidity crisis. These circumstances have materially impacted liquidity in the financial markets and have resulted in the scarcity of certain types of financing, and, in certain cases, making certain financing terms less attractive. If these conditions persist, lending institutions may be forced to exit markets such as repurchase lending, become insolvent or further tighten their lending standards or increase the amount of equity capital required to obtain financing, and in such event, could make it more difficult for us to obtain financing on favorable terms or at all. Our profitability will be adversely affected if we are unable to obtain cost-effective financing for our investments. A prolonged downturn in the stock or credit markets may cause us to seek alternative sources of potentially less attractive financing, and may require us to adjust our business plan accordingly. In addition, these factors may make it more difficult for our borrowers to repay our loans as they may experience difficulties in selling assets, increased costs of financing or obtaining financing at all. These events in the stock and credit markets may also make it more difficult or unlikely for us to raise capital through the issuance of our common stock or preferred stock. These disruptions in the financial markets also may have a material adverse effect on the market value of our common stock and other adverse effects on us or the economy in general.

A prolonged economic slowdown, a lengthy or severe recession, or declining real estate values could harm our operations.

We believe the risks associated with our business are more severe during periods of economic slowdown or recession if these periods are accompanied by declining real estate values. Declining real estate values will likely continue to minimize our level of new mortgage loan originations, since borrowers often use increases in the value of their existing properties to support the purchase or investment in additional properties. Borrowers may also be less able to pay principal and interest on our loans if the real estate economy weakens. Declining real estate values also significantly increase the likelihood that we will continue to incur losses on our loans in the event of default because the value of our collateral may be insufficient to cover our cost on the loan. Any sustained period of increased payment delinquencies, foreclosures or losses could adversely affect both our net interest income from loans in our portfolio as well as our ability to originate, sell and securitize loans, which would significantly harm our revenues, results of operations, financial condition, business prospects and our ability to make distributions to the stockholders.

Increases in loan loss reserves and other impairments are expected if economic conditions do not improve.

A further decline in economic conditions could negatively impact the credit quality of our loans and investments portfolio. If we do not see a stabilization of the financial markets and such market conditions continue to decline further, we will likely experience significant increases in loan loss reserves, potential defaults and other asset impairment charges.

Loan loss reserves are particularly difficult to estimate in a turbulent economic environment.

We perform an evaluation of loans on a quarterly basis to determine whether an impairment is necessary and adequate to absorb probable losses. The valuation process for our loans and investments portfolio requires us to make certain estimates and judgments, which are particularly difficult to determine during a recession in which the

availability of commercial real estate credit is severely limited and commercial real estate transactions have dramatically decreased. Our estimates and judgments are based on a number of factors, including projected cash flows from the collateral securing our commercial real estate loans, loan structure, including the availability of reserves and recourse guarantees, likelihood of repayment in full at the maturity of a loan, potential for a refinancing market coming back to commercial real estate in the future and expected market discount rates for varying property types. If our estimates and judgments are not correct, our results of operations and financial condition could be severely impacted.

Loan repayments are less likely in the current market environment.

In a market in which liquidity is essential to our business, loan repayments have been a significant source of liquidity for us. However, many financial institutions have drastically curtailed new lending activity and real estate owners are having difficulty refinancing their assets at maturity. If borrowers are not able to refinance loans at their maturity, the loans could go into default and the liquidity that we would receive from such repayments will not be available. Furthermore, without a functioning commercial real estate finance market, borrowers that are performing on their loans will almost certainly extend such loans if they have that right, which will further delay our ability to access liquidity through repayments.

We may not be able to access the debt or equity capital markets on favorable terms, or at all, for additional liquidity, which could adversely affect our business, financial condition and operating results.

Additional liquidity, future equity or debt financing may not be available on terms that are favorable to us, or at all. Our ability to access additional debt and equity capital depends on various conditions in these markets, which are beyond our control. If we are able to complete future equity offerings, they could be dilutive to our existing shareholders or could result in the issuance of securities that have rights, preferences and privileges that are senior to those of our other securities. Our inability to obtain adequate capital could have a material adverse effect on our business, financial condition, liquidity and operating results.

We may be unable to invest excess equity capital on acceptable terms or at all, which would adversely affect our operating results.

We may not be able to identify investments that meet our investment criteria and we may not be successful in closing the investments that we identify. Unless and until we identify investments consistent with our investment criteria, any excess equity capital may be used to repay borrowings under our term and revolving credit agreements and repurchase agreements, which would not produce a return on capital. In addition, the investments that we acquire with our equity capital may not produce a return on capital. There can be no assurance that we will be able to identify attractive opportunities to invest our equity capital, which would adversely affect our results of operations.

Changes in market conditions could adversely affect the market price of our common stock.

As with other publicly traded equity securities, the value of our common stock depends on various market conditions which may change from time to time. Among the market conditions that may affect the value of our common stock are the following:

- the general reputation of REITs and the attractiveness of our equity securities in comparison to other equity securities, including securities issued by other real estate-based companies;
- our financial performance; and
- general stock and bond market conditions.

The market value of our common stock is based primarily upon the market's perception of our growth potential and our current and potential future earnings and dividends. Consequently, our common stock may trade at prices that are higher or lower than our book value per share of common stock. If our future earnings or dividends are less than expected, it is likely that the market price of our common stock will diminish.

Our stock could be at risk of being delisted by the New York Stock Exchange and could have a materially adverse effects on our business

The price of our common stock has declined significantly and rapidly since September 2008. In the event we record additional losses, it is possible that the value of our common stock could decline further. This reduction in stock price could have materially adverse effects on our business, including reducing our ability to use our common stock as compensation or to otherwise provide incentives to employees and by reducing our ability to generate capital through stock sales or otherwise use our stock as currency with third parties.

In the event that the average closing price of our common stock is less than \$1.00 or our market capitalization is less than \$25 million over a consecutive 30 trading-day period, our stock could be delisted from the NYSE. The threat of delisting and/or a delisting of our common stock could have adverse effects by, among other things:

- Reducing the liquidity and market price of our common stock;
- Reducing the number of investors willing to hold or acquire our common stock, thereby further restricting our ability to obtain equity financing;
- Reducing our ability to retain, attract and motivate our directors, officers and employees.

A declining portfolio and reductions in debt could adversely affect the returns on our investments.

Continued dislocations in the market will likely lead to a reduction in our loans and investments portfolio. Additionally, the majority of the proceeds received from repayments of loans are expected to be used to repay borrowings. This deleveraging will likely result in reduced returns on our investments.

Our investments in commercial mortgage-related securities are subject to risks relating to the particular REIT issuer of the securities, which may result in losses to us.

Our investments in commercial mortgage-related securities involve special risks relating to the particular issuer of the securities, including the financial condition and business outlook of the issuer. The issuers of these securities are experiencing many of the same risks resulting from continued disruptions in the financial markets and deteriorating economic conditions. In addition, our investments are also subject to the risks described above with respect to commercial real estate loans and mortgage-backed securities and similar risks, including risks of delinquency and foreclosure, the dependence upon the successful operation of, and net income from, real property, risks generally related to interests in real property, and risks that may be presented by the type and use of a particular commercial property. REITs have been severely impacted by the current economic environment and have had very little access to the capital markets or the debt markets in order to meet their existing obligations or to refinance maturing debt.

We depend on key personnel with long standing business relationships, the loss of whom could threaten our ability to operate our business successfully.

Our future success depends, to a significant extent, upon the continued services of ACM as our manager and ACM's officers and employees. In particular, the mortgage lending experience of Mr. Kaufman and Mr. Weber and the extent and nature of the relationships they have developed with developers and owners of multi-family and commercial properties and other financial institutions are critical to the success of our business. We cannot assure their continued employment with ACM or service as our officers. The loss of services of one or more members of our or ACM's management team could harm our business and our prospects.

The real estate investment business is highly competitive. Our success depends on our ability to compete with other providers of capital for real estate investments.

Our business is highly competitive. Competition may cause us to accept economic or structural features in our investments that we would not have otherwise accepted and it may cause us to search for investments in markets outside of our traditional product expertise. We compete for attractive investments with traditional lending sources, such as insurance companies and banks, as well as other REITs, specialty finance companies and private equity

vehicles with similar investment objectives, which may make it more difficult for us to consummate our target investments. Many of our competitors have greater financial resources and lower costs of capital than we do, which provides them with greater operating flexibility and a competitive advantage relative to us.

We may not achieve our targeted rate of return on our investments.

We originate or acquire investments based on our estimates or projections of overall rates of return on such investments, which in turn are based upon, among other considerations, assumptions regarding the performance of assets, the amount and terms of available financing to obtain desired leverage and the manner and timing of dispositions, including possible asset recovery and remediation strategies, all of which are subject to significant uncertainty. In addition, events or conditions that we have not anticipated may occur and may have a significant effect on the actual rate of return received on an investment.

As we acquire or originate investments for our balance sheet portfolio, whether as new additions or as replacements for maturing investments, there can be no assurance that we will be able to originate or acquire investments that produce rates of return comparable to returns on our existing investments.

Our due diligence may not reveal all of a borrower's liabilities and may not reveal other weaknesses in its business.

Before investing in a company or making a loan to a borrower, we will assess the strength and skills of such entity's management and other factors that we believe are material to the performance of the investment. In making the assessment and otherwise conducting customary due diligence, we will rely on the resources available to us and, in some cases, an investigation by third parties. This process is particularly important and subjective with respect to newly organized entities because there may be little or no information publicly available about the entities. There can be no assurance that our due diligence processes will uncover all relevant facts or that any investment will be successful.

We invest in junior participation notes which may be subject to additional risks relating to the privately negotiated structure and terms of the transaction, which may result in losses to us.

We invest in junior participation loans which is a mortgage loan typically (i) secured by a first mortgage on a single commercial property or group of related properties and (ii) subordinated to a senior note secured by the same first mortgage on the same collateral. As a result, if a borrower defaults, there may not be sufficient funds remaining for the junior participation loan after payment is made to the senior note holder. Since each transaction is privately negotiated, junior participation loans can vary in their structural characteristics and risks. For example, the rights of holders of junior participation loans to control the process following a borrower default may be limited in certain investments. We cannot predict the terms of each junior participation investment. A junior participation may not be liquid and, consequently, we may be unable to dispose of underperforming or non-performing investments. The higher risks associated with a subordinate position in any investments we make could subject us to increased risk of losses.

We invest in mezzanine loans which are subject to a greater risk of loss than loans with a first priority lien on the underlying real estate.

We invest in mezzanine loans that take the form of subordinated loans secured by second mortgages on the underlying property or loans secured by a pledge of the ownership interests of either the entity owning the property or a pledge of the ownership interests of the entity that owns the interest in the entity owning the property. These types of investments involve a higher degree of risk than long-term senior mortgage lending secured by income producing real property because the investment may become unsecured as a result of foreclosure by the senior lender. In the event of a bankruptcy of the entity providing the pledge of its ownership interests as security, we may not have full recourse to the assets of such entity, or the assets of the entity may not be sufficient to satisfy our mezzanine loan. If a borrower defaults on our mezzanine loan or debt senior to our loan, or in the event of a borrower bankruptcy, our mezzanine loan will be satisfied only after the senior debt. As a result, we may not recover some or

all of our investment. In addition, mezzanine loans may have higher loan to value ratios than conventional mortgage loans, resulting in less equity in the property and increasing the risk of loss of principal.

Preferred equity investments involve a greater risk of loss than traditional debt financing.

We invest in preferred equity investments, which involve a higher degree of risk than traditional debt financing due to a variety of factors, including that such investments are subordinate to other loans and are not secured by property underlying the investment. Furthermore, should the issuer default on our investment, we would only be able to proceed against the partnership in which we have an interest, and not the property underlying our investment. As a result, we may not recover some or all of our investment.

We invest in multi-family and commercial real estate loans, which may involve a greater risk of loss than single family real estate loans.

Our investments include multi-family and commercial real estate loans that are considered to involve a higher degree of risk than single family residential lending because of a variety of factors, including generally larger loan balances, dependency for repayment on successful operation of the mortgaged property and tenant businesses operating therein, and loan terms that include amortization schedules longer than the stated maturity and provide for balloon payments at stated maturity rather than periodic principal payments. In addition, the value of commercial real estate can be affected significantly by the supply and demand in the market for that type of property.

Volatility of values of multi-family and commercial properties may adversely affect our loans and investments.

Multi-family and commercial property values and net operating income derived from such properties are subject to volatility and may be affected adversely by a number of factors, including, but not limited to, events such as natural disasters, including hurricanes and earthquakes, acts of war and/or terrorism and others that may cause unanticipated and uninsured performance declines and/or losses to us or the owners and operators of the real estate securing our investment; national, regional and local economic conditions, such as what we have experienced over the past two years (which may be adversely affected by industry slowdowns and other factors); local real estate conditions (such as an oversupply of housing, retail, industrial, office or other commercial space); changes or continued weakness in specific industry segments; construction quality, construction cost, age and design; demographic factors; retroactive changes to building or similar codes; and increases in operating expenses (such as energy costs). In the event a property's net operating income decreases, a borrower may have difficulty repaying our loan, which could result in losses to us. In addition, decreases in property values reduce the value of the collateral and the potential proceeds available to a borrower to repay our loans, which could also cause us to suffer losses.

Many of our commercial real estate loans are funded with interest reserves and our borrowers may be unable to replenish those interest reserves once they run out.

Given the transitional nature of many of our commercial real estate loans, we often require borrowers to post reserves to cover interest and operating expenses until the property cash flows are projected to increase sufficiently to cover debt service costs. We also generally required the borrower to replenish reserves if they become depleted due to underperformance or if the borrower wants to exercise extension options under the loan. Despite low interest rates, revenues on the properties underlying any commercial real estate loan investments will likely continue to decrease in the current economic environment, making it more difficult for borrowers to meet their payment obligations to us. We expect that in the future some of our borrowers may continue to have difficulty servicing our debt and will not have sufficient capital to replenish reserves, which could have a significant impact on our operating results and cash flow.

We may not have control over certain of our loans and investments.

Our ability to manage our portfolio of loans and investments may be limited by the form in which they are made. In certain situations, we may acquire investments subject to rights of senior classes and servicers under inter-

creditor or servicing agreements; acquire only a participation in an underlying investment; co-invest with third parties through partnerships, joint ventures or other entities, thereby acquiring non-controlling interests; or rely on independent third party management or strategic partners with respect to the management of an asset.

Therefore, we may not be able to exercise control over the loan or investment. Such financial assets may involve risks not present in investments where senior creditors, servicers or third party controlling investors are not involved. Our rights to control the process following a borrower default may be subject to the rights of senior creditors or servicers whose interests may not be aligned with ours. A third party partner or co-venturer may have financial difficulties resulting in a negative impact on such assets and may have economic or business interests or goals which are inconsistent with ours. In addition, we may, in certain circumstances, be liable for the actions of our third party partners or co-venturers.

The impact of any future terrorist attacks and the availability of terrorism insurance expose us to certain risks.

The terrorist attacks on September 11, 2001 disrupted the U.S. financial markets, including the real estate capital markets, and negatively impacted the U.S. economy in general. Any future terrorist attacks, the anticipation of any such attacks, and the consequences of any military or other response by the United States and its allies may have a further adverse impact on the U.S. financial markets and the economy generally. We cannot predict the severity of the effect that any such future events would have on the U.S. financial markets, the economy or our business. Any future terrorist attacks could adversely affect the credit quality of some of our loans and investments. Some of our loans and investments will be more susceptible to such adverse effects than others. We may suffer losses as a result of the adverse impact of any future terrorist attacks and these losses may adversely impact our results of operations.

In addition, the enactment of the Terrorism Risk Insurance Act of 2002, or the TRIA, and the subsequent enactment of the Terrorism Risk Insurance Program Reauthorization Act of 2007, which extended TRIA through the end of 2014, requires insurers to make terrorism insurance available under their property and casualty insurance policies in order to receive federal compensation under TRIA for insured losses. However, this legislation does not regulate the pricing of such insurance. The absence of affordable insurance coverage may adversely affect the general real estate lending market, lending volume and the market's overall liquidity and may reduce the number of suitable investment opportunities available to us and the pace at which we are able to make investments. If the properties that we invest in are unable to obtain affordable insurance coverage, the value of those investments could decline and in the event of an uninsured loss, we could lose all or a portion of our investment.

We are required to comply with Section 404 of the Sarbanes-Oxley Act of 2002 and furnish a report on our internal control over financial reporting.

We are required to comply with Section 404 of the Sarbanes-Oxley Act of 2002. Section 404 requires us to assess and attest to the effectiveness of our internal control over financial reporting and requires our independent registered public accounting firm to opine as to the adequacy of our assessment and effectiveness of our internal control over financial reporting in absence of a temporary exemption currently granted to smaller reporting companies. In the future, we may not receive an unqualified opinion from our independent registered public accounting firm with regard to our internal control over financial reporting.

Failure to maintain an exemption from regulation as an investment company under the Investment Company Act would adversely affect our results of operations.

We believe that we conduct, and we intend to conduct our business in a manner that allows us to avoid being regulated as an investment company under the Investment Company Act. Pursuant to Section 3(c) (5) (C) of the Investment Company Act, entities that are primarily engaged in the business of purchasing or otherwise acquiring "mortgages and other liens on and interests in real estate" are exempted from regulation thereunder. The staff of the SEC has provided guidance on the availability of this exemption. Specifically, the staff's position generally requires us to maintain at least 55% of our assets directly in "qualifying real estate interests." To constitute a qualifying real estate interest under this 55% test, an interest in real estate must meet various criteria. Loans that are secured by

equity interests in entities that directly or indirectly own the underlying real property, rather than a mortgage on the underlying property itself, and ownership of equity interests in real property owners may not qualify for purposes of the 55% test depending on the type of entity. Mortgage-related securities that do not represent all of the certificates issued with respect to an underlying pool of mortgages may also not qualify for purposes of the 55% test. Therefore, our ownership of these types of loans and equity interests may be limited by the provisions of the Investment Company Act. To the extent that we do not comply with the SEC staff's 55% test, another exemption or exclusion from registration as an investment company under the Investment Company Act or other interpretations under the Investment Company Act, we may be deemed to be an investment company. If we fail to maintain an exemption or other exclusion from registration as an investment company we could, among other things, be required either (a) to substantially change the manner in which we conduct our operations to avoid being required to register as an investment company or (b) to register as an investment company, either of which could have an adverse effect on us and the market price of our common stock. If we were required to register as an investment company under the Investment Company Act, we would become subject to substantial regulation with respect to our capital structure (including our ability to use leverage), management, operations, transactions with affiliated persons (as defined in the Investment Company Act), portfolio composition, including restrictions with respect to diversification and industry concentration and other matters.

Risks Related to Our Financing and Hedging Activities

We may not be able to access financing sources on favorable terms, or at all, which could adversely affect our ability to execute our business plan.

We finance our assets over the short and long-term through a variety of means, including repurchase agreements, term facilities, credit facilities, junior subordinated notes, CDOs and other structured financings. Our ability to execute this strategy depends on various conditions in the markets for financing in this manner that are beyond our control, including lack of liquidity and wider credit spreads, which we have seen over the past year. If these conditions continue to worsen, we cannot assure you that these sources are feasible as a means of financing our assets, as there can be no assurance that these agreements will be renewed or extended at expiration. If our strategy is not viable, we will have to find alternative forms of long-term financing for our assets, as secured revolving credit facilities and repurchase facilities may not accommodate long-term financing. This could subject us to more recourse indebtedness and the risk that debt service on less efficient forms of financing would require a larger portion of our cash flows, thereby reducing cash available for distribution to our stockholders, funds available for operations as well as for future business opportunities.

Our credit facilities contain restrictive covenants relating to our operations.

Each of our credit facilities contains various financial covenants and restrictions, including minimum net worth, minimum liquidity and debt-to-equity ratios. Other restrictive covenants contained in our credit facility agreements include covenants that prohibit us from affecting a change in control, disposing of or encumbering assets being financed and restricting us from making any material amendment to our underwriting guidelines without approval of the lender. At December 31, 2009, we were in compliance with all financial covenants and restrictions for the periods presented with the exception of a minimum tangible net worth requirement with Wachovia at December 31, 2009. Our tangible net worth was \$98.6 million at December 31, 2009 and we were required to maintain a minimum tangible net worth of \$150.0 million with this financial institution. We have obtained a waiver of this covenant, as well as the minimum ratio of total liabilities to tangible net worth covenant, from this financial institution for December 31, 2009 and through an extended payoff date of August 27, 2010, in conjunction with amendments to our credit facilities. We have also obtained temporary amendments thereafter until December 2010 for the quarterly minimum GAAP tangible net worth covenants, from \$150.0 million to \$50.0 million, and quarterly maximum ratio of total liabilities to tangible net worth covenants, from 4.5 to 1 to 5.8 to 1. However, if economic conditions continue to weaken and capital for commercial real estate remains scarce, we expect credit quality in our assets and across the commercial real estate sector to decline as well. While we remain focused on actively managing our loans and investments portfolio, a continued weak environment will make maintaining compliance with the credit facilities' covenants more difficult. If we are not in compliance with

any of our covenants, there can be no assurance that our lenders would waive or amend such non-compliance in the future and any such non-compliance could have a material adverse effect on us.

Investor demand for commercial real estate CDOs has been substantially curtailed.

The continued turmoil in the structured finance markets, including sub-prime residential loans and commercial real estate loans, has negatively impacted the credit markets generally. As a result, investor demand for commercial real estate CDOs has been substantially curtailed. In recent years, we have relied to a substantial extent on CDO financings to obtain match-funded financing for our investments. Until and unless the market for commercial real estate CDOs recovers, we may be unable to utilize CDOs to finance our investments and we may need to utilize less favorable sources of financing to finance our investments on a long-term basis. There can be no assurance as to when or if the demand for commercial real estate CDOs will return, what the terms of such securities investors will demand, or whether we will be able to issue CDOs to finance our investments on terms beneficial to us.

We may not be able to obtain the level of leverage necessary to optimize our return on investment.

Our return on investment depends, in part, upon our ability to grow our balance sheet portfolio of invested assets through the use of leverage at a cost of debt that is lower than the yield earned on our investments. We generally obtain leverage through the issuance of collateralized debt obligations, or CDOs, term and revolving credit agreements, repurchase agreements and other borrowings. Our future ability to obtain the necessary leverage on beneficial terms ultimately depends upon the quality of the portfolio assets that collateralize our indebtedness. Our failure to obtain and/or maintain leverage at desired levels, or to obtain leverage on attractive terms, would have a material adverse effect on our performance. Moreover, we are dependent upon a few lenders to provide financing under credit agreements and repurchase agreements for our origination or acquisition of loans and investments and there can be no assurance that these agreements will be renewed or extended at expiration. Our ability to obtain financing through CDOs is subject to conditions in the debt capital markets which are impacted by factors beyond our control that may at times be adverse and reduce the level of investor demand for such securities.

The credit facilities and repurchase agreements that we use to finance our investments may require us to provide additional collateral.

We use credit facilities and repurchase agreements to finance some of our investments. If the market value of the loans pledged or sold by us to a funding source decline in value, we may be required by the lending institution to provide additional collateral or pay down a portion of the funds advanced. We may not have the funds available to pay down our debt, which could result in defaults. Posting additional collateral to support our repurchase and credit facilities would reduce our liquidity and limit our ability to leverage our assets. In the event we do not have sufficient liquidity to meet such requirements, lending institutions can accelerate our indebtedness, increase interest rates and terminate our ability to borrow. Such a situation would likely result in a rapid deterioration of our financial condition and possibly necessitate a filing for protection under the United States Bankruptcy Code. Further, facility providers may require us to maintain a certain amount of uninvested cash or set aside unlevered assets sufficient to maintain a specified liquidity position which would allow us to satisfy our collateral obligations. As a result, we may not be able to leverage our assets as fully as we would choose, which could reduce our return on assets. In the event that we are unable to meet these collateral obligations, our financial condition could deteriorate rapidly.

Our use of leverage may create a mismatch with the duration and index of the investments that we are financing.

We attempt to structure our leverage such that we minimize the difference between the term of our investments and the leverage we use to finance such an investment. In the event that our leverage is shorter term than the financed investment, we may not be able to extend or find appropriate replacement leverage and that would have an adverse impact on our liquidity and our returns. In the event that our leverage is longer term than the financed investment, we may not be able to repay such leverage or replace the financed investment with an optimal substitute or at all, which will negatively impact our desired leveraged returns.

We attempt to structure our leverage such that we minimize the difference between the index of our investments and the index of our leverage — financing floating rate investments with floating rate leverage and fixed rate investments with fixed rate leverage. If such a product is not available to us from our lenders on reasonable terms, we may use hedging instruments to effectively create such a match. For example, in the case of fixed rate investments, we may finance such an investment with floating rate leverage, but effectively convert all or a portion of the attendant leverage to fixed rate using hedging strategies.

Our attempts to mitigate such risk are subject to factors outside of our control, such as the availability to us of favorable financing and hedging options, which is subject to a variety of factors, of which duration and term matching are only two such factors.

We utilize a significant amount of debt to finance our portfolio, which may subject us to an increased risk of loss, adversely affecting the return on our investments and reducing cash available for distribution.

We utilize a significant amount of debt to finance our operations, which may compound losses and reduce the cash available for distributions to our stockholders. We generally leverage our portfolio through the use of bank credit facilities, repurchase agreements, and securitizations, including the issuance of CDOs and other borrowings. The leverage we employ varies depending on our ability to obtain credit facilities, the loan-to-value and debt service coverage ratios of our assets, the yield on our assets, the targeted leveraged return we expect from our portfolio and our ability to meet ongoing covenants related to our asset mix and financial performance. Substantially all of our assets are pledged as collateral for our borrowings. Our return on our investments and cash available for distribution to our stockholders may be reduced to the extent that changes in market conditions cause the cost of our financing to increase relative to the income that we can derive from the assets we acquire.

Our debt service payments, including payments in connection with any CDOs, reduce the net income available for distributions. Moreover, we may not be able to meet our debt service obligations and, to the extent that we cannot, we risk the loss of some or all of our assets to foreclosure or sale to satisfy our debt obligations. Currently, neither our charter nor our bylaws impose any limitations on the extent to which we may leverage our assets.

We may guarantee some of our leverage and contingent obligations.

We guarantee the performance of some of our obligations, including but not limited to some of our repurchase agreements, derivative agreements, and unsecured indebtedness. Non-performance on such obligations may cause losses to us in excess of the capital we initially may have invested/committed under such obligations and there is no assurance that we will have sufficient capital to cover any such losses.

We may not be able to acquire suitable investments for a CDO issuance, or we may not be able to issue CDOs on attractive terms, or at all, which may require us to utilize more costly financing for our investments.

We have financed, and, if the opportunities exist in the future, we may continue to finance certain of our investments through the issuance of CDOs. During the period that we are acquiring investments for eventual long-term financing through CDOs, we intend to finance these investments through repurchase and credit agreements. We use these agreements to finance our acquisition of investments until we have accumulated a sufficient quantity of investments, at which time we may refinance them through a securitization, such as a CDO issuance. As a result, we are subject to the risk that we will not be able to acquire a sufficient amount of eligible investments to maximize the efficiency of a CDO issuance. In addition, conditions in the debt capital markets may make the issuance of CDOs less attractive to us even when we do have a sufficient pool of collateral, or we may not be able to execute a CDO transaction due to substantial curtailment in demand for commercial real estate CDOs, such as currently exists. If we are unable to issue a CDO to finance these investments, we may be required to utilize other forms of potentially less attractive financing.

We may not be able to find suitable replacement investments for CDOs with reinvestment periods.

Some of our CDOs have periods where principal proceeds received from assets securing the CDO can be reinvested for a defined period of time, commonly referred to as a reinvestment period. Our ability to find suitable

investments during the reinvestment period that meet the criteria set forth in the CDO documentation and by rating agencies may determine the success of our CDO investments. Our potential inability to find suitable investments may cause, among other things, lower returns, interest deficiencies, hyper-amortization of the senior CDO liabilities and may cause us to reduce the life of our CDOs and accelerate the amortization of certain fees and expenses.

The use of CDO financings with over-collateralization and interest coverage requirements may have a negative impact on our cash flow.

The terms of CDOs will generally provide that the principal amount of investments must exceed the principal balance of the related bonds by a certain amount and that interest income exceeds interest expense by a certain amount. Generally, CDO terms provide that, if certain delinquencies and/or losses or other factors cause a decline in collateral or cash flow levels, the cash flow otherwise payable on subordinated classes may be redirected to repay senior classes of CDOs until the issuer or the collateral is in compliance with the terms of the governing documents. Other tests (based on delinquency levels or other criteria) may restrict our ability to receive net income from assets pledged to secure CDOs. We cannot assure you that the performance tests will be satisfied. If our investments fail to perform as anticipated, our over-collateralization, interest coverage or other credit enhancement expense associated with our CDO financings will increase. With respect to future CDOs we may issue, we cannot assure you, in advance of completing negotiations with the rating agencies or other key transaction parties as to the actual terms of the delinquency tests, over-collateralization and interest coverage terms, cash flow release mechanisms or other significant factors upon which net income to us will be calculated. Failure to obtain favorable terms with regard to these matters may adversely affect the availability of net income to us.

We may be required to repurchase loans that we have sold or to indemnify holders of our CDOs.

If any of the loans we originate or acquire and sell or securitize through CDOs do not comply with representations and warranties we make about certain characteristics of the loans, the borrowers and the underlying properties, we may be required to repurchase those loans or replace them with substitute loans. In addition, in the case of loans that we have sold instead of retained, we may be required to indemnify persons for losses or expenses incurred as a result of a breach of a representation or warranty. Repurchased loans typically require a significant allocation of working capital to carry on our books, and our ability to borrow against such assets is limited. Any significant repurchases or indemnification payments could adversely affect our financial condition and operating results.

Our loans and investments may be subject to fluctuations in interest rates which may not be adequately protected, or protected at all, by our hedging strategies.

Our current balance sheet investment program emphasizes loans with both “floating” interest rates and fixed interest rates. Floating rate investments earn interest at rates that adjust from time to time (typically monthly) based upon an index (typically LIBOR), allowing this portion of our portfolio to be insulated from changes in value due specifically to changes in rates. Fixed interest rate investments, however, do not have adjusting interest rates and, as prevailing interest rates change, the relative value of the fixed cash flows from these investments will cause potentially significant changes in value. Depending on market conditions, fixed rate assets may become a greater portion of our new loan originations. We may employ various hedging strategies to limit the effects of changes in interest rates (and in some cases credit spreads), including engaging in interest rate swaps, caps, floors and other interest rate derivative products. No strategy can completely insulate us from the risks associated with interest rate changes and there is a risk that they may provide no protection at all and potentially compound the impact of changes in interest rates. Hedging transactions involve certain additional risks such as counterparty risk, the legal enforceability of hedging contracts, the early repayment of hedged transactions and the risk that unanticipated and significant changes in interest rates may cause a significant loss of basis in the contract and a change in current period expense. We cannot make assurances that we will be able to enter into hedging transactions or that such hedging transactions will adequately protect us against the foregoing risks. In addition, cash flow hedges which are not perfectly correlated (and appropriately designated and documented as such) with a variable rate financing will impact our reported income as gains, and losses on the ineffective portion of such hedges will be recorded.

Hedging instruments often are not traded on regulated exchanges, guaranteed by an exchange or its clearing house, or regulated by any U.S. or foreign governmental authorities and involve risks and costs.

The cost of using hedging instruments increases as the period covered by the instrument lengthens and during periods of rising and volatile interest rates. We may increase our hedging activity and thus increase our hedging costs during periods when interest rates are volatile or rising and hedging costs have increased.

In addition, hedging instruments involve risk since they often are not traded on regulated exchanges, guaranteed by an exchange or its clearing house, or regulated by any U.S. or foreign governmental authorities. Consequently, there are no requirements with respect to record keeping, financial responsibility or segregation of customer funds and positions. Furthermore, the enforceability of agreements underlying derivative transactions may depend on compliance with applicable statutory and commodity and other regulatory requirements and, depending on the identity of the counterparty, applicable international requirements. The business failure of a hedging counterparty with whom we enter into a hedging transaction will most likely result in a default. Default by a party with whom we enter into a hedging transaction may result in the loss of unrealized profits and force us to cover our resale commitments, if any, at the then current market price. Although generally we will seek to reserve the right to terminate our hedging positions, it may not always be possible to dispose of or close out a hedging position without the consent of the hedging counterparty, and we may not be able to enter into an offsetting contract to cover our risk. We cannot assure you that a liquid secondary market will exist for hedging instruments purchased or sold, and we may be required to maintain a position until exercise or expiration, which could result in losses.

We may enter into derivative contracts that could expose us to contingent liabilities in the future.

Subject to maintaining our qualification as a REIT, part of our investment strategy involves entering into derivative contracts that could require us to fund cash payments in the future under certain circumstances (e.g., the early termination of the derivative agreement caused by an event of default or other early termination event, or the decision by a counterparty to request margin securities it is contractually owed under the terms of the derivative contract). The amount due would be equal to the unrealized loss of the open swap positions with the respective counterparty and could also include other fees and charges. These economic losses will be reflected in our financial results of operations, and our ability to fund these obligations will depend on the liquidity of our assets and access to capital at the time, and the need to fund these obligations could adversely impact our financial condition.

Changes in values of our derivative contracts could adversely affect our liquidity and financial condition.

Certain of our derivative contracts, which are designed to hedge interest rate risk associated with a portion of our loans and investments, could require the funding of additional cash collateral for changes in the market value of these contracts. Due to the continued volatility in the financial markets, the value of these contracts has declined substantially. As a result, as of December 31, 2009, we funded approximately \$18.9 million in cash related to these contracts. If we continue to experience significant changes in the outlook of interest rates, these contracts could continue to decline in value, which would require additional cash to be funded. However, at maturity the value of these contracts return to par and all cash will be recovered. We may not have available cash to meet these requirements, which could result in the early termination of these derivatives, leaving us exposed to interest rate risk associated with these loans and investments, which could adversely impact our financial condition.

We are subject to certain counterparty risks related to our derivative contracts.

We periodically hedge a portion of our interest rate risk by entering into derivative financial instrument contracts. As a result of the global credit crisis, there is a risk that counterparties could fail, shut down, file for bankruptcy or be unable to pay out contracts. The failure of a counterparty that holds collateral that we post in connection with certain interest rate swap agreements could result in the loss of such collateral.

Risks Related to Our Corporate and Ownership Structure

We are substantially controlled by ACM and Mr. Kaufman.

Mr. Ivan Kaufman, our chairman, chief executive officer and president and the chief executive officer of ACM, beneficially owns approximately 92% of the outstanding membership interests of ACM. ACM currently has 21.2% of the voting power of our outstanding stock. As a result of Mr. Kaufman's beneficial ownership of stock held by ACM as well as his beneficial ownership of additional shares of our common stock, Mr. Kaufman currently has 21.7% of the voting power of our outstanding stock. Because of his position with us and our manager and his ability to effectively vote a substantial minority of our outstanding stock, Mr. Kaufman has significant influence over our policies and strategy.

Our charter as amended generally does not permit ownership in excess of 7.0% of our capital stock, and attempts to acquire our capital stock in excess of this limit are ineffective without prior approval from our board of directors.

For the purpose of preserving our REIT qualification, our charter generally prohibits direct or constructive ownership by any person of more than 7.0% (by value or by number of shares, whichever is more restrictive) of the outstanding shares of our common stock or 7.0% (by value) of our outstanding shares of capital stock. For purposes of this calculation, warrants held by such person will be deemed to have been exercised if such exercise would result in a violation. Our charter's constructive ownership rules are complex and may cause the outstanding stock owned by a group of related individuals or entities to be deemed to be constructively owned by one individual or entity. As a result, the acquisition of less than these percentages of the outstanding stock by an individual or entity could cause that individual or entity to own constructively in excess of these percentages of the outstanding stock and thus be subject to our charter's ownership limit. Any attempt to own or transfer shares of our common or preferred stock in excess of the ownership limit without the consent of the board of directors will result in the shares being automatically transferred to a charitable trust or otherwise voided.

Our staggered board and other provisions of our charter and bylaws may prevent a change in our control.

Our board of directors is divided into three classes of directors. The current terms of the Class I, Class II and Class III directors will expire in 2010, 2011 and 2012, respectively. Directors of each class are chosen for three year terms upon the expiration of their current terms, and each year one class of directors is elected by the stockholders. The staggered terms of our directors may reduce the possibility of a tender offer or an attempt at a change in control, even though a tender offer or change in control might be in the best interest of our stockholders. In addition, our charter and bylaws also contain other provisions that may delay or prevent a transaction or a change in control that might involve a premium price for our common stock or otherwise be in the best interest of our stockholders.

Risks Related to Conflicts of Interest with Our Manager

We are dependent on our manager with whom we have conflicts of interest.

We have only 29 employees, including Messrs. Weber, Felletter, Horn, Guzewicz, and are dependent upon our manager to provide services to us that are vital to our operations. ACM, our manager currently has approximately 21.2% of the voting power of the outstanding shares of our capital stock and Mr. Kaufman, our chairman and chief executive officer and the chief executive officer of ACM, beneficially owns these shares. Mr. Martello, one of our directors, is the chief operating officer of Arbor Management, LLC (the managing member of ACM) and a trustee of two trusts which own minority membership interests in ACM. Mr. Elenio, our chief financial officer and treasurer, is the chief financial officer of ACM. Each of Messrs. Kaufman, Martello, Elenio, Horn, Weber, Kilgore, Felletter are members of ACM's executive committee and own minority membership interests in ACM.

We may enter into transactions with ACM outside the terms of the management agreement with the approval of a majority vote of the independent members of our board of directors. Transactions required to be approved by a majority of our independent directors include, but are not limited to, our ability to purchase securities, mortgages and other assets from ACM or to sell securities and assets to ACM. ACM may from time to time provide permanent mortgage loan financing to clients of ours, which will be used to refinance bridge financing provided by us. We and ACM may also make loans to the same borrower or to borrowers that are under common control. Additionally, our policies and those of ACM may require us to enter into intercreditor agreements in situations where loans are made by us and ACM to the same borrower.

We have entered into a management agreement with our manager under which our manager provides us with all of the services vital to our operations other than asset management services. Certain matters relating to our organization were not approved at arm's length and the terms of the contribution of assets to us may not be as favorable to us as if the contribution was with an unaffiliated third party.

The results of our operations are dependent upon the availability of, and our manager's ability to identify and capitalize on, investment opportunities. Our manager's officers and employees are also responsible for providing the same services for ACM's portfolio of investments. As a result, they may not be able to devote sufficient time to the management of our business operations.

Our directors have approved very broad investment guidelines for our manager and do not approve each investment decision made by our manager.

Our manager is authorized to follow very broad investment guidelines. Our directors will periodically review our investment guidelines and our investment portfolio. However, our board does not review each proposed investment. In addition, in conducting periodic reviews, the directors rely primarily on information provided to them by our manager. Furthermore, transactions entered into by our manager may be difficult or impossible to unwind by the time they are reviewed by the directors. Our manager has great latitude within the broad investment guidelines in determining the types of assets it may decide are proper investments for us.

Our manager has broad discretion to invest funds and may acquire structured finance assets where the investment returns are substantially below expectations or that result in net operating losses.

Our manager has broad discretion, within the general investment criteria established by our board of directors, to allocate the proceeds of the concurrent offerings and to determine the timing of investment of such proceeds. Such discretion could result in allocation of proceeds to assets where the investment returns are substantially below expectations or that result in net operating losses, which would materially and adversely affect our business, operations and results.

The management compensation structure that we have agreed to with our manager may cause our manager to invest in high risk investments. Our manager is entitled to a base management fee, which is based on an agreed upon budget which represents the actual cost of managing the assets. Our manager is also entitled to receive incentive compensation based in part upon our achievement of targeted levels of funds from operations. In evaluating investments and other management strategies, the opportunity to earn incentive compensation based on funds from operations may lead our manager to place undue emphasis on the maximization of funds from operations at the

expense of other criteria, such as preservation of capital, in order to achieve higher incentive compensation. Investments with higher yield potential are generally riskier or more speculative. This could result in increased risk to the value of our invested portfolio.

Risk Related to Our Status as a REIT

If we fail to remain qualified as a REIT, we will be subject to tax as a regular corporation and could face substantial tax liability.

We conduct our operations to qualify as a REIT under the Internal Revenue Code. However, qualification as a REIT involves the application of highly technical and complex Internal Revenue Code provisions for which only limited judicial and administrative authorities exist. Even a technical or inadvertent mistake could jeopardize our REIT status. Our continued qualification as a REIT will depend on our satisfaction of certain asset, income, organizational, distribution, stockholder ownership and other requirements on a continuing basis. In addition, our ability to satisfy the requirements to qualify as a REIT depends in part on the actions of third parties over which we have no control or only limited influence, including in cases where we own an equity interest in an entity that is classified as a partnership for U.S. federal income tax purposes.

Furthermore, new tax legislation, administrative guidance or court decisions, in each instance potentially with retroactive effect, could make it more difficult or impossible for us to qualify as a REIT. If we fail to qualify as a REIT in any tax year, then:

- we would be taxed as a regular domestic corporation, which, among other things, means we would be unable to deduct distributions to stockholders in computing taxable income and would be subject to federal income tax on our taxable income at regular corporate rates;
- any resulting tax liability could be substantial and would reduce the amount of cash available for distribution to stockholders; and
- unless we were entitled to relief under applicable statutory provisions, we would be disqualified from treatment as a REIT for the subsequent four taxable years following the year during which we lost our qualification, and thus, our cash available for distribution to stockholders would be reduced for each of the years during which we did not qualify as a REIT.

Even if we remain qualified as a REIT, we may face other tax liabilities that reduce our cash flow.

Even if we remain qualified for taxation as a REIT, we may be subject to certain federal, state and local taxes on our income and assets, including taxes on any undistributed income, tax on income from some activities conducted as a result of a foreclosure, and state or local income, property and transfer taxes, such as mortgage recording taxes. Any of these taxes would decrease cash available for distribution to our stockholders. In addition, in order to meet the REIT qualification requirements, or to avert the imposition of a 100% tax that applies to certain gains derived by a REIT from dealer property or inventory, we may hold some of our assets through taxable subsidiary corporations.

The “taxable mortgage pool” rules may increase the taxes that we or our stockholders may incur, and may limit the manner in which we effect future securitizations.

Certain of our securitizations have resulted in the creation of taxable mortgage pools for federal income tax purposes. So long as 100% of the equity interests in a taxable mortgage pool are owned by an entity that qualifies as a REIT, including our subsidiary Arbor Realty SR, Inc., we would generally not be adversely affected by the characterization of the securitization as a taxable mortgage pool. Certain categories of stockholders, however, such as foreign stockholders eligible for treaty or other tax benefits, stockholders with net operating losses, and certain tax-exempt stockholders that are subject to unrelated business income tax, could be subject to increased taxes on a portion of their dividend income from us that is attributable to the taxable mortgage pool. In addition, to the extent

that our stock is owned by tax-exempt “disqualified organizations,” such as certain government-related entities that are not subject to tax on unrelated business income, we could incur a corporate level tax on a portion of our income from the taxable mortgage pool. In that case, we may reduce the amount of our distributions to any disqualified organization whose stock ownership gave rise to the tax. Moreover, we could be precluded from selling equity interests in these securitizations to outside investors, or selling any debt securities issued in connection with these securitizations that might be considered to be equity interests for tax purposes. These limitations may prevent us from using certain techniques to maximize our returns from securitization transactions.

Complying with REIT requirements may cause us to forego otherwise attractive opportunities.

To qualify as a REIT for federal income tax purposes we must continually satisfy tests concerning, among other things, the sources of our income, the nature and diversification of our assets, the amounts we distribute to our stockholders and the ownership of our stock. We may be required to make distributions to stockholders at disadvantageous times or when we do not have funds readily available for distribution. Thus, compliance with the REIT requirements may hinder our ability to operate solely on the basis of maximizing profits.

Complying with REIT requirements may force us to liquidate otherwise attractive investments.

To qualify as a REIT we must ensure that at the end of each calendar quarter at least 75% of the value of our assets consists of cash, cash items, government securities and qualified REIT real estate assets. The remainder of our investment in securities generally cannot comprise more than 10% of the outstanding voting securities, or more than 10% of the total value of the outstanding securities, of any one issuer. In addition, in general, no more than 5% of the value of our assets (other than assets which qualify for purposes of the 75% asset test) may consist of the securities of any one issuer, and no more than 25% of the value of our total assets may be represented by securities of one or more taxable REIT subsidiaries. If we fail to comply with these requirements at the end of any calendar quarter, we must correct such failure within 30 days after the end of the calendar quarter to avoid losing our REIT status and suffering adverse tax consequences. As a result, we may be required to liquidate otherwise attractive investments.

Liquidation of collateral may jeopardize our REIT status.

To continue to qualify as a REIT, we must comply with requirements regarding our assets and our sources of income. If we are compelled to liquidate investments to satisfy our obligations to our lenders, we may be unable to comply with these requirements, ultimately jeopardizing our status as a REIT.

We may be unable to generate sufficient revenue from operations to pay our operating expenses and to pay dividends to our stockholders.

As a REIT, we are generally required to distribute at least 90% of our taxable income each year to our stockholders, though under the terms of certain financing agreements, annual dividends are limited to 100% of taxable income to common shareholders and are required to be paid in the form of our stock to the maximum extent permissible (currently 90%), with the balance payable in cash. In order to qualify for the tax benefits accorded to REITs, we intend to declare quarterly dividends and to make distributions to our stockholders in amounts such that we distribute all or substantially all of our taxable income each year, subject to certain adjustments. However, our ability to make distributions may be adversely affected by the risk factors described in this report. In the event of a downturn in our operating results and financial performance or unanticipated declines in the value of our asset portfolio, we may be unable to declare or pay quarterly dividends or make distributions to our stockholders. The timing and amount of dividends are in the sole discretion of our board of directors, which considers, among other factors, our earnings, financial condition, debt service obligations and applicable debt covenants, REIT qualification requirements and other tax considerations and capital expenditure requirements as our board may deem relevant from time to time.

Among the factors that could adversely affect our results of operations and impair our ability to make distributions to our stockholders are:

- our ability to make profitable structured finance investments;
- defaults in our asset portfolio or decreases in the value of our portfolio;

- the fact that anticipated operating expense levels may not prove accurate, as actual results may vary from estimates; and
- increased debt service requirements, including those resulting from higher interest rates on variable rate indebtedness.

A change in any one of these factors could affect our ability to make distributions. If we are not able to comply with the restrictive covenants and financial ratios contained in our credit facilities, our ability to make distributions to our stockholders may also be impaired. We cannot assure you that we will be able to make distributions to our stockholders in the future or that the level of any distributions we make will increase over time.

We may need to borrow funds under our credit facilities in order to satisfy our REIT distribution requirements, and a portion of our distributions may constitute a return of capital. Debt service on any borrowings for this purpose will reduce our cash available for distribution.

In order to qualify as a REIT, we must generally, among other requirements, distribute at least 90% of our taxable income, subject to certain adjustments, to our stockholders each year, though under the terms of certain financing agreements, annual dividends are limited to 100% of taxable income to common shareholders and are required to be paid in the form of our stock to the maximum extent permissible (currently 90%), with the balance payable in cash. To the extent that we satisfy the distribution requirement, but distribute less than 100% of our taxable income, we will be subject to federal corporate income tax on our undistributed taxable income. In addition, we will be subject to a 4% nondeductible excise tax if the actual amount that we pay out to our stockholders in a calendar year is less than a minimum amount specified under federal tax laws.

From time to time, we may generate taxable income greater than our net income for financial reporting purposes, or our taxable income may be greater than our cash flow available for distribution to stockholders. If we do not have other funds available in these situations we could be required to borrow funds, issue stock or sell investments and our equity securities at disadvantageous prices or find another alternative source of funds to make distributions sufficient to enable us to satisfy the REIT distribution requirement and to avoid corporate income tax and the 4% excise tax in a particular year.

We may be subject to adverse legislative or regulatory tax changes that could reduce the market price of our common stock.

At any time, the federal income tax laws governing REITs or the administrative interpretations of those laws may change. Any such changes may have retroactive effect, and could adversely affect us or our stockholders. Legislation enacted in 2003 and extended in 2006 generally reduced the federal income tax rate on most dividends paid by corporations to individual investors to a maximum of 15% (through 2010). REIT dividends, with limited exceptions, will not benefit from the rate reduction, because a REIT's income generally is not subject to corporate level tax. As such, this legislation could cause shares in non-REIT corporations to be a more attractive investment to individual investors than shares in REITs, and could have an adverse effect on the value of our common stock.

Restrictions on share accumulation in REITs could discourage a change of control of us.

In order for us to qualify as a REIT, not more than 50% of the value of our outstanding shares of capital stock may be owned, directly or indirectly, by five or fewer individuals during the last half of a taxable year.

In order to prevent five or fewer individuals from acquiring more than 50% of our outstanding shares and a resulting failure to qualify as a REIT, our charter provides that, subject to certain exceptions, no person, including entities, may own, or be deemed to own by virtue of the attribution provisions of the Internal Revenue Code, more than 7.0% of the aggregate value or number of shares (whichever is more restrictive) of our outstanding common stock, or more than 7.0%, by value, of our outstanding shares of capital stock of all classes, in the aggregate. For purposes of the ownership limitations, warrants held by a person will be deemed to have been exercised if such exercise would result in a violation of the charter provisions.

Shares of our stock that would otherwise be directly or indirectly acquired or held by a person in violation of the ownership limitations are, in general, automatically transferred to a trust for the benefit of a charitable

beneficiary, and the purported owner's interest in such shares is void. In addition, any person who acquires shares in excess of these limits is obliged to immediately give written notice to us and provide us with any information we may request in order to determine the effect of the acquisition on our status as a REIT.

While these restrictions are designed to prevent any five individuals from owning more than 50% of our shares, they could also discourage a change in control of our company. These restrictions may also deter tender offers that may be attractive to stockholders or limit the opportunity for stockholders to receive a premium for their shares if an investor makes purchases of shares to acquire a block of shares.

Moreover, the current level of the ownership limit that applies to our stockholders, generally 7.0%, is such that in conjunction with the exemptions described above that were granted to Messrs. Kaufman and Kojaian, if individuals were to acquire stock in the maximum amounts thereby permitted, our ability to qualify as a REIT could be jeopardized. We believe that the actual ownership of our stock has complied with the REIT qualification requirements, and we expect to be able to maintain such compliance in the future. Nevertheless, no assurance can be given that future ownership of our stock will be such that we will be able to maintain our qualification as a REIT.

Complying with REIT requirements may limit our ability to hedge effectively.

The REIT provisions of the Internal Revenue Code may limit our ability to hedge our operations. Under current law, income that we generate from derivatives or other transactions intended to hedge various risks may be treated as non-qualifying income for purposes of the REIT income tests, unless certain requirements are met, and our position in such a hedging or derivative transaction, to the extent that it has positive value, may be treated as a non-qualifying asset for purposes of the REIT asset tests. As a result of these rules, we may have to limit our use of hedging techniques that might otherwise be advantageous, which could result in greater risks associated with interest rate or other changes than we would otherwise incur.

ITEM 7. **MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

You should read the following discussion in conjunction with the sections of this report entitled "Risk Factors", "Forward-Looking Statements", and "Selected Consolidated Financial Information of Arbor Realty Trust, Inc. and Subsidiaries" and the historical consolidated financial statements of Arbor Realty Trust, Inc. and Subsidiaries, including related notes, included elsewhere in this report.

Overview

We are a Maryland corporation that was formed in June 2003 to invest in multi-family and commercial real estate-related bridge loans, junior participating interests in first mortgages, mezzanine loans, preferred and direct equity and, in limited cases, discounted mortgage notes and other real estate-related assets, which we refer to collectively as structured finance investments. We have also invested in mortgage-related securities. We conduct substantially all of our operations through our operating partnership and its wholly-owned subsidiaries.

Our operating performance is primarily driven by the following factors:

- *Net interest income earned on our investments* — Net interest income represents the amount by which the interest income earned on our assets exceeds the interest expense incurred on our borrowings. If the yield earned on our assets decreases or the cost of borrowings increases, this will have a negative impact on earnings. However, if the yield earned on our assets increases or the cost of borrowings decreases, this will have a positive impact on earnings. Net interest income is also directly impacted by the size and performance of our asset portfolio. See "Current Market Conditions, Risks and Recent Trends" below for risks and trends of our net interest income.
- *Credit quality of our assets* — Effective asset and portfolio management is essential to maximize the performance and value of a real estate/mortgage investment. Maintaining the credit quality of our loans and investments is of critical importance. Loans that do not perform in accordance with their terms may have a negative impact on earnings and liquidity.
- *Cost control* — We seek to minimize our operating costs, which consist primarily of employee compensation and related costs, management fees and other general and administrative expenses. If there are increases in foreclosures and non-performing loans and investments, certain of these expenses, particularly employee compensation expenses and asset management related expenses, may increase.

We are organized and conduct our operations to qualify as a real estate investment trust, or a REIT and to comply with the provisions of the Internal Revenue Code with respect thereto. A REIT is generally not subject to federal income tax on that portion of its REIT-taxable income which is distributed to its stockholders provided that at least 90% of its REIT-taxable income is distributed and provided that certain other requirements are met. Additionally, under the terms of certain financing agreements, annual dividends are required to be paid in the form of our stock to the maximum extent permissible (currently 90%), with the balance payable in cash. Certain of our assets that produce non-qualifying income may be held in taxable REIT subsidiaries. Unlike other subsidiaries of a REIT, the income of a taxable REIT subsidiary is subject to Federal and state income taxes. For the year ended December 31, 2009, we did not record a provision for income taxes related to the assets that are held in taxable REIT subsidiaries.

On July 1, 2003, ACM, our manager, contributed \$213.1 million of structured finance assets, encumbered by \$169.2 million of borrowings in exchange for an equity interest in our operating partnership represented by 3,146,724 units of limited partnership interest and 629,345 warrants to acquire additional units of limited partnership interest. In addition, certain employees of ACM became our employees. We are externally managed and advised by ACM and pay ACM a management fee in accordance with a management agreement. ACM originates, underwrites and services all structured finance assets on behalf of our operating partnership.

Concurrently with ACM's asset contribution, we consummated a private placement of 1.6 million units, each consisting of five shares of our common stock and one warrant to purchase one share of common stock, for \$75.00

per unit, resulting in gross proceeds of \$120.2 million. Gross proceeds from the private placement combined with the concurrent equity contribution by ACM totaled approximately \$164.1 million in equity capital.

On April 13, 2004, we sold 6,750,000 shares of our common stock at a price to the public of \$20.00 per share, for net proceeds of approximately \$124.4 million after deducting the underwriting discount and other estimated offering expenses. On May 11, 2004, we issued and sold 524,200 additional shares of common stock, for net proceeds of approximately \$9.8 million after deducting the underwriting discount pursuant to the exercise of a portion of the over-allotment option granted to the underwriters of our initial public offering. As of December 31, 2005, we issued 1,256,130 shares of common stock from the exercise of warrants originally issued as a component of units on July 1, 2003, for proceeds of \$17.1 million. In addition, in June 2007, we issued 2,700,000 shares of common stock in a public offering at a price of \$27.65 per share, for net proceeds of approximately \$73.6 million.

Current Market Conditions, Risks and Recent Trends

Global stock and credit markets have experienced prolonged price volatility, dislocations and liquidity disruptions, which have caused market prices of many stocks to fluctuate substantially and the spreads on prospective debt financings to widen considerably. Commercial real estate classes in general have been adversely affected by this prolonged economic downturn and liquidity crisis. If this continues, the commercial real estate sector will likely experience additional losses, challenges in complying with the terms of financing agreements, decreased net interest spreads, and additional difficulties in raising capital and obtaining investment financing with attractive terms or at all.

These circumstances have materially impacted liquidity in the financial markets and have resulted in the scarcity of certain types of financing, and, in some cases, making terms for available financings less attractive. If these conditions persist, lending institutions may be forced to exit markets such as repurchase lending, become insolvent, further tighten their lending standards or increase the amount of equity capital required to obtain financing, and in such event, could make it more difficult for us to obtain financing on favorable terms or at all. Our profitability will be adversely affected if we are unable to obtain cost-effective financing for our investments. A prolonged downturn in the stock or credit markets may cause us to seek alternative sources of potentially less attractive financing, and may require us to adjust our business plan accordingly. During the third quarter of 2009, we restructured substantially all of our short-term debt for three years at costs of financing higher than previous rates. This has and will continue to have a negative impact on our net interest margins. In addition, these factors may make it more difficult for our borrowers to repay our loans as they may experience difficulties in selling assets, increased costs of financing or obtaining financing at all. These events in the stock and credit markets may also make it more difficult or unlikely for us to raise capital through the issuance of our common stock or preferred stock. These disruptions in the financial markets also may have a material adverse effect on the market value of our common stock and other adverse effects on us or the economy in general.

This environment has undoubtedly had a significant impact on our business, our borrowers and real estate values throughout all asset classes and geographic locations. Declining real estate values will likely continue to minimize our level of new mortgage loan originations, since borrowers often use increases in the value of their existing properties to support the purchase or investment in additional properties. Borrowers may also be less able to pay principal and interest on our loans if the real estate economy continues to weaken. Declining real estate values also significantly increase the likelihood that we will continue to incur losses on our loans in the event of default because the value of our collateral may be insufficient to cover our cost on the loan. Any sustained period of increased payment delinquencies, foreclosures or losses could adversely affect both our net interest income from loans in our portfolio as well as our ability to originate, sell and securitize loans, which would significantly harm our revenues, results of operations, financial condition, business prospects and our ability to make distributions to the stockholders. In addition, our investments are also subject to the risks described above with respect to commercial real estate loans and mortgage-backed securities and similar risks, including risks of delinquency and foreclosure, the dependence upon the successful operation of, and net income from, real property, risks generally related to interests in real property, and risks that may be presented by the type and use of a particular commercial property. During the first, second, third and fourth quarters of fiscal year 2009, respectively, we recorded \$67.5 million, \$23.0 million, \$51.0 million and \$99.8 million of new provisions for loan losses for a total of \$241.3 million, due to declining collateral values, and \$9.0 million, \$23.8 million, \$0.3 million and \$24.5 million of losses on restructured

loans for a total of \$57.6 million in 2009. During the first three quarters of fiscal year 2008, we recorded \$8.0 million of provisions for loan losses and \$124.0 million in the fourth quarter for a total of \$132.0 million, and no loss on restructured loans was recorded in 2008. We have made, and continue to make modifications and extensions to loans when it is economically feasible to do so. In some cases, modification is a more viable alternative to foreclosure proceedings when a borrower can not comply with loan terms. In doing so, lower borrower interest rates, combined with non-performing loans, will lower our net interest margins when comparing interest income to our costs of financing. These trends may persist with a prolonged economic recession and we feel that there will be continued modifications and delinquencies in the foreseeable future, which will result in reduced net interest margins and additional losses throughout our sector.

Commercial real estate financing companies have been severely impacted by the current economic environment and have had very little access to the capital markets or the debt markets in order to meet their existing obligations or to refinance maturing debt. We have responded to these troubled times by decreasing investment activity for capital preservation, aggressively managing our assets through restructuring and extending our debt facilities and repurchasing our previously issued debt at discounts when economically feasible. In order to accomplish these goals, we have worked closely with our borrowers in restructuring our loans, receiving payoffs and paydowns and monetizing our investments as appropriate. Additionally, as mentioned above, we were successful in restructuring our short-term debt facilities, and, based on available liquidity and market opportunities, have from time to time repurchased our debt at a discount. Also, in 2010, we entered into an agreement with Wachovia Bank, National Association to retire our outstanding debt for \$113.9 million at any time on or before an extended payoff date of August 27, 2010 and we retired \$114.1 million of our junior subordinated notes for the re-issuance of certain of our own CDO bonds, as well as other assets. We will continue to remain focused on executing these strategies when appropriate and where available as this significant economic downturn persists.

Refer to Item 1A “Risk Factors” above and Item 7A. “Quantitative and Qualitative Disclosures About Market Risk” below for additional risk factors.

Sources of Operating Revenues

We derive our operating revenues primarily from interest received from making real estate-related bridge, mezzanine and junior participation loans and preferred equity investments. Interest income earned on these loans and investments represented approximately 95%, 97% and 90% of our total revenues in 2009, 2008 and 2007, respectively.

Interest income is also derived from profits on equity participation interests. No such income was recognized in 2009. In 2008 and 2007 interest income from participation interests represented approximately 1% and 10% of total revenues, respectively.

We also derive interest income from our investments in commercial real estate (“CRE”) collateralized debt obligation bond securities and commercial mortgage-backed securities (“CMBS”). Interest on these investments represented 4% and 2% of our total revenues in 2009 and 2008, respectively, and less than 1% of our total revenues in 2007.

Property operating income is derived from our real estate owned. In 2009, property operating income represented 1% of total revenue. No such income was recognized in 2008 and 2007.

Additionally, we derive operating revenues from other income that represents loan structuring and defeasance fees, and miscellaneous asset management fees associated with our loans and investments portfolio. Revenue from other income represented less than 1% of our total revenues in 2009, 2008 and 2007.

Loss or Income from Equity Affiliates and Gain on Sale of Loans and Real Estate

We derive loss or income from equity affiliates relating to joint ventures that were formed with equity partners to acquire, develop and/or sell real estate assets. These joint ventures are not majority owned or controlled by us, and are not consolidated in our financial statements. These investments are recorded under either the equity or cost method of accounting as appropriate. We record our share of net income and losses from the underlying properties and any other-than-temporary impairment of these investments on a single line item in the consolidated statements

of operations as loss or income from equity affiliates. In 2009 and 2008, loss from equity affiliates totaled \$0.4 million and \$2.3 million, respectively. In 2007, income from equity affiliates totaled \$34.6 million.

We also may derive income or losses from the sale of loans and real estate. We may acquire (1) real estate for our own investment and, upon stabilization, disposition at an anticipated return and (2) real estate notes generally at a discount from lenders in situations where the borrower wishes to restructure and reposition its short-term debt and the lender wishes to divest certain assets from its portfolio. No such income or loss has been recorded to date.

Significant Accounting Estimates and Critical Accounting Policies

Management's discussion and analysis of financial condition and results of operations is based upon our consolidated financial statements, which have been prepared in accordance with U.S. Generally Accepted Accounting Principles ("GAAP"). The preparation of financial statements in conformity with GAAP requires the use of estimates and assumptions that could affect the reported amounts in our consolidated financial statements. Actual results could differ from these estimates. A summary of our significant accounting policies is presented in Note 2 of the "Notes to Consolidated Financial Statements" set forth in Item 8 hereof. Set forth below is a summary of the accounting policies that management believes are critical to the preparation of the consolidated financial statements included in this report. Certain of the accounting policies used in the preparation of these consolidated financial statements are particularly important for an understanding of the financial position and results of operations presented in the historical consolidated financial statements included in this report and require the application of significant judgment by management and, as a result, are subject to a degree of uncertainty.

Loans and Investments

At the time of purchase, we designate a security as held-to-maturity, available-for-sale, or trading depending on ability and intent to hold. We do not have any trading securities at this time. Securities available-for-sale are reported at fair value, while securities and investments held-to-maturity are reported at amortized cost. Unrealized losses that are determined to be other-than-temporary are recognized in earnings. The determination of other-than-temporary impairment is a subjective process requiring judgments and assumptions. The process may include, but is not limited to, assessment of recent market events and prospects for near term recovery, assessment of cash flows, internal review of the underlying assets securing the investments, credit of the issuer and the rating of the security, as well as our ability and intent to hold the investment. We closely monitor market conditions on which we base such decisions.

We also assess certain of our held-to-maturity securities, other than those of high credit quality, to determine whether significant changes in estimated cash flows or unrealized losses on these securities reflect a decline in value which is other-than-temporary; accordingly, such securities are written down to fair value against earnings. On a quarterly basis, we review these changes in estimated cash flows, which could occur due to actual prepayment and credit loss experience, to determine if an other-than-temporary impairment is deemed to have occurred. The determination of other-than-temporary impairment is a subjective process requiring judgments and assumptions. We calculate a revised yield based on the current amortized cost of the investment, including any other-than-temporary impairments recognized to date, and the revised yield is then applied prospectively to recognize interest income.

Loans held for investment are intended to be held-to-maturity and, accordingly, are carried at cost, net of unamortized loan origination costs and fees, loan purchase discounts, and allowance for loan losses when such loan or investment is deemed to be impaired. We invest in preferred equity interests that, in some cases, allow us to participate in a percentage of the underlying property's cash flows from operations and proceeds from a sale or refinancing. At the inception of each such investment, management must determine whether such investment should be accounted for as a loan, joint venture or as real estate. To date, management has determined that all such investments are properly accounted for and reported as loans.

Impaired Loans and Allowance for Loan Losses

Loans are considered impaired when, based upon current information and events, it is probable that we will be unable to collect all amounts due for both principal and interest according to the contractual terms of the loan

agreement. Specific valuation allowances are established for impaired loans based on the fair value of collateral on an individual loan basis. The fair value of the collateral is determined by selecting the most appropriate valuation methodology, or methodologies, among several generally available and accepted in the commercial real estate industry. The determination of the most appropriate valuation methodology is based on the key characteristics of the collateral type. These methodologies include the evaluation of operating cash flow from the property during the projected holding period, and estimated sales value of the collateral computed by applying an expected capitalization rate to the stabilized net operating income of the specific property, less selling costs, discounted at market discount rates.

If upon completion of the valuation, the fair value of the underlying collateral securing the impaired loan is less than the net carrying value of the loan, an allowance is created with a corresponding charge to the provision for loan losses. The allowance for each loan is maintained at a level believed adequate by management to absorb probable losses. We had a \$326.3 million allowance for loan losses at December 31, 2009 related to 31 loans in our portfolio with an aggregate carrying value of approximately \$693.7 million, before reserves. At December 31, 2008, we had a \$130.5 million allowance for loan losses related to ten loans in our portfolio with an aggregate carrying value of approximately \$443.2 million, before reserves.

Repurchase Obligations

In certain circumstances, we have financed the purchase of investments from a counterparty through a repurchase agreement with that same counterparty. We currently record these investments in the same manner as other investments financed with repurchase agreements, with the investment recorded as an asset and the related borrowing under the repurchase agreement as a liability on our consolidated balance sheet. Interest income earned on the investments and interest expense incurred on the repurchase obligations are reported separately on the consolidated statement of operations. These transactions may not qualify as a purchase by us under current accounting guidance, which is effective for fiscal years beginning after November 15, 2008. We would be required to present the net investment on our balance sheet as a derivative with the corresponding change in fair value of the derivative being recorded in the statement of operations when certain criteria to treat these transactions as part of the same arrangements (linked transactions) are met. The value of the derivative would reflect not only changes in the value of the underlying investment, but also changes in the value of the underlying credit provided by the counterparty. The guidance applies to prospective transactions, and no such transactions have been recorded in this manner in 2009.

Capitalized Interest

We capitalize interest related to investments (equity, loans and advances) accounted for by the equity method as qualifying assets of the investor while the investee has activities in progress necessary to commence its planned principal operations, provided that the investee's activities include the use of funds to acquire qualifying assets for its operations. One of our joint ventures, which is accounted for using the equity method, has used funds to acquire qualifying assets for its planned principal operations. During 2007, the joint venture sold both of the acquired properties and we discontinued the capitalization of interest on its remaining investment in the joint venture. We did not capitalize interest during the years ended December 31, 2009 and 2008, and we capitalized \$0.3 million of interest during the year ended December 31, 2007 relating to this investment.

Real Estate Owned and Held-For-Sale

Real estate owned, shown net of accumulated depreciation, is comprised of real property acquired by foreclosure or deed in lieu of foreclosure. Real estate acquired by foreclosure or deed in lieu of foreclosure is recorded at the lower of the net carrying value of the loan previously collateralized by the real estate or estimated fair value of the real estate at the time of foreclosure or delivery of a deed in lieu of foreclosure. The net carrying value is the unpaid principal balance of the loan, adjusted for any unamortized deferred fees, loan loss allowances and amounts previously due to borrower.

[Table of Contents](#)

Costs incurred in connection with the foreclosure of the properties collateralizing the real estate loans are expensed as incurred and costs subsequently incurred to extend the life or improve the assets subsequent to foreclosure are capitalized.

We allocate the purchase price of operating properties to land, building, tenant improvements, deferred lease cost for the origination costs of the in-place leases and to intangibles for the value of the above or below market leases at fair value. We amortize the value allocated to the in-place leases over the remaining lease term. The value allocated to the above or below market leases are amortized over the remaining lease term as an adjustment to rental income.

Real estate assets, including assets acquired by foreclosure or deed in lieu of foreclosure that are operated for the production of income are depreciated using the straight-line method over their estimated useful lives. Ordinary repairs and maintenance which are not reimbursed by the tenants are expensed as incurred. Major replacements and betterments which improve or extend the life of the asset are capitalized and depreciated over their estimated useful life.

We recognize impairment of real estate assets operated for the production of income if the estimated undiscounted cash flows generated by the assets are less than the carrying amount of the assets. Measurement of impairment is based upon the estimated fair value of the assets. Upon evaluating a property, many factors are considered, including estimated current and expected operating cash flow from the property during the projected holding period, costs necessary to extend the life or improve the asset, expected capitalization rates, projected stabilized net operating income, selling costs, and the ability to hold and dispose of such real estate owned in the ordinary course of business. Valuation adjustments may be necessary in the event that effective interest rates, rent-up periods, future economic conditions, and other relevant factors vary significantly from those assumed in valuing the property. If future evaluations result in a diminution in the value of the property, the reduction will be recognized as an impairment charge at that time.

Real estate is classified as held-for-sale when management commits to a plan of sale, the asset is available for immediate sale, there is an active program to locate a buyer, and it is probable the sale will be complete within one year. Properties classified as held for sale are not depreciated and the results of their operations are shown in discontinued operations. Real estate assets that are expected to be disposed of are valued at the lower of the carrying amount or their fair value less costs to sell on an individual asset basis.

We recognize sales of real estate properties only upon closing. Payments received from purchasers prior to closing are recorded as deposits. Profit on real estate sold is recognized using the full accrual method upon closing when the collectability of the sale price is reasonably assured and we are not obligated to perform significant activities after the sale. Profit may be deferred in whole or in part until collectability of the sales price is reasonably assured and the earnings process is complete.

Revenue Recognition

Interest Income. Interest income is recognized on the accrual basis as it is earned from loans, investments and securities. In many instances, the borrower pays an additional amount of interest at the time the loan is closed, an origination fee, and deferred interest upon maturity. In some cases, interest income may also include the amortization or accretion of premiums and discounts arising from the purchase or origination of the loan or security. This additional income, net of any direct loan origination costs incurred, is deferred and accreted into interest income on an effective yield or "interest" method adjusted for actual prepayment activity over the life of the related loan or security as a yield adjustment. Income recognition is suspended for loans when, in the opinion of management, a full recovery of income and principal becomes doubtful. Income recognition is resumed when the loan becomes contractually current and performance is demonstrated to be resumed. Several of the loans provide for accrual of interest at specified rates, which differ from current payment terms. Interest is recognized on such loans at the accrual rate subject to management's determination that accrued interest and outstanding principal are ultimately collectible, based on the underlying collateral and operations of the borrower. If management cannot make this determination regarding collectability, interest income above the current pay rate is recognized only upon actual receipt. Additionally, interest income is recorded when earned from equity participation interests, referred to as equity kickers. These equity kickers have the potential to generate additional revenues to us as a result of excess

cash flows being distributed and/or as appreciated properties are sold or refinanced. We did not record interest income on such investments for the year ended December 31, 2009, as compared to \$1.0 million and \$30.0 million of interest on such loans and investments for the years ended December 31, 2009 and 2008, respectively.

Property operating income. Property operating income represents income associated with the operation of two commercial real estate properties recorded as real estate owned. For the years ended December 31, 2009, we recorded approximately \$0.9 million of property operating income relating to real estate owned. At September 30, 2009, one of our three real estate investments was reclassified from real estate owned to real estate held-for-sale and resulted in a reclassification from property operating income into discontinued operations for the current and all prior periods. We did not have property operating income in 2008 and 2007 due to the subsequent reclassification to discontinued operations. For more details see Note 7 of the “Notes to Consolidated Financial Statements” set forth in Item 8 hereof.

Stock-Based Compensation

We record stock-based compensation expense at the grant date fair value of the related stock-based award. We measure the compensation costs for these shares as of the date of the grant, with subsequent remeasurement for any unvested shares granted to non-employees with such amounts expensed against earnings, at the grant date (for the portion that vest immediately) or ratably over the respective vesting periods. The cost of these grants is amortized over the vesting term. Dividends are paid on the restricted shares as dividends are paid on shares of our common stock whether or not they are vested. Stock-based compensation was disclosed in our Consolidated Statement of Operations under “employee compensation and benefits” for employees and under “selling and administrative” expense for non-employees.

Income Taxes

We are organized and conduct our operations to qualify as a REIT and to comply with the provisions of the Internal Revenue Code with respect thereto. A REIT is generally not subject to federal income tax on taxable income which is distributed to its stockholders, provided that at least 90% of taxable income is distributed and provided that certain other requirements are met. Certain of our assets that produce non-qualifying income are held in taxable REIT subsidiaries. Unlike other subsidiaries of a REIT, the income of a taxable REIT subsidiary is subject to federal and state income taxes.

Current accounting guidance clarifies the accounting for uncertainty in income taxes recognized in an enterprise’s financial statements. This guidance prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. This guidance also provides clarity on derecognition, classification, interest and penalties, accounting in interim periods and disclosure.

Variable Interest Entities

Current accounting guidance requires a variable interest entity (“VIE”) to be consolidated by its primary beneficiary (“PB”). The PB is the party that absorbs a majority of the VIE’s anticipated losses and/or a majority of the expected returns.

On a quarterly basis, we evaluate our loans and investments, mortgage related securities and investments in equity affiliates to determine whether they are VIEs. This evaluation resulted in us determining that our bridge loans, junior participation loans, mezzanine loans, preferred equity investments and investments in equity affiliates were potential variable interests. For each of these investments, we have evaluated (1) the sufficiency of the fair value of the entities’ equity investments at risk to absorb losses, (2) that as a group the holders of the equity investments at risk have (a) the direct or indirect ability through voting rights to make decisions about the entities’ significant activities, (b) the obligation to absorb the expected losses of the entity and their obligations are not protected directly or indirectly, (c) the right to receive the expected residual return of the entity and their rights are not capped, (3) substantially all of the entities’ activities do not involve or are not conducted on behalf of an investor that has disproportionately fewer voting rights in terms of its obligation to absorb the expected losses or its right to receive expected residual returns of the entity, or both.

Entities that issue junior subordinated notes are considered VIEs. However, it is not appropriate to consolidate these entities, as equity interests are variable interests only to the extent that the investment is considered to be at risk. Since our investments were funded by the entities that issued the junior subordinated notes, they are not considered to be at risk. In addition, we have evaluated our investments in collateralized debt obligation securities and have determined that the issuing entities are considered VIEs, but have determined that we are not the primary beneficiary.

We will be required to follow updated accounting guidance beginning with the first quarter of 2010, by prescribing an ongoing qualitative rather than quantitative assessment of our ability to direct the activities of a variable interest entity that most significantly impact the entity's economic performance and our rights or obligations to receive benefits or absorb losses, in order to determine whether those entities will be required to be consolidated in our Consolidated Financial Statements. We do not expect the adoption of this guidance to have a material effect on our Consolidated Financial Statements.

As of December 31, 2009, we have identified 39 loans and investments which were made to entities determined to be VIEs with an aggregate carrying amount of \$807.3 million. These VIE entities had exposure to real estate debt of approximately \$3.3 billion at December 31, 2009. For the 39 VIEs identified, we have determined that we are not the primary beneficiaries and as such the VIEs should not be consolidated in our financial statements. For all other investments, we have determined they are not VIEs. As such, we have continued to account for these loans and investments as a loan or joint venture, as appropriate. A summary of our identified VIEs is presented in Note 10 of the "Notes to Consolidated Financial Statements" set forth in Item 8 hereof.

Derivatives and Hedging Activities

The carrying values of interest rate swaps and the underlying hedged liabilities are reflected at their fair value. Changes in the fair value of these derivatives are either offset against the change in the fair value of the hedged liability through earnings or recognized in other comprehensive income (loss) until the hedged item is recognized in earnings. The ineffective portion of a derivative's change in fair value is immediately recognized in earnings. Derivatives that do not qualify for cash flow hedge accounting treatment are adjusted to fair value through earnings.

We record all derivatives on the balance sheet at fair value. Additionally, the accounting for changes in the fair value of derivatives depends on the intended use of the derivative, whether a company has elected to designate a derivative in a hedging relationship and apply hedge accounting and whether the hedging relationship has satisfied the criteria necessary to apply hedge accounting. Derivatives designated and qualifying as a hedge of the exposure to changes in the fair value of an asset, liability, or firm commitment attributable to a particular risk, such as interest rate risk, are considered fair value hedges. Derivatives designated and qualifying as a hedge of the exposure to variability in expected future cash flows, or other types of forecasted transactions, are considered cash flow hedges. Hedge accounting generally provides for the matching of the timing of gain or loss recognition on the hedging instrument with the recognition of the changes in the fair value of the hedged asset or liability that are attributable to the hedged risk in a fair value hedge or the earnings effect of the hedged forecasted transactions in a cash flow hedge. We may enter into derivative contracts that are intended to economically hedge certain of our risk, even though hedge accounting does not apply or we elect not to apply hedge accounting.

During the year ended December 31, 2009, we entered into one new interest rate swap that qualifies as a cash flow hedge with a notional value of approximately \$45.1 million and paid \$1.7 million, which will be amortized into interest expense over the life of the swap. During the year ended December 31, 2008, we entered into six interest rate swaps, which qualify as cash flow hedges, having a total combined notional value of approximately \$121.6 million. During the year ended December 31, 2009, we terminated six interest rate swaps related to our restructured trust preferred securities, with a combined notional value of \$140.0 million, for a loss of \$8.7 million recorded to loss on termination of swaps on our Consolidated Statement of Operations. Refer to the section titled "Liquidity and Capital Resources — Junior Subordinated Notes" below. During the year ended December 31, 2009, we also terminated two interest rate swaps with a combined notional value of approximately \$78.1 million and a \$33.5 million portion of an interest rate swap with a total notional value of approximately \$67.0 million. Additionally, one basis swap with a notional amount of \$37.2 million matured and one basis swap and one interest rate swap had partially amortizing maturities totaling approximately \$221.7 million. The remaining losses

on termination will be amortized to interest expense over the original life of the hedging instruments. The fair value of our qualifying hedge portfolio has increased by approximately \$50.8 million from December 31, 2008 as a result of the terminated and matured swaps, combined with a change in the projected LIBOR rates and credit spreads of both parties.

Because the valuations of our hedging activities are based on estimates, the fair value may change. For the effect of hypothetical changes in market interest rates on our interest rate swaps, see “Interest Rate Risk” in “Quantitative and Qualitative Disclosures About Market Risk”, set forth in Item 7A hereof.

Fair Value Measurements

Current accounting guidance for financial assets and liabilities defines fair value, provides guidance for measuring fair value and requires certain disclosures. This standard does not require any new fair value measurements, but rather applies to all other accounting pronouncements that require or permit fair value measurements.

Fair value is defined as the price at which an asset could be exchanged in a current transaction between knowledgeable, willing parties. A liability’s fair value is defined as the amount that would be paid to transfer the liability to a new obligor, not the amount that would be paid to settle the liability with the creditor. Where available, fair value is based on observable market prices or parameters or derived from such prices or parameters. Where observable prices or inputs are not available, valuation models are applied. These valuation techniques involve some level of management estimation and judgment, the degree of which is dependent on the price transparency for the instruments or market and the instruments’ complexity.

Assets and liabilities disclosed at fair value are categorized based upon the level of judgment associated with the inputs used to measure their fair value. Hierarchical levels, defined by the guidance and directly related to the amount of subjectivity associated with the inputs to fair valuation of these assets and liabilities, are as follows:

- Level 1 — Inputs are unadjusted, quoted prices in active markets for identical assets or liabilities at the measurement date. The types of assets and liabilities carried at Level 1 fair value generally are government and agency securities, equities listed in active markets, investments in publicly traded mutual funds with quoted market prices and listed derivatives.
- Level 2 — Inputs (other than quoted prices included in Level 1) are either directly or indirectly observable for the asset or liability through correlation with market data at the measurement date and for the duration of the instrument’s anticipated life. Level 2 inputs include quoted market prices in markets that are not active for an identical or similar asset or liability, and quoted market prices in active markets for a similar asset or liability. Fair valued assets and liabilities that are generally included in this category are non-government securities, municipal bonds, certain hybrid financial instruments, certain mortgage and asset backed securities including CDO bonds, certain corporate debt, certain commitments and guarantees, certain private equity investments and certain derivatives.
- Level 3 — Inputs reflect management’s best estimate of what market participants would use in pricing the asset or liability at the measurement date. These valuations are based on significant unobservable inputs that require a considerable amount of judgment and assumptions. Consideration is given to the risk inherent in the valuation technique and the risk inherent in the inputs to the model. Generally, assets and liabilities carried at fair value and included in this category are certain mortgage and asset-backed securities, certain corporate debt, certain private equity investments, certain municipal bonds, certain commitments and guarantees and certain derivatives.

Determining which category an asset or liability falls within the hierarchy requires significant judgment and we evaluate our hierarchy disclosures each quarter.

At December 31, 2009, we measured certain financial assets and financial liabilities at fair value on a recurring basis, including available-for-sale securities and derivative financial instruments. Fair values of our derivative financial instruments were approximated on current market data received from financial sources that trade such instruments and are based on prevailing market data and derived from third party proprietary models based on well

recognized financial principles and reasonable estimates about relevant future market conditions. These items were included in other assets and other liabilities on the consolidated balance sheet. We incorporated credit valuation adjustments in the fair values of our derivative financial instruments to reflect counterparty nonperformance risk. In addition, the fair value of our available-for-sale securities were approximated on current market quotes received from financial sources that trade such securities.

At December 31, 2009, we measured certain financial assets and financial liabilities at fair value on a nonrecurring basis, including loans and securities held-to-maturity. Fair values of loans were estimated using discounted cash flow methodology, using discount rates, which, in the opinion of management, best reflect current market interest rates that would be offered for loans with similar characteristics and credit quality. Loans are designated as held for investment and are intended to be held to maturity and, accordingly, are carried at cost, net of unamortized loan origination costs and fees, loan purchase discounts, and net of the allowance for loan losses when such loan or investment is deemed to be impaired. We consider a loan impaired when, based upon current information and events, it is probable that we will be unable to collect all amounts due for both principal and interest according to the contractual terms of the loan agreement. We perform evaluations of our loans to determine if the fair value of the underlying collateral securing the impaired loan is less than the net carrying value of the loan, which may result in an allowance and corresponding charge to the provision for loan losses. In addition, the fair values of our securities-held-to maturity were approximated on current market quotes received from financial sources that trade such securities.

Recently Issued Accounting Pronouncements

In February 2010, the Financial Accounting Standards Board (“FASB”) issued updated guidance on subsequent events which states that disclosure of the date through which subsequent events have been evaluated, the issuance date of the financial statements, is no longer required. This guidance is effective upon issuance and its adoption did not have a material effect on our Consolidated Financial Statements.

In January 2010, the FASB issued updated guidance on fair value measurements and disclosures, which requires disclosure of details of significant asset or liability transfers in and out of Level 1 and Level 2 measurements within the fair value hierarchy and inclusion of gross purchases, sales, issuances, and settlements in the rollforward of assets and liabilities valued using Level 3 inputs within the fair value hierarchy. The guidance also clarifies and expands existing disclosure requirements related to the disaggregation of fair value disclosures and inputs used in arriving at fair values for assets and liabilities using Level 2 and Level 3 inputs within the fair value hierarchy. This guidance is effective for interim and annual reporting periods beginning after December 15, 2009, except for the gross presentation of the Level 3 rollforward, which is required for annual reporting periods beginning after December 15, 2010 and for interim periods within those years. We do not expect the adoption of this guidance to have a material effect on our Consolidated Financial Statements.

In January 2010, the FASB issued updated guidance on accounting for distributions to shareholders with components of stock and cash, which clarifies the treatment of the stock portion of a distribution to shareholders that allows the election to receive cash or stock. This guidance is effective for interim and annual reporting periods beginning after December 15, 2009. We do not expect the adoption of this guidance to have a material effect on our Consolidated Financial Statements.

In August 2009, the FASB issued updated guidance on the fair value measurement of liabilities not exchanged in an orderly transaction. This guidance is effective for the first reporting period (including interim periods) beginning after issuance. The adoption of this guidance did not have a material effect on our Consolidated Financial Statements.

In June 2009, the FASB issued “The FASB Accounting Standards Codification[™] and the Hierarchy of Generally Accepted Accounting Principles” (the “Codification”), which establishes the exclusive authoritative reference for accounting principles generally acceptable in the United States. The Codification simplifies the classification of accounting guidance into one online database under a common referencing system. Use of the Codification is effective for interim and annual periods ending after September 15, 2009. We began to use the Codification on the effective date, and it had no impact on our Consolidated Financial Statements. However, throughout this Form 10-K, all references to prior accounting pronouncements have been removed, and all non-SEC accounting guidance is referred to in terms of the applicable subject matter.

In June 2009, the FASB issued updated guidance related to the consolidation of variable interest entities, which changes how a reporting entity determines when an entity that is insufficiently capitalized or is not controlled through voting, or similar rights, should be consolidated. The determination of whether a reporting entity is required to consolidate another entity is based on, among other things, the other entity's purpose and design and the reporting entity's ability to direct the activities of the other entity that most significantly impact the other entity's economic performance. This new guidance will require a reporting entity to provide additional disclosures about its involvement with variable interest entities and any significant changes in risk exposure due to that involvement. These new requirements will be effective at the start of a reporting entity's first fiscal year beginning after November 15, 2009. Early application is not permitted. We will adopt these new requirements effective January 1, 2010. We do not currently expect the adoption of this guidance to have a material effect on our Consolidated Financial Statements.

In June 2009, the FASB issued updated guidance related to the accounting for transfers of financial assets. This new guidance will require more information about transfers of financial assets, including securitization transactions, and where entities have continuing exposure to the risks related to transferred financial assets. It eliminates the concept of a "qualifying special-purpose entity", changes the requirements for derecognizing financial assets and requires additional disclosures. These requirements are effective at the start of a reporting entity's first fiscal year beginning after November 15, 2009. Early application is not permitted. We will adopt these new requirements effective January 1, 2010. We do not expect the adoption of this guidance to have a material effect on our Consolidated Financial Statements.

In April 2009, the FASB issued updated guidance on initial recognition and measurement, subsequent measurement and accounting, and disclosure of assets and liabilities arising from contingencies in a business combination. This guidance applies to all assets or liabilities arising from contingencies in business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after December 15, 2008. The adoption of this guidance did not have a material effect on our Consolidated Financial Statements.

In April 2009, the FASB issued updated guidance on determining the fair value of an asset or liability when the volume and level of activity may indicate an inactive market and when transactions are not orderly. This guidance applies to all fair value measurements prospectively and is effective for interim and annual periods ending after June 15, 2009. The adoption of this guidance did not have a material effect on our Consolidated Financial Statements.

Changes in Financial Condition

Our loan portfolio balance, including our held-to-maturity securities, decreased \$473.6 million, or 21%, to \$1.8 billion at December 31, 2009, with a weighted average current interest pay rate of 4.95%, as compared to \$2.2 billion, with a weighted average current interest pay rate of 6.13%, at December 31, 2008. At December 31, 2009, advances on financing facilities totaled \$1.8 billion, with a weighted average funding cost of 3.88%, as compared to \$2.0 billion, with a weighted average funding cost of 3.51% at December 31, 2008.

In 2009, we purchased three CMBS investments at a discounted price of approximately \$12.4 million with a face amount of approximately \$17.0 million and originated three loans totaling \$3.0 million. We have received full satisfaction of 11 loans totaling \$157.3 million, which included \$21.0 million in charge-offs against loan loss reserves, \$32.8 million of losses on restructuring and \$20.7 million as a reclassification from due to borrowers. We also received partial repayment on 14 loans totaling \$122.8 million, which included \$20.3 million in charge-offs against loan loss reserves and \$24.8 million of losses on restructuring. We also refinanced and or modified 39 loans during the year totaling \$1.1 billion. In addition, 22 loans totaling approximately \$594.4 million were extended in accordance with the extension options of the corresponding loan agreements.

Since December 31, 2009, we purchased one CMBS investment at a discounted price of approximately \$4.5 million with a face amount of \$4.5 million and have not originated any new loans. We have also received \$49.0 million for the repayment in full of one loan.

Cash and cash equivalents increased \$63.8 million to \$64.6 million at December 31, 2009 compared to \$0.8 million at December 31, 2008. All highly liquid investments with original maturities of three months or less are considered to be cash equivalents. The increase was primarily due to payoffs and paydowns of our loan investments as well as cash received from an increase in the value of our interest rate swaps for which we had previously posted as cash collateral against these swaps.

Restricted cash decreased \$65.3 million, or 70%, to \$27.9 million at December 31, 2009 compared to \$93.2 million at December 31, 2008. Restricted cash is kept on deposit with the trustees for our collateralized debt obligations (“CDOs”), and primarily represents proceeds from loan repayments which will be used to purchase replacement loans as collateral for the CDOs. The decrease was primarily due to the redeployment of funds during 2009 from proceeds received from the full satisfaction of loans held in the CDO and the transfer of loans from other financing facilities to the CDOs.

Securities available-for-sale were \$0.5 million at December 31, 2009 due to two investment grade CRE collateralized debt obligation bond with a total face value of \$25.0 million, discount of \$13.4 million and fair value of \$0.4 million, reclassified from held-to-maturity to available-for-sale with an other-than-temporary impairment of \$9.8 million. We exchanged these two bonds in retiring our own junior subordinated notes in February, 2010. See “Securities Held-To-Maturity” below. In 2008, an other-than-temporary impairment of \$1.4 million was recognized on one of the investment grade CRE collateralized debt obligation bond. In 2009 and 2008, we also recorded \$0.4 million and \$16.2 million, respectively, in other-than-temporary impairment charges against our shares of common stock of Realty Finance Corporation., formerly CBRE Realty Finance, Inc., representing an adjustment to their fair value at December 31, 2009 and 2008. These securities had a fair value of \$0.1 million and \$0.5 million at December 31, 2009 and December 31, 2008, respectively. As of December 31, 2009, all of the securities available-for-sale have been in an unrealized loss position for more than twelve months. Generally accepted accounting principles in the United States (GAAP) require that all securities are evaluated periodically to determine whether a decline in their value is other-than-temporary, though it is not intended to indicate a permanent decline in value. We believe that based on recent market events and the unfavorable prospects for near-term recovery of value, that there is a lack of evidence to support the conclusion that the fair value decline is temporary. Prior to the third quarter of 2008, changes in the fair market value of our available-for-sale securities were considered unrealized gains or losses and were recorded as a component of other comprehensive income or loss. See Notes 4 and 5 of the “Notes to the Consolidated Financial Statements” set forth in Item 8 hereof for a further description of these transactions.

Securities held-to-maturity increased \$2.3 million, or 4%, to \$60.6 million at December 31, 2009 compared to \$58.2 million at December 31, 2008, as a result of purchasing \$17.0 million of investment grade CMBS for \$12.4 million during 2009. The \$4.6 million discount received on the purchases of these securities is accreted into interest income on an effective yield adjusted for actual prepayment activity over the estimated life remaining of the securities as a yield adjustment. Additionally, two investment grade CRE collateralized debt obligation bonds with a total face value of \$25.0 million and a discount of \$13.4 million were reclassified from held-to-maturity to available-for-sale. We exchanged these two bonds in the retirement of a portion of our own junior subordinated notes in February 2010, and intend to hold the remaining bonds to maturity. See “Securities Available-For-Sale” above and Notes 4 and 5 of the “Notes to the Consolidated Financial Statements” set forth in Item 8 hereof for a further description of these transactions.

Investment in equity affiliates increased \$35.6 million to \$64.9 million at December 31, 2009 compared to \$29.3 million at December 31, 2008. In June 2008, we entered into an agreement to transfer our 16.67% interest in Prime Outlets Member, LLC (“POM”), in exchange for preferred and common operating partnership units of Lightstone Value Plus REIT L.P. Upon closing this transaction in March 2009, we recorded an investment of approximately \$56.0 million for the preferred and common operating partnership units. This was partially offset by \$13.6 million of other-than-temporary impairments on equity investments in unconsolidated joint ventures, for the remaining amounts of the investments. These other-than-temporary impairments were recorded in loss from equity affiliates in our Consolidated Statements of Operations in the second and third quarters of 2009, respectively. In addition, in May 2009, we retired \$7.4 million of common equity and corresponding trust preferred securities in connection with the restructuring of our junior subordinated notes, reducing our investment in these entities to \$0.6 million at December 31, 2009. In August 2009, we exchanged our remaining 7.5% equity interest in Prime

Outlets at a value of approximately \$10.7 million, in exchange for preferred and common operating partnership units of Lightstone Value Plus REIT L.P. and cash consideration. We received distributions of proceeds of \$9.9 million, resulting in a net investment of \$0.9 million in this unconsolidated joint venture as of September 30, 2009. See Note 6 of the “Notes to the Consolidated Financial Statements” set forth in Item 8 hereof for further details.

Real estate owned decreased \$38.3 million to \$8.2 million at December 31, 2009 compared to \$46.5 million at December 31, 2008. In the second quarter of 2009, we foreclosed on a property secured by a \$4.0 million bridge loan and as a result, we recorded \$2.9 million on our balance sheet as real estate owned, at fair value and in the third quarter of 2009, we foreclosed on a property secured by a \$9.9 million bridge loan and recorded \$9.9 million on our consolidated balance sheet as real estate owned, at fair value. During the third quarter of 2009, we mutually agreed with a first mortgage lender to appoint a receiver to operate one of our real estate owned investments and we are working to assist in the transfer of title to the first mortgage lender. As a result, this investment was reclassified from real estate owned to real estate held-for-sale at a fair value of \$41.4 million and property operating income and expenses for current and prior periods were reclassified to discontinued operations, as well as an impairment loss of \$4.9 million was recorded. See Note 7 of the “Notes to the Consolidated Financial Statements” set forth in Item 8 hereof for a further description of these transactions.

Due from related party increased \$12.3 million, to \$15.2 million at December 31, 2009 and consisted of \$7.0 of loan proceeds, which were repaid in the first quarter of 2010, \$0.9 million of escrows due from ACM related to 2009 real estate asset transactions and \$7.3 million reclassified from prepaid management fee — related party, related to the POM transaction which closed in 2009. See Note 6 of the “Notes to the Consolidated Financial Statements” set forth in Item 8 hereof for further details. In accordance with the August 2009 amended management agreement, since no incentive fee was earned for 2009, the prepaid management fee is to be paid back in installments of 25% due by December 31, 2010 and 75% due by June 30, 2012, with an option to make payment in both cash and Arbor Realty Trust, Inc. common stock provided that at least 50% of the payment is made in cash, and will be offset against any future incentive management fees or success-based payments earned by our manager prior to June 30, 2012. At December 31, 2008, due from related party was \$2.9 million as a result of an overpayment of incentive management compensation based on the results of the twelve months ended December 31, 2008, which was repaid in the second quarter of 2009. Refer to “Management Agreement” below for further details.

Prepaid management fee decreased \$7.3 million, or 28%, to \$19.0 million at December 31, 2009 compared to \$26.3 million at December 31, 2008, due to the classification to due from related party of a \$7.3 million advance made to ACM for the incentive management fee paid on \$33.0 million of cash received in June 2008 from the agreement to transfer 16.67% of our 24.17% interest in POM, one of our equity affiliates. Upon the closing of this transaction, which occurred in March 2009, we exchanged our 16.67% interest in POM for approximately \$37.0 million of preferred and common operating partnership units in another REIT. In accordance with the August 2009 amended management agreement, since no incentive fee was earned for 2009, the management fee is to be paid back. Refer to “Due from Related Party” above and Note 6 of the “Notes to the Consolidated Financial Statements” set forth in Item 8 hereof for further details.

Other assets decreased \$82.1 million, or 59% to \$57.5 million at December 31, 2009 compared to \$139.7 million at December 31, 2008. The decrease was primarily due to a \$27.6 million decrease in collateral posted for a portion of our interest rate swaps whose value had increased and which includes \$17.6 million in funded cash collateral from the termination of six swaps related to our restructured trust preferred securities and two other terminated interest rate swaps. The decrease was also due to a reduction of a \$16.5 million third party member receivable in March 2009 in connection with the closing of the POM transaction, a \$24.8 million decrease in interest receivable as a result of non-performing loans, loan repayments and paydowns, lower rates on refinanced and modified loans, lower LIBOR rates, and the effect of a decrease in LIBOR rates on a portion of our interest rate swaps, a \$4.8 million reduction of margin calls related to other financing in 2008 and a \$5.2 million decrease in the fair value of non-qualifying CDO basis swaps. See Item 7A “Quantitative and Qualitative Disclosures About Market Risk” for further information relating to our derivatives.

Due to related party increased \$1.0 million, to \$2.0 million at December 31, 2009 and consisted of base management fees due to ACM, which will be remitted by us in 2010. At December 31, 2008, due to related party

was \$1.0 million and consisted of \$0.8 million of base management fees and \$0.2 million of unearned fees and was repaid in the first quarter of 2009.

Other liabilities decreased \$37.6 million, or 28%, to \$97.0 million at December 31, 2009 compared to \$134.6 million at December 31, 2008. The decrease was primarily due to a \$48.9 million decrease in accrued interest payable primarily due to the increase in value of our interest rate swaps, as well as the termination of interest rate swaps, a reduction in LIBOR rates, the timing of reset dates and a decline in the outstanding balance of our financing facilities, net of a \$20.5 million increase due to receiving a non-refundable deposit on the settlement of a bridge loan.

During the second quarter of 2009, we settled a \$37.0 million repurchase financing facility for a cash payment of approximately \$22.0 million, resulting in a gain on extinguishment of debt of approximately \$15.0 million. In connection with this transaction, we sold a loan financed in this facility with a carrying value of \$47.0 million, at a discount, for approximately \$23.2 million and recorded a loss on restructuring of \$23.8 million. The proceeds were used to satisfy the \$22.0 million cash payment.

On April 21, 2009, we issued an aggregate of 245,000 shares of restricted common stock under the 2003 Stock Incentive Plan, as amended in 2005 (the "Plan"), of which 155,000 shares were awarded to certain of our and ACM employees and 90,000 shares were issued to members of the board of directors. As a means of emphasizing retention at a critical time for Arbor and due to their relatively low value, the 245,000 common shares underlying the restricted stock awards granted were fully vested as of the date of grant. In addition, on April 8, 2009, we accelerated the vesting of all unvested shares underlying restricted stock awards totaling 243,091 shares previously granted to certain of our and ACM employees and non-management members of the board. As a result of these transactions, we recorded approximately \$2.1 million of expense in our Consolidated Statements of Operations during the second quarter of 2009 of which, \$1.7 million was recorded in employee compensation and benefits and \$0.4 million was recorded in selling and administrative.

In July 2009, we issued Wachovia Bank, National Association one million warrants at an average strike price of \$4.00 in connection with our amended and restructured debt facilities. 500,000 warrants were exercisable immediately at a price of \$3.50, 250,000 warrants are exercisable after July 23, 2010 at a price of \$4.00 and 250,000 warrants are exercisable after July 23, 2011 at a price of \$5.00. All warrants expire on July 23, 2015 and no warrants have been exercised to date. The warrants were valued at approximately \$0.6 million using the Black-Scholes method and will be amortized into interest expense over the life of the agreement in our Consolidated Statement of Operations. Refer to "Notes Payable" below for further details.

In March 2009, we exchanged our 16.67% interest in POM for preferred and common operating partnership units of Lightstone Value Plus REIT L.P. at a value of approximately \$37.3 million. As a result, during the first quarter of 2009, we recorded a gain on exchange of profits interest of approximately \$56.0 million and income attributable to noncontrolling interest of approximately \$18.7 million related to the third party member's portion of income recorded. In August 2009, we exchanged our remaining 7.5% equity interest in Prime at a value of approximately \$9.0 million, in exchange for preferred and common operating partnership units of Lightstone Value Plus REIT L.P. As a result of this transaction, during the third quarter of 2009, we recorded income from equity affiliates of \$10.7 million. See Note 6 of the "Notes to the Consolidated Financial Statements" set forth in Item 8 hereof for further details.

In March 2009, we purchased from our manager, ACM, approximately \$9.4 million of junior subordinated notes originally issued by a wholly-owned subsidiary of our operating partnership for \$1.3 million. In 2009, ACM purchased these notes from third party investors for \$1.3 million. We recorded a net gain on extinguishment of debt of \$8.1 million and a reduction of outstanding debt totaling \$9.4 million from this transaction. In addition, during the first quarter of 2009, we purchased approximately \$23.7 million of investment grade rated notes originally issued by our CDO issuing entities for a price of \$5.6 million and recorded a net gain on extinguishment of debt of \$18.2 million and a reduction of outstanding debt totaling \$23.7 million. Of the \$23.7 million purchased, \$8.8 million of the CDO notes were purchased from ACM for a price of \$3.2 million. In 2008, ACM purchased these notes from third party investors for \$3.2 million. During the second quarter of 2009, we purchased the remaining CDO notes from ACM for a price of \$4.7 million and recorded a gain on extinguishment of debt of \$6.5 million and a reduction of outstanding debt totaling \$11.2 million. In 2008, ACM purchased these notes from

third party investors for \$5.0 million. During the third quarter of 2009, we purchased, at a discount, approximately \$7.9 million of investment grade rated notes originally issued by our CDO issuing entities for a price of \$1.5 million from third party investors and recorded a net gain on extinguishment of debt of \$6.3 million.

Net Interest Income

Interest income decreased \$86.9 million, or 43%, to \$117.3 million in 2009 from \$204.1 million in 2008. This decrease was primarily due to a 35% decrease in the average yield on assets from 7.80% in 2008 to 5.08% in 2009 combined with a 10% decrease in the average balance of our loans and investments from \$2.5 billion for 2008 to \$2.3 billion for 2009. The decrease in yield was the result of a decrease in the average LIBOR rate over the same period, along with the suspension of interest on our non-performing loans, and lower rates on refinanced and modified loans. The decrease in loans and investments was due to payoffs, paydowns and modifications. In addition, interest income from cash equivalents decreased \$3.7 million to \$0.7 million for 2009 compared to \$4.4 million for 2008 as a result of decreased average cash balances, as well as decreases in interest rates from 2008 to 2009. Interest income in 2008 also includes \$1.3 million of interest income from profits and equity interests from our investment in equity affiliates.

Interest expense decreased \$28.6 million, or 26%, to \$80.1 million in 2009 from \$108.7 million in 2008. This decrease was primarily due to a 15% decrease in the average cost of these borrowings from 5.00% for 2008 to 4.27% for 2009 due to a reduction in the average LIBOR rate on the portion of our debt that was floating over the same period. In addition, there was a 13% decrease in the average balance of our debt facilities from \$2.2 billion for 2008 to \$1.9 billion for 2009 as a result of decreased leverage on our portfolio due to the reduction of certain outstanding indebtedness from repayment of loans, the transfer of assets to our CDO vehicles, which carry a lower cost of funds, and from available capital. The decrease was also due to \$5.2 million of losses related to the recognition of mark-to-market adjustments on certain of our CDO basis swaps in 2009, compared to \$4.6 million of gains recorded in 2008.

Other Revenue

Property operating income was \$0.9 million in 2009. This was primarily due to the operation of two real estate investments recorded as real estate owned as of December 31, 2009. One of our real estate investments was reclassified from real estate owned to real estate held-for-sale in the third quarter of 2009, resulting in a reclassification from property operating income into discontinued operations for the current period and all prior periods presented.

Other income increased \$0.7 million to \$0.8 million in 2009 from \$0.1 million in 2008. This is primarily due to excess proceeds received from the payoff of a defeased loan in the second quarter of 2009.

Other Expenses

Employee compensation and benefits expense increased \$2.0 million, or 25%, to \$10.2 million in 2009 from \$8.1 million for in 2008. This increase was due to grants of restricted stock awards to employees and the acceleration of all previously unvested restricted stock in the second quarter of 2009. These expenses represent salaries, benefits, stock-based compensation related to employees, and incentive compensation for those employed by us during these periods.

Selling and administrative expense increased \$2.3 million, or 28%, to \$10.5 million in 2009 from \$8.2 million in 2008. These costs include, but are not limited to, professional and consulting fees, marketing costs, insurance expense, director's fees, licensing fees, travel and placement fees, and stock-based compensation relating to the cost of restricted stock granted to our directors and certain employees of our manager. This increase was primarily due to foreclosure fees associated with one of our properties incurred during 2009, as well as grants of restricted stock awards to directors and certain employees of our manager, ACM, and the acceleration of all previously unvested restricted stock. The increase was also due to an increase in general corporate legal expenses associated with the exchange of our debt restructurings in 2009.

Property operating expense was \$1.4 million in 2009. This was primarily due to the operation of two real estate investments recorded as real estate owned as of December 31, 2009. One of our real estate investments was reclassified from real estate owned to real estate held-for-sale in the third quarter of 2009, resulting in a reclassification from property operating expense into discontinued operations for the current period and all prior periods presented.

Depreciation and amortization expense was \$0.1 million in 2009. This was primarily due to depreciation expense associated with consolidation of a hotel during 2009, which was recorded as real estate owned. One of our real estate investments was reclassified from real estate owned to real estate held-for-sale in the third quarter of 2009, resulting in a reclassification from depreciation and amortization expense into discontinued operations for the current period and all prior periods presented.

Other-than-temporary impairment charges of \$10.3 million and \$17.6 million in 2009 and 2008, respectively, represents the recognition of impairment to the fair market value of our available-for-sale securities at December 31, 2009 and 2008, respectively, that was considered other-than-temporary. GAAP accounting standards require that investments are evaluated periodically to determine whether a decline in their value is other-than-temporary, though it is not intended to indicate a permanent decline in value. See Notes 4, 5 and 6 of the “Notes to the Consolidated Financial Statements” set forth in Item 8 hereof for further details.

Provision for loan losses totaled \$241.3 million for the year ended December 31, 2009, and \$132.0 million for the year ended December 31, 2008. The provision recorded in 2009 related to 31 loans with an aggregate carrying value of \$693.7 million, before reserves, that were impaired. We performed an evaluation of the loans and determined that the fair value of the underlying collateral securing the impaired loans was less than the net carrying value of the loans, resulting in us recording the above mentioned provision for loan losses. The provision recorded in 2008 related to ten loans with an aggregate carrying value of \$443.2 million, before reserves, that were impaired.

Loss on restructured loans of \$57.6 million in 2009 represents losses incurred as a result of restructuring certain of our loans and investments and included \$31.1 million for the write-down of four loans and investments, \$23.8 million for the settlement of a bridge loan and \$2.7 million for the settlement of a junior participation loan. There were no losses on restructured loans in 2008.

Management fees increased \$11.6 million to \$15.1 million in 2009 from \$3.5 million in 2008. These amounts represent compensation in the form of base management fees and incentive management fees as provided for in the management agreement with our manager. Refer to “Contractual Commitments — Management Agreement” below for further details including information related to our amended management agreement with ACM. The amended management agreement also provides for “success-based” payments to be paid to our manager upon the completion of specified corporate objectives in addition to the standard base management fee. The base management fee expense was \$15.1 million in 2009, which included success-based payments for the trust preferred and Wachovia debt restructurings of \$4.1 million in the third quarter of 2009 and a \$3.0 million retroactive payment for 2008 costs in the second quarter of 2009, as compared to \$3.5 million in 2008, in accordance with our management agreement with ACM, which was amended in August 2009. No incentive management fee was earned in 2009 or 2008.

Gain on exchange of profits interest of \$56.0 million was due to the recognition of income attributable to the exchange of our POM profits interest in 2009. See Note 6 of the “Notes to the Consolidated Financial Statements” set forth in Item 8 hereof for further details on the POM transaction recorded in the first quarter of 2009. There were no gains on exchange of profits interest in 2008.

Gain on extinguishment of debt totaled \$54.1 million for in 2009. During the year ended December 31, 2009, we purchased, at a discount, approximately \$42.8 million of investment grade rated bonds originally issued by our three CDO issuing entities. In addition, we purchased, at a discount, approximately \$9.4 million of junior subordinated notes originally issued by a wholly-owned subsidiary of our operating partnership. We recorded a net gain on early extinguishment of debt of \$39.1 million related to these transactions. Also, during the second quarter of 2009, we settled a bridge loan secured by a condominium project in New York City, as well as our debt for the loan resulting in a gain on early extinguishment of the debt of \$15.0 million. There were no gains on extinguishment of debt in 2008.

Loss on termination of swaps of \$8.7 million in 2009 resulted from the exchange of our outstanding trust preferred securities for newly issued unsecured junior subordinated notes in the second quarter of 2009. Refer to “Junior Subordinated Notes” below. In connection with the original issuance of the trust preferred securities, we had entered into various interest rate swap agreements. Due to the modified interest payment structure of the newly issued unsecured junior subordinated notes, the swaps were determined to no longer be effective or necessary and were subsequently terminated, resulting in a loss of \$8.7 million. There were no losses on termination of swaps in 2008.

Loss from equity affiliates of \$0.4 million in 2009 includes an \$11.7 million impairment charge in the second quarter of 2009 and a \$1.9 million impairment charge in the third quarter of 2009, on investments in an equity affiliates that were considered other-than-temporary. GAAP accounting standards require that investments are evaluated periodically to determine whether a decline in their value is other-than-temporary, though it is not intended to indicate a permanent decline in value. There were no other-than-temporary impairment charges on investments in an equity affiliates in 2008. This was netted with income of \$10.7 million from the August 2009 exchange of our remaining 7.5% equity interest in POM. We owned the 7.5% interest through a 50% non-controlling interest in an unconsolidated joint venture, which had a 15% interest in Prime Outlets. Loss from equity affiliates also includes \$1.6 million of income recorded during 2009, which reflects a portion of the joint venture's income from our Alpine Meadows equity investment, which had \$2.3 million of losses in 2008, as well as income from our other joint ventures of \$0.9 million. See Note 6 of the "Notes to the Consolidated Financial Statements" set forth in Item 8 hereof for further details.

We are organized and conduct our operations to qualify as a REIT for federal income tax purposes. As a REIT, we are generally not subject to federal income tax on our REIT — taxable income that we distribute to our stockholders, provided that we distribute at least 90% of our REIT — taxable income and meet certain other requirements. As of December 31, 2009 and 2008, we were in compliance with all REIT requirements and, therefore, have not provided for income tax expense for the years ended December 31, 2009 and 2008. Certain of our assets that produce non-qualifying income are owned by our taxable REIT subsidiaries, the income of which is subject to federal and state income taxes. During the years ended December 31, 2009 and 2008, we did not record any provision on income from these taxable REIT subsidiaries.

Loss from Discontinued Operations

During the third quarter of 2009, we mutually agreed with a first mortgage lender to appoint a receiver to operate one of our real estate owned investments and we are working to assist in the transfer of title to the first mortgage lender. As a result, this investment was reclassified from real estate owned to real estate held-for-sale at a fair value of \$41.4 million and property operating income and expenses, which netted to a loss of \$0.4 million and \$0.6 million in 2009 and 2008, respectively, were reclassified to discontinued operations, as well as an impairment loss of \$4.9 million to write down the investment to its fair value was recorded in the third quarter of 2009. See Note 7 of the "Notes to the Consolidated Financial Statements" set forth in Item 8 hereof for further details.

Net Income Attributable to Noncontrolling Interest

Net income attributable to noncontrolling interest totaled \$18.7 million in 2009 representing the portion of income allocated to the third party's interest in a consolidated subsidiary, primarily the result of the \$56.0 million gain recorded from the exchange of our profits interest in POM during the first quarter of 2009. See Note 6 of the "Notes to the Consolidated Financial Statements" set forth in Item 8 hereof. Net income attributable to noncontrolling interest totaled \$4.4 million in 2008 representing the portion of our income allocated to our manager for their noncontrolling interest in our operating partnership as well as loss allocated to a third party's interest in a consolidated subsidiary. There was no net income attributable to noncontrolling interest in our operating partnership in 2009. Our manager had a weighted average limited partnership interest of 15.3% for the six months ended June 30, 2008. In June 2008, our manager, exercised its right to redeem its 3,776,069 operating partnership units in our operating partnership for shares of our common stock on a one-for-one basis. As a result, our manager's operating partnership ownership interest percentage was reduced to zero.

Net Interest Income

Interest income decreased \$69.8 million, or 25%, to \$204.1 million in 2008 from \$274.0 million in 2007. This decrease was due in part to the recognition of \$37.6 million of interest income from profits and equity interests from our investment in equity affiliates during 2007 as compared to \$1.3 million in 2008.

Excluding these transactions, interest income decreased \$33.5 million, or 14%, compared to the same period of the prior year. This was primarily due to a 16% decrease in the average yield on the assets from 9.34% in 2007 to 7.80% in 2008. This decrease in yield was the result of a decrease in the average LIBOR rate over the same period and a reduction in the yield on new originations compared to higher yielding loan payoffs from the same period in 2007. This was partially offset by a portion of our portfolio having LIBOR floors and fixed rates of interest. In addition, interest income from cash equivalents decreased \$4.5 million to \$4.4 million for 2008 compared to \$8.9 million for 2007 as a result of decreased average restricted and unrestricted cash balances as well as lower interest rates.

Interest expense decreased \$39.1 million, or 26%, to \$108.7 million in 2008 from \$147.7 million in 2007. This decrease was primarily due to a 26% decrease in the average cost of these borrowings from 6.76% for 2007 to 5.00% for 2008 due to a reduction in average LIBOR rate on the portion of our debt that was floating over the same period. This decrease was also due to \$2.9 million in gains recorded in 2008 related to the recognition of mark-to-market adjustments on certain of our CDO basis swaps. In addition, there was a 1% decrease in the average balance of our debt facilities from the year ended December 31, 2007 as compared to the year ended December 31, 2008 as a result of decreased leverage on our portfolio due to the reduction of certain outstanding indebtedness from repayment of loans, the transfer of assets to our CDO vehicles which carry a lower cost of funds and from available capital.

Other Revenue

Other income increased \$42,826, or 108%, to \$82,329 in 2008 from \$39,503 in 2007. This was primarily due to increased miscellaneous asset management fees on our loan and investment portfolio.

Other Expenses

Employee compensation and benefits expense decreased \$1.3 million, or 14%, to \$8.1 million in 2008 from \$9.4 million in 2007. These expenses represent salaries, benefits, stock-based compensation related to employees, and incentive compensation for those employed by us during these periods. This decrease was primarily due to a decrease in employee compensation and benefits, partially offset by an increase in costs related to restricted stock awards granted to employees in 2008.

Selling and administrative expense increased \$2.6 million, or 47%, to \$8.2 million in 2008 from \$5.6 million in 2007. These costs include, but are not limited to, professional and consulting fees, marketing costs, insurance expense, directors' fees, licensing fees, travel and placement fees, and stock-based compensation relating to the cost of restricted stock granted to our directors and certain employees of our manager. The increase was primarily due to expenses related to the Prime Outlets transaction in 2008 and other increases in professional fees including general corporate legal expenses. This increase was also due to \$0.4 million of losses recognized from the sales of two properties securing two bridge loans during 2008.

Other-than-temporary impairment charges of \$17.6 million in 2008 primarily represents the recognition of a \$16.2 million impairment that was considered other-than-temporary relating to the fair market value of our available-for-sale securities at December 31, 2008. Prior to September 30, 2008, changes in the fair market value of our available-for-sale securities were considered unrealized gains or losses and were recorded as a component of other comprehensive income or loss. Other-than-temporary impairment charges in 2008 also included \$1.4 million for the recognition of an impairment that was considered other-than-temporary relating to one of our securities held-to-maturity, which was subsequently reclassified as available-for-sale at December 31, 2009. These securities represent common stock and a CDO bond security, both issued by Realty Finance Corporation, formerly CBRE, another commercial REIT. There were no other-than-temporary impairment charges in 2007.

Provision for loan losses totaled \$132.0 million for the year ended December 31, 2008, and \$2.5 million for the year ended December 31, 2007. The provision recorded in 2008 related to ten loans with an aggregate carrying value of \$443.2 million, before reserves, became impaired. We performed quarterly evaluations of the loans and determined that the fair value of the underlying collateral securing the impaired loans was less than the net carrying value of the loan, resulting in us recording the above mentioned provision for loan losses. The provision recorded in 2007 related to two loans with an aggregate carrying value of \$58.5 million, before reserves, that were impaired.

Management fees decreased \$21.5 million, or 86%, to \$3.5 million in 2008 from \$25.0 million in 2007. These amounts represent compensation in the form of base management fees and incentive management fees as provided for in the management agreement with our manager. The incentive management fees decreased by \$21.8 million, or 100%, to \$0 in 2008 from \$21.8 million in 2007. This decrease was due to losses in 2008, versus income in 2007, primarily due to \$132.0 million of provisions for loan losses, along with other-than-temporary impairment charges on our available-for-sale and held-to-maturity securities totaling \$17.6 million in 2008. This decrease was also due to \$72.2 million of income from profits and equity interests in 2007. The base management fees increased by \$0.3 million, or 10%, to \$3.5 million in 2008 from \$3.2 million in 2007. This increase is primarily due to increased

average stockholders' equity directly attributable to greater undistributed profits and capital raised from the June 2007 public offering of our common stock.

Loss from equity affiliates totaled \$2.3 million in 2008. Income from two of our investments in equity affiliates totaled \$34.6 million for 2007. The \$2.3 million of loss recorded during 2008 reflects a portion of the joint venture's losses from a \$10.2 million equity investment, partially offset by \$0.7 million in income from two of our other investments. The \$34.6 million of income recorded in 2007 consisted of \$29.6 million in gains recognized on the sale of properties within one of our equity affiliates and \$5.0 million of income from excess proceeds received from the sale and refinancing of certain properties in the portfolio of another of our investments in equity affiliates.

We are organized and conduct our operations to qualify as a REIT for federal income tax purposes. As a REIT, we are generally not subject to federal income tax on our REIT — taxable income that we distribute to our stockholders, provided that we distribute at least 90% of our REIT — taxable income and meet certain other requirements. As of December 31, 2008 and 2007, we were in compliance with all REIT requirements and, therefore, have not provided for income tax expense for years ended December 31, 2008 and 2007. Certain of our assets that produce non-qualifying income are owned by our taxable REIT subsidiaries, the income of which is subject to federal and state income taxes. During the year ended December 31, 2007, we recorded a \$16.9 million provision on income from these taxable REIT subsidiaries. No such provision was recognized for the year ended December 31, 2008. The provision for the year ended December 31, 2007 resulted from \$38.3 million of pretax income from our taxable REIT subsidiaries.

Loss from Discontinued Operations

During the third quarter of 2009, we mutually agreed with a first mortgage lender to appoint a receiver to operate one of our real estate owned investments and we are working to assist in the transfer of title to the first mortgage lender. As a result, this investment was reclassified from real estate owned to real estate held-for-sale and property operating income and expenses, which netted to a loss of \$0.6 million in 2008, were reclassified to discontinued operations. There were no property operating income and expenses in 2007.

Net Income Attributable to Noncontrolling Interest

Net income attributable to noncontrolling interest decreased by \$12.5 million, or 74%, to \$4.4 million in 2008 from \$17.0 million in 2007. These amounts represent the portion of our income allocated to our manager as well as a third party's interest in a consolidated subsidiary which holds a note payable that is accruing interest expense. This decrease was primarily due to a decrease in our manager's limited partnership interest in us. Our manager had a weighted average limited partnership interest of 7.6% in our operating partnership in 2008 compared to 16.6% in 2007. In June 2008, our manager exercised its right to redeem its 3,776,069 operating partnership units in our operating partnership for shares of our common stock on a one-for-one basis. As a result, our manager's operating partnership ownership interest percentage was reduced to zero at June 30, 2008. This decrease was also due to a 43% decrease in the average income before noncontrolling interest reduced by the provision for income taxes for the first two quarters of 2008 as compared to all four quarters of 2007. 2008 included a loss allocated to noncontrolling interest of \$0.3 million representing a third party member's share of a \$1.0 million distribution received from a profits interest. In addition, 2008 also included a gain allocated to noncontrolling interest of \$0.3 million representing the portion of loss allocated to the third party's interest in a consolidated subsidiary, which holds a note payable that is accruing interest expense. This note payable is related to the POM transaction discussed in Note 6 of the "Notes to the Consolidated Financial Statements" set forth in Item 8 hereof.

Liquidity and Capital Resources

Sources of Liquidity

Liquidity is a measurement of the ability to meet potential cash requirements. Our short-term and long-term liquidity needs include ongoing commitments to repay borrowings, fund future loans and investments, fund additional cash collateral from potential declines in the value of a portion of our interest rate swaps, fund operating costs and distributions to our stockholders as well as other general business needs. Our primary sources of funds for liquidity consist of proceeds from equity offerings, debt facilities and cash flows from operations. Our equity

sources consist of funds raised from our private equity offering in July 2003, net proceeds from our initial public offering of our common stock in April 2004, net proceeds from our public offering of our common stock in June 2007 and depending on market conditions, proceeds from capital market transactions including the future issuance of common, convertible and/or preferred equity securities. Our debt facilities include the issuance of floating rate notes resulting from our CDOs, the issuance of junior subordinated notes and borrowings under credit agreements. Net cash provided by operating activities include interest income from our loan and investment portfolio reduced by interest expense on our debt facilities, cash from equity participation interests, repayments of outstanding loans and investments and funds from junior loan participation arrangements.

We believe our existing sources of funds will be adequate for purposes of meeting our short-term and long-term liquidity needs. Our loans and investments are financed under existing credit facilities and their credit status is continuously monitored; therefore, these loans and investments are expected to generate a generally stable return. Our ability to meet our long-term liquidity and capital resource requirements is subject to obtaining additional debt and equity financing. If we are unable to renew our sources of financing on substantially similar terms or at all, it would have an adverse effect on our business and results of operations. Any decision by our lenders and investors to enter into such transactions with us will depend upon a number of factors, such as our financial performance, compliance with the terms of our existing credit arrangements, industry or market trends, the general availability of and rates applicable to financing transactions, such lenders' and investors' resources and policies concerning the terms under which they make such capital commitments and the relative attractiveness of alternative investment or lending opportunities.

Current conditions in the capital and credit markets have made certain forms of financing less attractive and, in certain cases, less available, therefore we will continue to rely on cash flows provided by operating and investing activities for working capital.

To maintain our status as a REIT under the Internal Revenue Code, we must distribute annually at least 90% of our REIT — taxable income. These distribution requirements limit our ability to retain earnings and thereby replenish or increase capital for operations. However, we believe that our capital resources and access to financing will provide us with financial flexibility and market responsiveness at levels sufficient to meet current and anticipated capital requirements. In December 2008, the IRS issued "Revenue Procedure 2008-68" that allows listed REITs to offer shareholders elective stock dividends, which are paid in a combination of cash and common stock with at least 10% of the total distribution paid in cash, to satisfy future dividend requirements.

Equity Offerings

Our authorized capital provides for the issuance of up to 500 million shares of common stock, par value \$0.01 per share, and 100 million shares of preferred stock, par value \$0.01 per share.

In March 2007, we filed a shelf registration statement on Form S-3 with the Securities and Exchange Commission ("SEC") under the Securities Act of 1933 (the "1933 Act") with respect to an aggregate of \$500.0 million of debt securities, common stock, preferred stock, depository shares and warrants that may be sold by us from time to time pursuant to Rule 415 of the 1933 Act. On April 19, 2007, the Commission declared this shelf registration statement effective.

In June 2007, we sold 2,700,000 shares of our common stock registered on the shelf registration statement in a public offering at a price of \$27.65 per share, for net proceeds of approximately \$73.6 million after deducting the underwriting discount and the other estimated offering expenses. We used the proceeds to pay down debt and finance our loan and investment portfolio. The underwriters did not exercise their over allotment option for additional shares.

In August 2008, we entered into an equity placement program sales agreement with a securities agent whereby we may issue and sell up to three million shares of our common stock through the agent who agrees to use its commercially reasonable efforts to sell such shares during the term of the agreement and under the terms set forth therein. To date, we have not utilized this equity placement program.

At December 31, 2009, we had \$425.3 million available under the shelf registration described above and 25,387,410 shares outstanding.

Debt Facilities

We also currently maintain liquidity through a term credit agreement, which has a revolving component, two master repurchase agreements, one working capital facility, one note payable and three junior loan participations with five different financial institutions or companies. In addition, we have issued three collateralized debt obligations or CDOs and 13 separate junior subordinated notes. London inter-bank offered rate, or LIBOR, refers to one-month LIBOR unless specifically stated. As of December 31, 2009, these facilities had an aggregate capacity of \$1.8 billion and borrowings were approximately \$1.7 billion.

The following is a summary of our debt facilities as of December 31, 2009:

Debt Facilities	At December 31, 2009			Maturity Dates

(1) Represents a total face amount of \$290.0 million less a total deferred amount of \$30.5 million.

(2) In July 2009, we amended and restructured our term credit agreements, revolving credit agreement and working capital facility with Wachovia Bank, National Association as discussed below.

These debt facilities are described in further detail in Note 8 of the “Notes to the Consolidated Financial Statements” set forth in Item 8 hereof.

Repurchase Agreements

Repurchase obligation financings provide us with a revolving component to our debt structure. Repurchase agreements provide stand alone financing for certain assets and interim, or warehouse financing, for assets that we plan to contribute to our CDOs. At December 31, 2009, the aggregate outstanding balance under these facilities was \$2.7 million.

We had a \$200.0 million repurchase agreement with a financial institution that expired in 2009 and had interest at pricing over LIBOR, varying on the type of asset financed. In June 2009, this facility, with approximately \$37.0 million outstanding, was satisfied at a discount for \$22.0 million resulting in a \$15.0 million gain on extinguishment of debt. In connection with this transaction, we sold a bridge loan financed in this facility with a carrying value of \$47.0 million, at a discount, for approximately \$23.2 million and recorded a loss on restructuring of \$23.8 million. The proceeds were used to satisfy the \$22.0 million cash payment.

We have a repurchase agreement with a second financial institution that bears interest at 250 basis points over LIBOR and had a term expiring in June 2009. In June 2009, we amended this facility extending the maturity to June 2010, with a one year extension option. In addition, the amendment includes the removal of all financial covenants and a reduction of the committed amount to \$2.4 million reflecting the one asset currently financed in this facility. During the year ended December 31, 2009, we paid down approximately \$13.1 million of this facility. At December 31, 2009, the outstanding balance under this facility was \$2.4 million with a current weighted average note rate of 2.77%.

We have an uncommitted master repurchase agreement with a third financial institution, effective April 2008, entered into for the purpose of financing our CRE CDO bond securities. The agreement has a term expiring in May

2010 and bears interest at pricing over LIBOR, varying on the type of asset financed. During the year ended December 31, 2009, we paid down approximately \$1.3 million of this facility, due to a decrease in values associated with a change in market interest rate spreads and an additional \$6.7 million of principal. At December 31, 2009, the outstanding balance under this facility was \$0.2 million with a current weighted average note rate of 1.52%. In January 2010, the facility was repaid in full.

CDOs

We completed three separate CDOs since 2005 by issuing to third party investors, tranches of investment grade collateralized debt obligations through newly-formed wholly-owned subsidiaries (the “Issuers”). The Issuers hold assets, consisting primarily of real-estate related assets and cash which serve as collateral for the CDOs. The assets pledged as collateral for the CDOs were contributed from our existing portfolio of assets. By contributing these real estate assets to the various CDOs, these transactions resulted in a decreased cost of funds relating to the corresponding CDO assets and created capacity in our existing credit facilities.

The Issuers issued tranches of investment grade floating-rate notes of approximately \$305.0 million, \$356.0 million and \$447.5 million for CDO I, CDO II and CDO III, respectively. CDO III also has a \$100.0 million revolving note which was not drawn upon at the time of issuance. The revolving note facility has a commitment fee of 0.22% per annum on the undrawn portion of the facility. The tranches were issued with floating rate coupons based on three-month LIBOR plus pricing of 0.44% — 0.77%. Proceeds from the sale of the investment grade tranches issued in CDO I, CDO II and CDO III of \$267.0 million, \$301.0 million and \$317.1 million, respectively, were used to repay higher costing outstanding debt under our repurchase agreements and notes payable. The CDOs may be replenished with substitute collateral for loans that are repaid during the first four years for CDO I and the first five years for CDO II and CDO III, subject to certain customary provisions. Thereafter, the outstanding debt balance will be reduced as loans are repaid. Proceeds from the repayment of assets which serve as collateral for the CDOs must be retained in its structure as restricted cash until such collateral can be replaced and therefore not available to fund current cash needs. If such cash is not used to replenish collateral, it could have a negative impact on our anticipated returns. Proceeds from CDO II are distributed quarterly with approximately \$1.1 million being paid to investors as a reduction of the CDO liability. As of April 15, 2009, CDO I reached the end of its replenishment date and will no longer make quarterly amortization payments to investors. Investor capital will be repaid quarterly from proceeds received from loan repayments held as collateral in accordance with the terms of the CDO. Proceeds distributed will be recorded as a reduction of the CDO liability. For accounting purposes, CDOs are consolidated in our financial statements.

During the year ended December 31, 2009, we purchased, at a discount, approximately \$42.8 million of investment grade rated notes originally issued by our CDO issuing entities for a price of \$11.8 million. We recorded a net gain on extinguishment of debt of \$31.0 million and a reduction of outstanding debt totaling \$42.8 million from these transactions in our 2009 financial statements.

In the first quarter of 2010, we purchased, at a discount, approximately \$4.5 million of investment grade rated notes originally issued by our CDO I issuing entity for a price of \$1.6 million, \$7.9 million of investment grade rated notes originally issued by our CDO II issuing entity for a price of \$1.6 million and \$7.0 million originally issued by our CDO III issuing entity for a price of \$1.4 million from third party investors. We will record a net gain on extinguishment of debt of \$14.9 million from these transactions in our 2010 Consolidated Statements of Operations.

In February 2010, we re-issued the CDO bonds we had acquired throughout 2009 with an aggregate face amount of \$42.8 million, as well as CDO bonds from other issuers acquired in the second quarter of 2008 with an aggregate face amount of \$25.0 million and a carrying value of \$0.4 million, and \$10.5 million in cash, in exchange for the retirement of \$114.1 million of our junior subordinated notes. See “Junior Subordinated Notes” below.

At December 31, 2009, the outstanding note balance under CDO I, CDO II and CDO III was \$254.1 million, \$329.5 million and \$516.9 million, respectively.

The continued turmoil in the structured finance markets, in particular the sub-prime residential loan market, has negatively impacted the credit markets generally, and, as a result, investor demand for commercial real estate collateralized debt obligations has been substantially curtailed. In recent years, we have relied to a substantial extent

on CDO financings to obtain match funded financing for our investments. Until the market for commercial real estate CDOs recovers, we may be unable to utilize CDOs to finance our investments and we may need to utilize less favorable sources of financing to finance our investments on a long-term basis. There can be no assurance as to when demand for commercial real estate CDOs will return or the terms of such securities investors will demand or whether we will be able to issue CDOs to finance our investments on terms beneficial to us.

Our CDO bonds contain interest coverage and asset over collateralization covenants that must be met as of the waterfall distribution date in order for us to receive such payments. If we fail these covenants in any of our CDOs, all cash flows from the applicable CDO would be diverted to repay principal and interest on the outstanding CDO bonds and we would not receive any residual payments until that CDO regained compliance with such tests. We were in compliance with all such covenants as of December 31, 2009. In the event of a breach of the CDO covenants that could not be cured in the near-term, we would be required to fund our non-CDO expenses, including management fees and employee costs, distributions required to maintain REIT status, debt costs, and other expenses with (i) cash on hand, (ii) income from any CDO not in breach of a covenant test, (iii) income from real property and unencumbered loan assets, (iv) sale of assets, (v) or accessing the equity or debt capital markets, if available. We have the ability to cure covenant breaches which would resume normal residual payments to us by purchasing non-performing loans out of the CDOs. However, we may not have sufficient liquidity available to do so at such time. The chart below is a summary of our CDO compliance tests as of the most recent distribution date:

Cash Flow Triggers	CDO I	CDO II	CDO III
Overcollateralization(1)			
Current	194.40%	177.72%	111.28%
Limit	184.00%	169.50%	105.60%
Pass/Fail	Pass	Pass	Pass
Interest Coverage(2)			
Current	653.93%	575.81%	686.74%
Limit	160.00%	147.30%	105.60%
Pass/Fail	Pass	Pass	Pass

(1) The overcollateralization ratio divides the total principal balance of all collateral in the CDO by the total bonds outstanding for the classes senior to those retained by us. To the extent an asset is considered a defaulted security, the asset's principal balance is multiplied by the asset's recovery rate which is determined by the rating agencies.

(2) The interest coverage ratio divides interest income by interest expense for the classes senior to those retained by us.

Junior Subordinated Notes

In May 2009, we exchanged \$247.1 million of our outstanding trust preferred securities, consisting of \$239.7 million of junior subordinated notes issued to third party investors and \$7.4 million of common equity issued to us in exchange for \$268.4 million of newly issued unsecured junior subordinated notes, representing 112% of the original face amount. The new notes bear a fixed interest rate of 0.50% per annum until April 30, 2012 (the "Modification Period"), and then interest is to be paid at the rates set forth in the existing trust agreements until maturity, equal to a weighted average three month LIBOR plus 2.90%. We paid a transaction fee of approximately \$1.2 million to the issuers of the junior subordinated notes related to this restructuring.

In July 2009, we restructured the remaining \$18.7 million of trust preferred securities that were not exchanged from the May 2009 restructuring transaction previously disclosed. We amended the \$18.7 million of junior subordinated notes to \$20.9 million of unsecured junior subordinated notes, representing 112% of the original face amount. The amended notes bear a fixed interest rate of 0.50% per annum for a period of approximately three years, the modification period. Thereafter, interest is to be paid at the rates set forth in the existing trust agreements until maturity, equal to a weighted average three month LIBOR plus 2.74%. We paid a transaction fee of approximately \$0.1 million to the issuers of the junior subordinated notes related to this restructuring.

During the Modification Period, we will be permitted to make distributions of up to 100% of taxable income to common shareholders. We have agreed that such distributions will be paid in the form of our stock to the maximum

extent permissible under the Internal Revenue Service rules and regulations in effect at the time of such distribution, with the balance payable in cash. This requirement regarding distributions in stock can be terminated by us at any time, provided that we pay the note holders the original rate of interest from the time of such termination.

The junior subordinated notes are unsecured, have a maturity of 25 to 28 years, pay interest quarterly at a fixed rate or floating rate of interest based on three-month LIBOR and, absent the occurrence of special events, are not redeemable during the first two years. In connection with the issuance of the original variable rate junior subordinated notes, we had entered into various interest rate swap agreements which were subsequently terminated upon the exchange discussed above. As a result, in 2009, we recorded a loss of \$8.7 million, which was recorded to loss on termination of swaps on our Consolidated Statement of Operations. See Item 7A "Quantitative and Qualitative Disclosures About Market Risk" for further information relating to our derivatives.

In March 2009, we purchased, at a discount, approximately \$9.4 million of investment grade rated junior subordinated notes originally issued by a wholly-owned subsidiary of our operating partnership for \$1.3 million. We recorded a net gain on extinguishment of debt of \$8.1 million and a reduction of outstanding debt totaling \$9.4 million from this transaction in our first quarter 2009 financial statements. In connection with this transaction, during the second quarter of 2009, we retired approximately \$0.3 million of common equity related to these junior subordinated notes.

In February 2010, we retired \$114.1 million of our junior subordinated notes, with a carrying value of \$102.1 million, in exchange for the re-issuance of our own CDO bonds we had acquired throughout 2009 with an aggregate face amount of \$42.8 million, CDO bonds from other issuers acquired in the second quarter of 2008 with an aggregate face amount of \$25.0 million and a carrying value of \$0.4 million, and \$10.5 million in cash. In the first quarter of 2010, this transaction is expected to result in recording \$65.3 million of additional CDO debt, of which \$42.3 million represents the portion of our CDO bonds that were exchanged and \$23.0 million represents the estimated interest due on the bonds through their maturity, a reduction to securities available-for-sale of \$0.4 million representing the fair value of CDO bonds of other issuers, and a gain on extinguishment of debt of approximately \$26.0 million.

At December 31, 2009, the aggregate carrying value under these facilities was \$259.5 million with a current weighted average pay rate of 0.50%, however, based upon the accounting treatment for the restructure, the effective rate was 3.96% at December 31, 2009.

Notes Payable

At December 31, 2009, notes payable consisted of a term credit agreement with a revolving credit component, a working capital facility, a note payable and three junior loan participations, and the aggregate outstanding balance under these facilities was \$375.2 million.

In July 2009, we amended and restructured our term credit agreements, revolving credit agreement and working capital facility with Wachovia Bank, National Association as follows:

- The term revolving credit agreement with an outstanding balance of \$64.0 million was combined into the term debt facility with an outstanding balance of \$237.7 million, along with a portion of the term debt facility with an outstanding balance of \$30.3 million, and \$15.3 million of this term debt facility was combined into the working capital line with an outstanding balance of \$41.9 million. This debt restructuring resulted in the consolidation of these four facilities into one term debt facility with an outstanding balance of \$316.7 million at the time of the agreement, which contains a revolving component with \$35.3 million of availability, and one working capital facility with an outstanding balance of \$57.2 million at the time of the agreement.
- The maturity dates of the facilities were extended for three years, with a working capital facility maturity of June 8, 2012 and a term debt facility maturity of July 23, 2012.
- The term loan facility requires a \$48.1 million reduction over the three-year term, with approximately \$8.0 million in reductions due every six months beginning in December 2009.
- Margin call provisions relating to collateral value of the underlying assets have been eliminated, as long as the term loan reductions are met, with the exception of limited margin call capability related to foreclosed or real estate-owned assets.

[Table of Contents](#)

- The working capital facility requires quarterly amortization of up to \$3.0 million per quarter, \$1.0 million per CDO, only if both (a) the CDO is cash flowing to us and (b) we have a minimum quarterly liquidity level of \$27.5 million.
- Interest rate of LIBOR plus 350 basis points for the term loan facility, compared to LIBOR plus approximately 200 basis points previously and LIBOR plus 800 basis points for the working capital facility, compared to LIBOR plus 500 basis points previously. We have also agreed to pay a commitment fee of 1.00% payable over 3 years.
- We issued Wachovia one million warrants at an average strike price of \$4.00. 500,000 warrants are exercisable immediately at a price of \$3.50, 250,000 warrants are exercisable after July 23, 2010 at a price of \$4.00 and 250,000 warrants are exercisable after July 23, 2011 at a price of \$5.00. All warrants expire on July 23, 2015.
- Annual dividends are limited to 100% of taxable income to common shareholders and are required to be paid in the form of our stock to the maximum extent permissible (currently 90%), with the balance payable in cash. We will be permitted to pay 100% of taxable income in cash if the term loan facility balance is reduced to \$210.0 million, the working capital facility is reduced to \$30.0 million and we maintain \$35.0 million of minimum liquidity.
- Our CEO and Chairman, Ivan Kaufman, is required to remain an officer or director of us for the term of the facilities.

In addition, the financial covenants have been reduced to the following (see “Restrictive Covenants” section below for further details):

- Minimum quarterly liquidity of \$7.5 million in cash and cash equivalents.
- Minimum quarterly GAAP net worth of \$150.0 million.
- Ratio of total liabilities to tangible net worth shall not exceed 4.5 to 1 quarterly.

As a result of the above mentioned amendment, at December 31, 2009, we have one term credit agreement with Wachovia, which contains a revolving component with \$35.3 million of availability. The facility has a commitment period of three years to July 2012, bears an interest rate of LIBOR plus 350 basis points and margin call provisions relating to collateral value of the underlying assets have been eliminated, as long as the term loan reductions are met, with the exception of limited margin call capability related to foreclosed or real estate-owned assets. During the six months ended December 31, 2009, we made net paydowns to the facility of \$47.4 million, reducing the \$48.1 million balance reduction requirements to \$0.7 million and satisfying the balance reduction requirements until June 2012. The outstanding balance under this facility was \$269.3 million at December 31, 2009, with a current weighted average note rate of 4.38%.

We have a working capital facility with Wachovia with a maturity of June 2012 and an interest rate of LIBOR plus 800 basis points. At December 31, 2009, the outstanding balance under this facility was \$49.5 million with a current weighted average note rate of 8.35%.

We had a \$70.0 million bridge loan warehousing credit agreement with a financial institution, with a maturity date of October 2009, to provide financing for bridge loans. In May 2009, we amended this facility, extending the maturity to May 2010 with a one year extension option and reducing the committed amount to \$13.5 million. This agreement bore a rate of interest, payable monthly, based on one month LIBOR plus 3.75%. In July 2009, the facility was repaid in full.

We have a \$50.2 million note payable related to the POM transaction. During the second quarter of 2008, we recorded a \$49.5 million note payable related to the POM exchange of profits interest transaction. The note was initially secured by our interest in POM, matures in July 2016 and bore interest at a fixed rate of 4% with payment deferred until the closing of the transaction. Upon the closing of the POM transaction in March 2009, the note balance was increased to \$50.2 million, bears interest at a fixed rate of 4% and is secured by our investment in common and preferred operating partnership units in Lightstone Value Plus REIT, L.P.

We have three junior loan participations with a total outstanding balance at December 31, 2009 of \$6.3 million. These participation borrowings have a maturity date equal to the corresponding mortgage loan and are secured by the participant's interest in the mortgage loans. Interest expense is based on a portion of the interest received from the loans.

In 2010, we entered into an agreement with Wachovia Bank, National Association, owned by Wells Fargo Bank, National Association, to retire all of our \$335.6 million of then outstanding debt for \$176.2 million, representing 52.5% of the face amount of the debt. The \$335.6 million of indebtedness was comprised of \$286.1 million of term debt and a \$49.5 million working capital facility, representing the outstanding balances in each facility at the time the parties began to negotiate the agreement. The agreement can be closed at any time on or before May 31, 2010 and also has two consecutive 45 day extension options which would extend the payoff date to August 27, 2010. The agreement provides the ability to apply paydowns in the Wachovia facilities against the discounted payoff amount during the term of the agreement and accordingly, we have made payments of \$62.3 million towards the initial discounted payoff amount, leaving \$113.9 million payable to Wachovia to close this agreement. The closing of this transaction is subject to certain closing conditions and our ability to obtain the necessary capital. We can make no assurances that we will be able to access sufficient capital under acceptable terms and conditions. In addition, we have obtained a waiver of our minimum tangible net worth covenant, as well as our minimum ratio of total liabilities to tangible net worth covenant, from this financial institution for December 31, 2009 through the extended payoff date of August 27, 2010. We have also obtained temporary amendments thereafter until December 2010 for the quarterly minimum GAAP tangible net worth covenants, from \$150.0 million to \$50.0 million, and quarterly maximum ratio of total liabilities to tangible net worth covenants, from 4.5 to 1 to 5.8 to 1. See "Restrictive Covenants" below for further details

Mortgage Note Payable — Held-For-Sale

During the second quarter of 2008, we recorded a \$41.4 million first lien mortgage related to the foreclosure of an entity in which we had a \$5.0 million mezzanine loan. The real estate investment was originally classified as real estate owned and was reclassified as real estate held-for-sale in the third quarter of 2009. The mortgage bears interest at a fixed rate, has a maturity date of June 2012 and the outstanding balance of this mortgage was \$41.4 million at December 31, 2009.

Note Payable — Related Party

During the fourth quarter of 2008, we borrowed \$4.2 million from our manager, ACM. At December 31, 2008, we had outstanding borrowings due to ACM totaling \$4.2 million, which was recorded in notes payable — related party. In January 2009, the loan was repaid in full.

The term credit agreement, working capital facility and the master repurchase agreements require that we pay interest monthly, based on pricing over LIBOR. The amount of our pricing over these rates varies depending upon the structure of the loan or investment financed pursuant to the specific agreement.

These facilities also require that we pay down borrowings based on balance reduction requirements or pro-rata as principal payments on our loans and investments are received. In addition, if upon maturity of a loan or investment we decide to grant the borrower an extension option, the financial institutions have the option to extend the borrowings or request payment in full on the outstanding borrowings of the loan or investment extended.

Restrictive Covenants

Each of the credit facilities contains various financial covenants and restrictions, including minimum net worth, minimum liquidity and debt-to-equity ratios. In addition to the financial terms and capacities described above, our credit facilities generally contain covenants that prohibit us from effecting a change in control, disposing of or encumbering assets being financed and restrict us from making any material amendment to our underwriting guidelines without approval of the lender. If we violate these covenants in any of our credit facilities, we could be required to pledge more collateral, or repay all or a portion of our indebtedness before maturity at a time when we might be unable to arrange financing for such repayment on attractive terms, if at all. If we are unable to retire our borrowings in such a situation, (i) we may need to prematurely sell the assets securing such debt, (ii) the lenders could accelerate the debt and foreclose on the assets that are pledged as collateral to such lenders, (iii) such lenders could force us into bankruptcy, (iv) such lenders could force us to take other actions to protect the value of their

collateral and (v) our other debt financings could become immediately due and payable. Any such event would have a material adverse effect on our liquidity, the value of our common stock, our ability to make distributions to our stockholders and our ability to continue as a going concern. Violations of these covenants may also result in our being unable to borrow unused amounts under our credit facilities, even if repayment of some or all borrowings is not required. Additionally, to the extent that we were to realize additional losses relating to our loans and investments, it would put additional pressure on our ability to continue to meet these covenants. We were in compliance with all financial covenants and restrictions for the periods presented with the exception of a minimum tangible net worth requirement with Wachovia at December 31, 2009. Our tangible net worth was \$98.6 million at December 31, 2009 and we were required to maintain a minimum tangible net worth of \$150.0 million with this financial institution. We have obtained a waiver of this covenant, as well as the minimum ratio of total liabilities to tangible net worth covenant, from this financial institution for December 31, 2009 and through an extended payoff date of August 27, 2010, in conjunction with amendments to our credit facilities. We have also obtained temporary amendments thereafter until December 2010 for the quarterly minimum GAAP tangible net worth covenants, from \$150.0 million to \$50.0 million, and quarterly maximum ratio of total liabilities to tangible net worth covenants, from 4.5 to 1 to 5.8 to 1.

We also have certain cross-default provisions whereby accelerated re-payment would occur under the Wachovia Term Credit and Working Capital facilities if any party defaults under any indebtedness in a principal amount of at least \$5.0 million in the aggregate beyond any applicable grace period regardless of whether the default has been or is waived. Also, a default under the Junior Subordinated Indentures or any of the CDO's would trigger a default under our Wachovia debt agreements, but not vice versa, and no payment due under the Junior Subordinated Indentures may be paid if there is a default under any senior debt and the senior lender has sent notice to the trustee. The Junior Subordinated Indentures are also cross-defaulted with each other.

Cash Flow From Operations

We continually monitor our cash position to determine the best use of funds to both maximize our return on funds and maintain an appropriate level of liquidity. Historically, in order to maximize the return on our funds, cash generated from operations has generally been used to temporarily pay down borrowings under credit facilities whose primary purpose is to fund our new loans and investments. Consequently, when making distributions in the past, we have borrowed the required funds by drawing on credit capacity available under our credit facilities. However, given current market conditions, we may have to maintain adequate liquidity from operations to make any future distributions.

Contractual Commitments

As of December 31, 2009, we had the following material contractual obligations (payments in thousands):

Contractual Obligations	Payments Due by Period(1)

(1) Represents principal amounts due based on contractual maturities. Does not include total projected interest payments on our debt obligations of \$49.1 million in 2010, \$44.7 million in 2011, \$41.0 million in 2012, \$25.2 million in 2013, \$20.3 million in 2014 and \$190.5 million thereafter based on current LIBOR rates.

- (2) Comprised of \$254.1 million of CDO I debt, \$329.5 million of CDO II debt and \$516.9 million of CDO III debt with an estimated weighted average remaining maturity of 2.08, 3.35 and 3.15 years, respectively, as of December 31, 2009. In 2009, we purchased, at a discount, approximately \$42.8 million of investment grade notes originally issued by our CDO I, CDO II and CDO III issuers and recorded a reduction of the outstanding debt balance of \$42.8 million. In the first quarter of 2010, we purchased, at a discount, approximately \$19.4 million of investment grade notes originally issued by our CDO I, CDO II and CDO III issuers and recorded a reduction of the outstanding debt balance of \$19.4 million. In February 2010, we re-issued the CDO bonds we had acquired throughout 2009 with an aggregate face amount of \$42.8 million in exchange for the retirement of a portion of our junior subordinated notes.
- (3) Represents the face amount due upon maturity. The carrying value is \$259.3 million, which is net of a deferred amount of \$30.5 million. In 2009, we repurchased, at a discount, approximately \$9.4 million of investment grade rated junior subordinated notes originally issued by our issuing entity and recorded a reduction of the outstanding debt balance of \$9.4 million. In February 2010, we retired \$114.1 million of our junior subordinated notes in exchange for the re-issuance of certain of our own CDO bonds, as well as other assets.
- (4) In accordance with certain loans and investments, we have outstanding unfunded commitments of \$66.0 million as of December 31, 2009, that we are obligated to fund as the borrowers meet certain requirements. Specific requirements include, but are not limited to, property renovations, building construction, and building conversions based on criteria met by the borrower in accordance with the loan agreements. In relation to the \$66.0 million outstanding balance at December 31, 2009, our restricted cash balance and CDO III revolver capacity contained approximately \$15.2 million of cash and \$13.3 million of capacity available to fund the portion of the unfunded commitments for loans financed by our CDO vehicles.

Off-Balance-Sheet Arrangements

At December 31, 2009, we did not have any off-balance-sheet arrangements.

Management Agreement

On August 6, 2009, we amended our management agreement with ACM. The amendment was negotiated by a special committee of our Board of Directors, consisting solely of independent directors and approved unanimously by all of the independent directors. JMP Securities LLC served as financial advisor to the special committee and Skadden, Arps, Slate, Meagher & Flom LLP served as its special counsel. The agreement includes the following new terms, effective as of January 1, 2009:

- The existing base management fee structure, which is calculated as a percentage of our equity, was replaced with an arrangement whereby we will reimburse the manager for its actual costs incurred in managing our business based on the parties' agreement in advance on an annual budget with subsequent quarterly true-ups to actual costs. This change was adopted retroactively to January 1, 2009 and we estimated the 2009 base management fee would be in the range of \$8.0 million to \$8.5 million. The 2010 base management fee is estimated to be in the same range. Concurrent with this change, all future origination fees on investments will be retained by us, whereas under the prior agreement, origination fees up to 1% of the loan were retained by ACM. In addition, we made a \$3.0 million payment to the manager in consideration of expenses incurred by the manager in 2008 in managing our business and certain other services. These changes were accounted for prospectively as a change in accounting estimate.
- The percentage hurdle for the incentive fee will be applied on a per share basis to the greater of \$10.00 and the average gross proceeds per share, whereas the previous management agreement provided for such percentage hurdle to be applied only to the average gross proceeds per share. In addition, only 60% of any loan loss and other reserve recoveries will be eligible to be included in the incentive fee calculation, which will be spread over a three year period, whereas the previous management agreement did not limit the inclusion of such recoveries in the incentive fee calculation.
- The amended management agreement allows us to consider, from time to time, the payment of additional fees to the manager for accomplishing certain specified corporate objectives. In accordance with the agreement, "success-based" payments were paid for the trust preferred and Wachovia debt restructurings totaling \$4.1 million in the third quarter of 2009.
- The amended management agreement modifies and simplifies the provisions related to the termination of the agreement and any related fees payable in such instances, including for internalization, with a

termination fee of \$10.0 million, rather than payment based on a multiple of base and incentive fees as previously existed.

- The amended management agreement will remain in effect until December 31, 2010, and will be renewed automatically for successive one-year terms thereafter.

For performing services under the management agreement, we previously paid ACM an annual base management fee payable monthly in cash as a percentage of ARLP's equity and equal to 0.75% per annum of the equity up to \$400 million, 0.625% per annum of the equity from \$400 million to \$800 million and 0.50% per annum of the equity in excess of \$800 million. For purposes of calculating the base management fee, equity equaled the month end value computed in accordance with GAAP of (1) total partners' equity in ARLP, plus or minus (2) any unrealized gains, losses or other items that do not affect realized net income. With respect to all loans and investments originated during the term of the management agreement, we had also agreed to pay ACM an amount equal to 100% of the origination fees paid by the borrower up to 1% of the loan's principal amount.

We also paid ACM incentive compensation on a quarterly basis, calculated as (1) 25% of the amount by which (a) ARLP's funds from operations per unit of partnership interest in ARLP, adjusted for certain gains and losses, exceeds (b) the product of (x) 9.5% per annum or the Ten Year U.S. Treasury Rate plus 3.5%, whichever is greater, and (y) the weighted average of book value of the net assets contributed by ACM to ARLP per ARLP partnership unit, the offering price per share of our common equity in the private offering on July 1, 2003 and subsequent offerings and the issue price per ARLP partnership unit for subsequent contributions to ARLP, multiplied by (2) the weighted average of ARLP's outstanding partnership units.

We incurred \$15.1 million, or \$0.60 per basic and diluted common share, of base management fees for services rendered in 2009. The \$15.1 million consisted of \$8.0 million in budgeted base management fees, a \$3.0 million retroactive payment for 2008 costs, and the new fee structure also provides for "success-based" payments to be paid to our manager upon the completion of specified corporate objectives in addition to the standard base management fee, thus the third quarter of 2009 base management fee included "success-based" payments for the trust preferred and Wachovia debt restructurings totaling \$4.1 million. We incurred \$3.5 million and \$3.2 million of base management fees for services rendered in 2008 and 2007, respectively.

In 2009, ACM did not earn an incentive compensation fee. In 2008, ACM did not earn an incentive compensation fee and the overpayment of the incentive fee for the trailing twelve months in the amount of \$2.9 million, of which \$1.4 million was paid in 116,680 shares of common stock and \$1.5 million paid in cash, was recorded and included in due from related party. In June, 2009, ACM repaid the \$2.9 million in accordance with the amended management agreement described above. In addition, we recorded a \$7.3 million deferred management fee recorded in the second quarter of 2008 related to the incentive compensation fee recognized from the monetization of the POM transaction in June 2008, which subsequently closed in the second quarter of 2009. In 2008, the \$7.3 million deferred incentive compensation fee was paid in 355,903 shares of common stock and \$4.1 million paid in cash, and was reclassified to prepaid management fees. In accordance with the amended management agreement, installments of the annual incentive compensation are subject to quarterly recalculation and potential reconciliation at the end of the fiscal year and any overpayments are required to be repaid in accordance with the management agreement. Since no incentive fee was earned for 2009, the prepaid management fee is to be paid back in installments of 25% due by December 31, 2010 and 75% due by June 30, 2012, with an option to make payment in both cash and Arbor Realty Trust, Inc. common stock provided that at least 50% of the payment is made in cash, and will be offset against any future incentive management fees or success-based payments earned by our manager prior to June 30, 2012. See Note 6 and Note 17 of the "Notes to the Consolidated Financial Statements" set forth in Item 8 hereof for further details.

In 2007, ACM earned an incentive compensation installment totaling \$40.8 million, of which \$13.7 million was elected by ACM to be paid in 556,631 shares of common stock and \$27.1 million paid in cash. Included in the \$40.8 million of incentive compensation was \$21.8 million recorded as management fee expense and \$19.0 million recorded as prepaid management fees related to the incentive compensation management fee on the deferred revenue recognized on the transfer of control of the 450 West 33rd Street property of one of our equity affiliates. As of December 31, 2007, ACM's fourth quarter installment of \$2.9 million was included in due to related party. As provided for in the management agreement, ACM elected to be paid its fourth quarter incentive compensation

management fee partially in 86,772 shares of common stock with the remainder to be paid in cash totaling \$1.5 million, which was subsequently paid in February 2008.

We pay the annual incentive compensation in four installments, each within 60 days of the end of each fiscal quarter. The calculation of each installment is based on results for the 12 months ending on the last day of the fiscal quarter for which the installment is payable. These installments of the annual incentive compensation are subject to recalculation and potential reconciliation at the end of such fiscal year, and any overpayments are required to be repaid in accordance with the amended management agreement. Subject to the ownership limitations in our charter, at least 25% of this incentive compensation is payable to our manager in shares of our common stock having a value equal to the average closing price per share for the last 20 days of the fiscal quarter for which the incentive compensation is being paid.

The incentive compensation is accrued as it is earned. The expense incurred for incentive compensation paid in common stock is determined using the valuation method described above and the quoted market price of our common stock on the last day of each quarter. At December 31 of each year, we remeasure the incentive compensation paid to our manager in the form of common stock in accordance with current accounting guidance, which discusses how to measure at the measurement date when certain terms are not known prior to the measurement date. Accordingly, the expense recorded for such common stock is adjusted to reflect the fair value of the common stock on the measurement date when the final calculation of the annual incentive compensation is determined. In the event that the annual incentive compensation calculated as of the measurement date is less than the four quarterly installments of the annual incentive compensation paid in advance, our manager will refund the amount of such overpayment in cash and we would record a negative incentive compensation expense in the quarter when such overpayment is determined.

Origination Fees: Origination fees paid by borrowers for loans or investments made by us, less any payments to unaffiliated third party brokers or other unaffiliated third party costs in connection with the origination of these investments, would be retained by us or otherwise reduce the base management fee installment for that month.

Term and Termination. The amended management agreement has an initial term up to December 31, 2010 and is renewable automatically for an additional one year period every year thereafter, unless terminated with six months' prior written notice. If we terminate or elect not to renew the management agreement without cause, we are required to pay a termination fee of \$10.0 million.

Inflation

Changes in the general level of interest rates prevailing in the economy in response to changes in the rate of inflation generally have little effect on our income because the majority of our interest-earning assets and interest-bearing liabilities have floating rates of interest. However, the significant decline in interest rates during the latter part of 2007, 2008 and 2009 triggered LIBOR floors on certain of our variable rate interest-earning assets. This resulted in an increase in interest rate spreads as the rates we pay on variable rate interest-bearing liabilities declined at a greater pace than the rates we earned on our variable rate interest-earning assets. Additionally, we have various fixed rate loans in our portfolio which are financed with variable rate LIBOR borrowings. In connection with these loans, we have entered into various interest swaps to hedge our exposure to the interest rate risk on our variable rate LIBOR borrowings as it relates to certain fixed rate loans in our portfolio. However, the value of our interest-earning assets, our ability to realize gains from the sale of assets, and the average life of our interest-earning assets, among other things, may be affected. See Item 7A — “Quantitative and Qualitative Disclosures about Market Risk.”

Related Party Transactions

Due from related party was \$15.2 million at December 31, 2009 and consisted of \$7.0 million for a loan paydown received by ACM in December 2009, which was repaid in the first quarter of 2010, \$0.9 million of escrows due from ACM related to 2009 real estate asset transactions and \$7.3 million reclassified from prepaid management fee — related party, related to the POM transaction which closed in 2009. See Note 6 of the “Notes to the Consolidated Financial Statements” set forth in Item 8 hereof for further details. In accordance with the August 2009 amended management agreement, since no incentive fee was earned for 2009, the prepaid management fee is to be paid back in installments of 25% due by December 31, 2010 and 75% due by June 30, 2012, with an option to

make payment in both cash and Arbor Realty Trust, Inc. common stock provided that at least 50% of the payment is made in cash, and will be offset against any future incentive management fees or success-based payments earned by our manager prior to June 30, 2012. At December 31, 2008, due from related party was \$2.9 million as a result of an overpayment of incentive management compensation based on the results of the twelve months ended December 31, 2008, which was repaid in the second quarter of 2009. Refer to the section "Management Agreement" above for further details.

Due to related party was \$2.0 million at December 31, 2009 and consisted primarily of base management fees due to ACM, which will be remitted by us in 2010. At December 31, 2008, due to related party was \$1.0 million and consisted of \$0.8 million of base management fees and \$0.2 million of unearned fees that were remitted by us in February 2009.

During 2009, we purchased from ACM, approximately \$20.0 million of investment grade rated bonds originally issued by two of our three CDO issuing entities and approximately \$9.4 million of junior subordinated notes originally issued by a wholly-owned subsidiary of our operating partnership for \$9.1 million and recorded a net gain on early extinguishment of debt of \$20.3 million. ACM had purchased the CDO notes from third party investors for \$8.2 million in 2008, and the junior subordinated notes from third party investors for \$1.3 million in 2009.

During the fourth quarter of 2008, we borrowed \$4.2 million from our manager, ACM. At December 31, 2008, we had outstanding borrowings due to ACM totaling \$4.2 million, which was recorded in notes payable — related party. In January 2009, the loan was repaid in full.

During 2006, we originated a \$7.2 million bridge loan and a \$0.3 million preferred equity investment secured by garden-style and townhouse apartments in South Carolina. We also had a 25.0% carried profits interest in the borrowing entity. In January 2008, the borrowing entity refinanced the property through ACM's Fannie Mae program and we received \$0.3 million for our profits interest as well as full repayment of the \$0.3 million preferred equity investment and the \$7.0 million outstanding balance on the bridge loan. We retained the 25% carried profits interest.

At December 31, 2006, we had a \$7.75 million first mortgage loan that bore interest at a variable rate of one month LIBOR plus 4.25% and was scheduled to mature in March 2006. In March 2006, this loan was extended for one year with no other change in terms. The underlying property was sold to a third party in March 2007. We provided the financing to the third party and, in conjunction with the sale, the original loan was repaid in full in March 2007. The original loan was made to a not-for-profit corporation that holds and manages investment property from the endowment of a private academic institution. Two of our directors are members of the board of trustees of the original borrower and the private academic institution. Interest income recorded from the original loan for the year ended December 31, 2007 was approximately \$0.1 million.

Other Related Party Transactions

ACM contributed the majority of its structured finance portfolio to our operating partnership pursuant to a contribution agreement. The contribution agreement contains representations and warranties concerning the ownership and terms of the structured finance assets it contributed and other customary matters. In exchange for ACM's asset contribution, we issued to ACM approximately 3.1 million operating partnership units, each of which ACM could redeem for one share of our common stock or an equivalent amount in cash, at our election, and 629,345 warrants, each of which entitled ACM to purchase one additional operating partnership unit at an initial exercise price of \$15.00. The operating partnership units and warrants for additional operating partnership units issued to ACM were valued at approximately \$43.9 million at July 1, 2003, based on the price offered to investors in our units in the private placement, adjusted for the initial purchaser's discount. We also granted ACM certain demand and other registration rights with respect to the shares of common stock issuable upon redemption of its operating partnership units. In 2004, ACM exercised all of its warrants for a total of 629,345 operating partnership units and proceeds of \$9.4 million.

Each of the approximately 3.8 million operating partnership units owned by ACM was paired with one share of our special voting preferred stock that entitles the holder to one vote on all matters submitted to a vote of our

stockholders. As operating partnership units were redeemed for shares of our common stock or cash an equivalent number of shares of special voting preferred stock would be redeemed and cancelled. As a result of the ACM asset contribution and the related formation transactions, ACM owned approximately a 16% limited partnership interest in our operating partnership and the remaining 84% interest in our operating partnership was owned by us.

In June 2008, our external manager exercised its right to redeem its approximate 3.8 million operating partnership units in our operating partnership for shares of our common stock on a one-for-one basis. In addition, the special voting preferred shares paired with each operating partnership unit, pursuant to a pairing agreement, were redeemed simultaneously and cancelled. ACM currently holds approximately 21% of the voting power of our outstanding common stock.

We and our operating partnership have entered into a management agreement with ACM, as amended in August 2009, pursuant to which ACM has agreed to provide us with structured finance investment opportunities and loan servicing as well as other services necessary to operate our business. As discussed above in “Contractual Commitments — Management Agreement,” we have agreed to pay our manager a base management fee monthly, based on an annual budget, and an incentive management fee when earned.

Under the terms of the management agreement, ACM has also granted us a right of first refusal with respect to all structured finance investment opportunities in the multi-family and commercial real estate markets that are identified by ACM or its affiliates.

In addition, Mr. Kaufman has entered into a non-competition agreement with us pursuant to which he has agreed not to pursue structured finance investment opportunities in the multi-family and commercial real estate markets, except as approved by our board of directors.

We are dependent upon our manager (ACM), with whom we have a conflict of interest, to provide services to us that are vital to our operations. Our chairman, chief executive officer and president, Mr. Ivan Kaufman, is also the chief executive officer and president of our manager, and, our chief financial officer and treasurer, Mr. Paul Elenio, is the chief financial officer of our manager. In addition, Mr. Kaufman and the Kaufman entities together beneficially own approximately 92% of the outstanding membership interests of ACM and certain of our employees and directors, also hold an ownership interest in ACM. Furthermore, one of our directors also serves as the trustee of one of the Kaufman entities that holds a majority of the outstanding membership interests in ACM and co-trustee of another Kaufman entity that owns an equity interest in our manager.

We and our operating partnership have also entered into a services agreement with ACM pursuant to which our asset management group provides asset management services to ACM. In the event the services provided by our asset management group pursuant to the agreement exceed by more than 15% per quarter the level of activity anticipated by our board of directors, we will negotiate in good faith with our manager an adjustment to our manager’s base management fee under the management agreement, to reflect the scope of the services, the quantity of serviced assets or the time required to be devoted to the services by our asset management group. See “Management Agreement” above.

Funds from Operations

We are presenting funds from operations (“FFO”) because we believe it to be an important supplemental measure of our operating performance in that it is frequently used by analysts, investors and other parties in the evaluation of real estate investment trusts (REITs). The revised White Paper on FFO approved by the Board of Governors of the National Association of Real Estate Investment Trusts, or NAREIT, in April 2002 defines FFO as net income (loss) attributable to Arbor Realty Trust, Inc. (computed in accordance with generally accepted accounting principles in the United States (“GAAP”)), excluding gains (losses) from sales of depreciated real properties, plus real estate-related depreciation and amortization and after adjustments for unconsolidated partnerships and joint ventures. We consider gains and losses on the sales of undepreciated real estate investments to be a normal part of our recurring operating activities in accordance with GAAP and should not be excluded when calculating FFO. To date, we have not sold any previously depreciated operating properties, which would be excluded from the FFO calculation. In accordance with the revised white paper, losses from discontinued operations are not excluded when calculating FFO.

[Table of Contents](#)

FFO is not intended to be an indication of our cash flow from operating activities (determined in accordance with GAAP) or a measure of our liquidity, nor is it entirely indicative of funding our cash needs, including our ability to make cash distributions. Our calculation of FFO may be different from the calculation used by other companies and, therefore, comparability may be limited.

FFO for the years ended December 31, 2009, 2008 and 2007 are as follows:

	For the Year Ended December 31,

ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Market risk is the exposure to loss resulting from changes in interest rates, foreign currency exchange rates, commodity prices, equity prices and real estate values. The primary market risks that we are exposed to are real estate risk and interest rate risk.

Market Conditions

We are subject to market changes in the debt and secondary mortgage markets. These markets are currently experiencing disruptions, which could have an adverse impact on our earnings and financial condition.

Current conditions in the debt markets include reduced liquidity and increased risk adjusted premiums. These conditions may increase the cost and reduce the availability of debt. We attempt to mitigate the impact of debt market disruptions by obtaining adequate debt facilities from a variety of financing sources. There can be no assurance, however, that we will be successful in these efforts, that such debt facilities will be adequate or that the cost of such debt facilities will be at similar terms.

The secondary mortgage markets are also currently experiencing disruptions resulting from reduced investor demand for collateralized debt obligations and increased investor yield requirements for these obligations. In light of these conditions, we currently expect to finance our loan and investment portfolio with our current capital and debt facilities.

Real Estate Risk

Commercial mortgage assets may be viewed as exposing an investor to greater risk of loss than residential mortgage assets since such assets are typically secured by larger loans to fewer obligors than residential mortgage assets. Multi-family and commercial property values and net operating income derived from such properties are subject to volatility and may be affected adversely by a number of factors, including, but not limited to, events such as natural disasters including hurricanes and earthquakes, acts of war and/or terrorism (such as the events of September 11, 2001) and others that may cause unanticipated and uninsured performance declines and/or losses to us or the owners and operators of the real estate securing our investment; national, regional and local economic conditions (which may be adversely affected by industry slowdowns and other factors); local real estate conditions (such as an oversupply of housing, retail, industrial, office or other commercial space); changes or continued weakness in specific industry segments; construction quality, construction delays, construction cost, age and design; demographic factors; retroactive changes to building or similar codes; and increases in operating expenses (such as energy costs). In the event net operating income decreases, a borrower may have difficulty repaying our loans, which could result in losses to us. In addition, decreases in property values reducing the value of collateral, and a lack of liquidity in the market, could reduce the potential proceeds available to a borrower to repay our loans, which could also cause us to suffer losses. Even when the net operating income is sufficient to cover the related property's debt service, there can be no assurance that this will continue to be the case in the future.

Interest Rate Risk

Interest rate risk is highly sensitive to many factors, including governmental monetary and tax policies, domestic and international economic and political considerations and other factors beyond our control.

Our operating results will depend in large part on differences between the income from our loans and our borrowing costs. Most of our loans and borrowings are variable-rate instruments, based on LIBOR. The objective of this strategy is to minimize the impact of interest rate changes on our net interest income. In addition, we have various fixed rate loans in our portfolio, which are financed with variable rate LIBOR borrowings. We have entered into various interest swaps (as discussed below) to hedge our exposure to interest rate risk on our variable rate LIBOR borrowings as it relates to our fixed rate loans. Many of our loans and borrowings are subject to various interest rate floors. As a result, the impact of a change in interest rates may be different on our interest income than it is on our interest expense.

One month LIBOR approximated 0.25% at December 31, 2009 and 0.5% at December 31, 2008.

Based on our loans, securities held-to-maturity and liabilities as of December 31, 2009, and assuming the balances of these loans, securities and liabilities remain unchanged for the subsequent twelve months, a 0.25% increase in LIBOR would decrease our annual net income and cash flows by approximately \$0.1 million. This is primarily due to various interest rate floors that are in effect at a rate that is above a 0.25% increase in LIBOR which would limit the effect of a 0.25% increase, and increased expense on variable rate debt, partially offset by our interest rate swaps that effectively convert a portion of the variable rate LIBOR based debt, as it relates to certain fixed rate assets, to a fixed basis that is not subject to a 0.25% increase. Based on the loans, securities held-to-maturity and liabilities as of December 31, 2009, and assuming the balances of these loans, securities and liabilities remain unchanged for the subsequent twelve months, a 0.25% decrease in LIBOR would increase our annual net income and cash flows by approximately \$0.1 million. This is primarily due to various interest rate floors which limit the effect of a decrease on interest income and decreased expense on variable rate debt, partially offset by our interest rate swaps that effectively converted a portion of the variable rate LIBOR based debt, as it relates to certain fixed rate assets, to a fixed basis that is not subject to a 0.25% decrease.

Based on our loans, securities held-to-maturity and liabilities as of December 31, 2008, and assuming the balances of these assets and liabilities remain unchanged for the subsequent twelve months, a 0.5% increase in LIBOR would decrease our annual net income and cash flows by approximately \$2.6 million. This is primarily due to various interest rate floors that are in effect at a rate that is above a 0.5% increase in LIBOR which would limit the effect of a 0.5% increase, and increased expense on variable rate debt, partially offset by our interest rate swaps that effectively convert a portion of the variable rate LIBOR based debt, as it relates to certain fixed rate assets, to a fixed basis that is not subject to a 0.5% increase. Based on the loans, securities held-to-maturity and liabilities as of December 31, 2008, and assuming the balances of these loans and liabilities remain unchanged for the subsequent twelve months, a 0.5% decrease in LIBOR would increase our annual net income and cash flows by approximately \$1.8 million. This is primarily due to various interest rate floors which limit the effect of a decrease on interest income and decreased expense on variable rate debt, partially offset by our interest rate swaps that effectively converted a portion of the variable rate LIBOR based debt, as it relates to certain fixed rate assets, to a fixed basis that is not subject to a decrease.

In the event of a significant rising interest rate environment and/or economic downturn, defaults could increase and result in credit losses to us, which could adversely affect our liquidity and operating results. Further, such delinquencies or defaults could have an adverse effect on the spreads between interest-earning assets and interest-bearing liabilities.

In connection with our CDOs described in “Management’s Discussion and Analysis of Financial Condition and Results of Operations,” we entered into interest rate swap agreements to hedge the exposure to the risk of changes in the difference between three-month LIBOR and one-month LIBOR interest rates. These interest rate swaps became necessary due to the investor’s return being paid based on a three-month LIBOR index while the assets contributed to the CDOs are yielding interest based on a one-month LIBOR index. As of December 31, 2009 and 2008, we had nine and ten of these interest rate swap agreements outstanding that have combined notional values of \$1.1 billion and \$1.3 billion, respectively. The market value of these interest rate swaps is dependent upon existing market interest rates and swap spreads, which change over time. If there were a 25 basis point and 50 basis point increase in forward interest rates as of December 31, 2009 and 2008, respectively, the value of these interest rate swaps would have decreased by approximately \$0.1 million for both periods. If there were a 25 basis point and 50 basis point decrease in forward interest rates as of December 31, 2009 and 2008, respectively, the value of these interest rate swaps would have increased by approximately \$0.1 million for both periods.

As of December 31, 2009, we had 34 interest rate swap agreements outstanding that have a combined notional value of \$708.2 million. As of December 31, 2008 we had 33 interest rate swap agreements outstanding with a combined notional value of \$689.9 million to hedge current and outstanding LIBOR based debt relating to certain fixed rate loans within our portfolio. The fair market value of these interest rate swaps is dependent upon existing market interest rates and swap spreads, which change over time. If there had been a 25 basis point and 50 basis point increase in forward interest rates as of December 31, 2009 and 2008, respectively, the fair market value of these interest rate swaps would have increased by approximately \$6.1 million and \$15.7 million, respectively. If there were a 25 basis point and 50 basis point decrease in forward interest rates as of December 31, 2009 and 2008,

respectively, the fair market value of these interest rate swaps would have decreased by approximately \$6.0 million and \$16.2 million, respectively.

We have, in the past, entered into various interest rate swap agreements in connection with the issuance of variable rate junior subordinated notes. These swaps had total notional values of \$236.5 million as of December 31, 2008. We no longer utilize interest rate swaps for the newly issued junior subordinated notes exchanged for the aforementioned junior subordinated notes due to the modified interest payment structure. If there had been a 50 basis point increase in forward interest rates as of December 31, 2008, the fair market value of these interest rate swaps would have increased by approximately \$3.3 million. If there were a 50 basis point decrease in forward interest rates as of December 31, 2008, the fair market value of these interest rate swaps would have decreased by approximately \$3.4 million.

Certain of our interest rate swaps, which are designed to hedge interest rate risk associated with a portion of our loans and investments, could require the funding of additional cash collateral for changes in the market value of these swaps. Due to the prolonged volatility in the financial markets that began in 2007, the value of these interest rate swaps has declined substantially. As a result, at December 31, 2009 and 2008, we funded approximately \$18.9 million and \$46.5 million, respectively, in cash related to these swaps. If we continue to experience significant changes in the outlook of interest rates, these contracts could continue to decline in value, which would require additional cash to be funded. However, at maturity the value of these contracts return to par and all cash will be recovered. If we do not have available cash to meet these requirements, this could result in the early termination of these interest rate swaps, leaving us exposed to interest rate risk associated with these loans and investments, which could adversely impact our financial condition.

Our hedging transactions using derivative instruments also involve certain additional risks such as counterparty credit risk, the enforceability of hedging contracts and the risk that unanticipated and significant changes in interest rates will cause a significant loss of basis in the contract. The counterparties to our derivative arrangements are major financial institutions with high credit ratings with which we and our affiliates may also have other financial relationships. As a result, we do not anticipate that any of these counterparties will fail to meet their obligations. There can be no assurance that we will be able to adequately protect against the foregoing risks and will ultimately realize an economic benefit that exceeds the related amounts incurred in connection with engaging in such hedging strategies.

We utilize interest rate swaps to limit interest rate risk. Derivatives are used for hedging purposes rather than speculation. We do not enter into financial instruments for trading purposes.

Report of Independent Registered Public Accounting Firm

The Board of Directors and Stockholders of
Arbor Realty Trust, Inc. and Subsidiaries

We have audited the accompanying consolidated balance sheets of Arbor Realty Trust, Inc. and Subsidiaries (the “Company”) as of December 31, 2009 and 2008, and the related consolidated statements of operations, changes in equity, and cash flows for each of the three years in the period ended December 31, 2009. Our audits also included the financial statement schedule listed in the Index at Item 8. These financial statements and schedule are the responsibility of the Company’s management. Our responsibility is to express an opinion on these financial statements and schedule based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the consolidated financial position of the Company at December 31, 2009 and 2008, and the consolidated results of its operations and its cash flows for each of the three years in the period ended December 31, 2009, in conformity with U.S. generally accepted accounting principles. Also, in our opinion, the related financial statement schedule, when considered in relation to the financial statements taken as a whole, presents fairly, in all material respects, the information set forth therein.

As discussed in Note 2 to the consolidated financial statements, the Company retrospectively changed its method of accounting for noncontrolling interests in consolidated entity due to the adoption of the guidance originally issued in FASB Statement No. 160, *Noncontrolling Interests in Consolidated Financial Statements* (codified in FASB ASC Topic 810, *Consolidation*).

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the Company’s internal control over financial reporting as of December 31, 2009, based on criteria established in Internal Control-Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission and our report dated March 8, 2010 expressed an unqualified opinion thereon.

ARBOR REALTY TRUST, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
December 31, 2009

Note 1 — Description of Business / Form of Ownership

Arbor Realty Trust, Inc. (the “Company”) is a Maryland corporation that was formed in June 2003 to invest in a diversified portfolio of multi-family and commercial real estate-related assets, primarily consisting of bridge loans, mezzanine loans, junior participating interests in first mortgage loans, and preferred and direct equity. The Company may also directly acquire real property and invest in real estate-related notes and certain mortgage-related securities. The Company conducts substantially all of its operations through its operating partnership, Arbor Realty Limited Partnership (“ARLP”), and ARLP’s wholly-owned subsidiaries. The Company is externally managed and advised by Arbor Commercial Mortgage, LLC (“ACM”).

The Company is organized and conducts its operations to qualify as a real estate investment trust (“REIT”) for federal income tax purposes. A REIT is generally not subject to federal income tax on its REIT taxable income that it distributes to its stockholders, provided that it distributes at least 90% of that income and meets certain other requirements for qualification as a REIT. Additionally, the IRS has issued guidance that temporarily allows listed REITs to offer shareholders elective dividends which are paid in a combination of cash and common stock, even if the amount payable in cash is capped, so long as that cap is not less than 10% of the total dividend. Certain of our assets or operations that would not otherwise comply with the REIT requirements, are owned or conducted by our taxable REIT subsidiaries, the income of which is subject to federal and state income taxes.

The Company’s charter provides for the issuance of up to 500 million shares of common stock, with a par value of \$0.01 per share, and 100 million shares of preferred stock, with a par value of \$0.01 per share. The Company was incorporated in June 2003 and was initially capitalized through the sale of 67 shares of common stock for \$1,005.

On July 1, 2003, ACM contributed \$213.1 million of structured finance assets and \$169.2 million of borrowings supported by \$43.9 million of equity in exchange for a commensurate equity ownership in ARLP. In addition, certain employees of ACM were transferred to ARLP. These assets, liabilities and employees represent a substantial portion of ACM’s structured finance business (the “SF Business”). The Company is externally managed and advised by ACM and pays ACM a management fee in accordance with a management agreement. ACM also sources originations, provides underwriting services, and services all structured finance assets on behalf of ARLP and its wholly owned subsidiaries.

On July 1, 2003, the Company completed a private equity offering of 1,610,000 units (including an overallotment option), each consisting of five shares of common stock and one warrant to purchase one share of common stock at \$75.00 per unit. The Company sold 8,050,000 shares of common stock in the offering. Gross proceeds from the private equity offering totaled \$120.2 million. Gross proceeds from the private equity offering combined with the concurrent equity contribution by ACM totaled approximately \$164.1 million in equity capital. The Company paid and accrued offering expenses of \$10.1 million resulting in stockholders’ equity and minority interest of \$154.0 million as a result of the private placement.

In April 2004, the Company sold 6,750,000 shares of its common stock in a public offering at a price of \$20.00 per share, for net proceeds of approximately \$124.4 million after deducting the underwriting discount and other estimated offering expenses. The Company used the proceeds to pay down indebtedness. In May 2004, the underwriters exercised a portion of their over-allotment option, which resulted in the issuance of 524,200 additional shares. The Company received net proceeds of approximately \$9.8 million after deducting the underwriting discount. In October 2004, ARLP received proceeds of approximately \$9.4 million from the exercise of warrants for 629,345 operating partnership units. Additionally, in 2004 and 2005, the Company issued 973,354 and 282,776 shares of common stock, respectively, from the exercise of warrants under its Warrant Agreement, dated July 1, 2003, and received net proceeds of \$12.9 million and \$4.2 million, respectively.

In March 2007, the Company filed a shelf registration statement on Form S-3 with the Securities and Exchange Commission (“SEC”) under the Securities Act of 1933, as amended (the “1933 Act”) with respect to an aggregate of \$500.0 million of debt securities, common stock, preferred stock, depositary shares and warrants, that may be sold

by the Company from time to time pursuant to Rule 415 of the 1933 Act. On April 19, 2007, the Commission declared this shelf registration statement effective.

In June 2007, the Company completed a public offering in which it sold 2,700,000 shares of its common stock registered for \$27.65 per share, and received net proceeds of approximately \$73.6 million after deducting the underwriting discount and the other estimated offering expenses. The Company used the proceeds to pay down debt and finance its loan and investment portfolio. The underwriters did not exercise their over allotment option for additional shares. At December 31, 2009, the Company had \$425.3 million remaining under the previously mentioned shelf registration.

In June 2008, the Company's external manager exercised its right to redeem its approximate 3.8 million operating partnership units in the Company's operating partnership for shares of the Company's common stock on a one-for-one basis. In addition, the special voting preferred shares paired with each operating partnership unit, pursuant to a pairing agreement, were redeemed simultaneously and cancelled by the Company.

The Company had 25,387,410 shares outstanding at December 31, 2009 and 25,142,410 shares outstanding at December 31, 2008.

Note 2 — Summary of Significant Accounting Policies

Basis of Presentation and Principles of Consolidation

The accompanying consolidated financial statements include the financial statements of the Company, its wholly owned subsidiaries, and partnerships or other joint ventures in which the Company owns a voting interest of greater than 50 percent. Entities in which the Company owns a voting interest of 20 percent to 50 percent and entities that are variable interest entities, of which the Company is not the primary beneficiary, are accounted for primarily under the equity method. In the opinion of management, all adjustments considered necessary for a fair presentation have been included. All significant inter-company transactions and balances have been eliminated in consolidation.

The preparation of consolidated financial statements in conformity with the Financial Accounting Standards Board ("FASB") Accounting Standards Codificationtm, the authoritative reference for accounting principles generally acceptable in the United States ("GAAP"), requires management to make estimates and assumptions in determining the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates. Further, in connection with preparation of the consolidated financial statements, the Company evaluated events subsequent to the balance sheet date of December 31, 2009 through the issuance of the Consolidated Financial Statements.

Certain prior year amounts have been reclassified to conform to current period presentation. Noncontrolling interest in consolidated entity is classified in the Company's Consolidated Balance Sheet in the "Equity" section of the current year's presentation and was disclosed as a separate mezzanine section in prior year's presentation and net (loss) income is split out between noncontrolling interest and Arbor Realty Trust, Inc. and was disclosed as one line in prior presentations. Interest income and interest expense were also netted on the Company's Consolidated Statements of Operations in accordance with Article 9 of Regulation S-X due to the relevance in understanding its operations. In addition, at September 30, 2009, one of our real estate investments was reclassified from real estate owned to real estate held-for-sale, net, and resulted in a reclassification from property operating income and expenses to discontinued operations for the current and all prior period presentations.

Cash and Cash Equivalents

All highly liquid investments with original maturities of three months or less are considered to be cash equivalents. The Company places its cash and cash equivalents in high quality financial institutions. The

consolidated account balances at each institution periodically exceeds the Federal Deposit Insurance Corporation (“FDIC”) insurance coverage and the Company believes that this risk is not significant.

Restricted Cash

At December 31, 2009 and 2008, the Company had restricted cash of \$27.9 million and \$93.2 million, respectively, on deposit with the trustees for the Company’s collateralized debt obligations (“CDOs”), see Note 8 — “Debt Obligations.” Restricted cash primarily represents proceeds from loan repayments which will be used to purchase replacement loans as collateral for the CDOs and interest payments received from loans in the CDOs which are remitted to the Company quarterly in the month following the quarter end.

Loans and Investments

At the time of purchase, the Company designates a security as held-to-maturity, available-for-sale, or trading depending on ability and intent to hold. The Company does not have any securities designated as trading at this time. Securities available-for-sale are reported at fair value with the net unrealized gains or losses reported as a component of accumulated other comprehensive loss, while securities and investments held-to-maturity are reported at amortized cost. Unrealized losses determined to be other-than-temporary are recognized in earnings. The determination of other-than-temporary impairment is a subjective process requiring judgments and assumptions. The process may include, but is not limited to, assessment of recent market events and prospects for near term recovery, assessment of cash flows, internal review of the underlying assets securing the investments, credit of the issuer and the rating of the security, as well as the Company’s ability and intent to hold the investment. Management closely monitors market conditions on which it bases such decisions.

Current accounting guidance provides greater clarity about the credit and noncredit component of an other-than-temporary impairment event, more effectively communicates when it has occurred, and requires the recording of a cumulative-effect adjustment as of the beginning of the period of adoption to reclassify the noncredit component of a previously recognized other-than-temporary impairment on debt securities from retained earnings to accumulated other comprehensive income. The adoption of this guidance in the second quarter of 2009 did not have a material effect on the Company’s Consolidated Financial Statements and no such reclassification was necessary.

The Company also assesses certain of its held-to-maturity securities, other than those of high credit quality, to determine whether significant changes in estimated cash flows or unrealized losses on these securities reflect a decline in value which is other-than-temporary; accordingly, such securities are written down to fair value against earnings. On a quarterly basis, the Company reviews these changes in estimated cash flows, which could occur due to actual prepayment and credit loss experience, to determine if an other-than-temporary impairment is deemed to have occurred. The determination of other-than-temporary impairment is a subjective process requiring judgments and assumptions. The Company calculates a revised yield based on the current amortized cost of the investment, including any other-than-temporary impairments recognized to date, and then applies the revised yield prospectively to recognize interest income.

Loans held for investment are intended to be held to maturity and, accordingly, are carried at cost, net of unamortized loan origination costs and fees, purchase discounts, and allowance for loan losses when such loan or investment is deemed to be impaired. The Company invests in preferred equity interests that, in some cases, allow the Company to participate in a percentage of the underlying property’s cash flows from operations and proceeds from a sale or refinancing. At the inception of each such investment, management must determine whether such investment should be accounted for as a loan, joint venture or as real estate. To date, management has determined that all such investments are properly accounted for and reported as loans.

From time to time the Company may enter into an agreement to sell a loan. These loans are classified as held-for-sale and are valued at the lower of the loan’s carrying amount or fair value. For the sale of loans, recognition occurs when ownership passes to the buyer.

ARBOR REALTY TRUST, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)
December 31, 2009

Impaired Loans and Allowance for Loan Losses

The Company considers a loan impaired when, based upon current information and events, it is probable that it will be unable to collect all amounts due for both principal and interest according to the contractual terms of the loan agreement. Specific valuation allowances are established for impaired loans based on the fair value of collateral on an individual loan basis. The fair value of the collateral is determined by selecting the most appropriate valuation methodology, or methodologies, among several generally available and accepted in the commercial real estate industry. The determination of the most appropriate valuation methodology is based on the key characteristics of the collateral type. These methodologies include the evaluation of operating cash flow from the property during the projected holding period and the estimated sales value of the collateral computed by applying an expected capitalization rate to the stabilized net operating income of the specific property, less selling costs, discounted at market discount rates.

If upon completion of the valuation, the fair value of the underlying collateral securing the impaired loan is less than the net carrying value of the loan, an allowance is created with a corresponding charge to the provision for loan losses. The allowance for each loan is maintained at a level believed adequate by management to absorb probable losses. The Company had an allowance for loan losses of \$326.3 million at December 31, 2009 relating to 31 loans with an aggregate carrying value, before reserves, of approximately \$693.7 million. At December 31, 2008, the Company had an allowance for loan losses of \$130.5 million relating to ten loans with an aggregate carrying value, before reserves, of approximately \$443.2 million and at December 31, 2007, the Company had an allowance for loan losses of \$2.5 million relating to two loans with an aggregate carrying value, before reserves, of approximately \$58.5 million.

Real Estate Owned and Held-For-Sale

Real estate owned, shown net of accumulated depreciation, is comprised of real property acquired by foreclosure or deed in lieu of foreclosure. Real estate acquired by foreclosure or deed in lieu of foreclosure is recorded at the lower of the net carrying value of the loan previously collateralized by the real estate or estimated fair value of the real estate at the time of foreclosure or delivery of a deed in lieu of foreclosure. The net carrying value is the unpaid principal balance of the loan, adjusted for any unamortized deferred fees, loan loss allowances and amounts previously due to borrower.

Costs incurred in connection with the foreclosure of the properties collateralizing the real estate loans are expensed as incurred and costs subsequently incurred to extend the life or improve the assets subsequent to foreclosure are capitalized.

The Company allocates the purchase price of operating properties to land, building, tenant improvements, deferred lease cost for the origination costs of the in-place leases and to intangibles for the value of the above or below market leases at fair value. The Company amortizes the value allocated to the in-place leases over the remaining lease term. The value allocated to the above or below market leases are amortized over the remaining lease term as an adjustment to rental income.

Real estate assets, including assets acquired by foreclosure or deed in lieu of foreclosure, that are operated for the production of income, are depreciated using the straight-line method over their estimated useful lives. Ordinary repairs and maintenance not reimbursed by the tenants are expensed as incurred. Major replacements and betterments that improve or extend the life of the asset are capitalized and depreciated over their estimated useful life.

The Company recognizes impairment if the undiscounted estimated cash flows to be generated by the assets are less than the carrying amount of those assets. Measurement of impairment is based upon the estimated fair value of the asset. Upon evaluating a property, many factors are considered, including estimated current and expected operating cash flow from the property during the projected holding period, costs necessary to extend the life or

ARBOR REALTY TRUST, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)
December 31, 2009

improve the asset, expected capitalization rates, projected stabilized net operating income, selling costs, and the ability to hold and dispose of such real estate owned in the ordinary course of business. Valuation adjustments may be necessary in the event that effective interest rates, rent-up periods, future economic conditions, and other relevant factors vary significantly from those assumed in valuing the property. If future evaluations result in a diminution in the value of the property, the reduction will be recognized as an impairment charge at that time.

Real estate is classified as held-for-sale when management commits to a plan of sale, the asset is available for immediate sale, there is an active program to locate a buyer, and it is probable the sale will be complete within one year. Properties classified as held-for-sale are not depreciated and the results of their operations are shown in discontinued operations. Real estate assets that are expected to be disposed of are valued, on an individual asset basis, at the lower of the carrying amount or their fair value less costs to sell.

The Company recognizes sales of real estate properties upon closing. Payments received from purchasers prior to closing are recorded as deposits. Profit on real estate sold is recognized upon closing using the full accrual method when the collectability of the sale price is reasonably assured and the Company is not obligated to perform significant activities after the sale. Profit may be deferred in whole or in part until collectability of the sales price is reasonably assured and the earnings process is complete.

Capitalized Interest

The Company capitalizes interest related to investments (equity, loans and advances) accounted for by the equity method as qualifying assets of the investor while the investee has activities in progress necessary to commence its planned principal operations, provided that the investee's activities include the use of funds to acquire qualifying assets for its operations. One of the Company's joint ventures, which was accounted for using the equity method, acquired qualifying assets for its planned principal operations. During 2007, the joint venture sold both of the acquired properties and the Company discontinued the capitalization of interest on its remaining investment in the joint venture. During the year ended December 31, 2007, the Company capitalized \$0.3 million of interest relating to this investment. The Company did not capitalize interest during the years ended December 31, 2009 and 2008.

Revenue Recognition

Interest Income — Interest income is recognized on the accrual basis as it is earned from loans, investments and securities. In many instances, the borrower pays an additional amount of interest at the time the loan is closed, an origination fee, and deferred interest upon maturity. In some cases interest income may also include the amortization or accretion of premiums and discounts arising from the purchase or origination of the loan or security. This additional income, net of any direct loan origination costs incurred, is deferred and accreted into interest income on an effective yield or "interest" method adjusted for actual prepayment activity over the life of the related loan or security as a yield adjustment. Income recognition is suspended for loans when, in the opinion of management, a full recovery of income and principal becomes doubtful. Income recognition is resumed when the loan becomes contractually current and performance is resumed. Several of the loans provide for accrual of interest at specified rates, which differ from current payment terms. Interest is recognized on such loans at the accrual rate subject to management's determination that accrued interest and outstanding principal are ultimately collectible, based on the underlying collateral and operations of the borrower. If management cannot make this determination, interest income above the current pay rate is recognized only upon actual receipt. Additionally, interest income is recorded when earned from equity participation interests, referred to as equity kickers. These equity kickers have the potential to generate additional revenues for the Company as a result of excess cash flow distributions and/or as appreciated properties are sold or refinanced. The Company did not record interest income from such investments for the year ended December 31, 2009. For the years ended December 31, 2008 and 2007, the Company recorded \$1.0 million and \$30.0 million of interest from such loans and investments, respectively. These amounts represent interest collected in accordance with the contractual agreement with the borrower.

Property operating income — Property operating income represents income associated with the operation of two commercial real estate properties recorded as real estate owned. We generate property operating income from hotel room rental and other hotel related activities at our commercial real estate owned properties. We recognize revenue for these activities when the fees are fixed or determinable, or evidenced by an arrangement, collection is reasonably assured and the services under the arrangement have been provided. For the year ended December 31, 2009, the Company recorded approximately \$0.9 million of property operating income relating to the Company's real estate owned. During the third quarter of 2009, one of the Company's three real estate investments was reclassified from real estate owned to real estate held-for-sale and resulted in a reclassification from property operating income to discontinued operations for the current and all prior periods. As a result, the Company did not have property operating income for the year ended December 31, 2008 due to the subsequent reclassification to discontinued operations. There was no property operating income in 2007. See Note 7 — "Real Estate Owned and Held-for-Sale" for further details.

Other income — Other income represents fees received for loan structuring and defeasance fees, and miscellaneous asset management fees associated with the Company's loans and investments portfolio. The Company recognizes these forms of income when the fees are fixed or determinable, are evidenced by an arrangement, collection is reasonably assured and the services under the arrangement have been provided.

Investment in Equity Affiliates

The Company invests in joint ventures that are formed to acquire, develop and/or sell real estate assets. These joint ventures are not majority owned or controlled by the Company, and are not consolidated in its financial statements. These investments are recorded under either the equity or cost method of accounting as deemed appropriate. The Company records its share of the net income and losses from the underlying properties and any other-than-temporary impairment on these investments on a single line item in the Consolidated Statements of Operations as income or losses from equity affiliates.

Stock Based Compensation

The Company records stock-based compensation expense at the grant date fair value of the related stock-based award. The Company measures the compensation costs for these shares as of the date of the grant, with subsequent remeasurement for any unvested shares granted to non-employees of the Company with such amounts expensed against earnings, at the grant date (for the portion that vests immediately) or ratably over the respective vesting periods. Dividends are paid on the restricted shares as dividends are paid on shares of the Company's common stock whether or not they are vested. Stock based compensation is disclosed in the Company's Consolidated Statements of Operations under "employee compensation and benefits" for employees and under "selling and administrative" expense for non-employees.

Income Taxes

The Company is organized and conducts its operations to qualify as a REIT and to comply with the provisions of the Internal Revenue Code with respect thereto. A REIT is generally not subject to federal income tax on taxable income which is distributed to its stockholders, provided that the Company distributes at least 90% of taxable income and meets certain other requirements. Certain of our assets or operations that would not otherwise comply with the REIT requirements, are owned or conducted by our taxable REIT subsidiaries, the income of which is subject to federal and state income taxes.

Current accounting guidance clarifies the accounting for uncertainty in income taxes recognized in an enterprise's financial statements. This guidance prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return.

This guidance also provides clarity on derecognition, classification, interest and penalties, accounting in interim periods and disclosure.

Other Comprehensive Income / (Loss)

The Company divides comprehensive income or loss into net income (loss) and other comprehensive income (loss), which includes unrealized gains and losses on available-for-sale securities. In addition, to the extent the Company's derivative instruments qualify as hedges, net unrealized gains or losses are reported as a component of accumulated other comprehensive income/(loss), see "Derivatives and Hedging Activities" below. At December 31, 2009, accumulated other comprehensive loss was \$53.3 million and consisted of net unrealized losses on derivatives designated as cash flow hedges. At December 31, 2008, accumulated other comprehensive loss was \$96.6 million and consisted of net unrealized losses on derivatives designated as cash flow hedges.

Earnings (Loss) Per Share

The Company presents both basic and diluted earnings (loss) per share. Basic earnings (loss) per share excludes dilution and is computed by dividing net income (loss) available to common stockholders by the weighted average number of shares outstanding for the period. Diluted earnings per share reflects the potential dilution that could occur if securities or other contracts to issue common stock were exercised or converted into common stock, where such exercise or conversion would result in a lower per share amount.

Derivatives and Hedging Activities

The Company recognizes all derivatives as either assets or liabilities at fair value and these amounts are recorded in other assets or other liabilities in the Consolidated Balance Sheets. Additionally, the fair value adjustments will affect either accumulated other comprehensive income (loss) until the hedged item is recognized in earnings or net income depending on whether the derivative instrument qualifies as a hedge for accounting purposes and, if so, the nature of the hedging activity. The Company utilizes quotations from a third party to assist in determining these fair values.

The Company records all derivatives on the balance sheet at fair value. The accounting for changes in the fair value of derivatives depends on the intended use of the derivative, whether a company has elected to designate a derivative in a hedging relationship and apply hedge accounting and whether the hedging relationship has satisfied the criteria necessary to apply hedge accounting. Derivatives designated and qualifying as a hedge of the exposure to changes in the fair value of an asset, liability, or firm commitment attributable to a particular risk, such as interest rate risk, are considered fair value hedges. Derivatives designated and qualifying as a hedge of the exposure to variability in expected future cash flows, or other types of forecasted transactions, are considered cash flow hedges. Hedge accounting generally provides for the matching of the timing of gain or loss recognition on the hedging instrument with the recognition of the changes in the fair value of the hedged asset or liability that are attributable to the hedged risk in a fair value hedge or the earnings effect of the hedged forecasted transactions in a cash flow hedge. The Company may enter into derivative contracts that are intended to economically hedge certain of its risk, even though hedge accounting does not apply or the Company elects not to apply hedge accounting.

In the normal course of business, the Company may use a variety of derivative financial instruments to manage, or hedge, interest rate risk. These derivative financial instruments must be effective in reducing its interest rate risk exposure in order to qualify for hedge accounting. When the terms of an underlying transaction are modified, or when the underlying hedged item ceases to exist, all changes in the fair value of the instrument are marked-to-market with changes in value included in net income (loss) for each period until the derivative instrument matures or is settled. Any derivative instrument used for risk management that does not meet the hedging criteria is marked-to-market with the changes in value included in net income (loss). Derivatives are used for hedging purposes rather than speculation. See Note 11 — "Derivative Financial Instruments" for further details.

Variable Interest Entities

The Company has evaluated its loans and investments, mortgage related securities and investments in equity affiliates in order to determine if they are Variable Interest Entities (“VIE”). This evaluation resulted in the Company determining that its bridge loans, junior participation loans, mezzanine loans, preferred equity investments and investments in equity affiliates were potential variable interests. For each of these investments, the Company has evaluated (1) the sufficiency of the fair value of the entities’ equity investments at risk to absorb losses, (2) that, as a group, the holders of the equity investments at risk have (a) the direct or indirect ability through voting rights to make decisions about the entities’ significant activities, (b) the obligation to absorb the expected losses of the entity and their obligations are not protected directly or indirectly, and (c) the right to receive the expected residual return of the entity and their rights are not capped, and (3) substantially all of the entities’ activities do not involve or are not conducted on behalf of an investor that has disproportionately fewer voting rights in terms of its obligation to absorb the expected losses or its right to receive expected residual returns of the entity, or both. In addition, the Company has evaluated its investments in debt securities and has determined that the issuing entities are VIEs, but has determined that the Company is not the primary beneficiary because it does not absorb a majority of any of the VIE’s anticipated losses and/or a majority of the expected returns. As of December 31, 2009, the Company has identified 39 loans and investments made to entities determined to be VIEs with an aggregate carrying amount of \$807.3 million. These VIEs had exposure to real estate debt of approximately \$3.3 billion at December 31, 2009.

For the 39 VIEs identified, the Company has determined that it is not the primary beneficiary, and as such the VIEs should not be consolidated in the Company’s financial statements. The Company’s maximum exposure to loss would not exceed the carrying amount of such investments. For all other investments, the Company has determined they are not VIEs. As such, the Company has continued to account for these loans and investments as loans or investments in equity affiliates, as appropriate.

Entities that issue junior subordinated notes are considered VIEs. However, it is not appropriate to consolidate these entities because the equity interests are variable interests only to the extent that the investment is considered to be at risk. Since the Company’s investments were funded by the entities that issued the junior subordinated notes, they are not considered to be at risk.

The Company will be required to follow updated accounting guidance beginning with the first quarter of 2010, by providing an ongoing qualitative rather than quantitative assessment of its ability to direct the activities of a variable interest entity that most significantly impact the entity’s economic performance and its rights or obligations to receive benefits or absorb losses, in order to determine whether those entities will be required to be consolidated in the Company’s Consolidated Financial Statements. See “Recently Issued Accounting Pronouncements” below for further details.

Recently Issued Accounting Pronouncements

In February 2010, the FASB issued updated guidance on subsequent events which states that disclosure of the date through which subsequent events have been evaluated, the issuance date of the financial statements, is no longer required. This guidance is effective upon issuance and its adoption did not have a material effect on the Company’s Consolidated Financial Statements.

In January 2010, the FASB issued updated guidance on fair value measurements and disclosures, which requires disclosure of details of significant asset or liability transfers in and out of Level 1 and Level 2 measurements within the fair value hierarchy and inclusion of gross purchases, sales, issuances, and settlements in the rollforward of assets and liabilities valued using Level 3 inputs within the fair value hierarchy. The guidance also clarifies and expands existing disclosure requirements related to the disaggregation of fair value disclosures and inputs used in arriving at fair values for assets and liabilities using Level 2 and Level 3 inputs within the fair value hierarchy. This guidance is effective for interim and annual reporting periods beginning after December 15,

2009, except for the gross presentation of the Level 3 rollforward, which is required for annual reporting periods beginning after December 15, 2010 and for interim periods within those years. The Company does not expect the adoption of this guidance to have a material effect on its Consolidated Financial Statements.

In January 2010, the FASB issued updated guidance on accounting for distributions to shareholders with components of stock and cash, which clarifies the treatment of the stock portion of a distribution to shareholders that allows the election to receive cash or stock. This guidance is effective for interim and annual reporting periods beginning after December 15, 2009. The Company does not expect the adoption of this guidance to have a material effect on its Consolidated Financial Statements.

In August 2009, the FASB issued updated guidance on the fair value measurement of liabilities not exchanged in an orderly transaction. This guidance is effective for the first reporting period (including interim periods) beginning after issuance. The adoption of this guidance did not have a material effect on the Company's Consolidated Financial Statements.

In June 2009, the FASB issued "The FASB Accounting Standards Codification[™] and the Hierarchy of Generally Accepted Accounting Principles" (the "Codification"), which establishes the exclusive authoritative reference for accounting principles generally acceptable in the United States. The Codification simplifies the classification of accounting guidance into one online database under a common referencing system. Use of the Codification is effective for interim and annual periods ending after September 15, 2009. The Company began to use the Codification on the effective date, and it had no impact on its Consolidated Financial Statements. However, throughout this Form 10-K, all references to prior accounting pronouncements have been removed, and all non-SEC accounting guidance is referred to in terms of the applicable subject matter.

In June 2009, the FASB issued updated guidance related to the consolidation of variable interest entities, which changes how a reporting entity determines when an entity that is insufficiently capitalized or is not controlled through voting, or similar rights, should be consolidated. The determination of whether a reporting entity is required to consolidate another entity is based on, among other things, the other entity's purpose and design and the reporting entity's ability to direct the activities of the other entity that most significantly impact the other entity's economic performance. This new guidance will require a reporting entity to provide additional disclosures about its involvement with variable interest entities and any significant changes in risk exposure due to that involvement. These new requirements will be effective at the start of a reporting entity's first fiscal year beginning after November 15, 2009. Early application is not permitted. The Company will adopt these new requirements effective January 1, 2010. The Company does not currently expect the adoption of this guidance to have a material effect on its Consolidated Financial Statements.

In June 2009, the FASB issued updated guidance related to the accounting for transfers of financial assets. This new guidance will require more information about transfers of financial assets, including securitization transactions, and where entities have continuing exposure to the risks related to transferred financial assets. It eliminates the concept of a "qualifying special-purpose entity", changes the requirements for derecognizing financial assets and requires additional disclosures. These requirements are effective at the start of a reporting entity's first fiscal year beginning after November 15, 2009. Early application is not permitted. The Company will adopt these new requirements effective January 1, 2010. The Company does not expect the adoption of this guidance to have a material effect on its Consolidated Financial Statements.

In April 2009, the FASB issued updated guidance on initial recognition and measurement, subsequent measurement and accounting, and disclosure of assets and liabilities arising from contingencies in a business combination. This guidance applies to all assets or liabilities arising from contingencies in business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after December 15, 2008. The adoption of this guidance did not have a material effect on the Company's Consolidated Financial Statements.

In April 2009, the FASB issued updated guidance on determining the fair value of an asset or liability when the volume and level of activity may indicate an inactive market and when transactions are not orderly. This guidance applies to all fair value measurements prospectively and is effective for interim and annual periods ending after June 15, 2009. The adoption of this guidance did not have a material effect on the Company's Consolidated Financial Statements.

Bridge loans are loans to borrowers who are typically seeking short-term capital to be used in an acquisition of property and are predominantly secured by first mortgage liens on the property.

Mezzanine loans and junior participating interests in senior debt are loans that are subordinate to a conventional first mortgage loan and senior to the borrower's equity in a transaction. Mezzanine financing may take the form of loans secured by pledges of ownership interests in entities that directly or indirectly control the real property or subordinated loans secured by second mortgage liens on the property.

A preferred equity investment is another method of financing in which preferred equity investments in entities that directly or indirectly own real property are formed. In cases where the terms of a first mortgage prohibit additional liens on the ownership entity, investments structured as preferred equity in the entity owning the property serve as viable financing substitutes. With preferred equity investments, the Company typically becomes a special limited partner or member in the ownership entity.

Concentration of Credit Risk

Loans and investments can potentially subject the Company to concentrations of credit risk. The Company is subject to concentration risk in that the unpaid principal balance related to 32 loans with five unrelated borrowers represented approximately 31% of total assets as of December 31, 2009. At December 31, 2008, the unpaid principal balance related to 34 loans with five unrelated borrowers represented approximately 28% of total assets. As of December 31, 2009 and 2008, the Company had 126 and 136 loans and investments, respectively.

In addition, in 2009 and 2008, no single loan or investment represented 10% of the Company's total assets. In 2009, 2008 and 2007, the Company generated approximately 12%, 9% and 6%, respectively, of revenue from Ezra Beyman.

Geographic Concentration Risk

As of December 31, 2009, 38%, 13%, and 11% of the outstanding balance of the Company's loans and investments portfolio had underlying properties in New York, California and Florida, respectively. As of December 31, 2008, 40%, 12%, and 10% of the outstanding balance of the Company's loans and investments portfolio had underlying properties in New York, California and Florida, respectively.

Impaired Loans and Allowance for Loan Losses

The Company considers a loan impaired when, based upon current information and events, it is probable that it will be unable to collect both principal and interest according to the contractual terms of the loan agreement. As a result of the Company's normal loan review during the year, it was determined that 31 loans with an aggregate carrying value, before reserves, of \$693.7 million were impaired at December 31, 2009. At December 31, 2008, ten loans with an aggregate carrying value, before reserves, of \$443.2 million were impaired and at December 31, 2007, two loans with an aggregate carrying value, before reserves, of \$58.5 million were impaired.

The Company performed an evaluation of the impaired loans and determined that the fair value of the underlying collateral securing the loans was less than the net carrying value of the loans, resulting in a \$241.3 million provision for loan losses for the year ended December 31, 2009. Of the \$241.3 million of loan loss reserves recorded during the year ended December 31, 2009, \$77.5 million was on loans on which the Company had previously recorded reserves, while \$163.8 million of reserves related to other loans in the Company's portfolio. During the years ended December 31, 2008 and 2007, the Company recorded provisions for loan losses of \$132.0 million and \$2.5 million, respectively.

As a result of the loan review process at December 31, 2009, the Company identified loans and investments that it considers higher-risk loans that had a carrying value, before reserves, of approximately \$632.3 million and a weighted average loan-to-value ("LTV") ratio after reserves of 99%, compared to lower-risk loans with a carrying value, before reserves, of \$1.4 billion and a weighted average LTV ratio of 88%. There were no loans for which the collateral securing the loan was less than the carrying value of the loan for which the Company had not recorded a provision for loan loss as of December 31, 2009 and 2008.

A summary of the changes in the allowance for loan losses is as follows:

	For the Twelve Months Ended December 31, 2009	For the Twelve Months Ended December 31, 2008
Allowance at beginning of the period	\$ 130,500,000	\$ 2,500,000
Provision for loan losses	241,328,039	132,000,000
Charge-offs	(41,250,000)	(2,500,000)

Allowance at end of the period	<u>\$ 326,328,039</u>	<u>\$ 130,500,000</u>

During the year ended December 31, 2009, the Company wrote down five loans with an aggregate carrying value of \$240.8 million to \$198.7 million and sold two loans with a carrying value of \$80.1 million, at a discount, for approximately \$32.5 million. The Company also settled a loan with a carrying value of \$1.5 million, at a discount, for approximately \$1.2 million, and received \$11.8 million in principal paydowns on two loans with a total carrying value of \$22.9 million. The Company recorded charge-offs to reserves of \$41.3 million and losses on restructurings totaling \$57.6 million related to these transactions.

During the fourth quarter of 2009, the Company entered into an agreement to sell one of its bridge loans for \$35.0 million. The Company received \$20.5 million in non-refundable deposits from the purchaser during the fourth quarter of 2009, which was recorded in other liabilities on the Company's Consolidated Balance Sheet as of December 31, 2009. The remaining purchase price is due to be collected at the close of the transaction, which is expected to occur in April 2010. As a result, the Company recorded this loan at its fair value, equal to the purchase price of the loan less expected costs to complete the sale, in loans and investments on the Company's Consolidated Balance Sheet as of December 31, 2009.

The Company also reclassified a \$4.3 million loan loss reserve related to a bridge loan on a property that was acquired through foreclosure and recorded to real estate owned. See Note 7 — "Real Estate Owned and Held-For-Sale" for further details.

As of December 31, 2009, 13 loans with a net carrying value of approximately \$110.8 million, net of related loan loss reserves of \$115.0 million, were classified as non-performing. The Company had previously established loan loss reserves on all of these loans. Income is recognized on a cash basis only to the extent it is received. Full income recognition will resume when the loan becomes contractually current and performance has recommenced. As of December 31, 2008, four loans with a net carrying value of approximately \$113.0 million, net of related loan loss reserves of \$20.5 million, were classified as non-performing for which income recognition had been suspended, of which one loan with a carrying value of approximately \$38.3 million did not have a loan loss reserve. There were no non-performing loans at December 31, 2007.

At December 31, 2009, the Company does not have any loans contractually past due 90 days or more that are still accruing interest, or any loans which are considered "troubled debt restructuring" that are not included above.

	<u>2</u>	<u>\$ 11,607,136</u>	<u>100%</u>

(1) Based on the rating published by Standard & Poor’s for each security.

During 2007, the Company purchased 2,939,465 shares of common stock of Realty Finance Corporation, formerly CBRE Realty Finance, Inc., a commercial real estate specialty finance company, for \$16.7 million, which had a fair value of \$0.1 million and \$0.5 million, at December 31, 2009 and December 31, 2008, respectively.

At December 31, 2009, a BBB+ rated investment grade commercial real estate (“CRE”) collateralized debt obligation bond, with a face value of \$20.0 million and a discount of \$9.8 million, and a B rated investment grade CRE collateralized debt obligation bond, with a face value of \$5.0 million and a discount of \$3.6 million, were reclassified from held-to-maturity to available-for-sale. The Company exchanged these two bonds in the retirement of a portion of its own junior subordinated notes in February 2010. See Note 8 — “Debt Obligations — Junior Subordinated Notes” for further details. These securities bear interest at a weighted average spread of 56 basis points over LIBOR, have a weighted average stated maturity of 42.3 years, but have an estimated average remaining life of 7.3 years due to the maturities of the underlying assets. See Note 5 — “Securities Held-To-Maturity” below.

As of December 31, 2009, all of the available-for-sale securities have been in an unrealized loss position for more than twelve months. Current accounting guidance requires these securities to be evaluated periodically to determine whether a decline in their value is other-than-temporary, though it is not intended to indicate a permanent decline in value. Management closely monitors market conditions on which it bases such decisions. During the years ended December 31, 2009 and 2008, the Company believed that, based on market events and the unfavorable prospects for near-term recovery of value, there was a lack of evidence to support the conclusion that the fair value decline was temporary. Therefore, the Company concluded that the common equity securities were other-than-temporarily impaired and recorded \$0.4 million and \$16.2 million of impairment charges to the Consolidated Statements of Operations during the years ended December 31, 2009 and 2008, respectively. During the fourth quarter of 2009, an other-than-temporary impairment of \$9.8 million was recognized upon reclassifying the BBB+ rated CRE collateralized debt obligation bond from held-to-maturity to available-for-sale. During the fourth quarter of 2008, the Company determined that the B rated CRE collateralized debt obligation bond, with an amortized cost of approximately \$1.4 million, was other-than-temporarily impaired, resulting in a \$1.4 million impairment charge to the Company’s 2008 Consolidated Financial Statements. No such impairment charges were recorded in 2007.

The Company had a margin loan agreement with a financial institution related to the purchases of the common equity securities. In July 2008, the margin loan was repaid in full.

During the second quarter of 2008, the Company purchased \$82.7 million of investment grade CRE collateralized debt obligation bonds for \$58.1 million, representing a \$24.6 million discount to their face value. The discount is accreted into interest income using an effective yield adjusted for actual prepayment activity over

the average life of the related security as a yield adjustment. For the years ended December 31, 2009 and 2008, the Company accreted approximately \$2.5 million and \$1.6 million of this discount into interest income, representing accretion on approximately \$21.0 million of the total discount, respectively. These securities bear interest at a weighted average spread of 34 basis points over LIBOR and have a weighted average stated maturity of 34.2 years, but have an estimated average remaining life of 3.7 years due to the maturities of the underlying assets. During the year ended December 31, 2009, the Company received repayments of principal of \$2.7 million on one of the Company's CDO bond securities held-to-maturity.

During 2009, the Company purchased \$17.0 million of investment grade commercial mortgage-backed securities ("CMBS") for \$12.4 million plus accrued interest, representing a \$4.6 million discount to their face value. This discount is accreted into interest income using an effective yield adjusted for actual prepayment activity over the average life of the related security as a yield adjustment. For the year ended December 31, 2009, the Company accreted approximately \$0.3 million of this discount into interest income. These securities bear interest at a weighted average coupon rate of 5.80%, have a weighted average stated maturity of 29.6 years but have an estimated average remaining life of 6.0 years due to the maturities of the underlying assets.

At December 31, 2009, a BBB+ rated investment grade CRE collateralized debt obligation bond, with a face value of \$20.0 million and a discount of \$9.8 million, and a B rated investment grade CRE collateralized debt obligation bond, with a face value of \$5.0 million and a discount of \$3.6 million, were reclassified from held-to-maturity to available-for-sale. The Company exchanged these two bonds in the retirement of a portion of its own junior subordinated notes in February 2010. See Note 4 — "Securities Available-For-Sale" above.

For the periods ended December 31, 2009 and 2008, the total average yield on these securities based on their face values was 4.62% and 6.41%, respectively, including the accretion of discount. The Company did not have any securities held-to-maturity at December 31, 2007.

Securities held to maturity are carried at cost, net of unamortized premiums and discounts, which are recognized in interest income using an effective yield or "interest" method. GAAP requires held-to-maturity securities to be evaluated periodically to determine whether a decline in their value is other-than-temporary, though it is not intended to indicate a permanent decline in value. The Company's evaluation is based on its assessment of cash flows, which is supplemented by third-party research reports, internal review of the underlying assets securing the investments, levels of subordination and the rating of the securities and the underlying collateral. As of December 31, 2009, all of the Company's CDO bond investments were in an unrealized loss position for more than twelve months, as the Company's carrying value was in excess of their market value. However, based on its analysis as of December 31, 2009, the Company expects to fully recover the carrying value of these investments and has concluded that these held-for-sale investments are not other-than-temporarily impaired. In addition, the Company's CMBS investments were not in an unrealized loss position for more than twelve months and were not determined to be other-than-temporarily impaired. The Company's estimation of cash flows expected to be generated by the securities portfolio is based upon an internal review of the underlying mortgage loans securing the investments both on an absolute basis and compared to the Company's initial underwriting for each investment. The Company's efforts are supplemented by third party research reports, third party market assessments and dialogue with market participants. As of December 31, 2009 the Company does not intend to sell these remaining securities, nor does the Company believe it is more likely than not that the Company will be required to sell the securities before recovery of the amortized cost basis, which may be at maturity. This combined with the Company's assessment of cash flows, is the basis for the conclusion that these investments are not impaired despite the differences between estimated fair value and book value. The Company attributes the difference between book value and estimated fair value to the current market dislocation and a general negative bias against structured financial products such as CMBS and CDOs.

930 Flushing & 80 Evergreen

In June 2003, ACM invested approximately \$0.8 million in exchange for a 12.5% preferred interest in a joint venture that owns and operates two commercial properties. The Company purchased this investment from ACM in August 2003. As of December 31, 2007, the Company had contributed an additional \$1.2 million to this joint venture.

The Company had a \$4.8 million bridge loan and a \$3.5 million mezzanine loan outstanding to affiliated entities of the joint venture. The loans required monthly interest payments based on one month LIBOR and matured in November 2006 and June 2006, respectively. The bridge loan was extended for two one-year periods and during the second quarter of 2008, the Company was repaid in full. In addition, in August 2005, the joint venture refinanced one of these properties with a \$25.0 million amortizing bridge loan provided by the Company. The loan matures in August 2010, has a fixed rate of 6.45%, and has an outstanding principal balance of \$24.4 million at December 31, 2009. Proceeds from this loan were used to pay off senior debt as well as the Company's \$3.5 million mezzanine loan. Excess proceeds were distributed to each of the members in accordance with the operating agreement of which the Company received \$1.3 million, which was recorded as a return of capital in 2005. In addition, during 2008, the Company received a \$0.2 million return of capital from contribution made in 2007. As a result, the Company had a \$0.5 million investment as of December 31, 2009 and 2008.

450 West 33rd Street

In May 2007, the Company, as part of an investor group for the 450 West 33rd Street partnership, transferred control of the underlying property (an office building) to Broadway Partners for a value of approximately \$664.0 million. The investor group, on a pro-rata basis, retained an approximate 2% ownership interest in the property and 50% of the property's air rights which resulted in the Company retaining an investment in equity affiliates of approximately \$1.1 million related to its 29% interest in the 2% retained ownership. In accordance with this transaction, the joint venture members agreed to guarantee \$258.1 million of the \$517.0 million of new debt outstanding on the property. The guarantee expires at the earlier of maturity or prepayment of the debt and was

allocated to the members in accordance with their ownership percentages. The guarantee is callable, on a pro-rata basis, if the market value of the property declines below the \$258.1 million of guaranteed debt. The Company's portion of the guarantee is \$76.3 million. The transaction was structured to provide for a tax deferral for an estimated period of seven years. The Company recorded deferred revenue of approximately \$77.1 million as a result of the guarantee on a portion of the new debt, and \$19.0 million as prepaid management fees related to the incentive compensation management fee on the deferred revenue recognized on the transfer of control of the 450 West 33rd Street property. See Note 17 — "Management Agreement" for further details.

In July 2007, the Company purchased a \$50.0 million mezzanine loan secured by this property which has a maturity of July 2010 and bears interest at LIBOR plus 4.35%. The outstanding balance on this loan was \$50.0 million at December 31, 2009.

1107 Broadway

In 2005, the Company invested \$10.0 million in exchange for a 20% ownership interest in 200 Fifth LLC, which owned two properties in New York City. In May 2007, the Company, as part of an investor group in the 200 Fifth LLC holding partnership, sold the 200 Fifth Avenue property for net proceeds of approximately \$450.0 million and the investor group, on a pro-rata basis, retained an adjacent building located at 1107 Broadway. The partnership used the net proceeds from the sale to repay the \$402.5 million outstanding debt on both the 200 Fifth Avenue and the 1107 Broadway properties, and used the remaining proceeds as a return of invested capital to the partners. As a result of the transaction, the Company received \$9.5 million in proceeds as a return on invested capital and was repaid in full on its \$137.0 million mezzanine debt, including all applicable interest. The Company recorded approximately \$11.4 million, net, in income before minority interest related to its 20% equity interest, which consisted of a \$24.2 million gain recorded as income from equity affiliates, a \$9.0 million provision for income taxes, and a \$3.8 million incentive management fee paid to the Company's manager. The partnership retained the 1107 Broadway property. In December 2007, the Company received a \$0.6 million distribution from escrow funds related to its interest in the 200 Fifth Avenue property, which was recorded as income from equity affiliates.

In October 2007, the partnership sold 50% of its economic interest in the 1107 Broadway property. The partnership was recapitalized with financing of approximately \$343.0 million, of which approximately \$203.0 million was funded with the unfunded portion to be used to develop the property. The Company received net proceeds of approximately \$39.0 million from this transaction as a return on invested capital. The investor group, on a pro-rata basis, retains a 50% economic interest in the property, representing approximately \$29.0 million of capital. The Company recorded approximately \$2.3 million, net in income before minority interest related to its 20% equity interest, which consisted of \$4.8 million as income from equity affiliates, a \$1.8 million provision for income taxes, and a \$0.7 million incentive management fee paid to the Company's manager. The Company also recorded a \$5.7 million investment in equity affiliate and a net deferred gain of \$3.5 million related to its 10% retained interest in the 1107 Broadway property. The partnership is in the process of developing this property into a mix of residential and retail uses.

Alpine Meadows

In July 2007, the Company invested \$13.2 million in exchange for a 39% profits interest with an 18% preferred return in the Alpine Meadows ski resort, which consists of approximately 2,163 total acres in northwestern Lake Tahoe, California. The Company's invested capital represents 65% of the total equity of the transaction and the Company would be allocated 65% of the profits and losses. The Company also provided a \$30.5 million first mortgage loan which was extended during 2009 to September 2012 and bears a fixed rate of interest. For the years ended December 31, 2009 and 2008, the Company recorded net income of \$1.6 million and \$3.1 million in losses from this equity investment, respectively. This amount reflects Arbor's portion of the joint venture's income and losses, net of depreciation expense, and was recorded in (loss) income from equity affiliates and as an increase or

reduction to the Company's investment in equity affiliates on the balance sheet. In the second quarter of 2009, the Company recorded an other-than-temporary impairment of \$11.7 million for the remaining amount of this investment in loss from equity affiliates in the Company's Consolidated Statements of Operations. Current accounting guidance requires these investments to be evaluated periodically to determine whether a decline in their value is other-than-temporary, though it is not intended to indicate a permanent decline in value.

In the fourth quarter of 2009, the Company increased by \$3 million its first mortgage loan to \$33.5 million and decreased the invested capital by \$3 million to \$10.2 million, as well as providing a \$0.5 million revolver loan. As a result of this modification, the Company's profits interest was reduced from 39.0% to 35.4% and the invested capital and allocated percentage of profits and losses was reduced from 65.0% to 58.9%.

St. John's Development

In December 2006, the Company originated a \$25.0 million bridge loan with a maturity date in September 2007 with two three-month extensions that bore interest at a fixed rate of 12%. The loan is secured by 20.5 acres of usable land and 2.3 acres of submerged land located on the banks of the St. John's River in downtown Jacksonville, Florida and is currently zoned for the development of up to 60 dwellings per acre. In October 2007, the borrower sold the property to an investor group, in which the Company has a 50% non-controlling interest, for \$25.0 million. The investor group assumed the \$25.0 million mortgage which matured in October 2009 and had an interest rate of LIBOR plus 6.48%, with a LIBOR floor of 4.50%. In connection with this transaction, the Company contributed \$0.5 million to cover other operational costs of acquiring and maintaining the property. During the fourth quarter of 2009, the mortgage loan was modified to extend the maturity date to January 2010 and modified the interest rate to LIBOR plus 6.48%. Subsequent to December 31, 2009, the mortgage loan was modified to a current maturity date of April 2010 and modified the interest rate to LIBOR plus 2.00%.

The managing member of the investor group is an experienced real estate developer who retains a 50% interest in the partnership and funded a \$2.9 million interest reserve for the first year. The Company was required to contribute \$2.9 million to fund the interest reserve for the second year and made an additional capital contribution of \$0.1 million during 2008. Interest received on the \$25.0 million loan will be recorded as a return of capital and reduction of the Company's equity investment. During the six months ended June 30, 2009, the Company received \$1.6 million of such interest, reducing the Company's investment to \$1.9 million. In the third quarter of 2009, the Company recorded an other-than-temporary impairment of \$1.9 million for the remaining amount of the investment which was recorded in loss from equity affiliates in the Company's Consolidated Statements of Operations. Current accounting guidance requires these investments to be evaluated periodically to determine whether a decline in their value is other-than-temporary, though it is not intended to indicate a permanent decline in value. In the fourth quarter of 2009, the Company was able to recover \$0.6 million of the loss and \$0.1 million is still to be received, representing the balance of the investment at December 31, 2009. No income from this equity interest was recognized for the year ended December 31, 2008. The Company accounts for this investment under the equity method.

Lightstone Value Plus REIT L.P./Prime Outlets/JT Prime

In December 2003, the Company invested approximately \$2.1 million in exchange for a 50% non-controlling interest in an unconsolidated joint venture, JT Prime, which owned 15% of Prime Outlets Member, LLC ("POM"), a real estate holding company that owns and operates a portfolio of factory outlet shopping centers. The Company accounted for this investment under the equity method. Additionally, the Company owned a 16.67% carried profits interest through a consolidated entity which has a 25% interest in POM with a third party member owning the remaining 8.33%.

In 2007, the Company received distributions from POM of \$16.2 million as a result of excess proceeds from refinancing and sales activities on certain assets in the POM portfolio. The excess proceeds were distributed to each of the partners in accordance with POM's operating agreement. The Company recorded \$11.2 million as interest income, representing the portion attributable to the 16.7% carried profits interest, and \$5.0 million as income from equity affiliates, representing the portion attributable to the 7.5% equity interest.

ARBOR REALTY TRUST, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)
December 31, 2009

In June 2008, the Company entered into an agreement (“the agreement”) to transfer its 16.67% interest in POM, at a value of approximately \$37.2 million, in exchange for preferred and common operating partnership units of Lightstone Value Plus REIT L.P.

In connection with the agreement, the Company borrowed from Lightstone Value Plus Real Estate Investment Trust, Inc. approximately \$33.0 million, which was initially secured by its 16.67% interest in POM, has an eight year term, and bears interest at a fixed rate of 4% with payment of the interest deferred until the closing of the transaction. As a result, during the second quarter of 2008, the Company recorded approximately \$33.0 million of cash, \$49.5 million of debt related to the proceeds received from the loan secured by the consolidated entity’s 25% interest in POM, which was recorded in notes payable, a \$16.5 million receivable from the third party member share of the consolidated entity’s 25% interest, which was recorded in other assets, and a deferred expense related to the incentive management fee of approximately \$7.3 million.

In addition, the Company prepaid the \$7.3 million in incentive management fees to its manager in 2008 related to this transaction, of which 50% was paid in cash and 50% was paid in Arbor Realty Trust, Inc. common stock. In accordance with the amended management agreement, installments of the annual incentive fee are subject to potential reconciliation at the end of the fiscal year. Since no incentive fee was earned for 2009, the prepaid management fee is to be paid back in installments of 25% due by December 31, 2010 and 75% due by June 30, 2012, with an option to make payment in both cash and Arbor Realty Trust, Inc. common stock provided that at least 50% of the payment is made in cash, and will be offset against any future incentive management fees or success-based payments earned by our manager prior to June 30, 2012. See Note 17 — “Management Agreement” for further details.

In the fourth quarter 2008, the Company received a \$1.0 million distribution from POM related to its 24.17% equity and profits interest, the result of excess proceeds from the operation of the business. Of the distribution received by the Company, \$1.0 million was recorded as interest income, representing the distribution received from the 25% profits interest, \$0.3 million was recorded as net income attributable to noncontrolling interest relating to a third party member’s 8.33% minority interest share of the profits interest and \$0.3 million was recorded as income netted in loss from equity affiliates, representing the portion received from the Company’s 7.5% equity interest. In accordance with the agreement, \$0.7 million of the distribution relating to the 16.67% profits interest was used to pay down a portion of the \$33.0 million debt and reduced the value of the Company’s interest when exchanged for preferred and common operating partnership units at closing, thereby reducing the Company’s gain.

In March 2009, the Company exchanged its 16.67% interest in POM for approximately \$37.3 million of preferred and common operating partnership units in Lightstone Value Plus REIT L.P. and the \$33.4 million loan is now secured by these preferred and common operating partnership units. The Company accounts for its Lightstone Value Plus REIT L.P. investment under the cost method. In June 2013, the preferred units may be redeemed by Lightstone Value Plus REIT L.P. for cash and the loan would become due upon such redemption. The preferred operating partnership units yield 4.63% and the loan bears interest at a rate of 4%. The Company retained its 7.5% equity interest in POM. During the year ended December 31, 2009, the Company recorded \$2.0 million of dividends from the preferred and common operating partnership units which were reflected in interest income in the Company’s Consolidated Statement of Operations.

Through the consolidated entity that owned the 16.67% interest, the Company recorded in its first quarter 2009 financial statements an investment of approximately \$56.0 million for the preferred and common operating partnership units, gain on exchange of profits interest of approximately \$56.0 million, net income attributable to noncontrolling interest of approximately \$18.7 million related to the third party members portion of income recorded, noncontrolling interest due to the third party member of approximately \$2.1 million and a reduction of a \$16.5 million receivable from the third party member which was previously recorded in other assets. The gain of \$56.0 million reflects the fair value of the investment in preferred and operating partnership units received in exchange for the 16.67% profits interest. The Company’s profits interest had no cost basis at the time of the exchange.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)
December 31, 2009

As a result of the \$1.0 million of interest expense and \$1.0 million of interest income recorded in 2008 from the consolidated entity that holds the 25% profits interest in POM, the Company recorded \$(10,981) of noncontrolling interest in consolidated entity on the Company's Consolidated Balance Sheet at December 31, 2008. Due to the POM transaction in March 2009, the Company recorded an additional \$18.7 million of net income attributable to the noncontrolling interest holder and a distribution to the noncontrolling interest of \$16.6 million, resulting in a balance of noncontrolling interest in consolidated entity of \$1.9 million on the Company's Consolidated Balance Sheet at December 31, 2009.

In August 2009, the Company exchanged its remaining 7.5% equity interest in POM for preferred and common operating partnership units of Lightstone Value Plus REIT L.P. JT Prime received preferred and common operating units valued at approximately \$17.0 million, as well as additional cash consideration of approximately \$4.4 million. As there was no remaining basis in the interest in POM held by the unconsolidated joint venture, the unconsolidated joint venture recorded a gain of \$21.4 million equal to the value of the operating partnership units and cash received. In connection with this transaction, JT Prime borrowed approximately \$15.3 million from Lightstone Value Plus Real Estate Investment Trust, Inc., which is secured by the preferred and common operating partnership units and has an eight-year term. In August 2014, the preferred units may be redeemed by Lightstone Value Plus REIT L.P. for cash and the loan would become due upon such redemption. The preferred operating partnership units yield 4.63% and the loan bears interest at a rate of 4.00%. The unconsolidated joint venture recorded a nominal amount of dividends from the preferred and common operating partnership units and interest expense related to the note. The Company accounts for their investment in JT Prime under the equity method. As a result of this transaction, the Company recorded income from equity affiliates of \$10.7 million, representing the Company's share of the net income recorded by the unconsolidated joint venture, in its third quarter 2009 financial statements. The Company received distributions totaling \$9.9 million, representing their share of the proceeds from the note and additional consideration received from Lightstone by the unconsolidated joint venture. As of December 31, 2009, the carrying value of the Company's investment in JT Prime is \$0.9 million. The Company has no continuing involvement with POM after the exchange.

Issuance of Junior Subordinated Notes

As of December 31, 2008, the Company had invested a total of \$8.3 million for 100% of the common shares of nine affiliate entities of the Company, which were formed to facilitate the issuance of \$276.1 million of junior subordinated notes. These entities pay dividends on both the common shares and preferred securities on a quarterly basis at fixed and variable rates based on three-month LIBOR.

In March 2009, the Company purchased from its manager, ACM, approximately \$9.4 million of junior subordinated notes originally issued by a wholly-owned subsidiary of the Company's operating partnership for \$1.3 million. In addition, in May 2009, the Company exchanged \$247.1 million of its outstanding trust preferred securities, consisting of \$239.7 million of junior subordinated notes issued to third party investors and \$7.4 million of common equity issued to the Company, which were recorded in investment in equity affiliates, in exchange for \$268.4 million of newly issued unsecured junior subordinated notes. As a result of these transactions, the Company retired its \$7.7 million of common equity and corresponding trust preferred securities reducing its investment in these entities to \$0.6 million during the second quarter of 2009. In July 2009, the Company restructured its remaining \$18.7 million of trust preferred securities that were not exchanged previously, however, the transaction did not retire the remaining common equity of \$0.6 million, which remains as of December 31, 2009. See Note 8 — "Debt Obligations" for further information relating to these transactions.

Note 8 — Debt Obligations

The Company utilizes repurchase agreements, a term credit agreement with a revolving component, a working capital line, loan participations, collateralized debt obligations and junior subordinated notes to finance certain loans and investments. Borrowings underlying these arrangements are primarily secured by a significant amount of the Company's loans and investments.

Repurchase Agreements

The following table outlines borrowings under the Company's repurchase agreements as of December 31, 2009 and 2008:

	December 31, 2009		December 31, 2008	
	Debt Carrying Value	Collateral Carrying Value	Debt Carrying Value	Collateral Carrying Value

At December 31, 2009, the aggregate weighted average note rate for the Company's repurchase agreements was 2.66%. There were no interest rate swaps on these repurchase agreements at December 31, 2009.

The Company had a \$200.0 million repurchase agreement with a financial institution which had a term expiring in October 2009 and bore interest at pricing over LIBOR, varying on the type of asset financed. In June 2009, this facility, with approximately \$37.0 million outstanding, was satisfied, at a discount, for \$22.0 million, resulting in a \$15.0 million gain on extinguishment of debt. In connection with this transaction, the Company sold a bridge loan financed in this facility with a carrying value of \$47.0 million, at a discount, for approximately \$23.2 million and recorded a loss on restructuring of \$23.8 million. The proceeds were used to satisfy the \$22.0 million cash payment.

The Company has a repurchase agreement that bears interest at 250 basis points over LIBOR. In June 2009, the Company amended this facility extending the maturity to June 2010, with a one year extension option. In addition, the amendment includes the removal of all financial covenants and a reduction of the committed amount to \$2.4 million reflecting the one asset currently financed in this facility. During the year ended December 31, 2009, the Company paid down approximately \$13.1 million of this facility. At December 31, 2009, the outstanding balance under this facility was \$2.4 million.

In April 2008, the Company entered into an uncommitted master repurchase agreement with a financial institution for the purpose of financing its CRE CDO bond securities. The facility has a term expiring in May 2010 and bears interest at pricing over LIBOR, varying on the type of asset financed. During the year ended December 31,

2009, the Company paid down approximately \$1.3 million of this debt, due to a decrease in values associated with a change in the market interest rate spreads and an additional \$6.7 million of principal. At December 31, 2009, the outstanding balance in this facility was approximately \$0.2 million. In January 2010, the facility was repaid in full.

In certain circumstances, the Company has financed the purchase of investments from a counterparty through a repurchase agreement with that same counterparty. The Company currently records these investments in the same manner as other investments financed with repurchase agreements, with the investment recorded as an asset and the related borrowing under the repurchase agreement as a liability on the Company's Consolidated Balance Sheet. Interest income earned on the investments and interest expense incurred on the repurchase obligations are reported separately on the Consolidated Statement of Operations. These transactions may not qualify as a purchase by the Company under current accounting guidance, which is effective for fiscal years beginning after November 15, 2008. The Company would be required to present the net investment on the balance sheet as a derivative with the corresponding change in fair value of the derivative being recorded in the statement of operations when certain criteria to treat these transactions not as part of the same arrangements (linked transactions) are not met. The value of the derivative would reflect not only changes in the value of the underlying investment, but also changes in the value of the underlying credit provided by the counterparty. However, the guidance applies to prospective transactions, and no such transactions have been recorded in this manner in 2009.

Collateralized Debt Obligations

December 31, 2009

At December 31, 2009, the aggregate weighted average effective rate for the Company's collateralized debt obligations, including the cost of interest rate swaps on assets financed in these facilities, was 2.79%. Excluding the effect of swaps, the weighted average note rate at December 31, 2009 was 0.79%.

On January 19, 2005, the Company completed its first collateralized debt obligation, issuing to third party investors four tranches of investment grade collateralized debt obligations ("CDO I") through a newly-formed wholly-owned subsidiary, Arbor Realty Mortgage Securities Series 2004-1, Ltd. ("the Issuer"). At inception, the Issuer held assets, consisting primarily of bridge loans, mezzanine loans and cash totaling approximately \$469.0 million, which serve as collateral for CDO I. The Issuer issued investment grade notes with an initial principal amount of approximately \$305.0 million and a wholly-owned subsidiary of the Company purchased the preferred equity interests of the Issuer. The four investment grade tranches were issued with floating rate coupons with an initial combined weighted average rate of three-month LIBOR plus 0.77%. CDO I was replenished with substitute collateral for loans that were repaid during the first four years of CDO I, up until April 2009. Thereafter, the outstanding debt balance will be reduced as loans are repaid. The Company incurred approximately \$7.2 million of issuance costs which is being amortized on a level yield basis over the average estimated life of CDO I. As of April 15, 2009, CDO I has reached the end of its replenishment date and will no longer make the \$2.0 million amortization payments to investors. Investor capital will be repaid quarterly from proceeds received from loan repayments held as collateral in accordance with the terms of the CDO. Proceeds distributed will be recorded as a reduction of the CDO liability. Proceeds of \$5.1 million and \$8.0 million were distributed in 2009 and 2008, respectively. The CDO liability is also reduced as the investment grade notes are purchased by the Company — see below. The outstanding note balance for CDO I was \$254.1 million and \$275.3 million at December 31, 2009 and 2008, respectively.

On January 11, 2006, the Company completed its second collateralized debt obligation, issuing to third party investors nine tranches of investment grade collateralized debt obligations ("CDO II") through a newly-formed wholly-owned subsidiary, Arbor Realty Mortgage Securities Series 2005-1, Ltd. ("the Issuer II"). At inception, the Issuer II held assets, consisting primarily of bridge loans, mezzanine loans and cash totaling approximately \$475.0 million, which serve as collateral for CDO II. The Issuer II issued investment grade notes with an initial principal amount of approximately \$356.0 million and a wholly-owned subsidiary of the Company purchased the preferred equity interests of the Issuer II. The nine investment grade tranches were issued with floating rate coupons with an initial combined weighted average rate of three-month LIBOR plus 0.74%. CDO II may be replenished with substitute collateral for loans that are repaid during the first five years. Thereafter, the outstanding debt balance will be reduced as loans are repaid. The Company incurred approximately \$6.2 million of issuance costs which is being amortized on a level yield basis over the average life of CDO II. Proceeds from CDO II are distributed quarterly with approximately \$1.2 million being paid to investors as a reduction of their capital invested. Proceeds of \$4.7 million were distributed and recorded as a reduction of the CDO II liability during both 2009 and 2008, respectively. The CDO liability is also reduced as the investment grade notes are purchased by the Company — see below. The outstanding note balance for CDO II was \$329.5 million and \$343.3 million at December 31, 2009 and 2008, respectively.

On December 14, 2006, the Company completed its third collateralized debt obligation, issuing to third party investors 10 tranches of investment grade collateralized debt obligations ("CDO III") through a newly-formed wholly-owned subsidiary, Arbor Realty Mortgage Securities Series 2006-1, Ltd. ("the Issuer III"). At inception, the Issuer III held assets, consisting primarily of bridge loans, mezzanine loans, junior participation loans, preferred equity investments and cash totaling approximately \$500.0 million, which serve as collateral for CDO III. The Issuer III issued investment grade notes with an initial principal amount of approximately \$547.5 million, including a \$100.0 million revolving note class that provides a revolving note facility and a wholly-owned subsidiary of the Company purchased the preferred equity interests of the Issuer III. The 10 investment grade tranches were issued with floating rate coupons with an initial combined weighted average rate of three-month LIBOR plus 0.44% and the revolving note facility has a commitment fee of 0.22% per annum on the undrawn portion of the facility. III may be replenished with substitute collateral for loans that are repaid during the first five years. Thereafter, the outstanding debt balance will be reduced as loans are repaid. The Company incurred approximately \$9.7 million of issuance costs which is being amortized on a level yield basis over the average life of CDO III. The outstanding note balance for CDO III was \$516.9 million and \$533.7 million at December 31, 2009 and 2008, respectively. CDO III has \$100.0 million revolving note class that provides a revolving note facility. The CDO liability is also reduced as the investment grade notes are purchased by the Company — see below. The outstanding revolving note facility for CDO III was \$86.7 million and \$86.2 million at December 31, 2009 and 2008, respectively.

Proceeds from the sale of the 23 investment grade tranches issued in CDO I, CDO II and CDO III were used to repay outstanding debt under the Company's repurchase agreements and notes payable. The assets pledged as collateral were contributed from the Company's existing portfolio of assets.

The Company intends to own these portfolios of real estate-related assets until maturity and accounts for these transactions on its balance sheet as financing facilities. For accounting purposes, these CDOs are consolidated in the Company's financial statements. The investment grade tranches are treated as secured financings, and are non-recourse to the Company.

During the year ended December 31, 2009, the Company purchased, at a discount, approximately \$16.1 million of investment grade rated notes originally issued by the Company's CDO I issuing entity for a price of \$3.3 million, \$9.3 million originally issued by the Company's CDO II issuing entity for a price of \$3.1 million, and \$17.3 million originally issued by the Company's CDO III issuing entity for a price of \$5.4 million, for a total purchase of \$42.8 million of notes in 2009. Approximately \$20.0 million of the CDO notes were purchased from the Company's manager, ACM, for a price of \$7.8 million. In 2008, ACM purchased these notes from third party investors for \$8.2 million. The remaining notes were purchased from third party investors. The Company recorded a net gain on extinguishment of debt of \$31.0 million from these transactions in its Consolidated Statements of Operations.

In the first quarter of 2010, the Company purchased, at a discount, approximately \$4.5 million of investment grade rated notes originally issued by our CDO I issuing entity for a price of \$1.6 million, \$7.9 million of investment grade rated notes originally issued by the Company's CDO II issuing entity for a price of \$1.6 million and \$7.0 million originally issued by the Company's CDO III issuing entity for a price of \$1.4 million from third party investors. The Company will record a net gain on extinguishment of debt of \$14.9 million from these transactions in its 2010 Consolidated Statements of Operations.

In February 2010, the Company re-issued its own CDO bonds it had acquired throughout 2009 with an aggregate face amount of \$42.8 million as part of an exchange for the retirement of \$114.1 million of its junior subordinated notes. See "Junior Subordinated Notes" below for further details.

In May 2009, the Company exchanged \$247.1 million of its outstanding trust preferred securities, consisting of \$239.7 million of junior subordinated notes issued to third party investors and \$7.4 million of common equity issued to the Company, in exchange for \$268.4 million of newly issued unsecured junior subordinated notes, representing 112% of the original face amount. The new notes bear a fixed interest rate of 0.50% per annum until April 30, 2012 (the “Modification Period”). Thereafter, interest is to be paid at the rates set forth in the existing trust agreements until maturity, equal to three month LIBOR plus a weighted average spread of 2.90%. The Company paid transaction fees of approximately \$1.2 million to the issuers of the junior subordinated notes related to this restructuring which will be amortized on an effective yield over the life of the notes. Furthermore, the 12% increase to the face amount due upon maturity will be amortized into expense over the life of the notes in accordance with the interest method of accounting.

In July 2009, the Company restructured its remaining \$18.7 million of trust preferred securities that were not exchanged from the May 2009 restructuring transaction discussed above. The Company amended the \$18.7 million of junior subordinated notes to \$20.9 million of unsecured junior subordinated notes, representing 112% of the original face amount. The amended notes bear a fixed interest rate of 0.50% per annum for a period of approximately three years, the modification period. Thereafter, interest is to be paid at the rates set forth in the existing trust agreements until maturity, equal to three month LIBOR plus a weighted average spread of 2.74%. The Company paid a transaction fee of approximately \$0.1 million to the issuers of the junior subordinated notes related to this restructuring. Furthermore, the 12% increase to the face amount due upon maturity will be amortized into expense over the life of the notes in accordance with the interest method of accounting.

During the Modification Periods, the Company will be permitted to make distributions of up to 100% of taxable income to common shareholders. The Company has agreed that such distributions will be paid in the form of the Company’s stock to the maximum extent permissible under the Internal Revenue Service rules and regulations in effect at the time of such distribution, with the balance payable in cash. This requirement regarding distributions in stock can be terminated by the Company at any time, provided that the Company pays the note holders the original rate of interest from the time of such termination.

The junior subordinated notes are unsecured, have a maturity of 25 to 28 years, pay interest quarterly at a fixed rate or floating rate of interest based on three-month LIBOR and, absent the occurrence of special events, are not redeemable during the first two years. In connection with the issuance of the original variable rate junior subordinated notes, the Company had entered into various interest rate swap agreements which were subsequently terminated upon the exchange discussed above, resulting in a loss on termination of swaps of \$8.7 million in 2009. See Note 11 — “Derivative Financial Instruments” for further information relating to these derivatives.

In March 2009, the Company purchased from its manager, ACM, approximately \$9.4 million of junior subordinated notes originally issued by a wholly-owned subsidiary of the Company's operating partnership for \$1.3 million. ACM purchased these notes from third party investors for \$1.3 million in March 2009. The Company recorded a net gain on extinguishment of debt of \$8.1 million and a reduction of outstanding debt totaling \$9.4 million from this transaction. In connection with this transaction, the Company retired approximately \$0.3 million of common equity related to these junior subordinated notes.

The carrying value under these facilities was \$259.5 million at December 31, 2009 and \$276.1 million at December 31, 2008. The current weighted average note rate was 0.50% and 7.21% at December 31, 2009 and 2008, respectively. However, based upon the accounting treatment for the restructure, the effective rate was 3.96% at December 31, 2009. The impact of these variable interest entities with respect to consolidation is discussed in Note 10 — "Variable Interest Entities."

In February 2010, the Company retired \$114.1 million of its junior subordinated notes, with a carrying value of \$102.1 million, in exchange for the re-issuance of its own CDO bonds it had acquired throughout 2009 with an aggregate face amount of \$42.8 million, CDO bonds of other issuers it had acquired in the second quarter of 2008 with an aggregate face amount of \$25.0 million and a carrying value of \$0.4 million, and \$10.5 million in cash. In the first quarter of 2010, this transaction is expected to result in recording \$65.3 million of additional CDO debt, of which \$42.3 million represents the portion of the Company's CDO bonds that were exchanged and \$23.0 million represents the estimated interest due on the bonds through their maturity, a reduction to securities available-for-sale of \$0.4 million representing the fair value of CDO bonds of other issuers, and a gain on extinguishment of debt of approximately \$26.0 million.

(1) In July 2009, the Company amended and restructured its term credit agreements, revolving credit agreement and working capital facility with Wachovia Bank, National Association as discussed below.

(2) In July 2009, this facility was paid off as discussed below.

At December 31, 2009, the aggregate weighted average effective rate for the Company's notes payable, including the cost of interest rate swaps on assets financed in these facilities, was 4.98%. Excluding the effect of swaps, the weighted average note rate at December 31, 2009 was 4.57%.

In July 2009, the Company amended and restructured its term credit agreements, revolving credit agreement and working capital facility with Wachovia Bank, National Association as follows:

- The term revolving credit agreement, with an outstanding balance of \$64.0 million, was combined with the term debt facility with an outstanding balance of \$237.7 million, along with a portion of the term debt facility with an outstanding balance of \$30.3 million, and \$15.3 million of this term debt facility was

combined with the working capital line with an outstanding balance of \$41.9 million. This debt restructuring resulted in the consolidation of these four facilities into one term debt facility with an outstanding balance of \$316.7 million at the time of the agreement, which contains a revolving component with \$35.3 million of availability, and one working capital facility with an outstanding balance of \$57.2 million at the time of the agreement.

- The maturity dates of the facilities were extended for three years, with a working capital facility maturity of June 8, 2012 and a term debt facility maturity of July 23, 2012.
- The term debt facility requires a \$48.1 million reduction over the three-year term, with approximately \$8.0 million in reductions due every six months beginning in December 2009.
- Margin call provisions relating to collateral value of the underlying assets have been eliminated, as long as the term loan reductions are met, with the exception of limited margin call capability related to foreclosed or real estate-owned assets.
- The working capital facility requires quarterly amortization of up to \$3.0 million per quarter, \$1.0 million per CDO, only if both (a) the CDO is cash flowing to the Company and (b) the Company has a minimum quarterly liquidity level of \$27.5 million.
- Interest rate of LIBOR plus 350 basis points for the term loan facility, compared to LIBOR plus approximately 200 basis points previously and LIBOR plus 800 basis points for the working capital facility, compared to LIBOR plus 500 basis points previously. The Company has also agreed to pay a commitment fee of 1.00% payable over 3 years.
- The Company issued Wachovia one million warrants at an average strike price of \$4.00. 500,000 warrants are exercisable immediately at a price of \$3.50, 250,000 warrants are exercisable after July 23, 2010 at a price of \$4.00 and 250,000 warrants are exercisable after July 23, 2011 at a price of \$5.00. All warrants expire on July 23, 2015.
- Annual dividends are limited to 100% of taxable income to common shareholders and are required to be paid in the form of the Company's stock to the maximum extent permissible (currently 90%), with the balance payable in cash. The Company will be permitted to pay 100% of taxable income in cash if the term loan facility balance is reduced to \$210.0 million, the working capital facility is reduced to \$30.0 million and the Company maintains \$35.0 million of minimum liquidity.
- The Company's CEO and Chairman, Ivan Kaufman, is required to remain an officer or director of the Company for the term of the facilities.

In addition, the financial covenants were been reduced to the following (see "Debt Covenants" section below for further details):

- Minimum quarterly liquidity of \$7.5 million in cash and cash equivalents.
- Minimum quarterly GAAP net worth of \$150.0 million.
- Ratio of total liabilities to tangible net worth shall not exceed 4.5 to 1 quarterly.

As a result of the above mentioned amendment, at December 31, 2009, the Company has one term credit agreement with Wachovia, which contains a revolving component with \$35.3 million of availability. The facility has a commitment period of three years to July 2012 and bears an interest rate of LIBOR plus 350 basis points. Margin call provisions relating to collateral value of the underlying assets have been eliminated, as long as the term loan reductions are met, with the exception of limited margin call capability related to foreclosed or real estate-owned assets. Subsequent to the amendment, the Company made net paydowns to the facility of \$47.4 million,

reducing the \$48.1 million balance reduction requirements to \$0.7 million and satisfying the requirements until June 2012. The outstanding balance under this facility was \$269.3 million at December 31, 2009.

In 2010, the Company entered into an agreement with Wachovia Bank, National Association, owned by Wells Fargo Bank, National Association, to retire all of its \$335.6 million of then outstanding debt for \$176.2 million, representing 52.5% of the face amount of the debt. The \$335.6 million of indebtedness is comprised of \$286.1 million of term debt and a \$49.5 million working capital facility, representing the outstanding balances in each facility at the time the parties began to negotiate the agreement. The agreement can be closed at any time on or before May 31, 2010 and also has two consecutive 45 day extension options which would extend the payoff date to August 27, 2010. The agreement provides the ability to apply paydowns in the Wachovia facilities against the discounted payoff amount during the term of the agreement and accordingly, the Company has made payments of \$62.3 million towards the initial discounted payoff amount, leaving \$113.9 million payable to Wachovia to close this agreement. The closing of this transaction is subject to certain closing conditions and the ability to obtain the necessary capital. The Company can make no assurances that it will be able to access sufficient capital under acceptable terms and conditions. In addition, the Company has obtained a waiver of its minimum tangible net worth covenant, as well as the minimum ratio of total liabilities to tangible net worth covenant, from this financial institution for December 31, 2009 through the extended payoff date of August 27, 2010. The Company has also obtained temporary amendments thereafter until December 2010 for the quarterly minimum GAAP tangible net worth covenants, from \$150.0 million to \$50.0 million, and quarterly maximum ratio of total liabilities to tangible net worth covenants, from 4.5 to 1 to 5.8 to 1. See "Debt Covenants" below for further details.

The working capital facility with Wachovia has a maturity of June 2012 and an interest rate of LIBOR plus 800 basis points. At December 31, 2009, the outstanding balance under this facility was \$49.5 million.

The Company had a \$70.0 million bridge loan warehouse agreement which had a maturity date of October 2009. In May 2009, the Company amended this facility, extending the maturity to May 2010, with a one year extension option, and reduced the committed amount to \$13.5 million. This agreement bore a rate of interest, payable monthly, based on LIBOR plus 3.75%. In July 2009, this facility was repaid in full.

In 2008, the Company recorded a \$49.5 million note payable related to the POM exchange of profits interest transaction, which was paid down to \$48.5 million as of December 31, 2008. The note was initially secured by the Company's interest in POM, matures in July 2016, and bore interest at a fixed rate of 4% with payment deferred until the closing of the transaction. Upon the closing of the POM transaction in March 2009, the note balance was increased to \$50.2 million, bears interest at a fixed rate of 4% and is secured by the Company's investment in common and preferred operating partnership units in Lightstone Value Plus REIT, L.P. See Note 6 — "Investment in Equity Affiliates" for further details. At December 31, 2009, the outstanding balance of this note was \$50.2 million.

The Company has three junior loan participations with a total outstanding balance at December 31, 2009 of \$6.3 million. These participation borrowings have a maturity date equal to the corresponding mortgage loan and are secured by the participant's interest in the mortgage loan. Interest expense is based on a portion of the interest received from the loans.

Mortgage Note Payable — Held-For-Sale

During the second quarter of 2008, the Company recorded a \$41.4 million interest-only first lien mortgage related to the foreclosure of an entity in which the Company had a \$5.0 million mezzanine loan. The real estate investment was originally classified as real estate owned and was reclassified as real estate held-for-sale in September 2009. The mortgage bears interest at a fixed rate, has a maturity date of June 2012 and was recorded in mortgage note payable — held-for-sale. The outstanding balance of this mortgage was \$41.4 million at December 31, 2009.

Note Payable — Related Party

During the fourth quarter of 2008, the Company borrowed \$4.2 million from the Company’s manager, ACM. At December 31, 2008, the Company had outstanding borrowings due to ACM totaling \$4.2 million, which was recorded in notes payable — related party. In January 2009, the loan was repaid in full.

Debt Covenants

Each of the credit facilities contains various financial covenants and restrictions, including minimum net worth, minimum liquidity and debt-to-equity ratios. The Company was in compliance with all financial covenants and restrictions for the periods presented with the exception of a minimum tangible net worth requirement with Wachovia at December 31, 2009. The Company’s tangible net worth was \$98.6 million at December 31, 2009 and the Company was required to maintain a minimum tangible net worth of \$150.0 million with this financial institution. The Company has obtained a waiver of this covenant, as well as the minimum ratio of total liabilities to tangible net worth covenant, from this financial institution for December 31, 2009 and through an extended payoff date of August 27, 2010, in conjunction with amendments to its credit facilities. The Company has also obtained temporary amendments thereafter until December 2010 for the quarterly minimum GAAP tangible net worth covenants, from \$150.0 million to \$50.0 million, and quarterly maximum ratio of total liabilities to tangible net worth covenants, from 4.5 to 1 to 5.8 to 1.

The Company’s CDO bonds contain interest coverage and asset overcollateralization covenants that must be met as of the waterfall distribution date in order for the Company to receive such payments. If the Company fails these covenants in any of its CDOs, all cash flows from the applicable CDO would be diverted to repay principal and interest on the outstanding CDO bonds and the Company would not receive any residual payments until that CDO regained compliance with such tests. The Company was in compliance with all such covenants as of December 31, 2009. In the event of a breach of the CDO covenants that could not be cured in the near-term, the Company would be required to fund its non-CDO expenses, including management fees and employee costs, distributions required to maintain REIT status, debt costs, and other expenses with (i) cash on hand, (ii) income from any CDO not in breach of a CDO covenant test, (iii) income from real property and unencumbered loan assets, (iv) sale of assets, (v) or accessing the equity or debt capital markets, if available. The chart below is a summary of the Company’s CDO compliance tests as of the most recent distribution date:

Cash Flow Triggers	CDO I	CDO II	CDO III
Overcollateralization (1)			
Current	194.40%	177.72%	111.28%
Limit	184.00%	169.50%	105.60%
Pass/Fail	Pass	Pass	Pass
Interest Coverage (2)			
Current	653.93%	575.81%	686.74%
Limit	160.00%	147.30%	105.60%
Pass/Fail	Pass	Pass	Pass

(1) The overcollateralization ratio divides the total principal balance of all collateral in the CDO by the total bonds outstanding for the classes senior to those retained by the Company. To the extent an asset is considered a defaulted security, the asset’s principal balance is multiplied by the asset’s recovery rate which is determined by the rating agencies.

(2) The interest coverage ratio divides interest income by interest expense for the classes senior to those retained by the Company.

The Company also has certain cross-default provisions whereby accelerated repayment would occur under the Wachovia Term Credit and Working Capital facilities if any party defaults under any indebtedness in a principal amount of at least \$5.0 million in the aggregate beyond any applicable grace period regardless of whether the

default has been or is waived. Also, a default under the Junior Subordinated Indentures or any of the CDOs would trigger a default under the Company's Wachovia debt agreements, but not vice versa, and no payment due under the Junior Subordinated Indentures may be paid if there is a default under any senior debt and the senior lender has sent notice to the trustee. The Junior Subordinated Indentures are also cross-defaulted with each other.

Note 9 — Noncontrolling Interest

Noncontrolling interest in a consolidated entity on the Company's Consolidated Balance Sheet, with a balance of \$1.9 million and \$(10,981), respectively, as of December 31, 2009 and 2008, represents a third party's interest in the equity of a consolidated subsidiary, and is related to the POM transaction discussed in Note 6 — "Investment in Equity Affiliates." As a result of the POM transaction in March 2009, the Company recorded \$18.7 million of net income attributable to the noncontrolling interest holder and a distribution to the noncontrolling interest of \$16.6 million. For the year ended December 31, 2008, \$4.4 million of net income attributable to the noncontrolling interest on the Company's Consolidated Statements of Operations primarily represented income allocated to ACM's noncontrolling interest in the operating partnership discussed below.

On July 1, 2003, ACM contributed \$213.1 million of structured finance assets and \$169.2 million of borrowings supported by \$43.9 million of equity in exchange for a commensurate equity ownership in ARLP, the Company's operating partnership. This transaction was accounted for as noncontrolling interest and initially entitled ACM to a 28% interest in ARLP. ACM's noncontrolling interest in ARLP was represented by operating partnership units and was adjusted at the end of each reporting period to an amount equal to ACM's ownership percentage of ARLP's net equity. In April 2004, the Company issued 6,750,000 shares of its common stock in an initial public offering and a concurrent offering to one of the Company's directors. In May 2004, the underwriters of the initial public offering exercised a portion of their over-allotment option, which resulted in the issuance of 524,200 additional shares. In addition, the Company issued 2,700,000 common shares in a public offering in June 2007.

At December 31, 2007, noncontrolling interest in the Company's operating partnership was \$72.9 million reflecting ACM's 15.5% limited partnership interest in ARLP. In June 2008, ACM exercised its right to redeem its 3,776,069 operating partnership units ("OP units") in the Company's operating partnership for shares of the Company's common stock on a one-for-one basis. As a result, ACM's operating partnership ownership interest in the Company and the balance of noncontrolling interest in the operating partnership were reduced to zero as of June 30, 2008. The redemption of the noncontrolling interest in operating partnership in exchange for the Company's common stock was recorded at book value and recorded directly to equity in additional paid-in capital. In addition, the special voting preferred shares paired with each OP unit, pursuant to a pairing agreement, were redeemed simultaneously and cancelled by the Company. In connection with this transaction, the Company's Board of Directors approved a resolution under the Company's charter allowing Ivan Kaufman and ACM, in relation to Mr. Kaufman's controlling equity interest, to own more than the 7% ownership limitation.

Updated accounting guidance clarifies the classification of noncontrolling interests in consolidated statements of financial position and the accounting for and reporting of transactions between the Company and holders of such noncontrolling interests. Under the updated accounting guidance, noncontrolling interests are considered equity and should be reported as an element of consolidated equity. Net income encompasses the total income of all consolidated subsidiaries and requires separate disclosure on the face of the statements of operations of income attributable to the controlling and noncontrolling interests. When a subsidiary is deconsolidated, any retained, noncontrolling equity investment in the former subsidiary and the gain or loss on the deconsolidation of the subsidiary must be measured at fair value. The presentation and disclosure requirements have been applied retrospectively for all periods presented.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

Note 10 — Variable Interest Entities

Current accounting guidance requires a variable interest entity (“VIE”) to be consolidated by its primary beneficiary (“PB”). The PB is the party that absorbs a majority of the VIE’s anticipated losses and/or a majority of the expected returns.

The Company has used significant judgment and assumptions in evaluating its loans and investments, mortgage-related securities and investments in equity affiliates to determine whether they are VIEs. This evaluation resulted in the Company determining that its bridge loans, junior participation loans, mezzanine loans, preferred equity investments and investments in equity affiliates were potential variable interests. For each of these investments, the Company has evaluated (1) the sufficiency of the fair value of the entities’ equity investments at risk to absorb losses, (2) that as a group the holders of the equity investments at risk have (a) the direct or indirect ability through voting rights to make decisions about the entities’ significant activities, (b) the obligation to absorb the expected losses of the entity and their obligations are not protected directly or indirectly, (c) the right to receive the expected residual return of the entity and their rights are not capped, (3) substantially all of the entities’ activities do not involve or are not conducted on behalf of an investor that has disproportionately fewer voting rights in terms of its obligation to absorb the expected losses or its right to receive expected residual returns of the entity, or both. In addition, the Company has evaluated its investments in collateralized debt obligation securities and has determined that the issuing entities are considered VIEs, but has determined that the Company is not the primary beneficiary. As of December 31, 2009, the Company has identified 39 loans and investments which were made to entities determined to be VIEs with an aggregate carrying amount of \$807.3 million. These VIEs had exposure to real estate debt of approximately \$3.3 billion at December 31, 2009. See Note 3 — “Loans and Investments”, Note 5 — “Securities Held-To-Maturity” and Note 6 — “Investment in Equity Affiliates” for further details.

Entities that issue junior subordinated notes are considered VIEs. However, it is not appropriate to consolidate these entities, as equity interests are variable interests only to the extent that the investment is considered to be at risk. Since the Company’s investments were funded by the entities that issued the junior subordinated notes, they are not considered to be at risk.

(1) The Company's maximum exposure to loss would not exceed the carrying amount of its investment. At December 31, 2009, \$396.2 million of loans to VIEs had corresponding loan loss reserves of approximately \$193.6 million and \$61.8 million of loans to VIEs were related to loans classified as non-performing. See Note 3 — "Loans and Investments" for further details.

(2) These entities that issued the junior subordinated notes are VIEs. It is not appropriate to consolidate these entities as equity interests are variable interests only to the extent that the investment is considered to be at risk. Since the Company's investments were funded by the entities that issued the junior subordinated notes, it is not considered to be at risk.

For the 39 VIEs identified, the Company has determined that it is not the primary beneficiary and, accordingly, the VIEs should not be consolidated in the Company's financial statements. The Company's maximum exposure to loss would not exceed the carrying amount of such investments. For all other investments, the Company has determined they are not VIEs. As such, the Company has continued to account for these loans and investments as a loan or investment in equity affiliate, as appropriate.

ARBOR REALTY TRUST, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)
December 31, 2009

The Company earns interest income from VIEs classified as loans, CDO bonds, and junior subordinated notes, and shares in the profits and losses of VIEs accounted for under the equity method.

The Company will be required to follow updated accounting guidance beginning with the first quarter of 2010, by providing an ongoing qualitative rather than quantitative assessment of its ability to direct the activities of a variable interest entity that most significantly impact the entity's economic performance and its rights or obligations to receive benefits or absorb losses, in order to determine whether those entities will be required to be consolidated in the Company's Consolidated Financial Statements. The Company does not expect the adoption of this guidance to have a material effect on its Consolidated Financial Statements. See "Recently Issued Accounting Pronouncements" in Note 2 — Summary of Significant Accounting Policies above for further details.

Note 11 — Derivative Financial Instruments

The Company recognizes all derivatives as either assets or liabilities in the Consolidated Balance Sheets and measures those instruments at fair value. Additionally, the fair value adjustments will affect either accumulated other comprehensive loss until the hedged item is recognized in earnings, or net (loss) income attributable to Arbor Realty Trust, Inc., depending on whether the derivative instrument qualifies as a hedge for accounting purposes and, if so, the nature of the hedging activity.

In connection with the Company's interest rate risk management, the Company periodically hedges a portion of its interest rate risk by entering into derivative financial instrument contracts. Specifically, the Company's derivative financial instruments are used to manage differences in the amount, timing, and duration of its expected cash receipts and its expected cash payments principally related to its investments and borrowings. The Company's objectives in using interest rate derivatives are to add stability to net interest income and to manage its exposure to interest rate movements. To accomplish this objective, the Company primarily uses interest rate swaps as part of its interest rate risk management strategy. Interest rate swaps designated as cash flow hedges involve the receipt of variable-rate amounts from a counterparty in exchange for the Company making fixed-rate payments over the life of the agreements without exchange of the underlying notional amount. The Company has entered into various interest rate swap agreements to hedge its exposure to interest rate risk on (i) variable rate borrowings as it relates to fixed rate loans; and (ii) the difference between the CDO investor return being based on the three-month LIBOR index while the supporting assets of the CDO are based on the one-month LIBOR index.

Derivative financial instruments must be effective in reducing the Company's interest rate risk exposure in order to qualify for hedge accounting. When the terms of an underlying transaction are modified, or when the underlying hedged item ceases to exist, all changes in the fair value of the instrument are marked-to-market with changes in value included in net income for each period until the derivative instrument matures or is settled. Any derivative instrument used for risk management that does not meet the hedging criteria is marked-to-market with the changes in value included in net income. The Company does not use derivatives for trading or speculative purposes.

The following is a summary of the derivative financial instruments held by the Company as of December 31, 2009 and 2008 (dollars in thousands):

The fair value of Non-Qualifying Hedges was \$2.0 million and \$7.2 million as of December 31, 2009 and December 31, 2008, respectively, and is recorded in other assets in the Consolidated Balance Sheet. These basis swaps are used to manage the Company's exposure to interest rate movements and other identified risks but do not meet hedge accounting requirements. The Company is exposed to changes in the fair value of certain of its fixed rate obligations due to changes in benchmark interest rates and uses interest rate swaps to manage its exposure to changes in fair value on these instruments attributable to changes in the benchmark interest rate. These interest rate swaps designated as fair value hedges involve the receipt of fixed-rate amounts from a counterparty in exchange for the Company making variable rate payments over the life of the agreements without the exchange of the underlying notional amount. For the year ended December 31, 2009 and 2008, the change in fair value of the Non-Qualifying Swaps was \$(5.2) million and \$4.7 million, respectively and was recorded in interest expense on the Consolidated Statements of Operations.

The fair value of Qualifying Cash Flow Hedges as of December 31, 2009 and 2008 was \$(47.4) million and \$(98.2) million, respectively, and was recorded in other liabilities in the amount of \$(47.9) million and in other assets in the amount of \$0.5 million at December 31, 2009, and other liabilities at December 31, 2008, and the change in accumulated other comprehensive loss in the Consolidated Balance Sheet. These interest rate swaps are used to hedge the variable cash flows associated with existing variable-rate debt, and amounts reported in accumulated other comprehensive loss related to derivatives will be reclassified to interest expense as interest payments are made on the Company's variable-rate debt. During the year ended December 31, 2009, the Company entered into one new interest rate swap that qualifies as a cash flow hedge with a notional value of approximately \$45.1 million and paid \$1.7 million, which will be amortized into interest expense over the life of the swap. During the year ended December 31, 2009, the Company terminated six interest rate swaps related to the Company's restructured trust preferred securities, with a combined notional value of \$140.0 million, for a loss of \$8.7 million recorded to loss on termination of swaps. During the year ended December 31, 2009, the Company also terminated two interest rate swaps with a combined notional value of approximately \$78.1 million and a \$33.5 million portion of an interest rate swap with a total notional value of approximately \$67.0 million. Additionally, one basis swap with a notional amount of \$37.2 million matured and one basis swap and one interest rate swap had partially amortizing maturities totaling approximately \$221.7 million. As of December 31, 2009, the Company expects to reclassify approximately \$(29.1) million of other comprehensive loss from Qualifying Cash Flow Hedges to interest expense over the next twelve months assuming interest rates on that date are held constant.

Gains and losses on terminated swaps are recognized in earnings over the original life of the hedging instruments as the hedged item was designated as current and future outstanding LIBOR based debt, which has an indeterminate life, and the hedged transaction is still more likely than not to occur. The Company deferred, through accumulated other comprehensive loss, approximately \$3.3 million of such loss on the termination of an interest rate swap agreement in the second quarter of 2009 and \$5.0 million of such loss on the termination of an interest rate swap agreement in the first quarter of 2009. As of December 31, 2009, the Company has a net loss of \$6.0 million in accumulated other comprehensive loss. As of December 31, 2008, the Company had a net gain of \$1.6 million in accumulated other comprehensive loss. The Company recorded \$1.1 million as additional interest expense related to the amortization of the loss for the year ended December 31, 2009 and \$0.3 million as a reduction to interest expense related to the accretion of the net gains for both the years ended December 31, 2009 and 2008. The Company expects to record approximately \$1.5 million of net deferred loss to interest expense over the next twelve months. The Company also recorded a loss of \$8.7 million on the termination of the interest rate swaps related to the restructured trust preferred securities directly to loss on terminated swaps in the second quarter of 2009 as interest rate swaps were determined to no longer be effective or necessary due to the modified interest payment structure of the newly issued unsecured junior subordinated notes.

The cumulative amount of other comprehensive loss related to net unrealized losses on derivatives designated as Cash Flow Hedges as of December 31, 2009 and 2008 of \$(53.3) million and \$(96.6) million, respectively, is a combination of the fair value of qualifying cash flow hedges of \$(47.4) million and \$(98.2) million, respectively, deferred losses on terminated interest swaps of \$(7.2) million as of December 31, 2009, and deferred net gains on termination of interest swaps of \$1.2 million and \$1.6 million as of December 31, 2009 and December 31, 2008, respectively.

The Company has agreements with certain derivative counterparties that contain a provision whereby if the Company defaults on any of its indebtedness, including default where repayment of the indebtedness has not been accelerated by the lender, then the Company could also be declared in default on its derivative obligations. As of December 31, 2009, the fair value of derivatives in a net liability position, which includes accrued interest but excludes any adjustment for nonperformance risk, related to these agreements was \$(18.0) million. As of December 31, 2009, the Company has minimum collateral posting thresholds with certain derivative counterparties and has posted collateral of \$18.9 million. If the Company had breached any of these provisions as of December 31, 2009, it could have been required to settle its obligations under the agreements at their termination value of \$(18.0) million, which is \$0.9 million less than the posted collateral.

The Company currently is neither subject to any material adverse litigation nor, to management's knowledge, is any material adverse litigation currently threatened against the company.

Note 13 — Stockholders' Equity

Preferred Stock

Concurrent with the formation of the Company, ACM contributed a portfolio of structured finance investments and related debt to ARLP, the operating partnership of the Company, in exchange for 3,146,724 units of limited partnership interest in ARLP and warrants to purchase an additional 629,345 operating partnership units which were exercised in 2004. Concurrently, the Company, ARLP and ACM entered into a pairing agreement. Pursuant to the pairing agreement, each operating partnership unit issued to ACM and issuable to ACM upon the subsequent exercise of its warrants for additional operating partnership units was paired with one share of the Company's special voting preferred stock. Each share of special voting preferred stock entitled the holder to one vote on all matters submitted to a vote of the Company's stockholders. In June 2008, ACM exercised its right to redeem its 3,776,069 OP units in the Company's operating partnership for shares of the Company's common stock on a one-for-one basis. As a result, the special voting preferred shares paired with each OP unit, pursuant to a pairing agreement, were simultaneously redeemed and cancelled by the Company. At December 31, 2009 and 2008, the Company had no preferred shares or OP units outstanding.

Common Stock

The Company's charter provides for the issuance of up to 500 million shares of common stock, par value \$0.01 per share, and 100 million shares of preferred stock, par value \$0.01 per share. The Company was incorporated in June 2003 and was initially capitalized through the sale of 67 shares of common stock for \$1,005.

In March 2007, the Company filed a shelf registration statement on Form S-3 with the SEC under the 1933 Act with respect to an aggregate of \$500.0 million of debt securities, common stock, preferred stock, depositary shares and warrants, that may be sold by the Company from time to time pursuant to Rule 415 of the 1933 Act. On April 19, 2007, the Commission declared this shelf registration statement effective. In June 2007, the Company sold 2,700,000 shares of its common stock registered on the shelf registration statement in a public offering at a price of

\$27.65 per share, for net proceeds of approximately \$73.6 million after deducting the underwriting discount and the other estimated offering expenses. The Company used the proceeds to pay down debt and finance its loan and investment portfolio. The underwriters did not exercise their over allotment option for additional shares. At December 31, 2009, the Company had \$425.3 million available under this shelf registration.

In June 2008, the Company issued 3,776,069 common shares upon the exchange of OP units by ACM on a one-for-one basis. As a result, the special voting preferred shares paired with each OP unit, pursuant to a pairing agreement, were simultaneously redeemed and cancelled by the Company. In connection with this transaction, the Company's Board of Directors approved a resolution of the Company's charter allowing ACM and Ivan Kaufman to own more than the 7% ownership limitation of the Company's outstanding common stock.

In August 2008, the Company entered into an equity placement program sales agreement with a securities agent whereby the Company may issue and sell up to 3 million shares of its common stock through the agent who agrees to use its commercially reasonable efforts to sell such shares during the term of the agreement and under the terms set forth therein. To date, the Company has not utilized this equity placement program.

The Company had 25,387,410 and 25,142,410 shares of common stock outstanding at December 31, 2009 and 2008, respectively.

Deferred Compensation

The Company has a stock incentive plan, under which the board of directors has the authority to issue shares of stock to certain directors, officers, and employees of the Company and ACM. As of December 31, 2008, there were 326,453 unvested shares of restricted common stock issued under this plan with a weighted average grant date fair value of \$19.91 per share. On April 21, 2009, the Company issued an aggregate of 245,000 shares of restricted common stock under the Plan, with a grant date fair value of \$1.36 per share of which 155,000 shares were awarded to certain employees of the Company and ACM and 90,000 shares were issued to members of the board of directors. As a means of emphasizing retention at a critical time for the Company and due to their relatively low value, the 245,000 common shares underlying the restricted stock awards granted were fully vested as of the date of grant. In addition, in April 2009, 83,362 shares of previously unvested restricted common stock vested and the Company accelerated the vesting of all remaining unvested shares underlying restricted stock awards totaling 243,091 shares previously granted to certain employees of the Company and ACM and non-management members of the board. All of the shares that vested in 2009 had a weighted average grant date fair value of \$19.91 per share. As a result of these transactions, the Company recorded approximately \$2.1 million of expense in the Company's Consolidated Statements of Operations during the second quarter of 2009 of which, \$1.7 million was recorded in employee compensation and benefits and \$0.4 million was recorded in selling and administrative. In May 2009, the Company's shareholders approved an amendment to the Plan to authorize the grant of stock options, as well as the authorization of an additional 1,250,000 shares of the Company's common stock to be reserved for issuance under the Plan.

Dividends paid on restricted shares are recorded as dividends on shares of the Company's common stock whether or not they are vested. For accounting purposes, the Company measures the compensation costs for these shares as of the date of the grant, with subsequent remeasurement for any unvested shares granted to non-employees of the Company with such amounts expensed against earnings, at the grant date (for the portion that vest immediately) or ratably over the respective vesting periods. For the years ended December 31, 2009, 2008 and 2007, compensation expense related to this plan totaled \$2.6 million, \$3.0 million and \$2.5 million, respectively. Such amounts appear on the Company's Consolidated Statement of Operations under "employee compensation and benefits" for employees and under "selling and administrative" expense for non-employees.

Warrants

In connection with the amended and restructured term credit agreements, revolving credit agreement and working capital facility with Wachovia Bank, National Association, the Company issued Wachovia one million

warrants at an average strike price of \$4.00. 500,000 warrants were exercisable immediately at a price of \$3.50, 250,000 warrants are exercisable after July 23, 2010 at a price of \$4.00 and 250,000 warrants are exercisable after July 23, 2011 at a price of \$5.00. All of the warrants expire on July 23, 2015 and no warrants have been exercised to date. The warrants were valued at approximately \$0.6 million using the Black-Scholes method and will be amortized into interest expense over the life of the agreement in the Company's Consolidated Statement of Operations. See Note 8 — "Debt Obligations" for further information relating to this transaction.

Note 14 — (Loss) Earnings Per Share

Basic (loss) earnings per share ("EPS") is calculated by dividing net (loss) income attributable to Arbor Realty Trust, Inc. by the weighted average number of shares of common stock outstanding during each period inclusive of unvested restricted stock which participate fully in dividends. Diluted EPS is calculated by dividing income adjusted for noncontrolling interest in the operating partnership by the weighted average number of shares of common stock outstanding plus the additional dilutive effect of common stock equivalents during each period. The Company's common stock equivalents are the potential shares from settlement of incentive management fees in common stock, ARLP's operating partnership units prior to the redemption for common stock in June 2008, and outstanding warrants.

During the first six months of 2008, ACM, the manager of the Company, earned incentive management fees totaling \$10.2 million, of which \$7.3 million was prepaid relating to the incentive management fee earned from the monetization of the POM equity kicker transaction in June 2008. Based on the terms of the management agreement, ACM elected to receive its incentive management fees partially in cash totaling \$5.6 million and partially in common shares totaling 472,582, all of which were issued in 2008. In addition, in June 2008, ACM exercised its right to redeem its 3,776,069 OP units in the Company's operating partnership for shares of the Company's common stock on a one-for-one basis. For the full year December 31, 2008, these common stock equivalents were considered anti-dilutive and excluded from diluted earnings per share, as periods with a net loss cannot be diluted.

In 2007, ACM earned incentive management fees totaling \$40.8 million. Based on the terms of the management agreement, ACM elected to be paid its incentive management fees partially in cash totaling \$27.1 million and partially in common shares totaling 556,631 of which 86,772 were issued in 2008. A portion of these shares were considered dilutive for the period in which they were earned but not yet issued.

Note 15 — Related Party Transactions

Due from related party was \$15.2 million at December 31, 2009 and consisted of \$7.0 million for a loan paydown received by ACM in December 2009, which was repaid in the first quarter of 2010, \$0.9 million of escrows due from ACM related to 2009 real estate asset transactions and \$7.3 million reclassified from prepaid management fee — related party, related to the POM transaction that closed in 2009. See Note 6 — “Investment in Equity Affiliates” for further details. In accordance with the August 2009 amended management agreement, since no incentive fee was earned for 2009, the prepaid management fee is to be paid back in installments of 25% due by December 31, 2010 and 75% due by June 30, 2012, with an option to make payment in both cash and Arbor Realty Trust, Inc. common stock provided that at least 50% of the payment is made in cash, and will be offset against any future incentive management fees or success-based payments earned by our manager prior to June 30, 2012. At

December 31, 2008, due from related party was \$2.9 million as a result of an overpayment of incentive management compensation based on the results of the twelve months ended December 31, 2008. During the second quarter of 2009, ACM repaid the \$2.9 million overpayment in full. See Note 17 — “Management Agreement” for further details.

At December 31, 2009, due to related party was \$2.0 million and consisted primarily of base management fees due to ACM, which will be remitted by the Company in 2010. At December 31, 2008, due to related party was \$1.0 million and consisted of \$0.8 million of base management fees and \$0.2 million of unearned fees due to ACM that were remitted by the Company in February 2009.

During 2009, the Company purchased from ACM, approximately \$20.0 million of investment grade rated bonds originally issued by two of its three CDO issuing entities and approximately \$9.4 million of junior subordinated notes originally issued by a wholly-owned subsidiary of the Company’s operating partnership for \$9.1 million and recorded a net gain on early extinguishment of debt of \$20.3 million. ACM had purchased the CDO notes from third party investors for \$8.2 million in 2008, and the junior subordinated notes from third party investors for \$1.3 million in 2009. See Note 8 — “Debt Obligations” for further details.

At December 31, 2008, the Company had outstanding borrowings from ACM totaling \$4.2 million. In January 2009, the loan was repaid in full. See Note 8 — “Debt Obligations” for further details.

During 2006, the Company originated a \$7.2 million bridge loan and a \$0.3 million preferred equity investment secured by garden-style and townhouse apartments in South Carolina. The Company also had a 25.0% carried profits interest in the borrowing entity. In January 2008, the borrowing entity refinanced the property through ACM’s Fannie Mae program and the Company received \$0.3 million for its profits interest as well as full repayment of the \$0.3 million preferred equity investment and the \$7.0 million outstanding balance on the bridge loan. The Company retained the 25% carried profits interest.

At December 31, 2006, the Company had a \$7.75 million first mortgage loan that bore interest at a variable rate of one month LIBOR plus 4.25% and was scheduled to mature in March 2006. In March 2006, this loan was extended for one year with no other change in terms. The underlying property was sold to a third party in March 2007. The Company provided the financing to the third party and, in conjunction with the sale, the original loan was repaid in full in March 2007. The original loan was made to a not-for-profit corporation that holds and manages investment property from the endowment of a private academic institution. Two of the Company’s directors are members of the board of trustees of the original borrower and the private academic institution. Interest income recorded from the original loan for the year ended December 31, 2007 was approximately \$0.1 million.

The Company is dependent upon its manager (ACM), with whom it has a conflict of interest, to provide services to the Company that are vital to its operations. The Company’s chairman, chief executive officer and president, Mr. Ivan Kaufman, is also the chief executive officer and president of ACM, and, the Company’s chief financial officer and treasurer, Mr. Paul Elenio, is the chief financial officer of ACM. In addition, Mr. Kaufman and the Kaufman entities together beneficially own approximately 92% of the outstanding membership interests of ACM and certain of the Company’s employees and directors, also hold an ownership interest in ACM. Furthermore, one of the Company’s directors also serves as the trustee of one of the Kaufman entities that holds a majority of the outstanding membership interests in ACM and co-trustee of another Kaufman entity that owns an equity interest in ACM. ACM currently holds approximately 5.4 million common shares, representing 21.2% of the voting power of the Company’s outstanding stock as of December 31, 2009.

Note 16 — Distributions

The Company must currently distribute at least 90% of its taxable income in order to qualify as a REIT and must distribute 100% of its taxable income in order not to be subject to corporate federal income taxes on retained income. Additionally, the IRS has issued guidance that temporarily allows listed REITs to offer shareholders

elective dividends which are paid in a combination of cash and common stock, even if the amount payable in cash is capped, so long as that cap is not less than 10% of the total dividend. The Company anticipates it will distribute all of its taxable income to its stockholders. Because taxable income differs from cash flow from operations due to non-cash revenues or expenses (such as depreciation), in certain circumstances, the Company may generate operating cash flow in excess of its distributions or, alternatively, may be required to borrow to make sufficient distribution payments.

The following table presents dividends paid by the Company on its common stock for the years ended December 31, 2009, 2008 and 2007:

The Company declared and paid distributions of \$14,500, \$14,539 and \$14,500 for the years ended December 31, 2009, 2008 and 2007, respectively, representing the 12.5% return on the preferred shares issued to third parties by its subsidiary REIT.

Under the terms of certain financing agreements, annual dividends are limited to 100% of taxable income to common shareholders and are required to be paid in the form of the Company's stock to the maximum extent permissible (currently 90%), with the balance payable in cash. The Company will be permitted to pay 100% of taxable income in cash if certain conditions are met, as previously disclosed. See Note 8 — "Debt Obligations" for further details.

Based on the continued difficult economic environment, the Board of Directors and the Company have elected not to pay a common stock dividend for the year ended December 31, 2009. In January 2009, the Board of Directors elected not to pay a common stock distribution with respect to the quarter ended December 31, 2008. The dividends paid in 2008 fully satisfy its 2008 REIT distribution requirements.

Note 17 — Management Agreement

The Company, ARLP and Arbor Realty SR, Inc. have entered into a management agreement with ACM, which provides that the Company will pay ACM a base management fee and incentive compensation fee for performing services under the management agreement.

The Company's chief executive officer is also ACM's chief executive officer and controlling equity owner and the Company's chief financial officer and treasurer is also ACM's chief financial officer. ACM has agreed to provide the Company with structured finance investment opportunities and loan servicing as well as other services necessary to operate its business. The Company relies to a significant extent on the facilities and resources of ACM to conduct its operations. ACM's management of the Company is under the direction or supervision of the Company's board of directors. The management agreement requires ACM to manage the business affairs in conformity with the policies and the general investment guidelines that are approved and monitored by the Company's board of directors.

December 31, 2009

On August 6, 2009, the Company amended its management agreement with ACM. The amendment was negotiated by a special committee of the Company's Board of Directors, consisting solely of independent directors and approved unanimously by all of the independent directors. JMP Securities LLC served as financial advisor to the special committee and Skadden, Arps, Slate, Meagher & Flom LLP served as its special counsel. The significant components of the amendment, effective as of January 1, 2009, were as follows:

- The existing base management fee structure, which was calculated as a percentage of the Company's equity, was replaced with an arrangement whereby the Company will reimburse ACM for its actual costs incurred in managing the Company's business based on the parties' agreement in advance on an annual budget with subsequent quarterly true-ups to actual costs. This change was adopted retroactively to January 1, 2009 and the Company estimated the 2009 base management fee would be in the range of \$8.0 million to \$8.5 million. The 2010 base management fee is estimated to be in the same range. Concurrent with this change, all future origination fees on investments will be retained by the Company, whereas under the prior agreement, origination fees up to 1% of the loan were retained by ACM. In addition, the Company made a \$3.0 million payment to the manager in consideration of expenses incurred by the manager in 2008 in managing the Company's business and certain other services. These changes were accounted for prospectively as a change in accounting estimate.
- The percentage hurdle for the incentive fee will be applied on a per share basis to the greater of \$10.00 and the average gross proceeds per share, whereas the previous management agreement provided for such percentage hurdle to be applied only to the average gross proceeds per share. In addition, only 60% of any loan loss and other reserve recoveries will be eligible to be included in the incentive fee calculation, which will be spread over a three year period, whereas the previous management agreement did not limit the inclusion of such recoveries in the incentive fee calculation.
- The amended management agreement allows the Company to consider, from time to time, the payment of additional fees to the manager for accomplishing certain specified corporate objectives. In accordance with the agreement, "success-based" payments were paid in the third quarter of 2009 totaling \$4.1 million, for the trust preferred and Wachovia debt restructurings.
- The amended management agreement modifies and simplifies the provisions related to the termination of the agreement and any related fees payable in such instances, including for internalization, with a termination fee of \$10.0 million, rather than payment based on a multiple of base and incentive fees as previously existed.
- The amended management agreement will remain in effect until December 31, 2010, and will be renewed automatically for successive one-year terms thereafter.

The amended management agreement has an initial term up to December 31, 2010 and is renewable automatically for an additional one year period every year thereafter, unless terminated with six months' prior written notice. If the Company terminates or elects not to renew the management agreement without cause, it is required to pay a termination fee of \$10.0 million.

For performing services under the management agreement, the Company previously paid ACM an annual base management fee payable monthly in cash as a percentage of ARLP's equity and equal to 0.75% per annum of the equity up to \$400.0 million, 0.625% per annum of the equity from \$400.0 million to \$800.0 million and 0.50% per annum of the equity in excess of \$800.0 million. For purposes of calculating the base management fee, equity equaled the month end value computed in accordance with GAAP of (1) total partners' equity in ARLP, plus or minus (2) any unrealized gains, losses or other items that do not affect realized net income. With respect to all loans and investments originated during the term of the management agreement, the Company had also agreed to pay ACM an amount equal to 100% of the origination fees paid by the borrower up to 1% of the loan's principal amount.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)
December 31, 2009

The Company also paid ACM incentive compensation on a quarterly basis, calculated as (1) 25% of the amount by which (a) ARLP's funds from operations per unit of partnership interest in ARLP, adjusted for certain gains and losses, exceeds (b) the product of (x) 9.5% per annum or the Ten Year U.S. Treasury Rate plus 3.5%, whichever is greater, and (y) the weighted average of book value of the net assets contributed by ACM to ARLP per ARLP partnership unit, the offering price per share of the Company's common equity in the private offering on July 1, 2003 and subsequent offerings and the issue price per ARLP partnership unit for subsequent contributions to ARLP, multiplied by (2) the weighted average of ARLP's outstanding partnership units.

The incentive compensation is measured annually in arrears; provided, however, ACM shall receive quarterly installments thereof in advance. The quarterly installments are calculated based on the results for the period of twelve months ending on the last day of the fiscal quarter with respect to which such installment is payable. Each quarterly installment payment is deemed to be an advance of a portion of the incentive fee payable for the year. At least 25% of this incentive compensation fee is paid to ACM in shares of the Company's common stock, subject to ownership limitations in the Company's charter. For purposes of determining the number of shares that are paid to ACM to satisfy the common stock portion of the incentive management fee from and after the date the Company's common shares are publicly traded, each common share shall have a value equal to the average closing price per common share based on the last twenty days of the fiscal quarter with respect to which the incentive fee is being paid. The incentive compensation fee is accrued as it is earned. The expense incurred for incentive fee paid in common stock is determined using the amount of stock calculated as noted above and the quoted market price of the stock on the last day of each quarter. At December 31, the Company remeasures the incentive fee expense paid to ACM in shares of the company's common stock in accordance with current accounting guidance, which discusses how to measure at the measurement date when certain terms are not known prior to the measurement date. Accordingly, expense recorded related to common stock issued as a portion of incentive fee is adjusted to reflect the fair value of the stock on the measurement date when the final calculation of total incentive fee is determined. In the event the calculated incentive compensation for the full year is an amount less than the total of the installment payments made to ACM for the year, ACM will refund to the Company the amount of such overpayment in cash regardless of whether such installments were paid in cash or common stock. In such case, the Company would record a negative incentive fee expense in the quarter when such overpayment is determined.

ACM is responsible for all costs incident to the performance of its duties under the management agreement, including compensation of its employees, rent for facilities and other "overhead" expenses. The Company is required to pay ACM management fees as well as reimburse ACM for all expenses incurred on behalf of the Company in connection with the raising of capital or the incurrence of debt, interest expenses, taxes and license fees, litigation and extraordinary or non recurring expenses.

ACM, pursuant to the management agreement with the Company, and Mr. Kaufman, pursuant to his non-competition agreement with the Company, have granted the Company a right of first refusal to pursue all opportunities identified by them or their affiliates to invest in multifamily and commercial mortgage loans and customized financing transactions, including bridge loans, mezzanine loans, preferred equity investments, note acquisitions and participation interests in owners of real properties (collectively, "Structured Finance Investments") as long as such investment opportunities are consistent with the Company's investment objectives and guidelines and such investments would not adversely affect the Company's status as a REIT. These agreements also provide that ACM or Mr. Kaufman, as the case may be, may pursue any opportunity in Structured Finance Investments if the opportunity is rejected by both the Company's credit committee and a majority of the Company's independent directors.

Pursuant to the management agreement and Mr. Kaufman's non-competition agreement, the Company has agreed not to pursue, and to allow ACM and its affiliates, including Mr. Kaufman, to pursue opportunities to invest in multi-family and commercial mortgage loans that meet the underwriting and approval guidelines of Fannie Mae, the Federal Housing Administration and conduit commercial lending programs secured by first liens on real property (collectively, the "Manager Target Investments"). In addition to its exclusive right to pursue Manager

The following table sets forth the Company’s base and incentive compensation management fees for the periods indicated:

Management Fees:	For the Year Ended December 31,		
	2009	2008	2007
Base	\$15,136,170	\$ 3,539,854	\$ 3,207,116

Total management fee	<u>\$15,136,170</u>	<u>\$ 10,832,302</u>	<u>\$ 44,052,924</u>

For the year ended December 31, 2009, as a result of the amended management agreement, the Company recorded base management fees of \$15.1 million, or \$0.60 per basic and diluted common share. For the years ended December 31, 2008 and 2007 ACM earned \$3.5 million, and \$3.2 million, respectively in base management fees. The new fee structure also provides for “success-based” payments to be paid to the Company’s manager upon the completion of specified corporate objectives in addition to the standard base management fee. In the third quarter of 2009, the base management fee included success-based payments which were paid for the trust preferred and Wachovia debt restructurings totaling an additional \$4.1 million. Of the base management fees recorded, approximately \$2.3 million, \$0.8 million, and \$0.3 million was included in due to related party at December 31, 2009, 2008 and 2007, respectively. These amounts are paid in the quarters subsequent to each respective year end.

Installments of the annual incentive compensation are subject to quarterly recalculation and potential reconciliation at the end of the fiscal year, and any overpayments are required to be repaid in accordance with the management agreement. For the year ended December 31, 2009, ACM did not earn an incentive compensation installment. During 2008, the Company paid incentive compensation installments totaling \$2.9 million, of which \$1.4 million was elected by ACM to be paid in 116,680 shares of common stock and \$1.5 million paid in cash. For the year ended December 31, 2008, ACM did not earn an incentive compensation fee and the overpayment of \$2.9 million was recorded and included in due from related party. In June 2009, ACM repaid the \$2.9 million in accordance with the amended management agreement described above.

In addition, the Company recorded a \$7.3 million deferred management fee related to the incentive compensation fee earned from the monetization of the POM equity kicker transaction in June 2008, which was subsequently paid and reclassified to prepaid management fees. The transaction closed in the second quarter of 2009. See Note 6 — “Investment in Equity Affiliates” for further details. The \$7.3 million incentive compensation fee was elected by ACM to be paid in 355,903 shares of common stock and \$4.1 million paid in cash. In accordance with the amended management agreement, since no incentive fee was earned for 2009, the prepaid management fee is to be paid back in installments of 25% due by December 31, 2010 and 75% due by June 30, 2012, with an option to make payment in both cash and Arbor Realty Trust, Inc. common stock provided that at least 50% of the payment is made in cash, and will be offset against any future incentive management fees or success-based payments earned by our manager prior to June 30, 2012.

In 2007, ACM earned an incentive compensation installment totaling \$40.8 million, of which \$13.7 million was elected by ACM to be paid in 556,631 shares of common stock and \$27.1 million paid in cash. Included in the \$40.8 million of incentive compensation was \$21.8 million recorded as management fee expense and \$19.0 million recorded as prepaid management fees related to the incentive compensation management fee on the deferred revenue recognized on the transfer of control of the 450 West 33rd Street property of one of the Company’s equity affiliates. As provided for in the management agreement, ACM elected to be paid its fourth quarter incentive

compensation management fee partially in 86,772 shares of common stock with the remainder to be paid in cash totaling \$1.5 million, which was subsequently paid in February 2008.

Note 18 — Income Taxes

The Company is organized and conducts its operations to qualify as a real estate investment trust (“REIT”) and to comply with the provisions of the Internal Revenue Code with respect thereto. A REIT is generally not subject to federal income tax on taxable income which is distributed to its stockholders, provided that at least 90% of taxable income is distributed and provided that certain other requirements are met. Since the Company did not have REIT-taxable income for the year ended December 31, 2009, and distributed 100% of its 2008 and 2007 REIT taxable income, no provision has been made for federal income taxes in the accompanying Consolidated Financial Statements. Certain of the Company’s assets or operations that would not otherwise comply with the REIT requirements, are owned or conducted by its taxable REIT subsidiaries, the income of which is subject to federal and state income taxes. The Company did not record a provision for income taxes related to the assets that are held in taxable REIT subsidiaries for the years ended December 31, 2009 and 2008, but did record a provision in 2007.

The taxable REIT subsidiaries’ provision for income taxes was comprised as follows:

	Year Ended December 31,		
	2009	2008	2007
Current tax provision:			
Federal	\$ —	\$ —	\$ 11,949,193
State	—	—	7,135,807
Total current tax provision	—	—	19,085,000

State	—	—	(819,585)
Total deferred tax provision	—	—	(2,200,000)
Total provision	\$ —	\$ —	\$ 16,885,000

The taxable REIT subsidiaries’ effective income tax rate as a percentage of pretax income differed from the U.S. federal statutory rate as follows:

	Year Ended December 31,		
	2009	2008	2007
U.S. federal statutory rate	35.0%	35.0%	35.0%
State and local income taxes, net of federal tax benefit	5.7	6.0	11.3
Change in valuation allowance	(40.7)	(41.0)	(2.1)
Other	—	—	(0.6)
Effective income tax rate	—%	—%	43.6%

The Company’s effective tax rate for 2009, 2008 and 2007 represents the tax on individual taxable REIT subsidiaries, some of which are in a net income or net loss position that are not combined for tax reporting purposes, but have been aggregated here for financial statement reporting purposes.

Deferred tax assets, net of deferred tax liabilities, are included in other assets in the Consolidated Balance Sheet. At December 31, 2009, the Company has approximately \$10.5 million of deferred tax assets consisting of net operating loss carryforwards and expenses not currently deductible. In addition, the Company has approximately \$2.2 million of deferred tax assets resulting from the Company's investment in equity affiliates. The Company's deferred tax assets are offset in part by approximately \$4.5 million of deferred tax liabilities resulting from timing differences relating to investments in equity affiliates, and a valuation allowance of approximately \$6.0 million.

At December 31, 2008, the Company has approximately \$3.9 million of deferred tax assets consisting of net operating loss carryforwards and expenses not currently deductible. In addition, the Company has approximately \$2.2 million of deferred tax assets resulting from our investment in equity affiliates. The taxable REIT subsidiaries have federal and state net operating loss carryforwards as of December 31, 2009 and 2008 of approximately \$12.8 million and \$8.2 million, respectively, which will expire through 2029 and 2028, respectively. The Company has concluded that it is more likely than not that the net operating losses will not be utilized during the carryforward period, and as such, net of deferred tax liabilities, the Company has established a valuation allowance against these net deferred tax assets.

As of December 31, 2009, the Company had approximately \$87.0 million of federal and state net operating losses and approximately \$63.0 million of capital losses. The net operating losses will expire through 2029 and the capital losses will expire through 2014.

The Company has assessed its tax positions for all open tax years, which includes 2006 to 2009, and concluded there were no material uncertainties to be recognized. The Company's accounting policy with respect to interest and penalties related to tax uncertainties is to classify these amounts as provision for income taxes. The Company has not recognized any interest and penalties related to tax uncertainties for the years ended December 31, 2009, 2008 and 2007.

Note 19 — Due to Borrowers

Due to borrowers represents borrowers' funds held by the Company to fund certain expenditures or to be released at the Company's discretion upon the occurrence of certain pre-specified events, and to serve as additional collateral for borrowers' loans. While retained, these balances earn interest in accordance with the specific loan terms with which they are associated.

Fair Value of Financial Instruments

Fair value estimates are dependent upon subjective assumptions and involve significant uncertainties resulting in variability in estimates with changes in assumptions. The following table summarizes the carrying values and the estimated fair values of financial instruments as of December 31, 2009 and 2008:

The following methods and assumptions were used by the Company in estimating the fair value of each class of financial instrument:

Loans and investments, net: Fair values of loans and investments are estimated using discounted cash flow methodology, using discount rates, which, in the opinion of management, best reflect current market interest rates that would be offered for loans with similar characteristics and credit quality.

Available-for-sale securities: Fair values are approximated based on current observed prices received from markets that trade such securities.

Securities held-to-maturity: Fair values are approximated on current market quotes received from financial sources that trade such securities and are based on prevailing market data and derived from third party proprietary models based on well recognized financial principles and reasonable estimates about relevant future market conditions.

Derivative financial instruments: Fair values are approximated on current market data received from financial sources that trade such instruments and are based on prevailing market data and derived from third party proprietary models based on well recognized financial principles and reasonable estimates about relevant future market conditions. These items are included in other assets and other liabilities on the Consolidated Balance Sheet. The Company incorporates credit valuation adjustments in the fair values of its derivative financial instruments to reflect counterparty nonperformance risk.

Repurchase agreements, notes payable and mortgage note payable — held-for-sale: Fair values are estimated using discounted cash flow methodology, using discount rates, which, in the opinion of management, best reflect current market interest rates for financing with similar characteristics and credit quality. Due to their reasonably short-term nature, the differences between fair values and carrying values were relatively small.

Collateralized debt obligations: Fair values are estimated based on broker quotations, representing the discounted expected future cash flows at a yield which reflects current market interest rates and credit spreads.

Fair Value Measurement

Fair value is defined as the price at which an asset could be exchanged in a current transaction between knowledgeable, willing parties. A liability's fair value is defined as the amount that would be paid to transfer the liability to a new obligor, not the amount that would be paid to settle the liability with the creditor. Where available, fair value is based on observable market prices or parameters or derived from such prices or parameters. Where observable prices or inputs are not available, valuation models are applied. These valuation techniques involve some level of management estimation and judgment, the degree of which is dependent on the price transparency for the instruments or market and the instruments' complexity.

Assets and liabilities disclosed at fair value are categorized based upon the level of judgment associated with the inputs used to measure their fair value. Hierarchical levels directly related to the amount of subjectivity associated with the inputs to fair valuation of these assets and liabilities are as follows:

- Level 1 — Inputs are unadjusted, quoted prices in active markets for identical assets or liabilities at the measurement date. The types of assets and liabilities carried at Level 1 fair value generally are government and agency securities, equities listed in active markets, investments in publicly traded mutual funds with quoted market prices and listed derivatives.
- Level 2 — Inputs (other than quoted prices included in Level 1) are either directly or indirectly observable for the asset or liability through correlation with market data at the measurement date and for the duration of the instrument's anticipated life. Level 2 inputs include quoted market prices in markets that are not active for an identical or similar asset or liability, and quoted market prices in active markets for a similar asset or liability. Fair valued assets and liabilities that are generally included in this category are non-government securities, municipal bonds, certain hybrid financial instruments, certain mortgage and asset-backed securities including CDO bonds, certain corporate debt, certain commitments and guarantees, certain private equity investments and certain derivatives.
- Level 3 — Inputs reflect management's best estimate of what market participants would use in pricing the asset or liability at the measurement date. These valuations are based on significant unobservable inputs that require a considerable amount of judgment and assumptions. Consideration is given to the risk inherent in the valuation technique and the risk inherent in the inputs to the model. Generally, assets and liabilities carried at fair value and included in this category are certain mortgage and asset-backed securities, certain corporate debt, certain private equity investments, certain municipal bonds, certain commitments and guarantees and certain derivatives.

Determining which category an asset or liability falls within the hierarchy requires significant judgment and the Company evaluates its hierarchy disclosures each quarter.

The Company measures certain financial assets and financial liabilities at fair value on a recurring basis, including available-for-sale securities and derivative financial instruments. The fair value of these financial assets and liabilities was determined using the following inputs as of December 31, 2009:

	Carrying Value	Fair Value	Fair Value Measurements Using Fair Value Hierarchy

Financial assets:					
Impaired loans, net(1)	\$367,339,444	\$326,560,321	\$ —	\$ —	\$326,560,321

- (1) The Company had an allowance for loan losses of \$326.3 million relating to 31 loans with an aggregate carrying value, before reserves, of approximately \$693.7 million at December 31, 2009.

Loan impairment assessments: Fair values of loans are estimated using discounted cash flow methodology, using discount rates, which, in the opinion of management, best reflect current market interest rates that would be offered for loans with similar characteristics and credit quality. Loans held for investment are intended to be held to maturity and, accordingly, are carried at cost, net of unamortized loan origination costs and fees, loan purchase discounts, and net of the allowance for loan losses when such loan or investment is deemed to be impaired. The Company considers a loan impaired when, based upon current information and events, it is probable that it will be unable to collect all amounts due for both principal and interest according to the contractual terms of the loan agreement. The Company performs evaluations of its loans to determine if the value of the underlying collateral securing the impaired loan is less than the net carrying value of the loan, which may result in an allowance and corresponding charge to the provision for loan losses.

ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

Not applicable.

ITEM 9A. CONTROLS AND PROCEDURES

Under the direction of our Chief Executive Officer and Chief Financial Officer, we have evaluated the effectiveness of our disclosure controls and procedures as of December 31, 2009. Based on this evaluation, our Chief Executive Officer and Chief Financial Officer have concluded that our disclosure controls and procedures were effective as of December 31, 2009.

No change in internal control over financial reporting occurred during the quarter ended December 31, 2009 that has materially affected, or is reasonably likely to materially affect, such internal control over financial reporting.

Management's Report on Internal Control Over Financial Reporting

Management of Arbor Realty Trust, Inc. is responsible for establishing and maintaining adequate internal control over financial reporting. Internal control over financial reporting is defined in Rules 13a-15(f) and 15d-15(f) under the Securities Exchange Act of 1934, as amended, as a process designed by, or under the supervision of, the company's principal executive and principal financial officers and effected by the Company's Board of Directors, management and other personnel to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles and includes those policies and procedures that:

- pertain to the maintenance of records that in reasonable detail accurately and fairly reflect the transactions and dispositions of the assets of the Company;
- provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with the authorization of management and directors of the Company; and
- provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of the Company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting can provide only reasonable assurance with respect to financial statement preparation and presentation. Projections of any evaluation of effectiveness to future periods are subject to the risks that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Management assessed the effectiveness of the Company's internal control over financial reporting as of December 31, 2009. In making this assessment, management used the criteria set forth by the Committee of Sponsoring Organizations of the Treadway Commission ("COSO") in Internal Control-Integrated Framework.

Based on this assessment, management concluded that, as of December 31, 2009, the Company's internal control over financial reporting is effective.

The Company's independent registered public accounting firm has issued a report on management's assessment of the Company's internal control over financial reporting. This report appears on the following page of this annual report on Form 10-K.

Report of Independent Registered Public Accounting Firm

The Board of Directors and Stockholders of
Arbor Realty Trust, Inc. and Subsidiaries

We have audited Arbor Realty Trust, Inc. and Subsidiaries' internal control over financial reporting as of December 31, 2009, based on criteria established in Internal Control-Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (the COSO criteria). Arbor Realty Trust, Inc. and Subsidiaries' management is responsible for maintaining effective internal control over financial reporting, and for its assessment of the effectiveness of internal control over financial reporting included in the accompanying Management's Report on Internal Control Over Financial Reporting. Our responsibility is to express an opinion on the company's internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, testing and evaluating the design and operating effectiveness of internal control based on the assessed risk, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, Arbor Realty Trust, Inc. and Subsidiaries maintained, in all material respects, effective internal control over financial reporting as of December 31, 2009, based on the COSO criteria.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheets of Arbor Realty Trust, Inc. and Subsidiaries as of December 31, 2009 and 2008 and the related consolidated statements of operations, changes in equity and cash flows for each of the three years in the period ended December 31, 2009 of Arbor Realty Trust, Inc. and Subsidiaries and our report dated March 8, 2010 expressed an unqualified opinion thereon.

Date of Issuance: July 23, 2009

Certificate No. W-1

THIS IS TO CERTIFY that **WACHOVIA BANK, NATIONAL ASSOCIATION**, a national banking association (together with its transferees, successors and assigns, the "Holder"), for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, is entitled to purchase from **ARBOR REALTY TRUST, INC.**, a Maryland corporation (the "Company"), at the price of \$3.50 per share (the "Exercise Price"), at any time after the date hereof (the "Commencement Date") and expiring on July 23, 2015 (the "Expiration Date"), 500,000 shares of fully paid and nonassessable common stock, par value \$0.01 per share ("Common Stock") of the Company (as such number may be adjusted as provided herein). The 500,000 shares of Common Stock which may be purchased pursuant to this Warrant are referred to herein as the "Aggregate Number". This common stock purchase warrant (this "Warrant") is issued under and in connection with that certain First Amended and Restated Credit Agreement, dated as of July 23, 2009 (as the same may be amended, modified, restated, replaced, waived, substituted, supplemented or extended from time to time, the "Credit Agreement"), among Arbor Realty Funding, LLC, a Delaware limited liability company, as a borrower, ARSR Tahoe, LLC, a Delaware limited liability company, as a borrower, Arbor ESH II LLC, a Delaware limited liability company, as a borrower, Arbor Realty Limited Partnership, a Delaware limited partnership, as a borrower and a guarantor, ART 450 LLC, a Delaware limited liability company, as a borrower, the Company, as a guarantor, Arbor Realty SR, Inc., a Maryland corporation, as a borrower and a guarantor, the several banks and other financial institutions as are, or may from time to time become parties thereto, and Wachovia Bank, National Association, a national banking association, as administrative agent for the lenders thereunder.

The Aggregate Number and Exercise Price set forth above shall also be adjusted under certain conditions specified in Section 5 of this Warrant, including, but not limited to, a Stock Dividend, Stock

Subdivision or Stock Combination. Capitalized terms used herein shall have the meanings ascribed to such terms in Section 11 hereof unless otherwise defined herein.

SECTION 1. The Warrant; Transfer and Exchange.

(a) The Warrant. This Warrant and the rights and privileges of the Holder hereunder may be exercised by the Holder in whole or in part as provided herein, shall survive any termination of the Credit Agreement and, as more fully set forth in Sections 1(b) and 7 hereof, subject to the terms of this Warrant, may be transferred by the Holder to any other Person or Persons who meet the requirements set forth herein at any time or from time to time, in whole or in part, regardless of whether the Holder retains any or all rights under the Credit Agreement.

(b) Transfer and Exchanges. The Company shall initially record this Warrant on a register to be maintained by the Company and, subject to Section 7 hereof, from time to time thereafter shall reflect the transfer of this Warrant on such register when surrendered for transfer in accordance with the terms hereof and properly endorsed, accompanied by appropriate instructions, and further accompanied by payment in cash or by check, bank draft or money order payable to the order of the Company, in United States currency, of an amount equal to any stamp or other tax or governmental charge or fee required to be paid in connection with the transfer thereof. Upon any such transfer, a new warrant or warrants shall be issued to the transferee and the Holder (in the event this Warrant is only partially transferred) and the surrendered warrant shall be canceled. This Warrant may be exchanged at the option of the Holder, when surrendered at the Principal Office of the Company, for another warrant or other warrants of like tenor and representing in the aggregate the right to purchase a like number of shares of Common Stock.

SECTION 2. Exercise.

(a) Right to Exercise. At any time after the Commencement Date and on or before the Expiration Date, the Holder, in accordance with the terms hereof, may exercise this Warrant, in whole at any time or in part from time to time, by delivering this Warrant to the Company during normal business hours on any Business Day at the Company's Principal Office, together with the Notice of Exercise, in the form attached hereto as Exhibit A and made a part hereof (the "Notice of Exercise"), duly executed, and payment of the Exercise Price per share for each share purchased, as specified in the Notice of Exercise. The aggregate Exercise Price (the "Aggregate Exercise Price") to be paid for the shares to be purchased (the "Exercise Amount") shall equal the product of (i) the Exercise Amount multiplied by (ii) the Exercise Price. If the Expiration Date is not a Business Day, then this Warrant may be exercised on the next succeeding Business Day.

(b) Payment of the Aggregate Exercise Price. Payment of the Aggregate Exercise Price shall be made to the Company in cash or other immediately available funds or as provided in Section 2(c), or a combination thereof. In the case of payment of all or a portion of the Aggregate Exercise Price pursuant to Section 2(c), the direction by the Holder to make a "Cashless Exercise" shall serve as accompanying payment for that portion of the Exercise Price.

(c) Cashless Exercise. The Holder shall have the right to pay all or a portion of the Aggregate Exercise Price by making a "Cashless Exercise", in which case the portion of the Aggregate Exercise Price to be so paid shall be paid by reducing the number of shares of Common Stock otherwise issuable pursuant to the Notice of Exercise by an amount equal to (i) the Aggregate Exercise Price to be so paid divided by (ii) the Fair Market Value Per Share.

(d) Issuance of Shares of Common Stock. Upon receipt by the Company of this Warrant at its Principal Office in proper form for exercise, and accompanied by the Notice of Exercise and payment

of the Aggregate Exercise Price as aforesaid, the Holder shall be deemed to be the holder of record of the shares of Common Stock issuable upon such exercise, notwithstanding that certificates representing such shares of Common Stock may not then be actually delivered. Within five (5) Business Days after such surrender of this Warrant, delivery of the Notice of Exercise and payment of the Aggregate Exercise Price as aforesaid, the Company shall issue and cause to be delivered to, or upon the written order of, the Holder (and in such name or names as the Holder may designate) a certificate or certificates for the Exercise Amount, subject to any reduction as provided in Section 2(c) for a Cashless Exercise.

(e) Fractional Shares. The Company may, but shall not be required to, deliver fractions of shares of Common Stock upon exercise of this Warrant. If any fraction of a share of Common Stock would be deliverable upon an exercise of this Warrant, the Company may, in lieu of delivering such fraction of a share of Common Stock, make a cash payment to the Holder in an amount equal to the same fraction of the Fair Market Value Per Share determined as of the Business Day immediately preceding the date of exercise of this Warrant.

(f) Partial Exercise. In the event of a partial exercise of this Warrant, the Company shall issue to the Holder a Warrant in like form for the unexercised portion thereof which has not expired.

SECTION 3. Payment of Taxes. The Company shall pay all stamp taxes attributable to the initial issuance of shares or other securities issuable upon the exercise of this Warrant or issuable pursuant to Section 5 hereof, excluding any tax or taxes which may be payable because of the transfer involved in the issuance or delivery of any certificates for shares or other securities in a name other than that of the Holder in respect of which such shares or securities are issued.

SECTION 4. Replacement Warrant. In case this Warrant is mutilated, lost, stolen or destroyed, the Company shall issue and deliver in exchange and substitution for and upon cancellation of the mutilated Warrant, or in lieu of and in substitution for this Warrant lost, stolen or destroyed, a new Warrant of like tenor and representing an equivalent right or interest, but only upon receipt of evidence reasonably satisfactory to the Company of such loss, theft or destruction of such Warrant and upon receipt of indemnity reasonably satisfactory to the Company and the Holder; provided, that if the Holder is a financial institution, business development company or other institutional or fund investor, its own indemnity agreement shall be satisfactory and no third party indemnity shall be required.

SECTION 5. Adjustments to the Aggregate Number and the Exercise Price.

Under certain conditions, the Aggregate Number and the Exercise Price are subject to adjustment as set forth in this Section 5.

(a) Adjustments. The Aggregate Number, after taking into consideration any prior adjustments pursuant to this Section 5, shall be subject to adjustment from time to time as follows and, thereafter, as adjusted, shall be deemed to be the Aggregate Number hereunder.

(i) Stock Dividends; Subdivisions and Combinations. In case at any time or from time to time the Company shall:

(A) issue to the holders of its shares of Common Stock a dividend payable in, or other distribution of, shares of Common Stock (a “Stock Dividend”);

(B) subdivide its outstanding shares of Common Stock into a larger number of shares of Common Stock, including, without limitation, by means of a stock split (a “Stock Subdivision”); or

(C) combine its outstanding shares of Common Stock into a smaller number of shares of Common Stock (a “ Stock Combination”);

then the Aggregate Number in effect immediately prior thereto shall be (1) proportionately increased in the case of a Stock Dividend or a Stock Subdivision and (2) proportionately decreased in the case of a Stock Combination, and the Exercise Price shall be proportionately adjusted. In the event the Company shall declare or pay, without consideration, any dividend on the shares of Common Stock payable in any right to acquire shares of Common Stock for no consideration, then the Company shall be deemed to have made a Stock Dividend in an amount of shares equal to the maximum number of shares issuable upon exercise of such rights to acquire shares of Common Stock.

(b) Notices.

(i) Notice of Proposed Actions. In case the Company shall propose (A) to pay any dividend payable in stock of any class to the holders of its Common Stock or to make any other distribution to the holders of its Common Stock, (B) to offer to the holders of its Common Stock rights to subscribe for or to purchase any Convertible Securities, rights to acquire Convertible Securities or capital stock or additional shares of Common Stock or shares of stock of any class or any other securities, warrants, rights or options, (C) to effect any reclassification of its Common Stock, (D) to effect any recapitalization, stock subdivision, stock combination or other capital reorganization, (E) to effect any consolidation or merger, share exchange, or sale, lease or other disposition of all or substantially all of its property, assets or business, (F) to effect the liquidation, dissolution or winding up of the Company, (G) to initiate any transaction or be a party to any transaction (including, without limitation, a merger, consolidation, share exchange, sale, lease or other disposition of all or substantially all of the Company’s assets, liquidation, recapitalization or reclassification of the Common Stock) in connection with which the previous Outstanding Common Stock shall be changed into or exchanged for different securities of the Company or capital stock or other securities of another corporation or interests in a non-corporate entity or other property (including cash) or any combination of the foregoing or (H) to effect any other action which would require an adjustment under this Section 5, then in each such case the Company shall give to the Holder written notice of such proposed action, which shall specify the proposed date on which a record is to be taken for the purposes of such stock dividend, distribution or rights, or the proposed date on which such reclassification, reorganization, consolidation, merger, share exchange, sale, transfer, disposition, liquidation, dissolution, winding up or other transaction is to take place and the date of participation therein by the holders of Common Stock, if any such date is to be fixed, or the proposed date on which the transfer of Common Stock is to occur, and shall also set forth such facts with respect thereto as shall be reasonably necessary to indicate the effect of such action on the Common Stock and on the Aggregate Number after giving effect to any adjustment which will be required as a result of such action. Such notice shall be so given in the case of any action covered by clause (A) or (B) above at least twenty (20) calendar days prior to the record date for determining holders of the Common Stock for purposes of such action and, in the case of any other such action, at least twenty (20) calendar days prior to the earlier of the date of the taking of such proposed action or the date of participation therein by the holders of Common Stock.

(ii) Adjustment Notice. Whenever the Aggregate Number is to be adjusted pursuant to this Section 5, unless otherwise agreed by the Holder, the Company shall promptly (and in any event within ten (10) Business Days after the event requiring the adjustment) prepare and deliver to the Holder a certificate signed by the chief financial officer of the Company, setting forth, in reasonable detail, the event requiring the adjustment and the method by which such adjustment is

to be calculated. The certificate shall set forth, if applicable, a description of the basis on which the board of directors in good faith determined, as applicable, the Fair Market Value Per Share, the fair market value of any evidences of indebtedness, shares of stock, other securities, warrants, other subscription or purchase rights, or other property or the equitable nature of any adjustment under Section 5(b) or (c) hereof, the new Aggregate Number and, if applicable, any new securities or property to which the Holder is entitled. Any other determination of fair market value shall first be determined in good faith by the board of directors and be based upon an arm's length sale of such indebtedness, shares of stock, other securities, warrants, other subscription or purchase rights or other property, such sale being between a willing buyer and a willing seller. In the case of any such determination of fair market value, the Holder may object to the determination in such certificate by giving written notice within ten (10) Business Days of the receipt of such certificate and, if the Holder and the Company cannot agree to the fair market value within ten (10) Business Days of the date of the Holder's objection, the fair market value shall be determined by a disinterested appraiser (which may be national or regional investment bank or a national accounting firm) mutually selected by the Holder and the Company, the fees and expenses of which shall be paid by the Company.

SECTION 6. No Dilution or Impairment. The Company will not, by amendment of its Articles of Incorporation or through any reorganization, recapitalization, transfer of assets, consolidation, merger, share exchange, dissolution or any other voluntary action, avoid or seek to avoid the observance or performance of any of the terms of this Warrant, including, without limitation, the adjustments required under Section 5 hereof, and will at all times in good faith assist in the carrying out of all such terms and in taking of all such action as may be necessary or appropriate to protect the rights of the Holder against dilution or other impairment. Without limiting the generality of the foregoing and notwithstanding any other provision of this Warrant to the contrary (including by way of implication), the Company (a) will not increase the par value of any shares of Common Stock receivable on the exercise of this Warrant above the amount payable therefor on such exercise and (b) will take all such action as may be necessary or appropriate so that the Company may validly and legally issue fully paid and nonassessable shares of Common Stock upon the exercise of this Warrant.

SECTION 7. Transfers of this Warrant. (a) Generally. Subject to the restrictions set forth in this Section 7, the Holder may at any time and from time to time freely transfer this Warrant and the Warrant Shares in whole or in part to any Person. This Warrant has not been, and the Warrant Shares at the time of their issuance may not be, registered under the Securities Act and, except as provided in the Registration Rights Agreement, nothing herein contained shall be deemed to require the Company to so register this Warrant and the Warrant Shares. This Warrant and the Warrant Shares are issued or issuable subject to the provisions and conditions contained herein and to the provisions and conditions contained in the Registration Rights Agreement, and every Holder hereof by accepting the same agrees with the Company to such provisions and conditions, and represents to the Company that this Warrant has been acquired and the Warrant Shares will be acquired for the account of the Holder for investment and not with a view to or for sale in connection with any distribution thereof.

(b) Compliance with Securities Laws. The Holder agrees that this Warrant and the Warrant Shares may not be sold or otherwise disposed of except pursuant to an effective registration statement under the Securities Act and other applicable Securities Laws or pursuant to an applicable exemption from the registration requirements of the Securities Act and such other applicable Securities Laws. In the event that the Holder transfers this Warrant or the Warrant Shares pursuant to an applicable exemption from registration, the Company may request, at its expense, that the Holder deliver an opinion of counsel

reasonably acceptable to the Company that the proposed transfer does not violate the Securities Act or other applicable Securities Laws.

(c) Restrictive Securities Legend. (i) The certificate representing the Warrant Shares shall bear the restrictive legends set forth below:

THIS WARRANT HAS NOT BEEN REGISTERED UNDER THE SECURITIES ACT OF 1933, AS AMENDED, OR UNDER THE SECURITIES LAWS OF ANY STATE. NO TRANSFER, SALE OR OTHER DISPOSITION OF THIS WARRANT MAY BE MADE UNLESS A REGISTRATION STATEMENT WITH RESPECT TO THIS WARRANT HAS BECOME EFFECTIVE UNDER SAID ACT, AND SUCH REGISTRATION OR QUALIFICATION AS MAY BE NECESSARY UNDER THE SECURITIES LAWS OF ANY STATE HAS BECOME EFFECTIVE, OR BORROWER HAS BEEN FURNISHED WITH AN OPINION OF COUNSEL SATISFACTORY TO BORROWER THAT SUCH REGISTRATION IS NOT REQUIRED.

(ii) Certificates evidencing the Warrant Shares shall not contain any legend: (1) while a registration statement (including the Registration Statement) covering the resale of the Warrant Shares is effective under the Securities Act, or (2) following any sale of the Shares pursuant to Rule 144 (other than sales to an Affiliate of Holder), or (3) if such Warrant Shares are eligible for sale under Rule 144(b), or (4) if such legend is not required under applicable requirements of the Securities Act (including judicial interpretations and pronouncements issued by the staff of the Commission). If a legend is not otherwise required under applicable requirements of the Securities Act (including judicial interpretations thereof) then any certificates representing the Warrant Shares shall be issued free of all legends. The Company agrees that following the effective date of the Registration Statement or at such time as such legend is no longer required under this Section 7, it will, no later than five (5) Business Days following the delivery by the Holder to the Company's transfer agent of a certificate representing the Warrant Shares issued with a restrictive legend, deliver or cause to be delivered to the Holder a certificate representing such Warrant Shares that is free from all restrictive and other legends. Unless required by law, the Company may not make any notation on its records or give instructions to any transfer agent of the Company that enlarge the restrictions on transfer set forth in this Section 7.

(d) Right of First Refusal.

(i) Holder may not Transfer this Warrant or any portion hereof unless it has complied with this Section 7(d). If Holder proposes to Transfer this Warrant (or portion hereof), then Holder shall promptly give written notice (the "Sale Notice") to the Company at least twenty (20) days prior to the closing of such Transfer. The Notice shall describe in reasonable detail the proposed Transfer including, without limitation, the portion of this Warrant to be Transferred (the "Transfer Amount"), the nature of such Transfer, the consideration to be paid, and the name and address of each prospective purchaser or transferee.

(ii) For a period of ten (10) days following receipt of any Sale Notice, the Company shall have the right to purchase all, but not less than all, of the Transfer Amount subject to such Sale Notice on the same terms and conditions as set forth therein. The Company's purchase right shall be exercised by written notice signed by an officer of the Company (the "Company Notice") and delivered to the Holder within such ten (10) day period. The Company shall effect the purchase of the Transfer Amount, including payment of the purchase price, not more than five (5)

business days after delivery of the Company's Notice, and at such time the Holder shall deliver to the Company this Warrant, properly endorsed for transfer. To the extent that the Company does not elect to exercise its purchase right pursuant to this Section 7(d), the Holder may, not later than thirty (30) days following delivery to the Company of the Sale Notice, enter into an agreement providing for the closing of the Transfer of the Transfer Amount covered by the Sale Notice within thirty (30) days of such agreement on the terms and conditions described in the Sale Notice. Any subsequent proposed Transfer of this Warrant by the Holder, shall again be subject to the first refusal rights of the Company and shall require compliance by the Holder with the procedures described in this Section 7(d).

(iii) Notwithstanding the foregoing, the purchase rights of the Company set forth in this Section 7(d) shall not apply to (i) any Transfer by a Holder to an Eligible Assignee, (ii) any pledge of this Warrant made pursuant to a bona fide loan transaction that creates a mere security, (iii) any Transfer by Holder in connection with the sale of all or a portion of any outstanding indebtedness of the Company held by Holder or its Affiliates pursuant to the Credit Agreement, or (iv) any Transfer that is a bona fide gift approved by the Holder's Board of Directors; provided, in each case, that the pledgee, transferee or donee shall enter into a written agreement to be bound by and comply with all provisions of this Warrant as if it were an original Holder hereunder.

(iv) Any purported Transfer by a Holder of this Warrant (or portion thereof) in violation of this Section 7(d) shall be voidable, and the Company will not effect such Transfer nor will it treat any alleged transferee as the holder of this Warrant.

(v) By its execution of this Agreement, Wachovia Bank, National Association, as the Lender under the Credit Agreement, hereby consents to any purchase by the Company of this Warrant upon the exercise of its rights under this Section 7(d), and acknowledges and agrees that notwithstanding any provision of the Credit Agreement to the contrary, any such purchase shall not constitute a breach of any provision of the Credit Agreement.

SECTION 8. Covenants.

The Company hereby covenants to the Holder that so long as Holder holds any Warrant Securities:

(a) Limitation on Certain Restrictions. Without the prior written consent of the Required Holders, the Company will not, and will not permit or cause any of its Subsidiaries, directly or indirectly, to create or otherwise cause or suffer to exist or become effective any restriction or encumbrance on the ability of the Company and any such Subsidiaries to perform and comply with their respective obligations under this Warrant.

(b) Regulatory Requirements and Restrictions. In the event of any reasonable determination by the Holder that, by reason of any existing or future federal or state law, statute, rule, regulation, guideline, order, court or administrative ruling, request or directive (whether or not having the force of law and whether or not failure to comply therewith would be unlawful) (collectively, a "Regulatory Requirement"), the Holder is effectively restricted or prohibited from holding this Warrant or the Warrant Shares (including any shares of capital stock or other securities distributable to the Holder in any merger, reorganization, readjustment or other reclassification), or otherwise realizing upon or receiving the benefits intended under this Warrant, the Company shall take such action as the Holder and the Company shall jointly agree in good faith to be necessary to permit the Holder to comply with such Regulatory

Requirement. The reasonable costs of taking such action, whether by the Company, the Holder or otherwise, shall be borne by the Holder.

(c) Reservation of Shares. The Company shall at all times reserve and keep available out of the aggregate of its authorized but unissued shares, free of preemptive rights, such number of its duly authorized shares of Common Stock as shall be sufficient to enable the Company to issue Common Stock upon exercise of this Warrant.

(d) Affirmative Actions to Permit Exercise and Realization of Benefits. If any shares of Common Stock reserved or to be reserved for the purpose of the exercise of this Warrant, or any shares or other securities reserved or to be reserved for the purpose of issuance pursuant to Section 5 hereof, require registration with or approval of any Governmental Authority under any federal or state law (other than securities laws) before such shares or other securities may be validly delivered upon exercise of this Warrant, then the Company covenants that it will, at its sole expense, secure such registration or approval, as the case may be (including but not limited to approvals or expirations of waiting periods required under the Hart-Scott-Rodino Antitrust Improvements Act).

(e) Validly Issued Shares. All shares of Common Stock that may be issued upon exercise of this Warrant, assuming full payment of the Aggregate Exercise Price (including those issued pursuant to Section 5 hereof) shall, upon delivery by the Company, be duly authorized and validly issued, fully paid and nonassessable, free from all stamp taxes, liens and charges with respect to the issue or delivery thereof and otherwise free of all other security interests, encumbrances and claims of any nature whatsoever (other than security interests, encumbrances and claims to which the Holder is subject prior to the issuance of this Warrant and other transfer restrictions described herein).

(f) Furnishing of Information; Compliance with Rule 144. The Company shall timely file (or obtain extensions in respect thereof and file within the applicable grace period) all reports required to be filed by the Company after the date hereof pursuant to the Exchange Act. So long as the Warrant Shares are not registered under an effective registration statement, upon the request of the Holder, the Company shall deliver to the Holder a written certification of a duly authorized officer as to whether it has complied with the preceding sentence. As long as the Holder owns any of the Warrant Shares, if the Company is not required to file reports pursuant to such laws, it will prepare and furnish to the Holder and make publicly available in accordance with Rule 144 such information as is required for the Holder to sell the Warrant Shares under Rule 144. So long as the Warrant Shares are not registered under an effective registration statement, the Company further covenants that it will take such further action as the Holder may reasonably request, all to the extent required from time to time to enable the Holder to sell such Warrant Shares without registration under the Securities Act within the limitation of the exemptions provided by Rule 144.

(g) Integration. The Company shall not, and shall use its commercially reasonable efforts to ensure that no Affiliate of the Company shall, sell, offer for sale or solicit offers to buy or otherwise negotiate in respect of any security (as defined in Section 2 of the Securities Act) that would be integrated with the offer or sale of this Warrant in a manner that would require the registration under the Securities Act of the sale of the Warrant to the Holder, or that would be integrated with the offer or sale of the Warrant Shares for purposes of the rules and regulations of any Principal Market.

(h) Listing of the Warrant Shares. The Company shall: (i) take all steps necessary to cause the Warrant Shares to be approved for listing on the Principal Market as soon as possible after the Commencement Date, (ii) provide to the Holder evidence of such listing, and (iii) use reasonable efforts to maintain the listing of the Warrant Shares on such Principal Market or another Principal Market.

(i) Securities Laws Disclosure; Publicity. The Company shall issue a press release or timely file a report on Form 8-K reasonably acceptable to the Holder disclosing all material terms of the transactions contemplated hereby. The Company and the Holder shall consult with each other in issuing any press releases with respect to the transactions contemplated hereby. Notwithstanding the foregoing, other than in the Registration Statement, the Company shall not publicly disclose the name of the Holder or the terms hereof, or include the name of the Holder or the terms hereof in any filing with the Commission or any regulatory agency or Principal Market, without the prior written consent of such Holder, except to the extent such disclosure is required by law or Principal Market regulations. The Holder acknowledges that such disclosure may be required by law in the Company's proxy statement, annual report on Form 10-K, quarterly report on Form 10-Q, and filings related thereto and will be incorporated by reference to such filings in currently effective registration statements filed by the Company and will be included in registration statements that may be filed by the Company in the future.

SECTION 9. No Effect Upon Lending Relationship. Notwithstanding anything herein to the contrary, nothing contained in this Warrant shall affect, limit or impair the rights and remedies of the Holder or any of its Affiliates in its capacity as a lender to the Company pursuant to any agreement under which the Company has borrowed money from the Holder. Without limiting the generality of the foregoing, the Holder, in exercising its rights as a lender, including making its decision on whether to foreclose on any collateral security, will have no duty to consider (i) its status or the status of any of its Affiliates as a direct or indirect equity holder of the Company, (ii) the equity of the Company or (iii) any duty it may have to any other direct or indirect equity holder of the Company, except as may be required under the applicable loan documents or by commercial law applicable to creditors generally.

SECTION 10. Events of Non-Compliance and Remedies.

(a) Events of Non-Compliance. If the Company fails to keep and fully and promptly perform and observe in all material respects any of the terms, covenants or representations contained or referenced herein within twenty (20) calendar days from the earlier to occur of (i) written notice from the Holder specifying what failure has occurred, or requesting that a specified failure be remedied or (ii) the Company becoming aware of such failure (an "Event of Non-Compliance"), the Holder shall be entitled to the remedies set forth in subsection (b) hereof.

(b) Remedies. On the occurrence of an Event of Non-Compliance, in addition to any remedies the Holder may have under any Requirement of Law, the Holder may bring any action for injunctive relief or specific performance of any term or covenant contained herein, the Company hereby acknowledging that an action for money damages may not be adequate to protect the interests of the Holder hereunder.

ARBOR REALTY TRUST, INC.

COMMON STOCK PURCHASE WARRANT

Date of Issuance: July 23, 2009

Certificate No. W-2

THIS IS TO CERTIFY that WACHOVIA BANK, NATIONAL ASSOCIATION, a national banking association (together with its transferees, successors and assigns, the "Holder"), for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, is entitled to purchase from **ARBOR REALTY TRUST, INC.**, a Maryland corporation (the "Company"), at the price of \$5.00 per share (the "Exercise Price"), at any time after July 23, 2011 (the "Commencement Date") and expiring on July 23, 2015 (the "Expiration Date"), 250,000 shares of fully paid and nonassessable common stock, par value \$0.01 per share ("Common Stock") of the Company (as such number may be adjusted as provided herein). The 250,000 shares of Common Stock which may be purchased pursuant to this Warrant are referred to herein as the "Aggregate Number". This common stock purchase warrant (this "Warrant") is issued under and in connection with that certain First Amended and Restated Credit Agreement, dated as of July 23, 2009 (as the same may be amended, modified, restated, replaced, waived, substituted, supplemented or extended from time to time, the "Credit Agreement"), among Arbor Realty Funding, LLC, a Delaware limited liability company, as a borrower, ARSR Tahoe, LLC, a Delaware limited liability company, as a borrower, Arbor ESH II LLC, a Delaware limited liability company, as a borrower, Arbor Realty Limited Partnership, a Delaware limited partnership, as a borrower and a guarantor, ART 450 LLC, a Delaware limited liability company, as a borrower, the Company, as a guarantor, Arbor Realty SR, Inc., a Maryland corporation, as a borrower and a guarantor, the several banks and other financial institutions as are, or may from time to time become parties thereto, and Wachovia Bank, National Association, a national banking association, as administrative agent for the lenders thereunder.

The Aggregate Number and Exercise Price set forth above shall also be adjusted under certain conditions specified in Section 5 of this Warrant, including, but not limited to, a Stock Dividend, Stock

Subdivision or Stock Combination. Capitalized terms used herein shall have the meanings ascribed to such terms in Section 11 hereof unless otherwise defined herein.

SECTION 1. The Warrant; Transfer and Exchange.

(a) The Warrant. This Warrant and the rights and privileges of the Holder hereunder may be exercised by the Holder in whole or in part as provided herein, shall survive any termination of the Credit Agreement and, as more fully set forth in Sections 1(b) and 7 hereof, subject to the terms of this Warrant, may be transferred by the Holder to any other Person or Persons who meet the requirements set forth herein at any time or from time to time, in whole or in part, regardless of whether the Holder retains any or all rights under the Credit Agreement.

(b) Transfer and Exchanges. The Company shall initially record this Warrant on a register to be maintained by the Company and, subject to Section 7 hereof, from time to time thereafter shall reflect the transfer of this Warrant on such register when surrendered for transfer in accordance with the terms hereof and properly endorsed, accompanied by appropriate instructions, and further accompanied by payment in cash or by check, bank draft or money order payable to the order of the Company, in United States currency, of an amount equal to any stamp or other tax or governmental charge or fee required to be paid in connection with the transfer thereof. Upon any such transfer, a new warrant or warrants shall be issued to the transferee and the Holder (in the event this Warrant is only partially transferred) and the surrendered warrant shall be canceled. This Warrant may be exchanged at the option of the Holder, when surrendered at the Principal Office of the Company, for another warrant or other warrants of like tenor and representing in the aggregate the right to purchase a like number of shares of Common Stock.

SECTION 2. Exercise.

(a) Right to Exercise. At any time after the Commencement Date and on or before the Expiration Date, the Holder, in accordance with the terms hereof, may exercise this Warrant, in whole at any time or in part from time to time, by delivering this Warrant to the Company during normal business hours on any Business Day at the Company's Principal Office, together with the Notice of Exercise, in the form attached hereto as Exhibit A and made a part hereof (the "Notice of Exercise"), duly executed, and payment of the Exercise Price per share for each share purchased, as specified in the Notice of Exercise. The aggregate Exercise Price (the "Aggregate Exercise Price") to be paid for the shares to be purchased (the "Exercise Amount") shall equal the product of (i) the Exercise Amount multiplied by (ii) the Exercise Price. If the Expiration Date is not a Business Day, then this Warrant may be exercised on the next succeeding Business Day.

(b) Payment of the Aggregate Exercise Price. Payment of the Aggregate Exercise Price shall be made to the Company in cash or other immediately available funds or as provided in Section 2(c), or a combination thereof. In the case of payment of all or a portion of the Aggregate Exercise Price pursuant to Section 2(c), the direction by the Holder to make a "Cashless Exercise" shall serve as accompanying payment for that portion of the Exercise Price.

(c) Cashless Exercise. The Holder shall have the right to pay all or a portion of the Aggregate Exercise Price by making a "Cashless Exercise", in which case the portion of the Aggregate Exercise Price to be so paid shall be paid by reducing the number of shares of Common Stock otherwise issuable pursuant to the Notice of Exercise by an amount equal to (i) the Aggregate Exercise Price to be so paid divided by (ii) the Fair Market Value Per Share.

(d) Issuance of Shares of Common Stock. Upon receipt by the Company of this Warrant at its Principal Office in proper form for exercise, and accompanied by the Notice of Exercise and payment

of the Aggregate Exercise Price as aforesaid, the Holder shall be deemed to be the holder of record of the shares of Common Stock issuable upon such exercise, notwithstanding that certificates representing such shares of Common Stock may not then be actually delivered. Within five (5) Business Days after such surrender of this Warrant, delivery of the Notice of Exercise and payment of the Aggregate Exercise Price as aforesaid, the Company shall issue and cause to be delivered to, or upon the written order of, the Holder (and in such name or names as the Holder may designate) a certificate or certificates for the Exercise Amount, subject to any reduction as provided in Section 2(c) for a Cashless Exercise.

(e) Fractional Shares. The Company may, but shall not be required to, deliver fractions of shares of Common Stock upon exercise of this Warrant. If any fraction of a share of Common Stock would be deliverable upon an exercise of this Warrant, the Company may, in lieu of delivering such fraction of a share of Common Stock, make a cash payment to the Holder in an amount equal to the same fraction of the Fair Market Value Per Share determined as of the Business Day immediately preceding the date of exercise of this Warrant.

(f) Partial Exercise. In the event of a partial exercise of this Warrant, the Company shall issue to the Holder a Warrant in like form for the unexercised portion thereof which has not expired.

SECTION 3. Payment of Taxes. The Company shall pay all stamp taxes attributable to the initial issuance of shares or other securities issuable upon the exercise of this Warrant or issuable pursuant to Section 5 hereof, excluding any tax or taxes which may be payable because of the transfer involved in the issuance or delivery of any certificates for shares or other securities in a name other than that of the Holder in respect of which such shares or securities are issued.

SECTION 4. Replacement Warrant. In case this Warrant is mutilated, lost, stolen or destroyed, the Company shall issue and deliver in exchange and substitution for and upon cancellation of the mutilated Warrant, or in lieu of and in substitution for this Warrant lost, stolen or destroyed, a new Warrant of like tenor and representing an equivalent right or interest, but only upon receipt of evidence reasonably satisfactory to the Company of such loss, theft or destruction of such Warrant and upon receipt of indemnity reasonably satisfactory to the Company and the Holder; provided, that if the Holder is a financial institution, business development company or other institutional or fund investor, its own indemnity agreement shall be satisfactory and no third party indemnity shall be required.

SECTION 5. Adjustments to the Aggregate Number and the Exercise Price.

Under certain conditions, the Aggregate Number and the Exercise Price are subject to adjustment as set forth in this Section 5.

(a) Adjustments. The Aggregate Number, after taking into consideration any prior adjustments pursuant to this Section 5, shall be subject to adjustment from time to time as follows and, thereafter, as adjusted, shall be deemed to be the Aggregate Number hereunder.

(i) Stock Dividends; Subdivisions and Combinations. In case at any time or from time to time the Company shall:

(A) issue to the holders of its shares of Common Stock a dividend payable in, or other distribution of, shares of Common Stock (a “Stock Dividend”);

(B) subdivide its outstanding shares of Common Stock into a larger number of shares of Common Stock, including, without limitation, by means of a stock split (a “Stock Subdivision”); or

(C) combine its outstanding shares of Common Stock into a smaller number of shares of Common Stock (a “ Stock Combination”); then the Aggregate Number in effect immediately prior thereto shall be (1) proportionately increased in the case of a Stock Dividend or a Stock Subdivision and (2) proportionately decreased in the case of a Stock Combination, and the Exercise Price shall be proportionately adjusted. In the event the Company shall declare or pay, without consideration, any dividend on the shares of Common Stock payable in any right to acquire shares of Common Stock for no consideration, then the Company shall be deemed to have made a Stock Dividend in an amount of shares equal to the maximum number of shares issuable upon exercise of such rights to acquire shares of Common Stock.

(b) Notices.

(i) Notice of Proposed Actions. In case the Company shall propose (A) to pay any dividend payable in stock of any class to the holders of its Common Stock or to make any other distribution to the holders of its Common Stock, (B) to offer to the holders of its Common Stock rights to subscribe for or to purchase any Convertible Securities, rights to acquire Convertible Securities or capital stock or additional shares of Common Stock or shares of stock of any class or any other securities, warrants, rights or options, (C) to effect any reclassification of its Common Stock, (D) to effect any recapitalization, stock subdivision, stock combination or other capital reorganization, (E) to effect any consolidation or merger, share exchange, or sale, lease or other disposition of all or substantially all of its property, assets or business, (F) to effect the liquidation, dissolution or winding up of the Company, (G) to initiate any transaction or be a party to any transaction (including, without limitation, a merger, consolidation, share exchange, sale, lease or other disposition of all or substantially all of the Company’s assets, liquidation, recapitalization or reclassification of the Common Stock) in connection with which the previous Outstanding Common Stock shall be changed into or exchanged for different securities of the Company or capital stock or other securities of another corporation or interests in a non-corporate entity or other property (including cash) or any combination of the foregoing or (H) to effect any other action which would require an adjustment under this Section 5, then in each such case the Company shall give to the Holder written notice of such proposed action, which shall specify the proposed date on which a record is to be taken for the purposes of such stock dividend, distribution or rights, or the proposed date on which such reclassification, reorganization, consolidation, merger, share exchange, sale, transfer, disposition, liquidation, dissolution, winding up or other transaction is to take place and the date of participation therein by the holders of Common Stock, if any such date is to be fixed, or the proposed date on which the transfer of Common Stock is to occur, and shall also set forth such facts with respect thereto as shall be reasonably necessary to indicate the effect of such action on the Common Stock and on the Aggregate Number after giving effect to any adjustment which will be required as a result of such action. Such notice shall be so given in the case of any action covered by clause (A) or (B) above at least twenty (20) calendar days prior to the record date for determining holders of the Common Stock for purposes of such action and, in the case of any other such action, at least twenty (20) calendar days prior to the earlier of the date of the taking of such proposed action or the date of participation therein by the holders of Common Stock.

(ii) Adjustment Notice. Whenever the Aggregate Number is to be adjusted pursuant to this Section 5, unless otherwise agreed by the Holder, the Company shall promptly (and in any event within ten (10) Business Days after the event requiring the adjustment) prepare and deliver to the Holder a certificate signed by the chief financial officer of the Company, setting forth, in reasonable detail, the event requiring the adjustment and the method by which such adjustment is

to be calculated. The certificate shall set forth, if applicable, a description of the basis on which the board of directors in good faith determined, as applicable, the Fair Market Value Per Share, the fair market value of any evidences of indebtedness, shares of stock, other securities, warrants, other subscription or purchase rights, or other property or the equitable nature of any adjustment under Section 5(b) or (c) hereof, the new Aggregate Number and, if applicable, any new securities or property to which the Holder is entitled. Any other determination of fair market value shall first be determined in good faith by the board of directors and be based upon an arm's length sale of such indebtedness, shares of stock, other securities, warrants, other subscription or purchase rights or other property, such sale being between a willing buyer and a willing seller. In the case of any such determination of fair market value, the Holder may object to the determination in such certificate by giving written notice within ten (10) Business Days of the receipt of such certificate and, if the Holder and the Company cannot agree to the fair market value within ten (10) Business Days of the date of the Holder's objection, the fair market value shall be determined by a disinterested appraiser (which may be national or regional investment bank or a national accounting firm) mutually selected by the Holder and the Company, the fees and expenses of which shall be paid by the Company.

SECTION 6. No Dilution or Impairment. The Company will not, by amendment of its Articles of Incorporation or through any reorganization, recapitalization, transfer of assets, consolidation, merger, share exchange, dissolution or any other voluntary action, avoid or seek to avoid the observance or performance of any of the terms of this Warrant, including, without limitation, the adjustments required under Section 5 hereof, and will at all times in good faith assist in the carrying out of all such terms and in taking of all such action as may be necessary or appropriate to protect the rights of the Holder against dilution or other impairment. Without limiting the generality of the foregoing and notwithstanding any other provision of this Warrant to the contrary (including by way of implication), the Company (a) will not increase the par value of any shares of Common Stock receivable on the exercise of this Warrant above the amount payable therefor on such exercise and (b) will take all such action as may be necessary or appropriate so that the Company may validly and legally issue fully paid and nonassessable shares of Common Stock upon the exercise of this Warrant.

SECTION 7. Transfers of this Warrant.

(a) Generally. Subject to the restrictions set forth in this Section 7, the Holder may at any time and from time to time freely transfer this Warrant and the Warrant Shares in whole or in part to any Person. This Warrant has not been, and the Warrant Shares at the time of their issuance may not be, registered under the Securities Act and, except as provided in the Registration Rights Agreement, nothing herein contained shall be deemed to require the Company to so register this Warrant and the Warrant Shares. This Warrant and the Warrant Shares are issued or issuable subject to the provisions and conditions contained herein and to the provisions and conditions contained in the Registration Rights Agreement, and every Holder hereof by accepting the same agrees with the Company to such provisions and conditions, and represents to the Company that this Warrant has been acquired and the Warrant Shares will be acquired for the account of the Holder for investment and not with a view to or for sale in connection with any distribution thereof.

(b) Compliance with Securities Laws. The Holder agrees that this Warrant and the Warrant Shares may not be sold or otherwise disposed of except pursuant to an effective registration statement under the Securities Act and other applicable Securities Laws or pursuant to an applicable exemption from the registration requirements of the Securities Act and such other applicable Securities Laws. In the event that the Holder transfers this Warrant or the Warrant Shares pursuant to an applicable exemption from registration, the Company may request, at its expense, that the Holder deliver an opinion of counsel

reasonably acceptable to the Company that the proposed transfer does not violate the Securities Act or other applicable Securities Laws.

(c) Restrictive Securities Legend. (i) The certificate representing the Warrant Shares shall bear the restrictive legends set forth below:

THIS WARRANT HAS NOT BEEN REGISTERED UNDER THE SECURITIES ACT OF 1933, AS AMENDED, OR UNDER THE SECURITIES LAWS OF ANY STATE. NO TRANSFER, SALE OR OTHER DISPOSITION OF THIS WARRANT MAY BE MADE UNLESS A REGISTRATION STATEMENT WITH RESPECT TO THIS WARRANT HAS BECOME EFFECTIVE UNDER SAID ACT, AND SUCH REGISTRATION OR QUALIFICATION AS MAY BE NECESSARY UNDER THE SECURITIES LAWS OF ANY STATE HAS BECOME EFFECTIVE, OR BORROWER HAS BEEN FURNISHED WITH AN OPINION OF COUNSEL SATISFACTORY TO BORROWER THAT SUCH REGISTRATION IS NOT REQUIRED.

(ii) Certificates evidencing the Warrant Shares shall not contain any legend: (1) while a registration statement (including the Registration Statement) covering the resale of the Warrant Shares is effective under the Securities Act, or (2) following any sale of the Shares pursuant to Rule 144 (other than sales to an Affiliate of Holder), or (3) if such Warrant Shares are eligible for sale under Rule 144(b), or (4) if such legend is not required under applicable requirements of the Securities Act (including judicial interpretations and pronouncements issued by the staff of the Commission). If a legend is not otherwise required under applicable requirements of the Securities Act (including judicial interpretations thereof) then any certificates representing the Warrant Shares shall be issued free of all legends. The Company agrees that following the effective date of the Registration Statement or at such time as such legend is no longer required under this Section 7, it will, no later than five (5) Business Days following the delivery by the Holder to the Company's transfer agent of a certificate representing the Warrant Shares issued with a restrictive legend, deliver or cause to be delivered to the Holder a certificate representing such Warrant Shares that is free from all restrictive and other legends. Unless required by law, the Company may not make any notation on its records or give instructions to any transfer agent of the Company that enlarge the restrictions on transfer set forth in this Section 7.

(d) Right of First Refusal.

(i) Holder may not Transfer this Warrant or any portion hereof unless it has complied with this Section 7(d). If Holder proposes to Transfer this Warrant (or portion hereof), then Holder shall promptly give written notice (the "Sale Notice") to the Company at least twenty (20) days prior to the closing of such Transfer. The Notice shall describe in reasonable detail the proposed Transfer including, without limitation, the portion of this Warrant to be Transferred (the "Transfer Amount"), the nature of such Transfer, the consideration to be paid, and the name and address of each prospective purchaser or transferee.

(ii) For a period of ten (10) days following receipt of any Sale Notice, the Company shall have the right to purchase all, but not less than all, of the Transfer Amount subject to such Sale Notice on the same terms and conditions as set forth therein. The Company's purchase right shall be exercised by written notice signed by an officer of the Company (the "Company Notice") and delivered to the Holder within such ten (10) day period. The Company shall effect the purchase of the Transfer Amount, including payment of the purchase price, not more than five (5)

business days after delivery of the Company's Notice, and at such time the Holder shall deliver to the Company this Warrant, properly endorsed for transfer. To the extent that the Company does not elect to exercise its purchase right pursuant to this Section 7(d), the Holder may, not later than thirty (30) days following delivery to the Company of the Sale Notice, enter into an agreement providing for the closing of the Transfer of the Transfer Amount covered by the Sale Notice within thirty (30) days of such agreement on the terms and conditions described in the Sale Notice. Any subsequent proposed Transfer of this Warrant by the Holder, shall again be subject to the first refusal rights of the Company and shall require compliance by the Holder with the procedures described in this Section 7(d).

(iii) Notwithstanding the foregoing, the purchase rights of the Company set forth in this Section 7(d) shall not apply to (i) any Transfer by a Holder to an Eligible Assignee, (ii) any pledge of this Warrant made pursuant to a bona fide loan transaction that creates a mere security, (iii) any Transfer by Holder in connection with the sale of all or a portion of any outstanding indebtedness of the Company held by Holder or its Affiliates pursuant to the Credit Agreement, or (iv) any Transfer that is a bona fide gift approved by the Holder's Board of Directors; provided, in each case, that the pledgee, transferee or donee shall enter into a written agreement to be bound by and comply with all provisions of this Warrant as if it were an original Holder hereunder.

(iv) Any purported Transfer by a Holder of this Warrant (or portion thereof) in violation of this Section 7(d) shall be voidable, and the Company will not effect such Transfer nor will it treat any alleged transferee as the holder of this Warrant.

(v) By its execution of this Agreement, Wachovia Bank, National Association, as the Lender under the Credit Agreement, hereby consents to any purchase by the Company of this Warrant upon the exercise of its rights under this Section 7(d), and acknowledges and agrees that notwithstanding any provision of the Credit Agreement to the contrary, any such purchase shall not constitute a breach of any provision of the Credit Agreement.

SECTION 8. Covenants.

The Company hereby covenants to the Holder that so long as Holder holds any Warrant Securities:

(a) Limitation on Certain Restrictions. Without the prior written consent of the Required Holders, the Company will not, and will not permit or cause any of its Subsidiaries, directly or indirectly, to create or otherwise cause or suffer to exist or become effective any restriction or encumbrance on the ability of the Company and any such Subsidiaries to perform and comply with their respective obligations under this Warrant.

(b) Regulatory Requirements and Restrictions. In the event of any reasonable determination by the Holder that, by reason of any existing or future federal or state law, statute, rule, regulation, guideline, order, court or administrative ruling, request or directive (whether or not having the force of law and whether or not failure to comply therewith would be unlawful) (collectively, a "Regulatory Requirement"), the Holder is effectively restricted or prohibited from holding this Warrant or the Warrant Shares (including any shares of capital stock or other securities distributable to the Holder in any merger, reorganization, readjustment or other reclassification), or otherwise realizing upon or receiving the benefits intended under this Warrant, the Company shall take such action as the Holder and the Company shall jointly agree in good faith to be necessary to permit the Holder to comply with such Regulatory

Requirement. The reasonable costs of taking such action, whether by the Company, the Holder or otherwise, shall be borne by the Holder.

(c) Reservation of Shares. The Company shall at all times reserve and keep available out of the aggregate of its authorized but unissued shares, free of preemptive rights, such number of its duly authorized shares of Common Stock as shall be sufficient to enable the Company to issue Common Stock upon exercise of this Warrant.

(d) Affirmative Actions to Permit Exercise and Realization of Benefits. If any shares of Common Stock reserved or to be reserved for the purpose of the exercise of this Warrant, or any shares or other securities reserved or to be reserved for the purpose of issuance pursuant to Section 5 hereof, require registration with or approval of any Governmental Authority under any federal or state law (other than securities laws) before such shares or other securities may be validly delivered upon exercise of this Warrant, then the Company covenants that it will, at its sole expense, secure such registration or approval, as the case may be (including but not limited to approvals or expirations of waiting periods required under the Hart-Scott-Rodino Antitrust Improvements Act).

(e) Validly Issued Shares. All shares of Common Stock that may be issued upon exercise of this Warrant, assuming full payment of the Aggregate Exercise Price (including those issued pursuant to Section 5 hereof) shall, upon delivery by the Company, be duly authorized and validly issued, fully paid and nonassessable, free from all stamp taxes, liens and charges with respect to the issue or delivery thereof and otherwise free of all other security interests, encumbrances and claims of any nature whatsoever (other than security interests, encumbrances and claims to which the Holder is subject prior to the issuance of this Warrant and other transfer restrictions described herein).

(f) Furnishing of Information; Compliance with Rule 144. The Company shall timely file (or obtain extensions in respect thereof and file within the applicable grace period) all reports required to be filed by the Company after the date hereof pursuant to the Exchange Act. So long as the Warrant Shares are not registered under an effective registration statement, upon the request of the Holder, the Company shall deliver to the Holder a written certification of a duly authorized officer as to whether it has complied with the preceding sentence. As long as the Holder owns any of the Warrant Shares, if the Company is not required to file reports pursuant to such laws, it will prepare and furnish to the Holder and make publicly available in accordance with Rule 144 such information as is required for the Holder to sell the Warrant Shares under Rule 144. So long as the Warrant Shares are not registered under an effective registration statement, the Company further covenants that it will take such further action as the Holder may reasonably request, all to the extent required from time to time to enable the Holder to sell such Warrant Shares without registration under the Securities Act within the limitation of the exemptions provided by Rule 144.

(g) Integration. The Company shall not, and shall use its commercially reasonable efforts to ensure that no Affiliate of the Company shall, sell, offer for sale or solicit offers to buy or otherwise negotiate in respect of any security (as defined in Section 2 of the Securities Act) that would be integrated with the offer or sale of this Warrant in a manner that would require the registration under the Securities Act of the sale of the Warrant to the Holder, or that would be integrated with the offer or sale of the Warrant Shares for purposes of the rules and regulations of any Principal Market.

(h) Listing of the Warrant Shares. The Company shall: (i) take all steps necessary to cause the Warrant Shares to be approved for listing on the Principal Market as soon as possible after the Commencement Date, (ii) provide to the Holder evidence of such listing, and (iii) use reasonable efforts to maintain the listing of the Warrant Shares on such Principal Market or another Principal Market.

(i) Securities Laws Disclosure; Publicity. The Company shall issue a press release or timely file a report on Form 8-K reasonably acceptable to the Holder disclosing all material terms of the transactions contemplated hereby. The Company and the Holder shall consult with each other in issuing any press releases with respect to the transactions contemplated hereby. Notwithstanding the foregoing, other than in the Registration Statement, the Company shall not publicly disclose the name of the Holder or the terms hereof, or include the name of the Holder or the terms hereof in any filing with the Commission or any regulatory agency or Principal Market, without the prior written consent of such Holder, except to the extent such disclosure is required by law or Principal Market regulations. The Holder acknowledges that such disclosure may be required by law in the Company's proxy statement, annual report on Form 10-K, quarterly report on Form 10-Q, and filings related thereto and will be incorporated by reference to such filings in currently effective registration statements filed by the Company and will be included in registration statements that may be filed by the Company in the future.

SECTION 9. No Effect Upon Lending Relationship. Notwithstanding anything herein to the contrary, nothing contained in this Warrant shall affect, limit or impair the rights and remedies of the Holder or any of its Affiliates in its capacity as a lender to the Company pursuant to any agreement under which the Company has borrowed money from the Holder. Without limiting the generality of the foregoing, the Holder, in exercising its rights as a lender, including making its decision on whether to foreclose on any collateral security, will have no duty to consider (i) its status or the status of any of its Affiliates as a direct or indirect equity holder of the Company, (ii) the equity of the Company or (iii) any duty it may have to any other direct or indirect equity holder of the Company, except as may be required under the applicable loan documents or by commercial law applicable to creditors generally.

SECTION 10. Events of Non-Compliance and Remedies.

(a) Events of Non-Compliance. If the Company fails to keep and fully and promptly perform and observe in all material respects any of the terms, covenants or representations contained or referenced herein within twenty (20) calendar days from the earlier to occur of (i) written notice from the Holder specifying what failure has occurred, or requesting that a specified failure be remedied or (ii) the Company becoming aware of such failure (an "Event of Non-Compliance"), the Holder shall be entitled to the remedies set forth in subsection (b) hereof.

(b) Remedies. On the occurrence of an Event of Non-Compliance, in addition to any remedies the Holder may have under any Requirement of Law, the Holder may bring any action for injunctive relief or specific performance of any term or covenant contained herein, the Company hereby acknowledging that an action for money damages may not be adequate to protect the interests of the Holder hereunder.

The 250,000 shares of Common Stock which may be purchased pursuant to this Warrant are referred to herein as the "Aggregate Number". This common stock purchase warrant (this "Warrant") is issued under and in connection with that certain First Amended and Restated Credit Agreement, dated as of July 23, 2009 (as the same may be amended, modified, restated, replaced, waived, substituted, supplemented or extended from time to time, the "Credit Agreement"), among Arbor Realty Funding, LLC, a Delaware limited liability company, as a borrower, ARSR Tahoe, LLC, a Delaware limited liability company, as a borrower, Arbor ESH II LLC, a Delaware limited liability company, as a borrower, Arbor Realty Limited Partnership, a Delaware limited partnership, as a borrower and a guarantor, ART 450 LLC, a Delaware limited liability company, as a borrower, the Company, as a guarantor, Arbor Realty SR, Inc., a Maryland corporation, as a borrower and a guarantor, the several banks and other financial institutions as are, or may from time to time become parties thereto, and Wachovia Bank, National Association, a national banking association, as administrative agent for the lenders thereunder.

The Aggregate Number and Exercise Price set forth above shall also be adjusted under certain conditions specified in Section 5 of this Warrant, including, but not limited to, a Stock Dividend, Stock

Subdivision or Stock Combination. Capitalized terms used herein shall have the meanings ascribed to such terms in Section 11 hereof unless otherwise defined herein.

SECTION 1. The Warrant; Transfer and Exchange.

(a) The Warrant. This Warrant and the rights and privileges of the Holder hereunder may be exercised by the Holder in whole or in part as provided herein, shall survive any termination of the Credit Agreement and, as more fully set forth in Sections 1(b) and 7 hereof, subject to the terms of this Warrant, may be transferred by the Holder to any other Person or Persons who meet the requirements set forth herein at any time or from time to time, in whole or in part, regardless of whether the Holder retains any or all rights under the Credit Agreement.

(b) Transfer and Exchanges. The Company shall initially record this Warrant on a register to be maintained by the Company and, subject to Section 7 hereof, from time to time thereafter shall reflect the transfer of this Warrant on such register when surrendered for transfer in accordance with the terms hereof and properly endorsed, accompanied by appropriate instructions, and further accompanied by payment in cash or by check, bank draft or money order payable to the order of the Company, in United States currency, of an amount equal to any stamp or other tax or governmental charge or fee required to be paid in connection with the transfer thereof. Upon any such transfer, a new warrant or warrants shall be issued to the transferee and the Holder (in the event this Warrant is only partially transferred) and the surrendered warrant shall be canceled. This Warrant may be exchanged at the option of the Holder, when surrendered at the Principal Office of the Company, for another warrant or other warrants of like tenor and representing in the aggregate the right to purchase a like number of shares of Common Stock.

SECTION 2. Exercise.

(a) Right to Exercise. At any time after the Commencement Date and on or before the Expiration Date, the Holder, in accordance with the terms hereof, may exercise this Warrant, in whole at any time or in part from time to time, by delivering this Warrant to the Company during normal business hours on any Business Day at the Company's Principal Office, together with the Notice of Exercise, in the form attached hereto as Exhibit A and made a part hereof (the "Notice of Exercise"), duly executed, and payment of the Exercise Price per share for each share purchased, as specified in the Notice of Exercise. The aggregate Exercise Price (the "Aggregate Exercise Price") to be paid for the shares to be purchased (the "Exercise Amount") shall equal the product of (i) the Exercise Amount multiplied by (ii) the Exercise Price. If the Expiration Date is not a Business Day, then this Warrant may be exercised on the next succeeding Business Day.

(b) Payment of the Aggregate Exercise Price. Payment of the Aggregate Exercise Price shall be made to the Company in cash or other immediately available funds or as provided in Section 2(c), or a combination thereof. In the case of payment of all or a portion of the Aggregate Exercise Price pursuant to Section 2(c), the direction by the Holder to make a "Cashless Exercise" shall serve as accompanying payment for that portion of the Exercise Price.

(c) Cashless Exercise. The Holder shall have the right to pay all or a portion of the Aggregate Exercise Price by making a "Cashless Exercise", in which case the portion of the Aggregate Exercise Price to be so paid shall be paid by reducing the number of shares of Common Stock otherwise issuable pursuant to the Notice of Exercise by an amount equal to (i) the Aggregate Exercise Price to be so paid divided by (ii) the Fair Market Value Per Share.

(d) Issuance of Shares of Common Stock. Upon receipt by the Company of this Warrant at its Principal Office in proper form for exercise, and accompanied by the Notice of Exercise and payment

of the Aggregate Exercise Price as aforesaid, the Holder shall be deemed to be the holder of record of the shares of Common Stock issuable upon such exercise, notwithstanding that certificates representing such shares of Common Stock may not then be actually delivered. Within five (5) Business Days after such surrender of this Warrant, delivery of the Notice of Exercise and payment of the Aggregate Exercise Price as aforesaid, the Company shall issue and cause to be delivered to, or upon the written order of, the Holder (and in such name or names as the Holder may designate) a certificate or certificates for the Exercise Amount, subject to any reduction as provided in Section 2(c) for a Cashless Exercise.

(e) Fractional Shares. The Company may, but shall not be required to, deliver fractions of shares of Common Stock upon exercise of this Warrant. If any fraction of a share of Common Stock would be deliverable upon an exercise of this Warrant, the Company may, in lieu of delivering such fraction of a share of Common Stock, make a cash payment to the Holder in an amount equal to the same fraction of the Fair Market Value Per Share determined as of the Business Day immediately preceding the date of exercise of this Warrant.

(f) Partial Exercise. In the event of a partial exercise of this Warrant, the Company shall issue to the Holder a Warrant in like form for the unexercised portion thereof which has not expired.

SECTION 3. Payment of Taxes. The Company shall pay all stamp taxes attributable to the initial issuance of shares or other securities issuable upon the exercise of this Warrant or issuable pursuant to Section 5 hereof, excluding any tax or taxes which may be payable because of the transfer involved in the issuance or delivery of any certificates for shares or other securities in a name other than that of the Holder in respect of which such shares or securities are issued.

SECTION 4. Replacement Warrant. In case this Warrant is mutilated, lost, stolen or destroyed, the Company shall issue and deliver in exchange and substitution for and upon cancellation of the mutilated Warrant, or in lieu of and in substitution for this Warrant lost, stolen or destroyed, a new Warrant of like tenor and representing an equivalent right or interest, but only upon receipt of evidence reasonably satisfactory to the Company of such loss, theft or destruction of such Warrant and upon receipt of indemnity reasonably satisfactory to the Company and the Holder; provided, that if the Holder is a financial institution, business development company or other institutional or fund investor, its own indemnity agreement shall be satisfactory and no third party indemnity shall be required.

SECTION 5. Adjustments to the Aggregate Number and the Exercise Price.

Under certain conditions, the Aggregate Number and the Exercise Price are subject to adjustment as set forth in this Section 5.

(a) Adjustments. The Aggregate Number, after taking into consideration any prior adjustments pursuant to this Section 5, shall be subject to adjustment from time to time as follows and, thereafter, as adjusted, shall be deemed to be the Aggregate Number hereunder.

(i) Stock Dividends; Subdivisions and Combinations. In case at any time or from time to time the Company shall:

(A) issue to the holders of its shares of Common Stock a dividend payable in, or other distribution of, shares of Common Stock (a “Stock Dividend”);

(B) subdivide its outstanding shares of Common Stock into a larger number of shares of Common Stock, including, without limitation, by means of a stock split (a “Stock Subdivision”); or

(C) combine its outstanding shares of Common Stock into a smaller number of shares of Common Stock (a “Stock Combination”);

then the Aggregate Number in effect immediately prior thereto shall be (1) proportionately increased in the case of a Stock Dividend or a Stock Subdivision and (2) proportionately decreased in the case of a Stock Combination, and the Exercise Price shall be proportionately adjusted. In the event the Company shall declare or pay, without consideration, any dividend on the shares of Common Stock payable in any right to acquire shares of Common Stock for no consideration, then the Company shall be deemed to have made a Stock Dividend in an amount of shares equal to the maximum number of shares issuable upon exercise of such rights to acquire shares of Common Stock.

(b) Notices.

(i) Notice of Proposed Actions. In case the Company shall propose (A) to pay any dividend payable in stock of any class to the holders of its Common Stock or to make any other distribution to the holders of its Common Stock, (B) to offer to the holders of its Common Stock rights to subscribe for or to purchase any Convertible Securities, rights to acquire Convertible Securities or capital stock or additional shares of Common Stock or shares of stock of any class or any other securities, warrants, rights or options, (C) to effect any reclassification of its Common Stock, (D) to effect any recapitalization, stock subdivision, stock combination or other capital reorganization, (E) to effect any consolidation or merger, share exchange, or sale, lease or other disposition of all or substantially all of its property, assets or business, (F) to effect the liquidation, dissolution or winding up of the Company, (G) to initiate any transaction or be a party to any transaction (including, without limitation, a merger, consolidation, share exchange, sale, lease or other disposition of all or substantially all of the Company’s assets, liquidation, recapitalization or reclassification of the Common Stock) in connection with which the previous Outstanding Common Stock shall be changed into or exchanged for different securities of the Company or capital stock or other securities of another corporation or interests in a non-corporate entity or other property (including cash) or any combination of the foregoing or (H) to effect any other action which would require an adjustment under this Section 5, then in each such case the Company shall give to the Holder written notice of such proposed action, which shall specify the proposed date on which a record is to be taken for the purposes of such stock dividend, distribution or rights, or the proposed date on which such reclassification, reorganization, consolidation, merger, share exchange, sale, transfer, disposition, liquidation, dissolution, winding up or other transaction is to take place and the date of participation therein by the holders of Common Stock, if any such date is to be fixed, or the proposed date on which the transfer of Common Stock is to occur, and shall also set forth such facts with respect thereto as shall be reasonably necessary to indicate the effect of such action on the Common Stock and on the Aggregate Number after giving effect to any adjustment which will be required as a result of such action. Such notice shall be so given in the case of any action covered by clause (A) or (B) above at least twenty (20) calendar days prior to the record date for determining holders of the Common Stock for purposes of such action and, in the case of any other such action, at least twenty (20) calendar days prior to the earlier of the date of the taking of such proposed action or the date of participation therein by the holders of Common Stock.

(ii) Adjustment Notice. Whenever the Aggregate Number is to be adjusted pursuant to this Section 5, unless otherwise agreed by the Holder, the Company shall promptly (and in any event within ten (10) Business Days after the event requiring the adjustment) prepare and deliver to the Holder a certificate signed by the chief financial officer of the Company, setting forth, in reasonable detail, the event requiring the adjustment and the method by which such adjustment is

to be calculated. The certificate shall set forth, if applicable, a description of the basis on which the board of directors in good faith determined, as applicable, the Fair Market Value Per Share, the fair market value of any evidences of indebtedness, shares of stock, other securities, warrants, other subscription or purchase rights, or other property or the equitable nature of any adjustment under Section 5(b) or (c) hereof, the new Aggregate Number and, if applicable, any new securities or property to which the Holder is entitled. Any other determination of fair market value shall first be determined in good faith by the board of directors and be based upon an arm's length sale of such indebtedness, shares of stock, other securities, warrants, other subscription or purchase rights or other property, such sale being between a willing buyer and a willing seller. In the case of any such determination of fair market value, the Holder may object to the determination in such certificate by giving written notice within ten (10) Business Days of the receipt of such certificate and, if the Holder and the Company cannot agree to the fair market value within ten (10) Business Days of the date of the Holder's objection, the fair market value shall be determined by a disinterested appraiser (which may be national or regional investment bank or a national accounting firm) mutually selected by the Holder and the Company, the fees and expenses of which shall be paid by the Company.

SECTION 6. No Dilution or Impairment. The Company will not, by amendment of its Articles of Incorporation or through any reorganization, recapitalization, transfer of assets, consolidation, merger, share exchange, dissolution or any other voluntary action, avoid or seek to avoid the observance or performance of any of the terms of this Warrant, including, without limitation, the adjustments required under Section 5 hereof, and will at all times in good faith assist in the carrying out of all such terms and in taking of all such action as may be necessary or appropriate to protect the rights of the Holder against dilution or other impairment. Without limiting the generality of the foregoing and notwithstanding any other provision of this Warrant to the contrary (including by way of implication), the Company (a) will not increase the par value of any shares of Common Stock receivable on the exercise of this Warrant above the amount payable therefor on such exercise and (b) will take all such action as may be necessary or appropriate so that the Company may validly and legally issue fully paid and nonassessable shares of Common Stock upon the exercise of this Warrant.

SECTION 7. Transfers of this Warrant.

(a) Generally. Subject to the restrictions set forth in this Section 7, the Holder may at any time and from time to time freely transfer this Warrant and the Warrant Shares in whole or in part to any Person. This Warrant has not been, and the Warrant Shares at the time of their issuance may not be, registered under the Securities Act and, except as provided in the Registration Rights Agreement, nothing herein contained shall be deemed to require the Company to so register this Warrant and the Warrant Shares. This Warrant and the Warrant Shares are issued or issuable subject to the provisions and conditions contained herein and to the provisions and conditions contained in the Registration Rights Agreement, and every Holder hereof by accepting the same agrees with the Company to such provisions and conditions, and represents to the Company that this Warrant has been acquired and the Warrant Shares will be acquired for the account of the Holder for investment and not with a view to or for sale in connection with any distribution thereof.

(b) Compliance with Securities Laws. The Holder agrees that this Warrant and the Warrant Shares may not be sold or otherwise disposed of except pursuant to an effective registration statement under the Securities Act and other applicable Securities Laws or pursuant to an applicable exemption from the registration requirements of the Securities Act and such other applicable Securities Laws. In the event that the Holder transfers this Warrant or the Warrant Shares pursuant to an applicable exemption from registration, the Company may request, at its expense, that the Holder deliver an opinion of counsel

reasonably acceptable to the Company that the proposed transfer does not violate the Securities Act or other applicable Securities Laws.

(c) Restrictive Securities Legend. (i) The certificate representing the Warrant Shares shall bear the restrictive legends set forth below:

THIS WARRANT HAS NOT BEEN REGISTERED UNDER THE SECURITIES ACT OF 1933, AS AMENDED, OR UNDER THE SECURITIES LAWS OF ANY STATE. NO TRANSFER, SALE OR OTHER DISPOSITION OF THIS WARRANT MAY BE MADE UNLESS A REGISTRATION STATEMENT WITH RESPECT TO THIS WARRANT HAS BECOME EFFECTIVE UNDER SAID ACT, AND SUCH REGISTRATION OR QUALIFICATION AS MAY BE NECESSARY UNDER THE SECURITIES LAWS OF ANY STATE HAS BECOME EFFECTIVE, OR BORROWER HAS BEEN FURNISHED WITH AN OPINION OF COUNSEL SATISFACTORY TO BORROWER THAT SUCH REGISTRATION IS NOT REQUIRED.

(ii) Certificates evidencing the Warrant Shares shall not contain any legend: (1) while a registration statement (including the Registration Statement) covering the resale of the Warrant Shares is effective under the Securities Act, or (2) following any sale of the Shares pursuant to Rule 144 (other than sales to an Affiliate of Holder), or (3) if such Warrant Shares are eligible for sale under Rule 144(b), or (4) if such legend is not required under applicable requirements of the Securities Act (including judicial interpretations and pronouncements issued by the staff of the Commission). If a legend is not otherwise required under applicable requirements of the Securities Act (including judicial interpretations thereof) then any certificates representing the Warrant Shares shall be issued free of all legends. The Company agrees that following the effective date of the Registration Statement or at such time as such legend is no longer required under this Section 7, it will, no later than five (5) Business Days following the delivery by the Holder to the Company's transfer agent of a certificate representing the Warrant Shares issued with a restrictive legend, deliver or cause to be delivered to the Holder a certificate representing such Warrant Shares that is free from all restrictive and other legends. Unless required by law, the Company may not make any notation on its records or give instructions to any transfer agent of the Company that enlarge the restrictions on transfer set forth in this Section 7.

(d) Right of First Refusal.

(i) Holder may not Transfer this Warrant or any portion hereof unless it has complied with this Section 7(d). If Holder proposes to Transfer this Warrant (or portion hereof), then Holder shall promptly give written notice (the "Sale Notice") to the Company at least twenty (20) days prior to the closing of such Transfer. The Notice shall describe in reasonable detail the proposed Transfer including, without limitation, the portion of this Warrant to be Transferred (the "Transfer Amount"), the nature of such Transfer, the consideration to be paid, and the name and address of each prospective purchaser or transferee.

(ii) For a period of ten (10) days following receipt of any Sale Notice, the Company shall have the right to purchase all, but not less than all, of the Transfer Amount subject to such Sale Notice on the same terms and conditions as set forth therein. The Company's purchase right shall be exercised by written notice signed by an officer of the Company (the "Company Notice") and delivered to the Holder within such ten (10) day period. The Company shall effect the purchase of the Transfer Amount, including payment of the purchase price, not more than five (5)

business days after delivery of the Company's Notice, and at such time the Holder shall deliver to the Company this Warrant, properly endorsed for transfer. To the extent that the Company does not elect to exercise its purchase right pursuant to this Section 7(d), the Holder may, not later than thirty (30) days following delivery to the Company of the Sale Notice, enter into an agreement providing for the closing of the Transfer of the Transfer Amount covered by the Sale Notice within thirty (30) days of such agreement on the terms and conditions described in the Sale Notice. Any subsequent proposed Transfer of this Warrant by the Holder, shall again be subject to the first refusal rights of the Company and shall require compliance by the Holder with the procedures described in this Section 7(d).

(iii) Notwithstanding the foregoing, the purchase rights of the Company set forth in this Section 7(d) shall not apply to (i) any Transfer by a Holder to an Eligible Assignee, (ii) any pledge of this Warrant made pursuant to a bona fide loan transaction that creates a mere security, (iii) any Transfer by Holder in connection with the sale of all or a portion of any outstanding indebtedness of the Company held by Holder or its Affiliates pursuant to the Credit Agreement, or (iv) any Transfer that is a bona fide gift approved by the Holder's Board of Directors; provided, in each case, that the pledgee, transferee or donee shall enter into a written agreement to be bound by and comply with all provisions of this Warrant as if it were an original Holder hereunder.

(iv) Any purported Transfer by a Holder of this Warrant (or portion thereof) in violation of this Section 7(d) shall be voidable, and the Company will not effect such Transfer nor will it treat any alleged transferee as the holder of this Warrant.

(v) By its execution of this Agreement, Wachovia Bank, National Association, as the Lender under the Credit Agreement, hereby consents to any purchase by the Company of this Warrant upon the exercise of its rights under this Section 7(d), and acknowledges and agrees that notwithstanding any provision of the Credit Agreement to the contrary, any such purchase shall not constitute a breach of any provision of the Credit Agreement.

SECTION 8. Covenants.

The Company hereby covenants to the Holder that so long as Holder holds any Warrant Securities:

(a) Limitation on Certain Restrictions. Without the prior written consent of the Required Holders, the Company will not, and will not permit or cause any of its Subsidiaries, directly or indirectly, to create or otherwise cause or suffer to exist or become effective any restriction or encumbrance on the ability of the Company and any such Subsidiaries to perform and comply with their respective obligations under this Warrant.

(b) Regulatory Requirements and Restrictions. In the event of any reasonable determination by the Holder that, by reason of any existing or future federal or state law, statute, rule, regulation, guideline, order, court or administrative ruling, request or directive (whether or not having the force of law and whether or not failure to comply therewith would be unlawful) (collectively, a "Regulatory Requirement"), the Holder is effectively restricted or prohibited from holding this Warrant or the Warrant Shares (including any shares of capital stock or other securities distributable to the Holder in any merger, reorganization, readjustment or other reclassification), or otherwise realizing upon or receiving the benefits intended under this Warrant, the Company shall take such action as the Holder and the Company shall jointly agree in good faith to be necessary to permit the Holder to comply with such Regulatory

Requirement. The reasonable costs of taking such action, whether by the Company, the Holder or otherwise, shall be borne by the Holder.

(c) Reservation of Shares. The Company shall at all times reserve and keep available out of the aggregate of its authorized but unissued shares, free of preemptive rights, such number of its duly authorized shares of Common Stock as shall be sufficient to enable the Company to issue Common Stock upon exercise of this Warrant.

(d) Affirmative Actions to Permit Exercise and Realization of Benefits. If any shares of Common Stock reserved or to be reserved for the purpose of the exercise of this Warrant, or any shares or other securities reserved or to be reserved for the purpose of issuance pursuant to Section 5 hereof, require registration with or approval of any Governmental Authority under any federal or state law (other than securities laws) before such shares or other securities may be validly delivered upon exercise of this Warrant, then the Company covenants that it will, at its sole expense, secure such registration or approval, as the case may be (including but not limited to approvals or expirations of waiting periods required under the Hart-Scott-Rodino Antitrust Improvements Act).

(e) Validly Issued Shares. All shares of Common Stock that may be issued upon exercise of this Warrant, assuming full payment of the Aggregate Exercise Price (including those issued pursuant to Section 5 hereof) shall, upon delivery by the Company, be duly authorized and validly issued, fully paid and nonassessable, free from all stamp taxes, liens and charges with respect to the issue or delivery thereof and otherwise free of all other security interests, encumbrances and claims of any nature whatsoever (other than security interests, encumbrances and claims to which the Holder is subject prior to the issuance of this Warrant and other transfer restrictions described herein).

(f) Furnishing of Information; Compliance with Rule 144. The Company shall timely file (or obtain extensions in respect thereof and file within the applicable grace period) all reports required to be filed by the Company after the date hereof pursuant to the Exchange Act. So long as the Warrant Shares are not registered under an effective registration statement, upon the request of the Holder, the Company shall deliver to the Holder a written certification of a duly authorized officer as to whether it has complied with the preceding sentence. As long as the Holder owns any of the Warrant Shares, if the Company is not required to file reports pursuant to such laws, it will prepare and furnish to the Holder and make publicly available in accordance with Rule 144 such information as is required for the Holder to sell the Warrant Shares under Rule 144. So long as the Warrant Shares are not registered under an effective registration statement, the Company further covenants that it will take such further action as the Holder may reasonably request, all to the extent required from time to time to enable the Holder to sell such Warrant Shares without registration under the Securities Act within the limitation of the exemptions provided by Rule 144.

(g) Integration. The Company shall not, and shall use its commercially reasonable efforts to ensure that no Affiliate of the Company shall, sell, offer for sale or solicit offers to buy or otherwise negotiate in respect of any security (as defined in Section 2 of the Securities Act) that would be integrated with the offer or sale of this Warrant in a manner that would require the registration under the Securities Act of the sale of the Warrant to the Holder, or that would be integrated with the offer or sale of the Warrant Shares for purposes of the rules and regulations of any Principal Market.

(h) Listing of the Warrant Shares. The Company shall: (i) take all steps necessary to cause the Warrant Shares to be approved for listing on the Principal Market as soon as possible after the Commencement Date, (ii) provide to the Holder evidence of such listing, and (iii) use reasonable efforts to maintain the listing of the Warrant Shares on such Principal Market or another Principal Market.

(i) Securities Laws Disclosure; Publicity. The Company shall issue a press release or timely file a report on Form 8-K reasonably acceptable to the Holder disclosing all material terms of the transactions contemplated hereby. The Company and the Holder shall consult with each other in issuing any press releases with respect to the transactions contemplated hereby. Notwithstanding the foregoing, other than in the Registration Statement, the Company shall not publicly disclose the name of the Holder or the terms hereof, or include the name of the Holder or the terms hereof in any filing with the Commission or any regulatory agency or Principal Market, without the prior written consent of such Holder, except to the extent such disclosure is required by law or Principal Market regulations. The Holder acknowledges that such disclosure may be required by law in the Company's proxy statement, annual report on Form 10-K, quarterly report on Form 10-Q, and filings related thereto and will be incorporated by reference to such filings in currently effective registration statements filed by the Company and will be included in registration statements that may be filed by the Company in the future.

SECTION 9. No Effect Upon Lending Relationship. Notwithstanding anything herein to the contrary, nothing contained in this Warrant shall affect, limit or impair the rights and remedies of the Holder or any of its Affiliates in its capacity as a lender to the Company pursuant to any agreement under which the Company has borrowed money from the Holder. Without limiting the generality of the foregoing, the Holder, in exercising its rights as a lender, including making its decision on whether to foreclose on any collateral security, will have no duty to consider (i) its status or the status of any of its Affiliates as a direct or indirect equity holder of the Company, (ii) the equity of the Company or (iii) any duty it may have to any other direct or indirect equity holder of the Company, except as may be required under the applicable loan documents or by commercial law applicable to creditors generally.

SECTION 10. Events of Non-Compliance and Remedies.

(a) Events of Non-Compliance. If the Company fails to keep and fully and promptly perform and observe in all material respects any of the terms, covenants or representations contained or referenced herein within twenty (20) calendar days from the earlier to occur of (i) written notice from the Holder specifying what failure has occurred, or requesting that a specified failure be remedied or (ii) the Company becoming aware of such failure (an "Event of Non-Compliance"), the Holder shall be entitled to the remedies set forth in subsection (b) hereof.

(b) Remedies. On the occurrence of an Event of Non-Compliance, in addition to any remedies the Holder may have under any Requirement of Law, the Holder may bring any action for injunctive relief or specific performance of any term or covenant contained herein, the Company hereby acknowledging that an action for money damages may not be adequate to protect the interests of the Holder hereunder.

(b) (i) Prepare and file with the Commission such amendments, including post-effective amendments, to a Registration Statement and the Prospectus used in connection therewith as may be necessary to keep a Registration Statement continuously effective as to the applicable Registrable Securities for the Effectiveness Period and prepare and file with the Commission such additional Registration Statements as may be necessary in order to register for resale under the Securities Act all of the Registrable Securities; (ii) cause the related Prospectus to be amended or supplemented by any required Prospectus supplement (subject to the terms of this Agreement), and as so supplemented or amended to be filed pursuant to Rule 424; (iii) respond as promptly as reasonably possible, and in any event within 15 Trading Days, to any comments received from the Commission with respect to a Registration Statement or any amendment thereto and as promptly as reasonably possible provide Holders true and complete copies of all correspondence from and to the Commission relating to a Registration Statement; and (iv) comply in all material respects with the provisions of the Securities Act and the

Exchange Act with respect to the disposition of all Registrable Securities covered by a Registration Statement during the applicable period in accordance (subject to the terms of this Agreement) with the intended methods of disposition by Holders thereof set forth in such Registration Statement as so amended or in such Prospectus as so supplemented.

Notwithstanding the foregoing, at any time, upon written notice to the Holders and for a period not to exceed sixty (60) days thereafter (the “Suspension Period”), the Company may delay the filing or effectiveness of any Registration Statement or suspend the use or effectiveness of any Registration Statement (and the Holders hereby agree not to offer or sell any Registrable Securities pursuant to such registration statement during the Suspension Period) if the Company reasonably believes that there is or may be in existence material nonpublic information or events involving the Company, the failure of which to be disclosed in the prospectus included in the registration statement could result in a Violation. In the event that the Company shall exercise its right to delay or suspend the filing or effectiveness of a registration hereunder, the applicable time period during which the Registration Statement is to remain effective shall be extended by a period of time equal to the duration of the Suspension Period. The Company may extend the Suspension Period for an additional consecutive sixty (60) days with the consent of the holders of a majority of the Registrable Securities registered under the applicable registration statement, which consent shall not be unreasonably withheld. No more than one (1) such Suspension Period shall occur in any twelve (12) month period.

(c) Notify Holders of Registrable Securities to be sold (which notice shall, pursuant to clauses (ii) through (vi) hereof be accompanied by an instruction to suspend the use of the Prospectus until the requisite changes have been made) as promptly as reasonably possible (and, in the case of (i)(A) below, not less than five Trading Days prior to such filing) and (if requested by any such Person) confirm such notice in writing no later than one Trading Day following the day (i)(A) when a Prospectus or any Prospectus supplement or post-effective amendment to a Registration Statement is proposed to be filed; (B) when the Commission notifies the Company whether there will be a “review” of such Registration Statement and whenever the Commission comments in writing on such Registration Statement (the Company shall provide true and complete copies thereof and all written responses thereto to each of Holders); and (C) with respect to a Registration Statement or any post-effective amendment, when the same has become effective; (ii) of any request by the Commission or any other Federal or state governmental authority for amendments or supplements to a Registration Statement or Prospectus or for additional information; (iii) of the issuance by the Commission of any stop order suspending the effectiveness of a Registration Statement covering any or all of the Registrable Securities or the initiation of any Proceedings for that purpose; (iv) of the receipt by the Company of any notification with respect to the suspension of the qualification or exemption from qualification of any of the Registrable Securities for sale in any jurisdiction, or the initiation or threatening of any Proceeding for such purpose; (v) of the occurrence of any event or passage of time that makes the financial statements included in a Registration Statement ineligible for inclusion therein or any statement made in a Registration Statement or Prospectus or any document incorporated or deemed to be incorporated therein by reference untrue in any material respect or that requires any revisions to a Registration Statement, Prospectus or other documents so that, in the case of a Registration Statement or the Prospectus, as the case may be, it will not contain any

untrue statement of a material fact or omit to state any material fact required to be stated therein or necessary to make the statements therein, in light of the circumstances under which they were made, not misleading; and (vi) the occurrence or existence of any pending corporate development with respect to the Company that the Company believes may be material and that, in the determination of the Company, makes it not in the best interests of the Company to allow continued availability of the Registration Statement or Prospectus.

(d) Promptly deliver to each Holder, without charge, an electronic copy of the Prospectus or Prospectuses (including each form of prospectus) and each amendment or supplement thereto. Filing on the Commission's EDGAR system shall be deemed to satisfy such delivery requirement. Subject to the terms of this Agreement, the Company hereby consents to the use of such Prospectus and each amendment or supplement thereto by each of the selling Holders in connection with the offering and sale of the Registrable Securities covered by such Prospectus and any amendment or supplement thereto.

(e) Use commercially reasonable efforts to register or qualify the resale of such Registrable Securities as required under applicable securities or Blue Sky laws of each State within the United States as any Holder requests in writing, and to keep each such registration or qualification (or exemption therefrom) effective during the Effectiveness Period; provided, that the Company shall not be required to qualify generally to do business in any jurisdiction where it is not then so qualified or subject the Company to any material tax in any such jurisdiction where it is not then so subject.

(f) Cooperate with Holders to facilitate the timely preparation and delivery of certificates representing Registrable Securities to be delivered to a transferee pursuant to a Registration Statement, which certificates shall be free, to the extent permitted by the applicable Warrant, of all restrictive legends, and in such denominations and registered in such names as any such Holders may request.

(g) Upon the occurrence of any event contemplated in Section 3(c)(ii)-(vi), as promptly as reasonably possible, prepare a supplement or amendment including a post-effective amendment; to a Registration Statement or a supplement to the related Prospectus or any document incorporated or deemed to be incorporated therein by reference, and file any other required document so that, as thereafter delivered, neither a Registration Statement nor such Prospectus will contain an untrue statement of a material fact or omit to state a material fact required to be stated therein or necessary to make the statements therein, in light of the circumstances under which they were made, not misleading. If the Company notifies Holders in accordance with clauses (ii) through (v) of Section 3(c) above to suspend the use of any Prospectus until the requisite changes to such Prospectus have been made, or the Company otherwise notifies Holders of its election to suspend the availability of a Registration Statement and Prospectus pursuant to clause (vi) of Section 3(c), then Holders shall suspend use of such Prospectus. The Company will use its best efforts to ensure that the use of the Prospectus may be resumed as promptly as is practicable, except that in the case of suspension of the availability of a Registration Statement and Prospectus pursuant to clause (vi) of Section 3(c), the Company shall not be required to take such action until such time as it shall determine

that the continued availability of the Registration Statement and Prospectus is no longer not in the best interests of the Company.

(h) Comply with all applicable rules and regulations of the Commission.

(i) Use its best efforts to avoid the issuance of, or, if issued, obtain the withdrawal of, (i) any order suspending the effectiveness of a Registration Statement, or (ii) any suspension of the qualification (or exemption from qualification) of any of the Registrable Securities for sale in any jurisdiction, at the earliest practicable moment.

(j) Require each Holder to furnish to the Company a statement as to the number of shares of the Company's Common Stock beneficially owned by such Holder and, if requested by the Commission, the controlling Person thereof.

4. Registration Expenses. All fees and expenses incident to the performance of or compliance with this Agreement by the Company shall be borne by the Company whether or not any Registrable Securities are sold pursuant to the Registration Statement. The fees and expenses referred to in the foregoing sentence shall include, without limitation, (i) all registration and filing fees (including, without limitation, fees and expenses (A) with respect to filings required to be made with the Stock Exchange, and (B) in compliance with applicable state securities or Blue Sky laws (including, without limitation, fees and disbursements of counsel for the Company in connection with Blue Sky qualifications or exemptions of the Registrable Securities and determination of the eligibility of the Registrable Securities for investment under the laws of such jurisdictions as requested by Holders)); (ii) printing expenses (including, without limitation, expenses of printing certificates for Registrable Securities and of printing prospectuses requested by Holders; (iii) messenger, telephone and delivery expenses; (iv) fees and disbursements of counsel for the Company; and (v) fees and expenses of all other Persons retained by the Company in connection with the consummation of the transactions contemplated by this Agreement. In addition, the Company shall be responsible for (i) all of its internal expenses incurred in connection with the consummation of the transactions contemplated by this Agreement (including, without limitation, all salaries and expenses of its officers and employees performing legal or accounting duties), the expense of any annual audit and the fees and expenses incurred in connection with the listing of the Registrable Securities on any securities exchange as required hereunder and (ii) reasonable fees and expenses of one counsel to Holders in connection with this Agreement. In no event shall the Company be responsible for any broker or similar commissions or, except to the extent provided for in the Credit Documents or other agreements between the parties, any legal fees or other costs of Holders.

5. Indemnification

(a) *Indemnification by the Company*. The Company shall, notwithstanding any termination of this Agreement, indemnify and hold harmless each Holder, the officers, directors, agents, brokers (including brokers who offer and sell Registrable Securities as principal as a result of a pledge or any failure to perform under a margin call of the Company's Common Stock), investment advisors and employees of each of them, each Person who controls any such Holder (within the meaning of Section 15 of the Securities Act or Section 20 of the Exchange Act) and the officers, directors, agents and employees of each such controlling Person, to the fullest extent permitted by applicable

law, from and against any and all losses, claims, damages, liabilities, costs (including, without limitation, costs of preparation and reasonable attorneys' fees) and expenses (collectively, "Losses"), as incurred, arising out of or relating to any untrue or alleged untrue statement of a material fact contained in a Registration Statement, any Prospectus or any form of prospectus or in any amendment or supplement thereto or in any preliminary prospectus, or arising out of or relating to any omission or alleged omission of a material fact required to be stated therein or necessary to make the statements therein (in the case of any Prospectus or form of prospectus or supplement thereto, in light of the circumstances under which they were made) not misleading (a "Violation"), except to the extent, but only to the extent, that (1) such untrue statements or omissions or alleged untrue statements or omissions are based upon information regarding such Holder furnished in writing to the Company by such Holder expressly for use therein, or to the extent that such information relates to such Holder or such Holder's proposed method of distribution of Registrable Securities and was reviewed and expressly approved in writing by such Holder expressly for use in a Registration Statement, such Prospectus or such form of Prospectus or in any amendment or supplement thereto or (2) in the case of an occurrence of an event of the type specified in Section 3(c)(ii)-(vi), such Holder used an outdated or defective Prospectus after the Company had notified such Holder in writing that the Prospectus was outdated or defective and prior to the receipt by such Holder of the Advice contemplated in Section 7(e). The Company shall notify Holders promptly of the institution, threat or assertion of any Proceeding arising from or in connection with the transactions contemplated by this Agreement of which the Company is aware.

(b) *Indemnification by Holders.* Each Holder shall, severally and not jointly, indemnify and hold harmless the Company, its directors, officers, agents and employees, each Person who controls the Company (within the meaning of Section 15 of the Securities Act and Section 20 of the Exchange Act), and the directors, officers, agents or employees of such controlling Persons, to the fullest extent permitted by applicable law, from and against all Losses (as determined by a court of competent jurisdiction in a final judgment not subject to appeal or review) arising out of or based upon any untrue statement of a material fact contained in any Registration Statement, any Prospectus, or any form of prospectus, or in any amendment or supplement thereto, or arising out of or based upon: (i) such Holder's failure to comply with the prospectus delivery requirements of the Securities Act or (ii) any untrue statement of a material fact contained in a Registration Statement, any Prospectus or in any amendment or supplement thereto, or arising out of or relating to any omission of a material fact required to be stated therein or necessary to make the statements therein (in the case of any Prospectus or supplement thereto, in light of the circumstances under which they were made) not misleading to the extent but only to the extent, such untrue statement or omission is contained in any information so furnished in writing by such Holder to the Company specifically for inclusion in such Registration Statement or such Prospectus or to the extent that (1) such untrue statements or omissions are based upon information regarding such Holder furnished in writing to the Company by such Holder expressly for use therein, or to the extent such information relates to such Holder or such Holder's proposed method of distribution of Registrable Securities and was reviewed and expressly approved in writing by such Holder expressly for use in the Registration Statement, such Prospectus or such form of Prospectus or in any amendment or supplement thereto or (2) in the case of an occurrence of an event of the type specified in Section 3(c)(ii)-(vi), such Holder used an

outdated or defective Prospectus after the Company has notified such Holder in writing that the Prospectus was outdated or defective and prior to the receipt by such Holder of the Advice contemplated in [Section 8\(e\)](#). In no event shall the liability of any selling Holder hereunder be greater in amount than the dollar amount of the net proceeds received by such Holder upon the sale of the Registrable Securities giving rise to such indemnification obligation.

(c) *Conduct of Indemnification Proceedings.* If any Proceeding shall be brought or asserted against any Person entitled to indemnity hereunder (an “[Indemnified Party](#)”), such Indemnified Party shall promptly notify the Person from whom indemnity is sought (the “[Indemnifying Party](#)”) in writing, and the Indemnifying Party shall assume the defense thereof, including the employment of counsel reasonably satisfactory to the Indemnified Party and the payment of all fees and expenses incurred in connection with defense thereof provided, that the failure of any Indemnified Party to give such notice shall not relieve the Indemnifying Party of its obligations or liabilities pursuant to this Agreement, except (and only) to the extent that such failure shall have prejudiced the Indemnifying Party.

An Indemnified Party shall have the right to employ separate counsel in any such Proceeding and to participate in the defense thereof, but the fees and expenses of such counsel shall be at the expense of such Indemnified Party or Parties unless: (1) the Indemnifying Party has agreed in writing to pay such fees and expenses; or (2) the Indemnifying Party shall have failed promptly to assume the defense of such Proceeding and to employ counsel reasonably satisfactory to such Indemnified Party in any such Proceeding; or (3) the named parties to any such Proceeding (including any impleaded parties) include both such Indemnified Party and the Indemnifying Party, and such Indemnified Party shall have been advised by counsel that a material conflict of interest is likely to exist if the same counsel were to represent such Indemnified Party and the Indemnifying Party (in which case, if such Indemnified Party notifies the Indemnifying Party in writing that it elects to employ separate counsel at the expense of the Indemnifying Party, the Indemnifying Party shall not have the right to assume the defense thereof and the expense of one such counsel for each Holder shall be at the expense of the Indemnifying Party). The Indemnifying Party shall not be liable for any settlement of any such Proceeding effected without its written consent, which consent shall not be unreasonably withheld. No Indemnifying Party shall, without the prior written consent of the Indemnified Party, effect any settlement of any pending Proceeding in respect of which any Indemnified Party is a party, unless such settlement includes an unconditional release of such Indemnified Party from all liability on claims that are the subject matter of such Proceeding.

Subject to the terms of this Agreement, all fees and expenses of the Indemnified Party (including reasonable fees and expenses to the extent incurred in connection with investigating or preparing to defend such Proceeding in a manner not inconsistent with this [Section 5\(c\)](#)) shall be paid to the Indemnified Party, as incurred, within ten Trading Days of written notice thereof to the Indemnifying Party (regardless of whether it is ultimately determined that an Indemnified Party is not entitled to indemnification hereunder; provided, that the Indemnifying Party may require such Indemnified Party to

undertake to reimburse all such fees and expenses to the extent it is finally judicially determined that such Indemnified Party is not entitled to indemnification hereunder).

(d) *Contribution*. If a claim for indemnification under Section 5(a) or 5(b) is unavailable to an Indemnified Party (by reason of public policy or otherwise), then each Indemnifying Party, in lieu of indemnifying such Indemnified Party, shall contribute to the amount paid or payable by such Indemnified Party as a result of such Losses, in such proportion as is appropriate to reflect the relative fault of the Indemnifying Party and Indemnified Party in connection with the actions, statements or omissions that resulted in such Losses as well as any other relevant equitable considerations. The relative fault of such Indemnifying Party and Indemnified Party shall be determined by reference to, among other things, whether any action in question, including any untrue or alleged untrue statement of a material fact or omission or alleged omission of a material fact, has been taken or made by, or relates to information supplied by, such Indemnifying Party or Indemnified Party, and the parties' relative intent, knowledge, access to information and opportunity to correct or prevent such action, statement or omission. The amount paid or payable by a party as a result of any Losses shall be deemed to include, subject to the limitations set forth in Section 5(c), any reasonable attorneys' or other reasonable fees or expenses incurred by such party in connection with any Proceeding to the extent such party would have been indemnified for such fees or expenses if the indemnification provided for in this Section were available to such party in accordance with its terms.

The parties hereto agree that it would not be just and equitable if contribution pursuant to this Section 5(d) were determined by pro rata allocation or by any other method of allocation that does not take into account the equitable considerations referred to in the immediately preceding paragraph. Notwithstanding the provisions of this Section 5(d), no Holder shall be required to contribute, in the aggregate, any amount in excess of the amount by which the proceeds actually received by such Holder from the sale of the Registrable Securities subject to the Proceeding exceeds the amount of any damages that such Holder has otherwise been required to pay by reason of such untrue or alleged untrue statement or omission or alleged omission.

The indemnity and contribution agreements contained in this Section 5 are in addition to any liability that the Indemnifying Parties may otherwise have to the Indemnified Parties.

6. Reporting.

(a) *Reports Under The Exchange Act*. With a view to making available to Holders the benefits of Rule 144 promulgated under the Securities Act or any other similar rule or regulation of the Commission that may at any time permit Holders to sell securities of the Company to the public without registration ("Rule 144"), the Company shall use reasonable efforts to:

- (i) make and keep current public information available, as those terms are understood and defined in Rule 144;

(ii) file with the Commission in a timely manner all reports and other documents required of the Company under the Securities Act and the Exchange Act; and

(iii) furnish to each Holder, so long as such Holder owns Registrable Securities, promptly upon request, (A) a written statement by the Company, if true, that it has complied with the applicable reporting requirements of Rule 144, the Securities Act and the Exchange Act, (B) a copy of the most recent annual or quarterly report of the Company and copies of such other reports and documents so filed by the Company, and (C) such other information as may be reasonably requested to permit Holders to sell such securities pursuant to Rule 144 without registration.

(b) *Rule 144A Information*. If applicable, the Company shall, upon request of any Holder, make available to such Holder the information required by Rule 144A(d)(4) (or any successor rule), under the Securities Act, if any.

7. Miscellaneous.

(a) *Amendments and Waivers*. The provisions of this Agreement, including the provisions of this sentence, may not be amended, modified or supplemented, and waivers or consents to departures from the provisions hereof may not be given, unless the same shall be in writing and signed by the Company and all of Holders of the then outstanding Registrable Securities. Notwithstanding the foregoing, a waiver or consent to depart from the provisions, hereof with respect to a matter that relates exclusively to the rights of certain Holders and that does not directly or indirectly affect the rights of other Holders may be given by Holders of all of the Registrable Securities to which such waiver or consent relates; provided, however, that the provisions of this sentence may not be amended, modified, or supplemented except in accordance with the provisions of the immediately preceding sentence.

(b) *No Inconsistent Agreements*. Neither the Company nor any of its Subsidiaries has entered, as of the date hereof, nor shall the Company or any of its Subsidiaries, on or after the date of this Agreement, enter into any agreement with respect to its securities, that would have the effect of impairing the rights granted to Holders in this Agreement or otherwise conflicts with the provisions hereof. Except as and to the extent specified in Schedule 7(b) hereto, neither the Company nor any of its Subsidiaries has previously entered into any agreement granting any registration rights with respect to any of its securities to any Person that have not been satisfied in full.

(c) *Compliance*. Each Holder covenants and agrees that it will comply with the prospectus delivery requirements of the Securities Act as applicable to it in connection with sales of Registrable Securities pursuant to the Registration Statement.

(d) *Discontinued Disposition*. Each Holder agrees by its acquisition of such Registrable Securities that, upon receipt of a notice from the Company of the occurrence of any event of the kind described in Sections 3(c)(ii), (iii) or (vi), such Holder will forthwith discontinue disposition of such Registrable Securities under a Registration

Statement until such Holder's receipt of the copies of the supplemented Prospectus and/or amended Registration Statement contemplated by Section 3(g), or until it is advised in writing (the "Advice") by the Company that the use of the applicable Prospectus may be resumed, and, in either case, has received copies of any additional or supplemental filings that are incorporated or deemed to be incorporated by reference in such Prospectus or Registration Statement. The Company may provide appropriate stop orders to enforce the provisions of this paragraph.

(e) *Piggy-Back Registrations*. If at any time during the Effectiveness Period there is not an effective Registration Statement covering all of the Registrable Securities and the Company shall determine to prepare and file with the Commission a registration statement relating to an offering for its own account or the account of others under the Securities Act of any of its equity securities, other than on Form S-4 or Form S-8 (each as promulgated under the Securities Act) or their then equivalents relating to equity securities to be issued solely in connection with any acquisition of any entity or business or equity securities issuable in connection with stock option or other employee benefit plans, then the Company shall send to each Holder written notice of such determination and, if within fifteen days after receipt of such notice, any such Holder shall so request in writing, the Company shall include in such registration statement all or any part of such Registrable Securities such Holder requests to be registered; provided, that, the Company shall not be required to register any Registrable Securities pursuant to this Section 7(e) that are then eligible for resale pursuant to Rule 144(b) promulgated under the Securities Act.

(f) *Notices*. Any and all notices or other communications or deliveries required or permitted to be provided hereunder shall be delivered as set forth in the applicable Warrant.

(g) *Successors and Assigns*. This Agreement shall inure to the benefit of and be binding upon the successors and permitted assigns of each of the parties and shall inure to the benefit of each Holder. The Company may not assign its rights or obligations hereunder without the prior written consent of all of Holders of the then-outstanding Registrable Securities. Each Holder may assign its respective rights hereunder in the manner and to the Persons as permitted under the applicable Warrant.

(h) *Counterparts*. This Agreement may be executed in any number of counterparts, each of which when so executed shall be deemed to be an original, and all of which taken together shall constitute one and the same Agreement. In the event that any signature is delivered by facsimile transmission, such signature shall create a valid binding obligation of the party executing (or on whose behalf such signature is executed) with the same force and effect as if such facsimile signature were the original thereof.

(i) *Governing Law; Venue*. All questions concerning the construction, validity, enforcement and interpretation of this Agreement shall be governed by and construed and enforced in accordance with the internal laws of the State of New York, without regard to the principles of conflicts of law thereof or of any other jurisdiction. ALL JUDICIAL PROCEEDINGS BROUGHT AGAINST THE PARTIES WITH RESPECT TO THIS AGREEMENT MAY BE BROUGHT IN ANY STATE OR

FEDERAL COURT OF COMPETENT JURISDICTION IN THE CITY OF NEW YORK IN THE STATE OF NEW YORK, AND, BY EXECUTION AND DELIVERY OF THIS AGREEMENT, EACH OF THE PARTIES ACCEPTS, FOR ITSELF AND IN CONNECTION WITH ITS PROPERTIES, GENERALLY AND UNCONDITIONALLY, THE NON-EXCLUSIVE JURISDICTION OF THE AFORESAID COURTS AND IRREVOCABLY AGREES TO BE BOUND BY ANY FINAL JUDGMENT RENDERED THEREBY IN CONNECTION WITH THIS AGREEMENT FROM WHICH NO APPEAL HAS BEEN TAKEN OR IS AVAILABLE. NOTHING HEREIN SHALL AFFECT THE RIGHT TO SERVE PROCESS IN ANY OTHER MANNER PERMITTED BY LAW OR SHALL LIMIT THE RIGHT OF HOLDER TO BRING PROCEEDINGS AGAINST THE PARTIES IN THE COURT OF ANY OTHER JURISDICTION. Nothing contained herein shall be deemed to limit in any way any right to serve process in any manner permitted by law. Each party hereto hereby irrevocably waives, to the fullest extent permitted by applicable law, any and all right to trial by jury in any legal proceeding arising out of or relating to this Agreement or the transactions contemplated hereby. If any party shall commence a Proceeding to enforce any provisions of this Agreement, then the prevailing party in such Proceeding shall be reimbursed by the other party for its attorneys fees and other costs and expenses incurred in connection with the investigation, preparation and prosecution of such Proceeding.

(j) *Cumulative Remedies.* The remedies provided herein are cumulative and not exclusive of any remedies provided by law.

(k) *Severability.* If any term, provision, covenant or restriction of this Agreement is held by a court of competent jurisdiction to be invalid, illegal, void or unenforceable, the remainder of the terms, provisions, covenants and restrictions set forth herein shall remain in full force and effect and shall in no way be affected, impaired or invalidated thereby, and the parties hereto shall use their reasonable efforts to find and employ an alternative means to achieve the same or substantially the same result as that contemplated by such term, provision, covenant or restriction. Plan of Distribution

The selling shareholders and any of their pledgees, donees, assignees and successors-in-interest may, from time to time, sell any or all of their shares of common stock on any stock exchange, market or trading facility on which the shares are traded or in private transactions. These sales may be at fixed or negotiated prices. The selling shareholders may use any one or more of the following methods when selling shares:

- ordinary brokerage transactions and transactions in which the broker-dealer solicits purchasers;
- block trades in which the broker-dealer will attempt to sell the shares as agent but may position and resell a portion of the block as principal to facilitate the transaction;
- purchases by a broker-dealer as principal and resale by the broker-dealer for its account;
- an exchange distribution in accordance with the rules of the applicable exchange;
- privately negotiated transactions;
- settlement of short sales;
- the sales pursuant to an agreement of the selling shareholders with broker-dealers, of a specified number of such shares at a stipulated price per share;
- a combination of any such methods of sale; and
- any other method permitted pursuant to applicable law.

The selling shareholders may also sell shares under Rule 144 of the Securities Act, if available, rather than under this prospectus. Broker-dealers engaged by the selling shareholders may arrange for other brokers-dealers to participate in sales. Broker-dealers may receive commissions or discounts from the selling shareholders (or, if any broker-dealer acts as agent for the purchaser of shares, from the purchaser) in amounts to be negotiated. The selling shareholders do not expect these commissions and discounts to exceed what is customary in the types of transactions involved.

The selling shareholders may from time to time pledge or grant a security interest in some or all of the shares owned by them and, if they default in the performance of their secured obligations, the pledgees or secured parties may offer and sell the shares of common stock from time to time under this prospectus, or under an amendment to this prospectus under Rule 424(b)(3) or other applicable provision of the Securities Act amending the list of selling shareholders to include the pledgee, transferee or other successors in interest as selling shareholders under this prospectus.

The selling shareholders also may transfer the shares of common stock in other circumstances, in which case the transferees, pledges, donees, assignees or other successors in interest will be the selling beneficial owners for purposes of this prospectus.

The selling shareholders and any broker-dealers or agents that are involved in selling the shares may be deemed to be “underwriters” within the meaning of the Securities Act in connection with such sales. In such event, any commissions received by such broker-dealers or agents and any profit on the resale of the shares purchased by them may be deemed to be underwriting commissions or discounts under the Securities Act. The selling shareholders have informed the Company that none of them have any agreement or understanding, directly or indirectly, with any person to distribute the common stock.

The Company is required to pay all fees and expenses incurred by the Company incident to the registration of the shares. The Company has agreed to indemnify the selling shareholders against certain losses, claims, damages and liabilities, including liabilities under the Securities Act.

WHEREAS, the Borrowers and the Guarantors desire to make certain modifications to the Credit Agreement;

WHEREAS, the Borrowers and the Guarantors have requested that the Administrative Agent and the Lenders waive certain provisions in the Credit Agreement;

Third Amendment and Waiver to Credit Agreement
(Wachovia/Arbor)

WHEREAS, the Administrative Agent and the Lenders are willing to waive certain provisions of and modify the Credit Agreement as requested by the Borrowers and the Guarantors on the terms and conditions specified herein;

Section 1. Waiver.

The Borrowers and the Guarantors acknowledge and agree that ART has not complied with the Financial Covenant related to Tangible Net Worth contained in Subsection 5.9(b) of the Credit Agreement for the Test Period ending December 31, 2009 and may not comply with such Financial Covenant in 2010 (the "Acknowledged Non-Compliance"). All parties acknowledge and agree that the Administrative Agent's and the Lenders' one-time waiver of the Acknowledged Non-Compliance as set forth herein shall not be deemed to be a waiver of any other term, provision, duty, obligation, liability, right, power, remedy or covenant of any party to the Credit Documents or a waiver of any other non-compliance with Subsection 5.9(b) of the Credit Agreement or any other Financial Covenant for any other period of time. The waiver set forth herein shall be effective only to the extent specifically set forth herein and shall not (a) be construed as a waiver of any breach or default other than as specifically waived herein nor as a waiver of any breach or default of which the Administrative Agent or the Lenders have not been informed by the Borrowers, the Guarantors or the Pledgor, (b) affect the right of the Administrative Agent and/or the Lenders to demand compliance by the Borrowers, the Guarantors and the Pledgor with all terms and conditions of the Credit Documents, except as specifically modified or waived by this Amendment No. 3, (c) be deemed a waiver of any transaction or future action on the part of the Borrowers, the Guarantors or the Pledgor requiring the Administrative Agent's, the Lenders' or the Required Lenders' consent or approval under the Credit Documents, or (d) except as waived hereby, be deemed or construed to be a waiver or release of, or a limitation upon, the Administrative Agent's or the Lenders' exercise of any rights or remedies under the Credit Agreement or any other Credit Document, whether arising as a consequence of any Event of Default which may now exist or otherwise, all such rights and remedies hereby being expressly reserved.

No. 1

\$29,400,000

Arbor Realty SR, Inc., a corporation organized and existing under the laws of Maryland (hereinafter called the “*Company*,” which term includes any successor Person under the Indenture hereinafter referred to), for value received, hereby promises to pay to Hare & Co., the principal sum of Twenty Nine Million Four Hundred Thousand Dollars (\$29,400,000) or such other principal amount represented hereby as may be set forth in the records of the Securities Registrar hereinafter referred to in accordance with the Indenture, on March 30, 2034. The Company further promises to pay interest on said principal sum from May 6, 2009, or from the most recent date on and to which interest has been paid or duly provided for, quarterly in arrears on June 30, September 30, December 30 and March 30, of each year, or if any such day is not a Business Day, on the next succeeding Business Day (and no interest shall accrue in respect of the amounts whose payment is so delayed for the period from and after such Interest Payment Date until such next succeeding Business Day), except that, if such Business Day falls in the next succeeding calendar year, such payment shall be made on the immediately preceding Business Day, in each case, with the same force and effect as if made on the Interest Payment Date, at the Fixed Rate during the Modification Period, and thereafter at a variable rate equal to LIBOR plus 3.75% per annum until the principal hereof is paid or duly provided for or made available for payment; *provided, further*, that any overdue principal, premium, if any, and any overdue installment of interest shall bear Additional Interest at the Fixed Rate during the Modification Period, and thereafter at a variable rate equal to LIBOR plus 3.75% per annum (in each case, to the extent that the payment of such interest shall be legally enforceable), compounded quarterly, from the dates such amounts are due until they are paid or made available for payment, and such interest shall be payable on demand.

Payments of interest on the Securities shall include interest accrued to but excluding the respective Interest Payment Dates. During the Modification Period, the amount of interest payable shall be computed on the basis of a 360-day year of twelve 30-day months and the amount payable for any partial period shall be computed on the basis of the number of days elapsed in a 360-day year of twelve 30-day months. Upon expiration of the Modification Period, the amount of interest payable for any Interest Period shall be computed on the basis of a 360-day year and the actual number of days elapsed in the relevant Interest Period. The interest so payable, and punctually paid or duly provided for, on any Interest Payment Date shall, as provided in the Indenture, be paid to the Person in whose name this Security (or one or more Predecessor Securities) is registered at the close of business on the Regular Record Date for such interest installment. Any such interest not so punctually paid or duly provided for shall forthwith cease to be payable to the Holder on such Regular Record Date and may either be paid to the Person in whose name this Security (or one or more Predecessor Securities) is registered at the close of business on a Special Record Date for the payment of such Defaulted Interest to be fixed by the Trustee, notice whereof shall be given to Holders of Securities not less than ten (10) days prior to such Special Record Date, or be paid at any time in any other lawful manner not

Indenture I — TPF I

inconsistent with the requirements of any securities exchange on which the Securities may be listed, and upon such notice as may be required by such exchange, all as more fully provided in the Indenture.

Payment of principal of, premium, if any, and interest on this Security shall be made in such coin or currency of the United States of America as at the time of payment is legal tender for payment of public and private debts. Payments of principal, premium, if any, and interest due at the Maturity of this Security shall be made at the Place of Payment upon surrender of such Securities to the Paying Agent, and payments of interest shall be made, subject to such surrender where applicable, by wire transfer at such place and to such account at a banking institution in the United States as may be designated in writing to the Paying Agent at least ten (10) Business Days prior to the date for payment by the Person entitled thereto unless proper written transfer instructions have not been received by the relevant record date, in which case such payments shall be made by check mailed to the address of such Person as such address shall appear in the Security Register.

The indebtedness evidenced by this Security is, to the extent provided in the Indenture, subordinate and junior in right of payment to the prior payment in full of all Senior Debt, and this Security is issued subject to the provisions of the Indenture with respect thereto. Each Holder of this Security, by accepting the same, (a) agrees to and shall be bound by such provisions, (b) authorizes and directs the Trustee on his or her behalf to take such actions as may be necessary or appropriate to effectuate the subordination so provided and (c) appoints the Trustee his or her attorney-in-fact for any and all such purposes. Each Holder hereof, by his or her acceptance hereof, waives all notice of the acceptance of the subordination provisions contained herein and in the Indenture by each holder of Senior Debt, whether now outstanding or hereafter incurred, and waives reliance by each such holder upon said provisions.

Unless the certificate of authentication hereon has been executed by the Trustee by manual signature, this Security shall not be entitled to any benefit under the Indenture or be valid or obligatory for any purpose.

[FORM OF REVERSE OF SECURITY]

This Security is one of a duly authorized issue of securities of the Company (the "*Securities*") issued under the Junior Subordinated Indenture, dated as of May 6, 2009 (the "*Indenture*"), between the Company and The Bank of New York Mellon Trust Company, National Association, as Trustee (in such capacity, the "Trustee," which term includes any successor trustee under the Indenture), to which Indenture and all indentures supplemental thereto reference is hereby made for a statement of the respective rights, limitations of rights, duties and immunities thereunder of the Company, the Trustee, the holders of Senior Debt and the Holders of the Securities and of the terms upon which the Securities are, and are to be, authenticated and delivered.

All terms used in this Security that are defined in the Indenture shall have the meanings assigned to them in the Indenture. The Company may, on any Interest Payment Date, at its option, upon not less than thirty (30) days' nor more than sixty (60) days' written notice to the Holders of the Securities (unless a shorter notice period shall be satisfactory to the Trustee) on or

Indenture I — TPF I

after March 30, 2010 and subject to the terms and conditions of Article XI of the Indenture, redeem this Security in whole at any time or in part from time to time at a Redemption Price equal to one hundred percent (100%) of the principal amount hereof, together, in the case of any such redemption, with accrued interest, including any Additional Interest, through but excluding the date fixed as the Redemption Date.

In addition, upon the occurrence and during the continuation of a Special Event, the Company may, at its option, upon not less than thirty (30) days' nor more than sixty (60) days' written notice to the Holders of the Securities (unless a shorter notice period shall be satisfactory to the Trustee), redeem this Security, in whole but not in part, subject to the terms and conditions of Article XI of the Indenture at a Redemption Price equal to one hundred seven and one half percent (107.5%) of the principal amount hereof, together, in the case of any such redemption, with accrued interest, including any Additional Interest, through but excluding the date fixed as the Redemption Date.

In the event of redemption of this Security in part only, a new Security or Securities for the unredeemed portion hereof will be issued in the name of the Holder hereof upon the cancellation hereof. If less than all the Securities are to be redeemed, the particular Securities to be redeemed shall be selected not more than sixty (60) days prior to the Redemption Date by the Trustee from the Outstanding Securities not previously called for redemption, by such method as the Trustee shall deem fair and appropriate and which may provide for the selection for redemption of a portion of the principal amount of any Security.

The Indenture permits, with certain exceptions as therein provided, the Company and the Trustee at any time to enter into a supplemental indenture or indentures for the purpose of modifying in any manner the rights and obligations of the Company and of the Holders of the Securities, with the consent of the Holders of not less than a majority in aggregate principal amount of the Outstanding Securities. The Indenture also contains provisions permitting Holders of specified percentages in principal amount of the Securities, on behalf of the Holders of all Securities, to waive compliance by the Company with certain provisions of the Indenture and certain past defaults under the Indenture and their consequences. Any such consent or waiver by the Holder of this Security shall be conclusive and binding upon such Holder and upon all future Holders of this Security and of any Security issued upon the registration of transfer hereof or in exchange herefor or in lieu hereof, whether or not notation of such consent or waiver is made upon this Security.

No reference herein to the Indenture and no provision of this Security or of the Indenture shall alter or impair the obligation of the Company, which is absolute and unconditional, to pay the principal of and any premium, if any, and interest, including any Additional Interest (to the extent legally enforceable), on this Security at the times, place and rate, and in the coin or currency, herein prescribed.

As provided in the Indenture and subject to certain limitations therein set forth, the transfer of this Security is restricted to transfers to "Qualified Purchasers" (as such term is defined in the Investment Company Act of 1940, as amended), and is registrable in the Securities Register, upon surrender of this Security for registration of transfer at the office or agency of the Company maintained for such purpose, duly endorsed by, or accompanied by a written

instrument of transfer in form satisfactory to the Company and the Securities Registrar and duly executed by, the Holder hereof or such Holder's attorney duly authorized in writing, and thereupon one or more new Securities, of like tenor, of authorized denominations and for the same aggregate principal amount, will be issued to the designated transferee or transferees.

The Securities are issuable only in registered form without coupons in minimum denominations of \$100,000 and any integral multiple of \$1,000 in excess thereof. As provided in the Indenture and subject to certain limitations therein set forth, Securities are exchangeable for a like aggregate principal amount of Securities and of like tenor of a different authorized denomination, as requested by the Holder surrendering the same.

No service charge shall be made for any such registration of transfer or exchange, but the Company may require payment of a sum sufficient to cover any tax or other governmental charge payable in connection therewith.

The Company, the Trustee and any agent of the Company or the Trustee may treat the Person in whose name this Security is registered as the owner hereof for all purposes, whether or not this Security be overdue, and neither the Company, the Trustee nor any such agent shall be affected by notice to the contrary.

The Company and, by its acceptance of this Security or a beneficial interest herein, the Holder of, and any Person that acquires a beneficial interest in, this Security agree that, for United States federal, state and local tax purposes, it is intended that this Security constitute indebtedness.

This Security shall be construed and enforced in accordance with and governed by the laws of the State of New York, without reference to its conflict of laws provisions (other than Section 5-1401 of the General Obligations Law).

Indenture I — TPF I

IN WITNESS WHEREOF, the Company has caused this instrument to be duly executed on this 6th day of May, 2009.

No. 5

\$28,000,000

Arbor Realty SR, Inc., a corporation organized and existing under the laws of Maryland (hereinafter called the “*Company*,” which term includes any successor Person under the Indenture hereinafter referred to), for value received, hereby promises to pay to Hare & Co., the principal sum of Twenty-Eight Million Dollars (\$28,000,000) or such other principal amount represented hereby as may be set forth in the records of the Securities Registrar hereinafter referred to in accordance with the Indenture, on March 30, 2034. The Company further promises to pay interest on said principal sum from May 6, 2009, or from the most recent date on and to which interest has been paid or duly provided for, quarterly in arrears on July 30, October 30, January 30 and April 30, of each year, or if any such day is not a Business Day, on the next succeeding Business Day (and no interest shall accrue in respect of the amounts whose payment is so delayed for the period from and after such Interest Payment Date until such next succeeding Business Day), except that, if such Business Day falls in the next succeeding calendar year, such payment shall be made on the immediately preceding Business Day, in each case, with the same force and effect as if made on the Interest Payment Date, at the Fixed Rate during the Modification Period, and thereafter at a variable rate equal to LIBOR plus 2.87% per annum until the principal hereof is paid or duly provided for or made available for payment; *provided, further*, that any overdue principal, premium, if any, and any overdue installment of interest shall bear Additional Interest at the Fixed Rate during the Modification Period, and thereafter at a variable rate equal to LIBOR plus 2.87% per annum (in each case, to the extent that the payment of such interest shall be legally enforceable), compounded quarterly, from the dates such amounts are due until they are paid or made available for payment, and such interest shall be payable on demand.

Payments of interest on the Securities shall include interest accrued to but excluding the respective Interest Payment Dates. During the Modification Period, the amount of interest payable shall be computed on the basis of a 360-day year of twelve 30-day months and the amount payable for any partial period shall be computed on the basis of the number of days elapsed in a 360-day year of twelve 30-day months. Upon expiration of the Modification Period, the amount of interest payable for any Interest Period shall be computed on the basis of a 360-day year and the actual number of days elapsed in the relevant Interest Period. The interest so payable, and punctually paid or duly provided for, on any Interest Payment Date shall, as provided in the Indenture, be paid to the Person in whose name this Security (or one or more Predecessor Securities) is registered at the close of business on the Regular Record Date for such interest installment. Any such interest not so punctually paid or duly provided for shall forthwith cease to be payable to the Holder on such Regular Record Date and may either be paid to the Person in whose name this Security (or one or more Predecessor Securities) is registered at the close of business on a Special Record Date for the payment of such Defaulted Interest to be fixed by the Trustee, notice whereof shall be given to Holders of Securities not less than ten (10) days prior to such Special Record Date, or be paid at any time in any other lawful manner not

Indenture II — TPF VII

inconsistent with the requirements of any securities exchange on which the Securities may be listed, and upon such notice as may be required by such exchange, all as more fully provided in the Indenture.

Payment of principal of, premium, if any, and interest on this Security shall be made in such coin or currency of the United States of America as at the time of payment is legal tender for payment of public and private debts. Payments of principal, premium, if any, and interest due at the Maturity of this Security shall be made at the Place of Payment upon surrender of such Securities to the Paying Agent, and payments of interest shall be made, subject to such surrender where applicable, by wire transfer at such place and to such account at a banking institution in the United States as may be designated in writing to the Paying Agent at least ten (10) Business Days prior to the date for payment by the Person entitled thereto unless proper written transfer instructions have not been received by the relevant record date, in which case such payments shall be made by check mailed to the address of such Person as such address shall appear in the Security Register.

The indebtedness evidenced by this Security is, to the extent provided in the Indenture, subordinate and junior in right of payment to the prior payment in full of all Senior Debt, and this Security is issued subject to the provisions of the Indenture with respect thereto. Each Holder of this Security, by accepting the same, (a) agrees to and shall be bound by such provisions, (b) authorizes and directs the Trustee on his or her behalf to take such actions as may be necessary or appropriate to effectuate the subordination so provided and (c) appoints the Trustee his or her attorney-in-fact for any and all such purposes. Each Holder hereof, by his or her acceptance hereof, waives all notice of the acceptance of the subordination provisions contained herein and in the Indenture by each holder of Senior Debt, whether now outstanding or hereafter incurred, and waives reliance by each such holder upon said provisions.

Unless the certificate of authentication hereon has been executed by the Trustee by manual signature, this Security shall not be entitled to any benefit under the Indenture or be valid or obligatory for any purpose.

[FORM OF REVERSE OF SECURITY]

This Security is one of a duly authorized issue of securities of the Company (the "*Securities*") issued under the Junior Subordinated Indenture, dated as of May 6, 2009 (the "*Indenture*"), between the Company and The Bank of New York Mellon Trust Company, National Association, as Trustee (in such capacity, the "Trustee," which term includes any successor trustee under the Indenture), to which Indenture and all indentures supplemental thereto reference is hereby made for a statement of the respective rights, limitations of rights, duties and immunities thereunder of the Company, the Trustee, the holders of Senior Debt and the Holders of the Securities and of the terms upon which the Securities are, and are to be, authenticated and delivered.

All terms used in this Security that are defined in the Indenture shall have the meanings assigned to them in the Indenture. The Company may, on any Interest Payment Date, at its option, upon not less than thirty (30) days' nor more than sixty (60) days' written notice to the Holders of the Securities (unless a shorter notice period shall be satisfactory to the Trustee) on or

after July 30, 2011 and subject to the terms and conditions of Article XI of the Indenture, redeem this Security in whole at any time or in part from time to time at a Redemption Price equal to one hundred percent (100%) of the principal amount hereof, together, in the case of any such redemption, with accrued interest, including any Additional Interest, through but excluding the date fixed as the Redemption Date.

In addition, upon the occurrence and during the continuation of a Special Event, the Company may, at its option, upon not less than thirty (30) days' nor more than sixty (60) days' written notice to the Holders of the Securities (unless a shorter notice period shall be satisfactory to the Trustee), redeem this Security, in whole but not in part, subject to the terms and conditions of Article XI of the Indenture at a Redemption Price equal to one hundred seven and one half percent (107.5%) of the principal amount hereof, together, in the case of any such redemption, with accrued interest, including any Additional Interest, through but excluding the date fixed as the Redemption Date.

In the event of redemption of this Security in part only, a new Security or Securities for the unredeemed portion hereof will be issued in the name of the Holder hereof upon the cancellation hereof. If less than all the Securities are to be redeemed, the particular Securities to be redeemed shall be selected not more than sixty (60) days prior to the Redemption Date by the Trustee from the Outstanding Securities not previously called for redemption, by such method as the Trustee shall deem fair and appropriate and which may provide for the selection for redemption of a portion of the principal amount of any Security.

The Indenture permits, with certain exceptions as therein provided, the Company and the Trustee at any time to enter into a supplemental indenture or indentures for the purpose of modifying in any manner the rights and obligations of the Company and of the Holders of the Securities, with the consent of the Holders of not less than a majority in aggregate principal amount of the Outstanding Securities. The Indenture also contains provisions permitting Holders of specified percentages in principal amount of the Securities, on behalf of the Holders of all Securities, to waive compliance by the Company with certain provisions of the Indenture and certain past defaults under the Indenture and their consequences. Any such consent or waiver by the Holder of this Security shall be conclusive and binding upon such Holder and upon all future Holders of this Security and of any Security issued upon the registration of transfer hereof or in exchange herefor or in lieu hereof, whether or not notation of such consent or waiver is made upon this Security.

No reference herein to the Indenture and no provision of this Security or of the Indenture shall alter or impair the obligation of the Company, which is absolute and unconditional, to pay the principal of and any premium, if any, and interest, including any Additional Interest (to the extent legally enforceable), on this Security at the times, place and rate, and in the coin or currency, herein prescribed.

As provided in the Indenture and subject to certain limitations therein set forth, the transfer of this Security is restricted to transfers to "Qualified Purchasers" (as such term is defined in the Investment Company Act of 1940, as amended), and is registrable in the Securities Register, upon surrender of this Security for registration of transfer at the office or agency of the Company maintained for such purpose, duly endorsed by, or accompanied by a written

Indenture II — TPF VII

instrument of transfer in form satisfactory to the Company and the Securities Registrar and duly executed by, the Holder hereof or such Holder's attorney duly authorized in writing, and thereupon one or more new Securities, of like tenor, of authorized denominations and for the same aggregate principal amount, will be issued to the designated transferee or transferees.

The Securities are issuable only in registered form without coupons in minimum denominations of \$100,000 and any integral multiple of \$1,000 in excess thereof. As provided in the Indenture and subject to certain limitations therein set forth, Securities are exchangeable for a like aggregate principal amount of Securities and of like tenor of a different authorized denomination, as requested by the Holder surrendering the same.

No service charge shall be made for any such registration of transfer or exchange, but the Company may require payment of a sum sufficient to cover any tax or other governmental charge payable in connection therewith.

The Company, the Trustee and any agent of the Company or the Trustee may treat the Person in whose name this Security is registered as the owner hereof for all purposes, whether or not this Security be overdue, and neither the Company, the Trustee nor any such agent shall be affected by notice to the contrary.

The Company and, by its acceptance of this Security or a beneficial interest herein, the Holder of, and any Person that acquires a beneficial interest in, this Security agree that, for United States federal, state and local tax purposes, it is intended that this Security constitute indebtedness.

This Security shall be construed and enforced in accordance with and governed by the laws of the State of New York, without reference to its conflict of laws provisions (other than Section 5-1401 of the General Obligations Law).

Indenture II — TPF VII

IN WITNESS WHEREOF, the Company has caused this instrument to be duly executed on this 6th day of May, 2009.
